LIVE LOCAL GLEANINGS

The Detroit lawyer who was to have addressed the people of Lowell in the interests of the Anti-Saloon League at the Methodist church Sunday evening failed to appear but Rev. Russell H. Bready filled the appointment to the satisfaction of all present. The object of the League to pledge voters of all parties to vote against all men known to be favorable to the saloon was stated. Incidentally, the speaker expressed contempt for the work of the last legislature and expressed the conviction that Michigan needed a political overturning.

A complete surprise was given Miss Viola Morse last evening when fourteen of her school friends walked in and reminded her of her fifteenth birthday. Games were played and dainty refreshments served after which Viola took all the girls to the vaudette.

WE AND OUR NEIGHBORS

Comings and Goings, Haps and Mishaps of Lowell People.

Rev. Russell H. Bready and family drove to Saranac Sunday expecting to bring the Anti-Saloon League speaker home with them. His man had gone elsewhere; and after a lengthy wait the Elder drove home, only to find himself locked out of the parsonage and the key lost. After a considerable vain scheming to break into the new house, neighbors brought a ladder and the preacher climbed into an upstairs window, let the family in and then "blked" supplies to church and an unexpected job, making the second time within an hour when he "rose to the occasion."

An industrious crowd of Methodist ladies met at the Lowell Canning factory Tuesday evening to trim apples. There were 38 ladies present. Total amount earned \$10.00 and total number of pails trimmed 219. Mr. Fallas donated \$10.00. Making entire church benefit \$20.00.

From Our Point of View

SENATOR DUNNELL may be right in declaring that the old veterans at the Soldiers' Home should not be deprived of the use of any of their pension money; but judging from reports in the Grand Rapids papers for years past, much of the pension money is quickly squandered upon whiskey and base women. Such old and irresponsible men need guardianship to prevent them from converting the nation's bounty into a curse upon themselves. Probably but a small proportion of the inmates of the Home are of this class but that there enough of them worth considering before making a wholesale change in regulations can hardly be questioned.

The long winter evenings, when every home needs plenty of good reading matter, are approaching. Too many people confine their reading too closely to newspapers. The latter are necessary, but the literary taste and general culture of the family will be much improved by the addition of one or more good magazines. It really does not cost much to suit all ages in the family circle—the sacrifice of a few smokers or drinks, perhaps. The Ledger has made an extra effort to fill the want this season. Look over the clubbing list published elsewhere in this paper and make some selections.

DEALERS in the cities, particularly those who handle packing house products, have found it impossible to maintain the prices lately charged, as people simply would not buy. In Detroit the price of fancy steaks has dropped seven cents per pound. A way should be found to eliminate some of the many middlemen between producer and consumer, all of whom must make a profit. For, in the present situation, the city poor are like the horse that is led to water but can not be made to drink.

SENATOR BEVERIDGE thinks the people should establish a lobby to watch their representatives at Washington. How long would it be before bootleggers would have to be sent after the lobby? And how would it do to send to Congress honest men who would not need spying upon, and then abolish all lobbies?

That was well-deserved praise given Prosecuting Attorney Mac Donald by Rev. Russell H. Broady at the Methodist church Sunday evening. Any public official who does his duty fearlessly, regardless of the wealth or social position of law-breakers, deserves well of the people. The latter defend their own ends if they fail to sustain such officers when once obtained, for they are none too numerous.

A well-defined issue will result from Governor Warner's avowal of his candidacy for a third term. The attack made upon the Governor by the Boxers and his just castigation of the anti-reformers, will give the people a chance to choose between them. If the voters of Michigan know their business as well as we think they do, the result will not be doubtful. Down with the Boxers!

Hazing will soon lose its popularity in our schools and colleges, given a few verdicts like that obtained by a Kewanee, Ill., boy who had a leg broken in one of these insane antics. The parents who must put up \$14,000 damages may find it worth while hereafter to know what their boys are doing at school. It is high time this brutal nonsense was stopped.

SHALL the people run Michigan, or will they let the job out to the corporations? Governor Warner says that's the question. Is he not right? Can we not afford to drop party politics long enough to clean up the Boxer gang?

AND Knoxville, a city of 80,000 souls, has "gone dry," too. Begins to look as if the business of making drunkards and beggaring women and children is doomed. Hallelujah!

The panic bred by Wall street stock gamblers has passed over; and the country was so busy that it scarcely knew there was trouble in New York Town.

The fall crop of hunting accidents was inaugurated by a Saginaw sportsman who shot his companion. This seems to be the only crop which never fails.

The temperance reform is moving on. Another Alabama county has "gone dry," by the decisive majority of 1500 votes.

BETTER THAN MEDICINE.

Breathe Hyomei's Tonic Healing and Be Cured of Catarrh.

Nature has a remedy for catarrh, treatment that is far better than dosing the stomach with medicine. It is the healing oils and balsams of Hyomei which mediate the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs and restoring health to the mucous membrane.

In using Hyomei you are treating your catarrhal troubles with the only natural remedy, for it gives a curative air bath to the air passages that has as powerful healing and antiseptic effect as that found in the mountains where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei, and see how quickly you will get relief from your catarrhal troubles. M. N. Henry has seen so many cures, even of the worst cases of catarrh, with offensive breath, raising of mucus, frequent sneezing, droppings in the throat, and spasmodic coughing that they feel warranted in selling Hyomei under an absolute guarantee to refund the money if it does not do all that is claimed for it. They take all the risk.

OVERCOAT LOST—between Tom Doyle's and E. L. Bennett's in Vergennes, Monday p. m. Please or leave with Lowell Lumber company and get reward.

SAFE BLOWERS CAUGHT AT LAST.

In the state of Michigan where safe cracking is becoming a trade by itself, a gang of these gentlemen entered a hardware store and proceeded to crack the safe. After trying without success to drill it, they placed a charge of dynamite under the safe. This not having the desired effect they placed a charge on top and one underneath it. The explosion was something terrific, the whole inside of the store was wrecked but there stood the safe as good as ever. They then proceeded to find out what kind of a proposition they had struck, and to their amazement found that they had been trying to blow up the Malleable Steel Range, made in South Bend. It is made of malleable iron and steel and cannot be demolished even with dynamite. The Merchants and Bankers are all buying the malleable now to bake in by day and to keep their valuables in by night. This is the range caused so much excitement at Scott Hardware Co. Drop in and have a hot biscuit and coffee.

A Famous Newspaper Man.
William E. Curtis, the famous correspondent of THE CHICAGO RECORD-HERALD, writes a two-column letter for his paper every day in the year without intermission. His powers of sustained work are as great as a marvel as his faculty of always making his matter interesting.
Probably no other newspaper correspondent in the country is read so regularly and eagerly by so many thousands of men and women as Mr. Curtis. Mr. Curtis has traveled several times around the world, visiting every country under the sun, and writing a larger number of brilliant and interesting letters of travel than were ever before produced by a single hand. Many of these have later been reprinted in book form. One of his latest expeditions was through Mexico, resulting in a series of letters as entertaining as those he wrote a few years ago from India, Turkey and the Holy Land. His forthcoming letters from Ireland, Russia and Germany will rival in importance and interest any of his previous contributions.
Beginning his career in Chicago as a reporter in 1872, Mr. Curtis rapidly rose to be managing editor. He resigned that position to accept a government appointment as secretary of the South American commission. So brilliantly did he perform the duties of this office that James G. Blaine, Secretary of State, placed him at the head of the Bureau of American Republics. At the world's fair in Chicago he distinguished himself as the executive head of the Latin-American department. He is a member of almost every learned society in Washington and of many in Europe. It is not strange that THE RECORD-HERALD prints Mr. Curtis' letter every day in the first column of the front page, and that nothing but a California earthquake can displace it from that station of honor.

MICHIGAN GOOD ENOUGH FOR HIM.
During the closing session of a farmers institute in Tuscola county President N. E. York enlivened the occasion by reciting the following original poem.
The sun never shone on a country more fair
Than beautiful, peerless Michigan,
There's life in a kiss of her rarest air,
Michigan, prolific Michigan,
Her sons are valiant and noble and bright,
Her beautiful daughters are just about right,
And her babies, God bless them, are clear out of sight,
That crop never fails in Michigan,
Our homes are light with a halo of love,
Michigan, contented Michigan,
We bask in the smiles of the heavens above;
No clouds ever darken Michigan,
Our grain waves its billows of gold in the sun,
The fruits of our orchards are equaled by none,
And our pumpkins, some of them, weigh most a ton,
We challenge the world in Michigan,
Our girls are sweet models of maid- only grace
In this modern Eden, Michigan,
They are perfect in figure, and lovely in face
That's just what they are in Michigan,
Their smiles are bewitching and winking and sweet,
Their dresses are stylish, yet modest and neat,
A Trolly would envy their cute little feet;
In beautiful, peerless Michigan,
When the burden of life I am called to lay down,
I hope I may die in Michigan,
Unever could ask a more glorious crown
Than one of the sods of Michigan,
And when the last trump wakes the land and the sea,
And the toms of the earth set their prisoners free,
You may all go aloft if you choose, but for me,
I think I'll just stay in Michigan.

LOWELL LAD PROSPERING IN WYOMING
The Ledger is glad to give space to the following paragraph regarding a former Lowell lad, giving credit therefor to the Grand Rapids Herald from whence it was taken.
Lou W. Butler, the 7-year-old son of Rev. James E. Butler, formerly pastor of the Lowell Congregational church, who removed with his parents last April to Wheatland, Wyo., has even so young caught the western spirit and developed into a prosperous business man.
The first of May last he commenced selling "fresh buttered popcorn" upon the streets and at the station at 5 cents a sack. At first the sales were small, soon, however, business began to increase, until home merchants could furnish no more corn. Neighboring towns were bought out and finally corn had to be procured from eastern Nebraska in large quantities. In August the lad had \$25 in the bank. This he invested in a city lot, promising to pay \$120 more on the lot in two years. September 19 he had \$60 more ready, which he turned in, leaving \$60 more to pay. If he does as well earning the last \$60, less than two months from now will see him owner of city property which is advancing in price. Beside the \$125 which he has invested, he has paid out \$35 for expenses, making a total of \$170 earned since May 1, 1907.

SAFE BLOWERS CAUGHT AT LAST.

In the state of Michigan where safe cracking is becoming a trade by itself, a gang of these gentlemen entered a hardware store and proceeded to crack the safe. After trying without success to drill it, they placed a charge of dynamite under the safe. This not having the desired effect they placed a charge on top and one underneath it. The explosion was something terrific, the whole inside of the store was wrecked but there stood the safe as good as ever. They then proceeded to find out what kind of a proposition they had struck, and to their amazement found that they had been trying to blow up the Malleable Steel Range, made in South Bend. It is made of malleable iron and steel and cannot be demolished even with dynamite. The Merchants and Bankers are all buying the malleable now to bake in by day and to keep their valuables in by night. This is the range causing so much excitement at Scott Hardware Co. Drop in and have a hot biscuit and coffee.

From Our Point of View

SIXTY-EIGHT (58) may be right in declaring that the old veterans at the Soldiers' Home should not be deprived of the use of any of their pension money, but judging from reports in the Grand Rapids papers for years past, much of the pension money is quickly squandered upon whiskey and base women. Such old and irresponsible men need guardianship to prevent them from converting the nation's bounty into a curse upon themselves. Probably but a small proportion of the inmates of the Home are of this class but that there enough of them worth considering before making a wholesale change in regulations can hardly be questioned.

The long winter evenings, when every home needs plenty of good reading matter, are approaching. Too many people confine their reading too closely to newspapers. The latter are necessary, but the literary taste and general culture of the family will be much improved by the addition of one or more good magazines. It really does not cost much to suit all ages in the family circle—the sacrifice of a few smokes or drinks, perhaps. The *Leader* has made an extra effort, to fill the want this season. Look over the clubbing list published elsewhere in this paper and make some selections.

DEALERS in the cities, particularly those who handle packing house products, have found it impossible to maintain the prices lately charged, as people simply would not buy. In Detroit the price of fancy steaks has dropped seven cents per pound. A way should be found to eliminate some of the many middlemen between producers and consumer, all of whom must make a profit. For, in the present situation, the city poor are like the horse that is led to water but can not be forced to drink.

SENATOR BEVERIDGE thinks the people should establish a lobby to watch their representatives at Washington. How long would it be before voters would have to be sent after the lobby? And how would it do to send to Congress honest men who would not need spying upon, and then abolish all lobbies?

BETTER THAN MEDICINE.

Breathe Hyomei's Tonic Healing and Be Cured of Catarrh.

Nature has a remedy for catarrh, treatment that is far better than dosing the stomach with medicine. It is the healing oils and balsams of Hyomei which mediate the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs and restoring health to the mucous membrane.

In using Hyomei you are treating your catarrhal troubles with the only natural remedy, for it gives a curative air path to the air passages that has as powerful healing and antiseptic effect as that found in the mountains where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei, and see how quickly you will get relief from your catarrhal troubles. M. N. Henry has seen so many cures, even of the worst cases of catarrh, with offensive breath, raising of mucous, frequent sneezing, droppings in the throat and spasmodic coughing that they feel warranted in selling Hyomei under an absolute guarantee to refund the money if it does not do all that is claimed for it. They take all the risk.

A Famous Newspaper Man.
William E. Curtis, the famous correspondent of THE CHICAGO RECORD-HERALD, writes a two-column letter for his paper every day in the year without intermission. His powers of sustained work are as great as his facility of always making his matter interesting.
Probably no other newspaper correspondent in the country is read so regularly and eagerly by so many thousands of men and women as Mr. Curtis. He has traveled several times around the world, visiting every country under the sun, and writing a larger number of brilliant and interesting letters of travel than were ever before produced by a single hand. Many of these have later been reprinted in book form. One of his latest expeditions for THE RECORD-HERALD was through Mexico, resulting in a series of letters as entertaining as those he wrote a few years ago from India, Turkey and the Holy Land. His forthcoming letters from Ireland,

Russia and Germany will rival in importance and interest any of his previous contributions.
Beginning his career in Chicago as a reporter in 1872, Mr. Curtis rapidly rose to be managing editor. He resigned that position to accept a government appointment as secretary of the South American commission. So brilliantly did he perform the duties of this office that Jimmie B. Blaine, Secretary of State, placed him at the head of the Bureau of American Republics. At the world's fair in Chicago he distinguished himself as the executive head of the Latin-American department. He is a member of almost every learned society in Washington and of many in Europe. It is not strange that THE RECORD-HERALD prints Mr. Curtis' letter every day in the first column of the front page, and that nothing but a California earthquake can displace it from that station of honor.

MICHIGAN GOOD ENOUGH FOR HIM.
During the closing session of a farmers institute in Tuscola county President N. E. York entertained the occasion by reciting the following original poem.
The sun never shone on a country more fair
Than beautiful, peerless Michigan,
There's life in a kiss of her radiant air.
Michigan, prolific Michigan,
Her sons are valiant and noble and bright,
Her beautiful daughters are just about right,
And her babies, God bless them, are clear out of sight.
That crop never falls in Michigan,
Our homes are light with a halo of love;
Michigan, contented Michigan,
We bask in the smiles of the heavens above;
No clouds ever darken Michigan,
Our grain waves its billows of gold in the sun,
The fruits of our orchards are equalled by none,
And our pumpkins, some of them, weigh most a ton,
We challenge the world in Michigan.
Our girls are sweet models of maid-ly grace,
In this modern Eden, Michigan,
They are perfect in figure, and lovely in face.
That's just what they are in Michigan,
Their smiles are bewitching and winning and sweet,
A friebly would envy their cute little feet;
In beautiful, peerless Michigan,
When the burden of life I am called to lay down,
I hope I may die in Michigan,
I never could ask a more glorious crown.
Than one of the sods of Michigan,
And when the last trump wakes the land and the sea,
And the tombs of the earth set their prisoners free,
You may all go aloft if you choose, but for me,
I think I'll just stay in Michigan.

LOWELL LAD PROSPERING IN WYOMING
The Ledger is glad to give space to the following paragraph regarding a former Lowell lad, giving credit therefor to the Grand Rapids Herald from whence it was taken.
Lou W. Butler, the 7-year-old son of Rev. James E. Butler, formerly pastor of the Lowell Congregational church, who removed with his parents last April to Wheatland, Wyo., has even so young caught the western spirit and developed into a prosperous business man.
The first of May last he commenced selling "fresh buttered popcorn" upon the streets and at the station at 5 cents a sack. At first the sales were small; soon, however, business began to increase, until home merchants could furnish no more corn. Neighboring towns were bought out and finally corn had to be procured from eastern Nebraska in large quantities. In August the lad had \$75 in the bank. This he invested in a city lot, promising to pay \$120 more on the lot in two years. September 19 he had \$90 more ready, which he turned in, leaving \$90 more to pay. If he does as well during the last \$90, less than two months from now will see him owner of city of city property which is advancing in price. Beside the \$125 which he has invested, he has paid out \$35 for expenses, making a total of \$170 earned since May 1, 1907.
