LOWELL TOOK THREE STRAIGHT FROM ALTO

Lowell won the third game of the series from Alto in one of the most exciting games ever witnessed on the Lowell grounds.

Alto went five innings without scoring then to add a little interest scored two on a hit and error and another hit. After this both McMahon and the home team were air tight and Alto never threatened to score again during the games.

Crampton started things in the first for Lowell by hitting for two and going to third on an error but was unable to get in.

Frey seemed to have the Lowell team's goat after that until the ninth. In this inning with McQueen out Shivel beat out an infield hit. Crampton flew to Leonard. Things looked rather blue, but Halliday was due for something. It came in the form of a clean hit to right field which put Shivel on third. Hal stole second. Shuter the leader of the Lowell team in hitting was up. The crowd expected him to save the day. He let two go by that did not suit him and Frey worked the corners until he had three balls called. On the next one Harry connected. When the smoke had cleared away Shiver and Hal were on the bench and Shuter on third. Bishop tried hard for a hit but could not connect safely.

Alto was shut out in the first half of the tenth. Gazzell started Lowell's half with a single went to third on Behler's error and scored on a sacrifice by McMahon.

Congressman Townsend, candidate for United States senator to succeed J. C. Burrows came in at 2.45 and talked to a good crowd in front of the post office. He favored election of senators by direct vote, declared that he voted with Cannon when he was right and against him when he was wrong; and also announced his sympathy for a progressive policy. His remarks were well received.

The sudden change from the activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the digestive organ.

It is a common and natural condition for the bowels to become sluggish and to move only from the force of nature. This condition is usually accompanied by a feeling of fullness, belching, sour stomach, drowsiness after meals, and a general feeling of weakness. It is necessary to keep the bowels open and to give the system a tonic to get them to again do their work properly. A recent scientific discovery is not only unnecessary but harmful to the system.

After you have got through experimenting with pills and pills and water, you will find that the only way to get the bowels to move is to use a tonic. This tonic is not only necessary but it is also a most valuable aid to the system. It is a most valuable aid to the system. It is a most valuable aid to the system.

INTERVIEW

A VERY POPULAR CHINAMAN

The opinion prevails that the appointment of Wu Tingfang to be counselor to the foreign office will secure to his country sagacity, knowledge and address not only, but also a profound sense of justice in dealing with other nations.

Here he strove to keep China and the United States close friends. In his new position he will be trusted to labor for the peace of the world. If all Chinamen were like Mr. Wu, no demand could arise in any quarter for laws for the exclusion of Chinese and Siamer Chinamen ever; so popular in this country as is Wu Tingfang. The fame was perhaps more nearly won when he went to England in 1874, where he studied with Mr. J. H. Chamberlain, who gave him his first office, which became the stepping stone to his foreign and home service of the Chinese empire.

Born near Canton about 60 years ago, after having studied law in England, he returned to his native land in 1874, where he took high rank as a lawyer while he was zealous in promoting modern enterprises and was the leader in building the first railroad in that vast domain. His career received a marked impetus from a visit to the United States in 1877. Five years later he became viceroy of the province of Chihli.

At public functions his style of oratory wins applause, while he drops the formality of his colleagues from other lands and is not too proud to respond to calls from men and churches for familiar talks. He is skilled in the hearing of the Orient and holds his own with western scholars, as the doctor, L. L. D. from the University of Pennsylvania bears witness. He uses the English language with grace and force. Without loss of dignity he bubbles with humor, and is quick and skillful in repartee. A vegetarian, he practices his abstinence such a diet brings happiness and assures long life.

His service as minister in Washington lasted for about seven years with a brief interval in 1890 he returned to his native land and became viceroy of Japan. He officiated as viceroy for about seven years, when he returned to his native land and became viceroy of Japan. Why Geo. E. Ellis Should be Nominated for Congress.

From the Portland Review.

The simple fact that Mr. Ellis represents the progressive element of the Republican party, otherwise being competent and qualified for the place ought to settle the question in every voter's mind who has the interest of the nation at heart.

The fact that they are acquainted with our present Congressman, and that he is a whole souled fellow should not influence them in their action. The "Stand Patter" must go. In every state where the question has come up between the progressive and the reactionary elements or so-called "Stand Patters" the "Stand Patters" have been buried beneath an avalanche of voters on primary day as witness the result in Iowa, in Kansas, and but a day or two ago in California. This is not mere idle say-so. The people have sounded the death knell of Cannonism and Aldrichism. Still "Uncle Joe" insists that he is going to be a candidate for speaker, and if he is a candidate for speaker as he will be, every man elected to Congress on the "stand pat" platform will support him. Have you the least doubt of this? Because of his announcement that he expects to be a candidate, the press all over the country are discussing the question "pro and con", this coupled with the fact that Theodore Roosevelt, Ex-President of the United States and idol of the American people, is an insurgent out and out is scaring the "stand patters" out of their boots. The Grand Rapids Herald in its issue of August 19 devotes a long editorial to the question as to why Cannon should not be re-elected speaker, and on the first page of the same page under the heading "Talt-

Roosevelt Break Near, Beverly is in Consternation "Uncle Joe" will Fight it Out." Under this heading the situation is given as a matter of news and everything points to the fact that Theodore Roosevelt, the friend of the people, is dissatisfied with the way the Republican Party is being handled by the so-called leaders of the present day. And who are they? Aldrich, Cannon and Payne. Our present Congressman voted with them upon every question which came up during the last session of Congress. No one will deny this. His most urgent friend must admit the truth of this assertion. His sympathies are with this element of the party. If you are a "stand pater" instead of a progressive do not fail to cast your vote for our present Congressman on primary day, but if you are a progressive cast your vote on primary day for George E. Ellis. His Republicanism is not questioned as all his life, but he is in sympathy with the people and the progressive element of the republican party.

In a strong editorial of the Saranac Local, under date of July 28th, the editor said as follows:

"In the present case if we approve and justify the insurgency in the republican party led by Dolliver, Cummins, LaFollette, Beveridge and Brewster in the senate, and by such men as Murdock of Kansas, Walter J. Smith of Iowa, Butler Ames of Massachusetts, and Charles N. Fowler of New Jersey, in the house of representatives. We have the opportunity of their actions by voting for George E. Ellis of Grand Rapids, for the nomination for Congress on the republican ticket, for the simple reason that Mr. Ellis openly and squarely advocates the very ideas and policies that were so ably defended and insisted upon by those statesmen in the last Congress.

"But if with Joseph G. Cannon, Julius Caesar Burrows and Nelson W. Aldrich with their followers and supporters, who if their acts are an index to their dispositions are only too willing to "loose the pregnant hinges of the knee, that thrift may follow fanning" to the special interests toggled up in the swaddling clothes of "infant industries" and to abrogate and nullify those principles involved by party pledge and public demand then we have the same opportunity to condemn and discourage that insurgency by voting for the handsome and eloquent incumbent of the office of representative 5th Michigan district, the Hon. Gerrit J. Dickema.

Friends of Mr. Dickema may, and many do claim that he did not and does not approve of Cannon and Cannonism, but if he did not and does not, please inform us when, where, and upon what occasion in the discharge of his official duties did he by vote disapprove of either the insurgents and the principles they contended for, why in the name of justice and common sense didn't he with his many opportunities, in some way or manner signify it. We are waiting an explanation.

One thing that distinguishes the personality of Mr. Ellis is that you don't have to guess what his sympathies or convictions are upon public questions. He is just as frank and open as he looks. He calls a spade a spade, and although a strong partisan has that independence of character and action that fits so nicely upon the shoulders of public men who seem to truckle to the orders of any man or set of men."—Advertisement

Gives General Satisfaction.

From the Calumet News.

Kent County is more than fortunate in having in the office of Prosecuting Attorney, a man of the experience, ability, integrity and honesty of Wm. B. Brown.

His administration of affairs is aggressive and yet it is so impartial that none can find fault, and the people almost to a man commend his work and his honest and fearless work.

By hard work and close attention to business he has become one of the most successful lawyers in the state of Michigan. It is a matter of common comment that officers from the townships, villages and school districts are made comfortably welcome at his office, and that the advice given to them by Mr. Brown is always clear, concise to the point and reliable. No criticism has been made against Mr. Brown during his term by anyone and many now do themselves honor and give moral support to him in the good work that he is doing.

The office of Prosecuting Attorney is the most important office in the county, and when the county can have the office in the hands of a man of the ability, honesty and experience of Mr. Brown we believe that the voters will take no chances in making a change.

If ability, experience, honesty, close attention to business, courtesy to those appearing at the office on business, economy, manliness, and a vigorous enforcement of all laws will win the support of the people, then Mr. Brown will be nominated at the primaries, Sept. 6, by an overwhelming majority. We believe he should receive such a majority.
