# That Rainy Day

- Ryerson Public Library

You have no doubt heard of the fellow who didn't know enough to go in when it rained. Foolish, of course; but how about people who know enough to go in, but have no place in which to take refuge?

That's simply worse and more of it. isn't it? The rainy days of life come to every one, and wise is the man who prepares for it in advance. When storms of adversity strike you, there is no refuge equal to a snug sum at the bank. Open an account now while the weather is fine.

### The CITY STATE BANK

The Bank that Pays Four Per Cent.

Kodak is a good companion any time. Either when you motor or go afoot for a stroll, you are sure to see something you want to remember and a picture is the most pleasant reminder.

Brownies from \$1.00 up. Premo Cameras from \$1.50 up. Hawk Eyes from \$2.00 up Kodaks from \$5.00 up.

We can supply your wants also in the watch or jewelry line, and for remembrance we have a fine line of China, Cut Glass and Silverware in plate or sterling. Our prices are always low ard the goods are always worth the money without

Jeweler and

**Optometrist** 

Many people believed Mr. Flagg and withdrew their money from the bank to send to him. Then the United States government closed

in on Mr. Flagg and millions in savings were lost. There is but one safe way to keep your money intact-deposit

your earnings in our bank where it will draw compound interest.

#### He Leaves Home a Bcy

he comes back a man. Have a good photograph made of him before he goes out into the big world—before the boyish features and expression have taken on the older impress,

When you have found no remedy for the horrors that oppress you during change of life, when through the long

hours of the day it seems as though your back would break, when your head aches constantly, you are nervous, depressed and suffer from those dreadful bearing down pains, don't forget that Lydia E. Pinkham's Vegetable Compound is the safest and surest remedy, and has carried hundreds of women safely through this critical period. Read what these three women say:

From Mrs. Hornung, Buffalo, N. Y. Buffalo, N. Y .- "I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak. "I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day erybody is asking me what I am doing and I recommend Lydia E Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and

get health from your medicine as I did."—Mrs. A. Hornung, 91 Stanton St., Buffalo, N. Y. Was A Blessing To This Woman. So. RICHMOND, VA .- "I was troubled with a bearing down pain and a female weakness and could not stand long on my feet. Of all the medicines I took nothing helped me like Tydia E. Pinkham's Vegetable Compound. I am now regular and am getting along fine. I cannot praise the Compound too much. It has been a blessing to me and I hope it will be to other women."-Mrs. D. Tyler, 23 West

Clopton St., South Richmond, Va. Pains in Side, Could Hardly Stand. Lod, Wis.-"I was in a bad condition, suffering from a female trouble, and I had such pains in my sides I could hardly move. Before I had taken the whole of one bottle of Lydia E. Pinkham's Vegetable Compound I felt better, and now I am well and can do a good day's work. I tell everybody what your medicine has done for me.' -Mrs. John Thompson, Lodi, Wisconsin.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for fe- 7 male ills. No one sick with woman's ailments does justice to herself if she does not try this fa- 7/ mous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E.PINKHAM MEDICINE CO.

## ASK STATE FOR MORE POTATOES

EMBARGO ON ALL PORTS WILL SHUT OUT IMPORTS FOR SEVERAL MONTHS.

PRESENT SUPPLY WILL BE EX-HAUSTED BY NEXT CROP.

Michigan Stands Second in Production and Government Appeals for an Increased Crop this Year.

Washington.-Michigan will be called upon to produce from 8,000,000 to 10,000,000 more bushels of potatoes in 1914 than the yield of this important food article during the last year. The United States department of agriculture has placed an embargo

upon the importation of potatoes from all ports, so during the next few months the new tariff bill cannot affect prices. This country imported about 17,-

000,000 bushels of potatoes during the past 12 months and with the close of the season, before the new crop comes into the market, the supply in this country will be practically exhausted, according to the figures of the government experts. So the crop and marketing officials in Washington are appealing to the potato states to come to the aid of the consuming public and plant a big crop. As the second potato state in the union, a special appeal is being made to the state of Michigan in this mat-

PROSPECT FOR PEACEFUL SET-TLEMENT BRIGHTER.

to Officers of Army and Cancels Social Engagements.

London-The dreaded Sunday passed without the slightest disturbance of order in Belfast or in Ulster, where the home rule policy has brought a condition of impending civil war. But the gravity of the crisis is fully indicated by the fact the king cancelled his intended week-end visit to the Earl and Countess of Derby at Liver-

The king and queen also cancelled their proposed visits to the races on Thursday and to the grand national

race on Friday. The king has thrown his influence earnestly on the side of conciliation. and seems to have made a personal appeal to the officers who had resolved to resign rather than face the possibility of being called on to fight in Ulster, and it may be taken for granted the king is equally exerting his influence with his ministers in the same conciliatory direction.

Proofs are not wanting of the de sire on both sides that everything possible should be done to avoid any chance of conflicts. The nationalists have abandoned their proposed parade at Londonderry, and Sir Edward Carson, the Ulster unionist leader, continues to voice his desire to do his utmost to avoid provocative acts.

The government announces that all intended movements of troops in Ireland have now been completed, but this may be a decision necessitated by the threatened resignations of the

**BLANSHARD WINS MORE HONORS** 

U. of M. Student Has Broken Record of the Big School.

Ann Arbor, Mich. -- When Paul Blanshard, of Detroit, captured first summer school is especially fitted for test here Friday night, he made a record never before attained by a bating and oratorical honor obtainable at the University of Michigan. His subject was "Myself." He was a member of the winning

varsity debating team in the National Peace contest and also won the Hamilton contest. As a reward, Blanshard will receive \$100 in gold and the Chicago alumni medal and will compete in the North-

ern league contest at Madison, Wis., Percival Blanshard, twin brother of Paul, won a Rhodes scholarship

and is now a student at Oxford. INCREASE APPROPRIATION.

Senate Committee Adds Seven and Half Millions to Army Bill.

Washington-An increase of \$7. 565,000 in the army appropriation bill was made by the senate military affairs committee Saturday in reporting the measure to the senate. The amended bill carries an appropriation

of \$101,755,000. The most important new item is \$135,000 to construct a military cable

from Washington state to Alaska. The committee urges an increase of \$1,221,000 in the pay for enlisted men, that the army may be maintained at is present full strength of 85. 000; \$2,000,000 is asked for ammunition for the militia field artillery, and \$1.350,000 for field guns. Another addition would provide \$50,000 for air-

Spanish Treaty Formally Signed. Washington-Secretary Bryan and Senor Riano, the Spanish ambassador. signed Saturday the final ratification of the general arbitration treaty between the two countries agreed to recently by the senate. The exchange today merely was the formal acknowledgment of acceptance by Spain and the United States.

out.-Toledo Blade. Wonderful Word. Confidence! What a wonderful word it is! How much it does to make a despondent man or woman feel better. How often it has lifted a business man out of the deepest despondency and given him another chance. Say a helpful word whenever you can, whether it be to a child with teardimmed face or to a workman who has lost his job or to a business man who faces serious embarrassments.

It will pay.-Leslie's.

Milionaire's Business Maxims. The late Philip D. Armour was a great believer in action. Often when his hog buyers were inclined to hold off for a few days for prices to come down, he would exclaim: "The time to buy these hogs is when these hogs are here." At the same time his attitude with his selling agents would be expressed in the following words: "The time to do business is when you see a margin of profit!"

Easy for Johnnie. "Johnnie," said the teacher of metaphysical class, "can you give me a familiar example of the human body as it adapts itself to changed conditions?" "Yessum," said Johnnie, "my aunt gained 50 pounds in a year and her skin never cracked."

#### AMERICAN TO MANAGE ENGLISH RAILWAY

Henry W. Thornton, general superintendent of the Long Island railroad. has been selected as general manager of the Great Eastern railroad of England. Mr. Thornton entered the serv ice of the Pennsylvania lines west of Pittsburgh on December 14, 1894, as draughtsman in the chief engineer's office of the Southwest system, and was appointed assistant engineer of construction of the Cleveland & Marietta railroad-one of the subsidiary lines of the Pennsylvania company, in May, 1895. He remained in that position until May, 1896, at which time he was engaged in topographical work in connection with surveys in southern Indiana, until August of the same year, when he was appointed assistant on the engineering corps of the Pittsburgh division of the Pittsburgh. Cleveland, Cincinnati & St. Louis railroad, remaining there until March. 1897. Then he was transferred and detailed in charge of a party running

levels on the Southwest system, until June, 1897. He was next appointed supervisor in Columbus yard and occupied that position until November, 1897. when he was appointed assistant engineer of the Cincinnati division. He filled that position until the spring of 1899, when he was detached and assigned by the general manager to special work.

On November 1, 1899, Mr. Thornton was appointed engineer of maintenance of way of the Erie & Ashtabula division, and on March 1, 1901, he was appointed superintendent of the Marietta division of the Cleveland & Marietta railroad. In May, 1902, he was appointed superintendent of the Cleveland. Akron & Columbus railroad, and on December 23, 1902, was transferred to the Eric & Ashtabula division. On February 1, 1911, he was appointed general superintendent of the Long Island railroad, and on November 14, 1911, he was advanced to general superintendent.

#### MAY BE IRELAND'S VICEROY

It is almost definitely decided that Prince Arthur of Connaught is to be the first home rule vicercy of Ireland. There was some talk of his succeeding his father, the duke of Connaught, as governor general of Canada, but this will not now take place, unless the unionists are successful in preventing the government from establishing a parliament in Ireland.

Like all members of the Connaught family, Prince Arthur is extremely popular, and besides it is considered that he would make an able and responsible viceroy, while his nearness to the throne and his personal intimacy with the king would have a great effect in soothing unionist sus-

ceptibilities in Ireland. It would be difficult for Irish society to boycott a viceregal court held by the first cousin and the niece of the sovereign, especially after the latter had visited Dublin in person to open

will do if that parliament is ever summoned. There is little prospect, however, of the home rule bill becoming law early the coming summer, as nationalists and liberals have often declared would be the case. It is now predicted that Ireland's fight for self-government will not be ended before next fall. At best nothing can be done with the home rule bill until April, and now

that Premier Asquith has promised to make liberal concessions to overcome the objections of Ulster it probably will take most of the summer to reframe

#### PLAYED TENNIS WITH THE SHAH

to matching one's skill against that in this manner is incontestable.

the present shah, who, you know, is still under ago. This friend, when he ica, asked if I would not like to try a game of tennis with his royal pupil. Child's Frocks That May Easily Be Of course I was pleased at the opportunity and accepted the invitation. I can truly say that the young shah appeared to greater advantage during that game than at any other time 1 is a dainty little French frock, with my stay in Persia. With older people.

and on the decasions upon which he receives, the shah appears exceedingly diffident and austere. But on a tennis court he shows all the informality. friendliness and erthusiasm which you might expect from the average youth in every-day life. He is exceedingly fond of the game and plays it well. Did I win the match? Perish the thought! That would have been an unpardonable breach of etiquette, even had I been a clever enough player. Why, it would be very bad manners even for the shah's younger brother, with whom he often plays, to win a game from him."

### SLATED FOR NEW YORK POLICE HEAD

Politicians are discussing a report that George W. Perkins, financial backer of the Bull Moose party, stands ready to become police commissioner. if the position is offered to him, and many say they would not be surprised to learn that he will be appointed. On the other hand, they declare they will be surprised if Col. George W. Goethals, builder of the Panama canal, is the next police commissioner.

The report has already reached Albany that Mr. Perkins may get the office, and politicians there say it puts a different aspect on the police amendments contained in the bill now pending than when Colonel Goethals alone was mentioned to head the police de-

Where in readily. Fresh air is quite as necescreasing the colonies rather than the sary as food and water.

DECLINE OF 3.4 PER CENT FROM 1913 IS NOTED.

Has Many Distinct Advantages as Farm Animal-Much More Economical to Feed Than Steer-Leads as Meat-Food.

Prepared by the United States Depart ment of Agriculture.)

A heavy decline in the number of sheep has taken place since 1910, according to the department of agriculture. In that year the number on farms as ascertained by the census was 52,448,000; the estimate for January 1, 1914, is 49,719,000, a decline of 3.4 per cent from 1913 and of 5.2 per cent from 1910.

Among the causes that have contributed to the diminution of number of sheep is the scarcity of labor required for their care, the high prices of sheep and lambs for slaughter, the divided by the average price per hundisplacement of sheep by expanding dred pounds, as ascertained by this dairying, deficient pasturage and for-bureau. As a result of this operation, age on account of drought, destruction the average weight of a hog on the by dogs, the settlement of range land previously occupied by sheep, and the in 1913 it was 144 pounds, in 1912 140 low price of wool; also the increasing pounds; and in 1911, 131 pounds. The value of land.

The estimates of the department for the number of sheep on farms in the in live-stock and commercial papers United States on January 1, 1914, show during the last three years, is appara decided decrease as compared with ent in the foregoing average weights, 1913, according to the department of which are apparently high because Agriculture. The apparent tendency the lighter hogs have been sold off. toward a decline in the number of The average value of swine on sheep on farms has been noted for farms per head January 1, 1914, was some time and has caused sheep rais- \$10.40, or 5.5 per cent above the avering on farms to be referred to as a age value of January 1, 1913, and 13.4 waning industry. A word here con-cerning the economy of sheep and sequence of the increased value of their place in agricultural practice swine per head, the total value of all may not be out of place.

pounds of feed eaten. When his ca- that were on hand. pacity to consume roughage is considered, he is more economical than the hog. The sheep yields a double idea of using marl are sending out return-meat at an economical cost, circulars telling the farmers that carand wool as a by-product-which will go far toward defraying the cost of keep. Sheep are prolific. A farm lege and the United States department flock which does not yield at least 100 per cent increase is very poor indeed. A flock of sheep on a farm will, in time, clear it of weeds, without expense to the owner, if allowed to range the lanes, the stubble fields aft-

ger, even a goat is not more useful

than a sheep. As meat food animals sheep have never been sufficiently appreciated in the United States. They are, however, of very great value. They must be classed with hogs and poultry as the most available animals to supply meat will earn their board and expenses. and the meat is nutritious, wholesome The majority of the farmers are not Neither is it a reform school, for and palatable when properly cooked. skilled in chemical terms and the dif- boys are to be taken before they get The healthfulness of the sheep alone gives it front rank as a meat-food animal. DIMINUTION OF SHEEP farm revenues be materially increased but a decided step in advance would be taken toward the solution of our meat supply problem.

Decline of Hogs on the Farm. Although the estimated number of swine on farms January 1, 1914, 48,-933,000, was 1.3 per cent more than the census number for 1910, the decline from 1913 was 3.7 per cent. This decline is partly accounted for by the extensive prevalence of hog cholera, by high-priced corn, by the deficient production of 1913 because of a severe long-continued and extensive drought and because of the high prices of swine for slaughter. Notwithstanding the high price of hogs for slaughter, farmers found that they could not profitably feed the high-priced corn. At the same time, the price of hogs per hundred pounds was high relatively, although not as high as corn. In this situation hogs were often sent to

market undersized. The average size of hogs on the farm January 1, has never been directly ascertained, but it may be computed from the average price per head farm January 1, 1914, was 145 pounds; marketing of low-weight hogs which has been frequently commented upon

swine on farms is estimated at \$612,-As a farm animal per se, the sheep 951,000, or a gain of 1.6 per cent over has many distinct advantages. The 1913 and 14.9 per cent over 1910. The sheep is a much more economical ani- diminution of swine January 1, 1914, mal to feed than the steer, returning was more than counterbalanced by a larger amount of gain per 100 the increased price per head of those

### SILAGE A COMPLETE RATION

Hay From Spanish Peanuts, Tops and Nuts Cured Together, Is Favored -Feed Twice Dally.

Silage is one of the best stock feeds but alone it does not make a complete ration any more than any other feed. Silage is rich in carbohydrates and needs a feed rich in protein to go with Alfalfa hay and silage make one of the best combinations. Some dry land farmers are growing sweet clover and the hay from this plant makes a good feed with which to balance silage. Cow pea hay is another good feed to balance silage. The hay from Spanish peanuts, tops and nuts cured together, is ideal to feed with silage and is a sure crop throughout the southwest, says the Oklahoma Farmer. Feeders of steers in the northern corn belt feed silage and corn and make a daily gain of two pounds per head per day on their fattening cattle. Many feeders in Oklahoma last winter fed silage, corn or kafir grain and cottonseed meal and their steers gained four to five pounds per head

A little dry forage should be fed daily to animals eating silage.

There is tendency to feed too much silage. In feeding large herds of dairy cows, the cows weighing 900 to 1,200 pounds each, 30 pounds per head daily is the overage quantity to secure the largest profits. Horses should be started slowly on silage, five to six pounds each daily and the amount should be gradually increased until they have all they will eat up clean. This will be about 20 pounds per head per day when they have plenty of hay. A horse doing heavy work should not be fed over eight to twelve pounds of silage a day.

Silage should be fed twice daily to all kinds of stock and only enough should be taken out of the silo and fed to supply the animals with what they will eat up clean at each feed. matic. If the sheep industry is so in- Silage left in the bunks or in piles outside of the silo undergoes a change showing a tendency to curtail sheep in a few hours that makes it unpalat-

used with good results by busy men who suffered from constipation, due

is not necessary to continue the treatment for a long time, be-cause, instead of driving Nature, they simply help her to help herself.

-a gentle laxative in the form of a chocolate-tasting tablet. One of these tablets eaten just before going to bed will help to restore your bowels to normal activity at a time when, your body being at rest, the medicine can do its best work. As a result of taking that tablet (or say two, if your case is obstinate), your bowels will move easily and naturally in the morning. The use of Rexall Orderlies for a few days afterward will restore normal regularity. Even chronic constipation is benefited by them, and it This enormous quantity was If Rexall Orderlies do not make

Makes Healthy Bowe

HIS simple rule of health is daily called attention to by every doctor in the land, whose first question to the patient almost invariably is, "Are your bowels regular?" Yet there's not one person in fifty who takes proper care of the bowels. And the result of this foolish neglect is nine-tenths of all ill-health.

If today you are unable to free your body of waste matter at the usual time, or if the act causes straining,

pains and discomfort, don't let that condition occur again tomorrow. Unless your bowels can carry away the waste materials left after food is digested, decay sets in, the poisons of which, taken up by the blood, increase

In treating constipation, there is a right way and a wrong way. The wrong way is to take harsh purgatives which even though they do clear the bowels, cause griping and nausea, injure the delicate tissues, and so disturb the normal functions as to cause the return of constipation. The right way is to help Nature to

Rexall Orderlies

your bowels act right, tell us so and we'll give back your money without

asking a single question. There is no red tape to this guarantee. It means just what it says. You sign nothing. We won't hesitate, or ask you any questions. Your word is enough. If Rexall Orderlies do not do all you expect them to -if you don't reel better after using them and find that they are the pleasantest-acting and best laxative you have ever used, we want you to tell us and get your money back.
