If a wife, or any blood rela-tion, shall deem a person a habitual drunkard or so addicted to the use of drugs as to be in need of medical or sanitary treat ment, all they need to do is to ake the case before probate

If the court deems a guardian necessary the tippler or drug user may either be sent to a state hospital or allowed liberty under the watchful eye of his guardian. The guardian is supposed to shadow his charge more or less and report to the court at least once a year and as often as required by the court.

It is expected that the practice of appointing guardians will supplant that of sending drunkards to the house of correction.

# Black Silk Stove Polish

Don't get the idea that to keep a nice glossy shine on your stove you must black it every few days. It's not a question of oft-repeated application,

It's a question of the stove polish to use.

Black Silk Stove Polish is so much better than other store polishes that there is absolutely no comparison—it's in a class all by itself.

It makes a brilliant glossy shine that don't rub or dust off. It anneals to the iron—becomes a part of the stove. It makes old stoves look like new and lasts four three as long to make the relicant lines as long to make the lines as long four times as long as any other shine.

Get a can and give it a trial. Try it on your parlor stove, your cook stove, or your gas range. If you do not find it the best store polish you ever used, your dealer is an horized to refund your money. Black Silk Stove Polish has been made by the same formula and sold under one name for 30 years. Here is what some of the ladies write us:

"I sent to you for a can of Black Silk Stove Polish and found it so much better than any I had ever used that I asked my hardware dealer to order a supply. He did so, and is now selling nearly everyone in the place your polish. I had no idea there could be such a difference in stone polishes."

"I was visiting friends and they used Black Silk Stove Polish on their stoves. It made the best shine I ever saw, and after blacking, the polish did not rub or dust off. It is way ahead of any polish I have ever used."

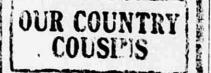

Ask Your Dealer for Black Silk Stove Polish and refuse a counterfeit brand. not have the best. Made in liquid or paste-one quality.

Black Silk Stove Polish Works, Sterling, Ill. Use Black Silk Air-Drying Iron Enamel for grates,

fenders, registers, stove pipes, etc. Prevents rusting. Not affected by heat or cold. Produces a permanent glossy black surface. Can, with brush for applying enamel, only 25 cents. Ask your dealer. Use Black Silk Metal Polish for nickel, brass, silver ware or tinware. It has no equal for use on automobiles.
