

All Right For Corn

The farmer plants his corn in the ground, because he knows that it will increase thereby. But the wise farmer knows that the ground is no place for his money. He plants his surplus money in the bank for the same reason that he puts the corn in the ground. Money buried or hid about the house or the grounds not only fails to increase, but stands a big chance of being lost entirely. We make a specialty of farmers' accounts, offering every accommodation possible.

DO YOU NEED A TONIC?

Most people do, you know, in the springtime. That languidness is nature's way of making it plain to you that you need a toning up. Get a bottle of Winegar's Beef, Wine and Iron for 50c. Take it the way the directions tell you to, and you'll very soon feel strong and vigorous and full of ambition. It helps the system all over, stirs up the lazy appetite, helps the digestion, regulates the functions of elimination. It's the all around benefitter for spring.

HOOKER CHAPTER VISITS HASTINGS

SUMPTUOUSLY ENTERTAINED BY HOSTS.

Degree Work by Both Chapters Addresses by Grand Officers and Fine Motor Trip.

Hastings Chapter No. 68, R. A. M., entertained the following officers and companions of Hooker Chapter No. 73 of Lowell, Friday evening: M. C. Greene, H. P. C. W. Wisner, K.; W. S. Winegar, K.; Jas. McPherson, Treas.; Earl Hunter, Sec.; J. A. Matern, C. of H.; H. L. Shuter, P. S.; D. G. Look, R. A. C.; Chas. Doyle, M. N. Henry, C. H. Anderson, M. of V.; Geo. M. Winegar, soloist; R. E. Springett, J. T. Mueller, S.; R. D. Stocking, organist; Geo. Hardy, M. A. Benson, E. S. White, J. S. Hooker, J. W. Williams, F. E. White, R. B. Boylan, Earl Thomas, Wilbur Burras, Howard Bartlett, A. Rittenger, F. T. King, W. O. Merrill, Leo Larsen, Ed. Parker, H. Maynard, G. W. Bangs, O. C. McDannell, H. Nash, S. P. Hicks, Clark Taylor, W. Trednick, Roy Welser, Levi Vaughan, Fred Calhoun.

This convention of Hastings was a double-header, they exalting a team in the afternoon and Hooker Chapter doing likewise to another team in the evening.

The trip to our sister city was made by automobile, several of the companions left soon after dinner, so they could witness the work done by Hastings Chapter. The majority left about four o'clock, arriving there in time for the banquet, which was scheduled for 6:30. This part of the program being delayed to complete the afternoon work, gave a number an opportunity to take a walk thro' the city.

The banquet served in the Masonic temple banquet hall was sumptuous in the extreme; and the trip overland had given the Lowell companions appetites that would have done credit to hod carriers. The delicacies soon disappeared in perfect time with the harmonious strains of the orchestra which furnished suitable music—no tango, as Hastings is a dry city—no hesitation or anything of the kind, as the appetites of the companions demanded music of the quickstep order.

After the banquet was over and the hall began to take on a hazy appearance, caused by "clear Havannas," the toastmaster called upon the Grand Chapter officers present; each responding with short and witty speeches which proved them to be Priests Sojourners and masters in the art of after-dinner speaking, as well as dignified Chapter officials.

The degree work of the evening was done by the officers of Hooker Chapter, their work being a credit to the Chapter, as well as themselves. The evening's work being completed, the Excellent High Priest of Hastings Chapter called upon Excellent High Priest M. C. Greene for a few remarks, the Doctor responding briefly and in his pleasing way. The closing event was a brief address by Grand Lecturer Maynard. That grand old man in Chapterdom with whom Lowell companions are well acquainted and whom they all love to meet.

The start on the homeward trip was made at 12:05 a. m., each with the thought in mind that the evening had been one of the red letter events in the history of Hooker Chapter; and that Hastings Chapter knows how to entertain in a most royal manner. The ride home was delightful, the night clear, roads fair, air bracing; time 1 hour and 20 minutes. Those buzz wagons did annihilate distance. H.

MEYERS-GREENE

Marriage of Well-Known Lowell Young People.

G. Golden Greene, son of Dr. and Mrs. M. C. Greene and Laura L. Meyers were quietly married at the home of the bride's uncle, Peter Zylstra, in this village Tuesday afternoon, in the presence of only the immediate relatives.

The ceremony was performed by Rev. I. T. Weldon, pastor of the Methodist church. The bride was attired in a gown of white satin and chiffon, trimmed with pearls and silver and wore a wreath of orange blossoms.

Mr. and Mrs. Greene left on the 4 p. m. train for San Francisco, where Mr. Greene will resume his position with the Marconi Wireless Telegraph company and he expects to sail on one of the Pacific liners within two weeks. The best wishes of their host of Lowell friends go with them. Mrs. Meyers and two daughters of Grand Rapids, mother and sisters of the bride, were in attendance at the marriage ceremony.

MRS. GEO. COLLINS THREAT TO KILL WIFE

Former Lowell Resident, Died at Palo Friday.

Mrs. Geo. Collins, who died at the home of her daughter in Palo, Friday evening, May 8, was a former well known resident of Lowell, having lived here with her parents several years. Her maiden name was Sarah Elizabeth Winegar and she was a daughter of Mr. and Mrs. Robert Winegar and a sister of Mrs. Frank N. White. Mrs. Collins was 70 years old in April. She was born in Rome, Lenawee county and when 8 years old came here with her parents, who later moved to Palo, where she was afterward married. Her husband has been dead for several years, since when she has lived with her daughter.

Funeral services were held Sunday at the Palo church and burial took place there beside her husband.

Besides the daughter, Mrs. Emma Sherwood and sister, Mrs. F. N. White, she leaves many cousins and other relatives to mourn their loss.

Mr. and Mrs. F. N. White, Mr. and Mrs. E. E. White, Mr. and Mrs. E. O. Wadsworth, S. P. Hicks and Mrs. C. C. Winegar were in attendance at the funeral.

CAUSED ARREST OF GEO. NEUNDER

Carried Loaded Revolver.

George Neunder was arrested Thursday evening by Officers Taylor and Rainer, charged with having threatened the life of his wife, Dora, daughter of our old townsman, M. L. Chase.

Neunder came here and met his wife on the street, and, it is alleged, urged her to spend the night with him at the hotel and return home with him next day and threatened to kill her if she refused. As he had a revolver, she parleyed with him, appearing to yield, thus gaining time and opportunity to get to a telephone, where she put in an urgent call to Marshall Taylor for help.

The officers found them on the Merrill lawn, disarmed and lodged him in jail. The gun was a new one and loaded, evidently bought for a deadly purpose.

Friday afternoon Officer Taylor took Neunder to Grand Rapids, where he has been held for trial on charge of carrying concealed weapons, his wife being the complainant.

Neunder is a neatly dressed, gentlemanly appearing fellow and had evidently been drinking. The officers were of the opinion that he was mentally unbalanced.

Tuesday's Grand Rapids Herald has the following further information:

Judge Willis B. Perkins, has taken under advisement the action brought in civil court against George F. Neunder of Lowell, by his wife, to have their marriage annulled, testimony having been submitted yesterday. The complainant, who gives her name as Dora Chase, states in her declaration that the marriage is not legal. She alleges that when she married Neunder in Grand Rapids last year he told her that he had been married before and that his wife was dead. She alleges that she afterwards learned that he had a wife living in Buffalo.

The petition for annulment of the marriage followed closely upon an action against Neunder for carrying concealed weapons. On this charge he was arrested and lodged in jail, on complaint of his wife, who declared that he had threatened to kill her.

The Herald of May 13 says that Judge Perkins sentenced Neunder to serve 90 days in the county jail.

You can fool some of the people all of the time, and

You can fool all of the people some of the time, but

You can't fool all of the people all of the time.

That is an old proverb and it is a true one, but some dealers find it mighty profitable fooling some of the people. The purpose of the cut price concerns is to use the reputation of a reliable article to catch the customers and deceive them into believing that all of their goods offered for sale are sold at the same low rate of profit. The price cutters do not undersell—they only seem to. They sell things that people know at cost. On unfamiliar goods they overcharge. The consumer is deceived by the false representation that their mass of unknown goods is sold at the same price reduction offered on a few well known articles.

Buy where you can buy the best goods for the least money but don't be deceived by a few headlines advertised at odd figures just to make the price sound cheap. Patronize a hardware store that carries a complete stock at honest prices.

We do not specialize in just a few profit-making articles, but carry hundreds and hundreds of articles that have a very limited sale and that yield barely no profit, just in order to satisfy your wants. Don't give the other fellow and the mail order house the cream and then come to us with the skimmed milk. Be fair—we have always treated you squarely and are going to continue to do so.

We solicit your hardware patronage on strictly business principles, and allow that you have common sense enough to know that we must make a fair and reasonable profit.

The rural newspapers are close to the people and it is recognized fact that the drift of public sentiment is more clearly indicated by them than by city papers.

The Lassing Press had this:
If President Wilson continues his weak-kneed, vacillating, milk-water attitude in the handling of the Mexican situation he couldn't be elected dog catcher of feed kow, two tways from now.

To which Brother Maureen of the Portland Review responds:
There is little danger of President Wilson ever seeing the paragraph quoted above, but if he should read it he would have some pertinent things to say.

The illustrated article on the fly nuisance, printed elsewhere in this paper, is well worth attention. Read it, heed it and pass it on to your neighbors. Action along the lines indicated will make our community sweeter, healthier and happier.

OUR COUNTRY'S COUSINS
That health is more desirable than wealth, must be inferred from the suicide of a young man who died of a brain-embolic breakfast food maker. Such cases refute the popular notion that money will buy anything and everything. Debauchery can't purchase wealth, it can even make a broken heart, restore a tarnished name or a stashed hand of cash.

Maxwell "25" \$750

The Car that is Rapidly Setting the Selling Pace Everywhere

IT IS predicted by shrewd judges that the Maxwell "25" \$750 car made by the Maxwell Motor Company, Detroit, Mich., will within a year be the fastest selling automobile in the world.
 And this isn't such an extraordinary prediction when you consider the many very remarkably good points of the Maxwell "25," and the present phenomenal demand.
 A prominent writer who has intelligently studied the subject said recently that the time is coming when most families in the United States will own an automobile.
 In many places Maxwell "25s" are used not only for pleasure purposes, but for business reasons as well, thus rendering a highly efficient double service.
 The Maxwell "25" Car is unique. It occupies a distinctive position.

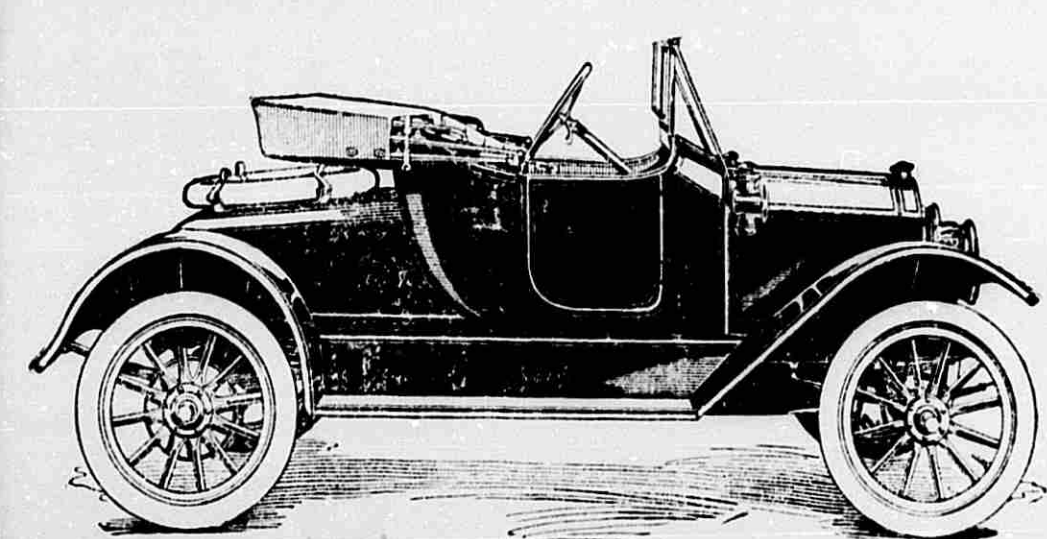

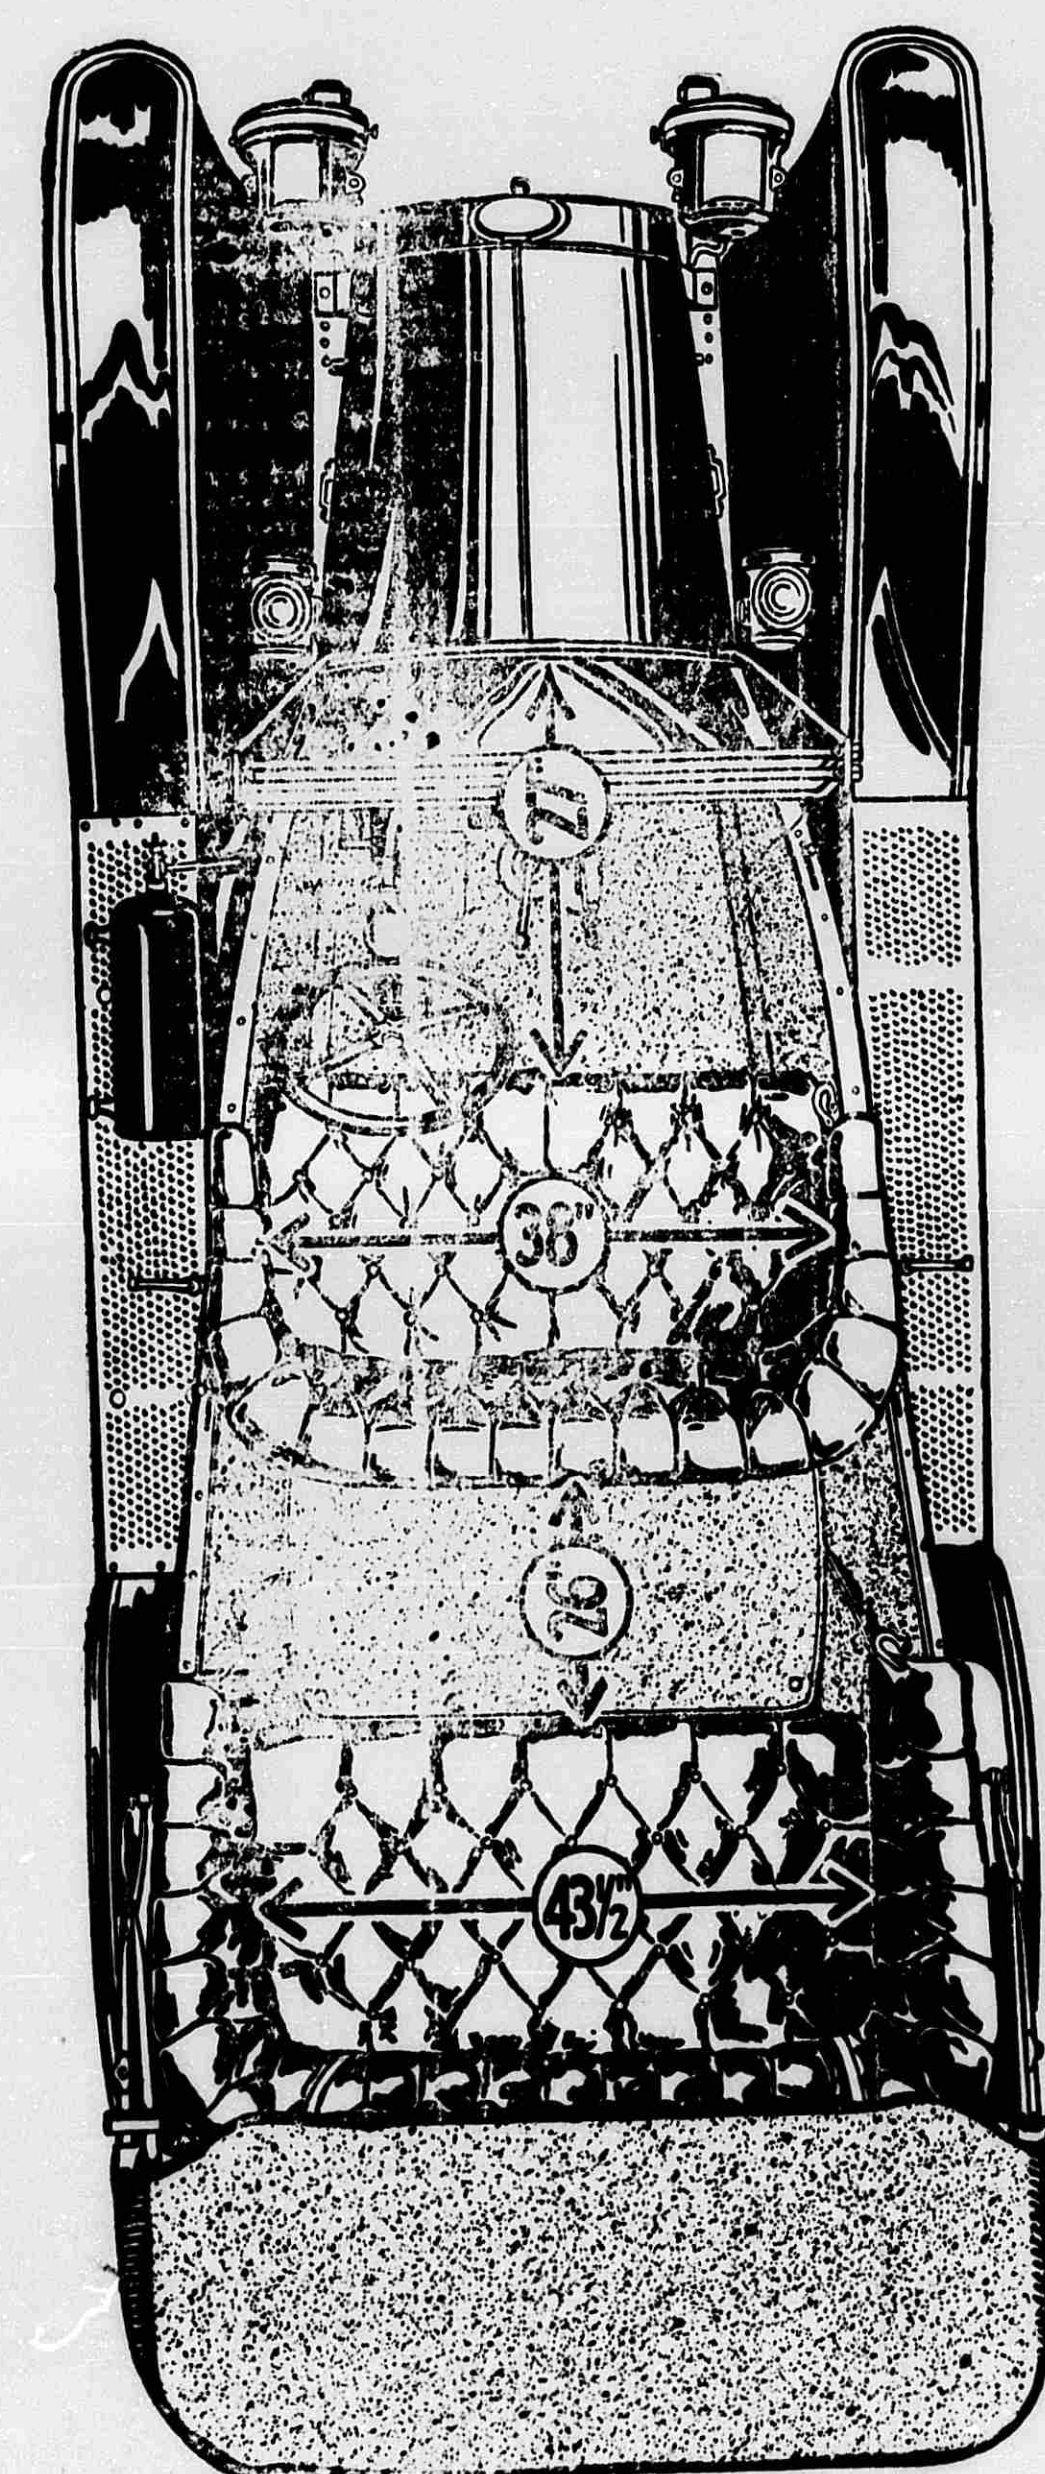

Maxwell "25" is unfailingly responsive. It at once commands attention and flatters comment.
 You buy a Maxwell "25" you do not have to be sorry; you do not have to apologize for it; it isn't a car that is actually a job done.
 You buy a Maxwell "25" you get a car that looks at you like a friend, and acts like a car that is a pleasure.
 It is truly a marvel of engineering genius. It is trustworthy in every detail of construction and it is made from the best materials that brains can command.
 The Maxwell "25" is a light, practically ideal car of extraordinary capacity, power and performance. It symbolizes speed, power and economy.
 The cost of oil, gasoline and tire maintenance is positively amazing. This has been proved in many places.
 The Maxwell "25" is more than just merely a superbly constructed, roomy 5-passenger automobile. It is a real full grown car, a beautiful, smooth, swift and satisfactory streamline automobile.

These Detailed Specifications Prove Positively How

Costly High Tension Magneto—Like Highest Priced Cars
 The Maxwell "25" has a Simms high-tension magneto, which delivers the spark direct to the spark plug in correct timing—no coil—no make-shift master vibrator—no timing, economical, springless Atomiser Type Carburetor.
Transmission—4-Speed Selective Sliding Gear, Center Control
 The Maxwell "25" has a 4-speed selective type transmission at front end—brakes bushing hobbitt lined at rear. Ad clutch lined with mottobeston. It takes hold firm, with gripping, and without undue noise.
Control—Brakes of Extra Strength
 The Maxwell "25" has left-side, 16" steering wheel. The room for a big man to drive without being cramped. The Maxwell "25" can pass most any car on hills "in high." It is a phenomenon!

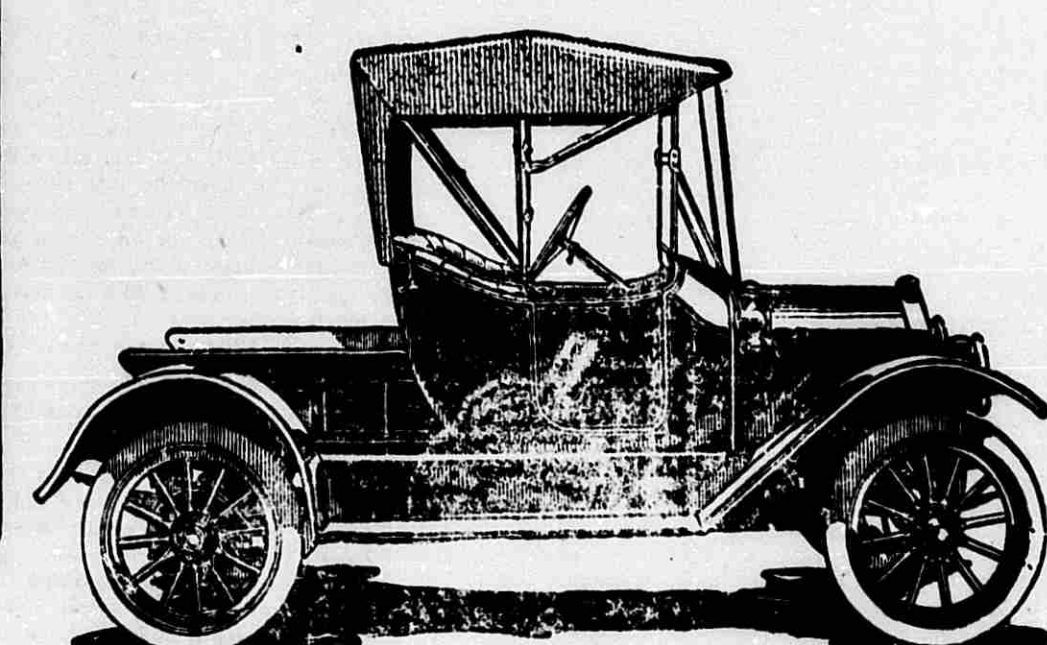

Value You Can Get in the Maxwell "25" at \$750

Phenomenal Easy Riding Qualities

ANSWER THE CALL

Lowell People Have Found That This is Necessary.

A cold, a strain, a sudden wrench. A little cause may hurt the kidney. Spells of backache often follow. Or some irregularity of the urine. A splendid remedy for such attacks. A medicine that has satisfied thousands.

Is Don's Kidney Pills, a special kidney remedy.

Many Lowell people rely on it. Here is Lowell proof.

George W. Layman, Lowell, Mich., says: "I had rheumatic pains in my back and limbs. After I stooped over, I had trouble to straighten up again. The passages of the kidney secretions were irregular. I was miserable in every way when I first got up in the morning. When I heard about Don's Kidney Pills, I used them and they regulated the action of my kidneys. It is a pleasure to recommend Don's Kidney Pills to day just as much as it was several years ago when I gave my first testimonial."

Price 50c, at all dealers. Don't tamely ask for a kidney remedy—get Don's Kidney Pills—the same that had. Foster-Milburn Co., Props., Buffalo, N. Y.

MAXWELL CARS A BIG SUCCESS

Puts Out the World's Biggest Auto Ad.

We are printing in another edition of today's edition, the largest automobile advertisement that has ever appeared in a newspaper. This advertisement of the Maxwell "25" \$750 car, is known in newspaper parlance as a "double-truck" and is seldom used except by the biggest motor car manufacturers. Some idea of the tremendous cost of the Maxwell advertising campaign can be gained when it is known that 2,000 newspapers or a total of 4,000 full pages of newspaper space are being used at one time.

The success of the Maxwell "25" \$750 in the past year has been one of the leading topics of conversation in the automobile world in the past few months. No other motor car concern has ever before built and shipped 30,000 cars in the first year of its existence. As will be remembered, the present Maxwell Company took over the assets of the old United States Motor Company over a year ago. Cars were first turned out in small quantities in July 1913, and the production has jumped ahead until Maxwell factories are now shipping 200 cars per day.

With its unsurpassed facilities. It is not surprising that the Maxwell Company has jumped from sixteenth place in the automobile industry in 1913 to fifth place in 1914. It is confidently predicted by men in close touch with industrial conditions that the Maxwell Company will be in second position when the 1915 campaign is under way.

It is quite generally known that the Maxwell Company has planned a production of 60,000 cars for 1915. The men behind the Maxwell production are thus early preparing the field for next year's business and it ranks as a certainty that the Maxwell car will lead the field during the coming season.

CASCADE PIONEER GONE. Cascade township has lost one of its oldest and most beloved pioneers in the person of James Joseph May, who passed away Tuesday, April 28th, after an illness of two long years. The deceased was a man of well known popularity and his death, though long expected, came as a shock to his host of friends.

Mr. May was born April 21st, 1863, on the old homestead which stood where the present home now stands. Being raised and educated in Cascade he took an active part in the affairs of his township and grew to be respected everywhere for his honesty of character.

For two years he had been troubled with stomach and lung diseases which finally caused his early death at a time when he could have most enjoyed life. The remains were buried in St. Andrew's cemetery the funeral services being conducted in St. Mary's church, Friday morning, May 1st. An eloquent sermon was delivered by the pastor, Rev. D. J. Beham, which will never be forgotten by those who were present at the services.

Mr. May is survived by his widow and one son, J. Joseph May, also a sister, Mrs. Anna Brannigan of Grand Rapids and a brother, Patrick Henry May of Cascade—Caledonia News.

Harry Boing of Westphalia visited his aunt, Mrs. William Booth, and family over Sunday.

Mr. and Mrs. Stekete and Donald of Grand Rapids were callers at the home of Oren Sayles of Vergennes last Friday.

Mother Has Earned this Comfort and Convenience

More than 250,000 "Mothers" in country homes are today enjoying this comfort and convenience;

Gas Lighting and Cooking with Gas

These greatest of modern conveniences are today available for every home no matter where it is located.

The modern farm home can have its own miniature gas plant—the PILOT Lighting Plant—which supplies pure home-made Acetylene—a better light than the city home enjoys.

The World's Standard

These PILOT Lighting Plants are so compact and perfectly constructed that they can be placed right in the corner of the cellar or in an out-building—as you prefer.

If we had space we would tell just how the PILOT makes pure Acetylene, automatically, from Union Carbide and water, a little at a time—

How the PILOT has stood the test of years until today, it is the Standard of all Acetylene Machines—

How its record for safety, efficiency and satisfactory service surpasses that of any other lighting device in the world. So much so that the highest authorities in the insurance world make its installation in insured property without increase in insurance rates—

How the United States Government uses the PILOT for lighting many of its Indian Schools, and other public buildings.

A Hundred Uses for Acetylene

Acetylene is used in a hundred different ways in many industries all over the world—till it is today one of the most universally used gases, we know anything about.

Hundreds of thousands of automobiles are lighted with Acetylene—from little generators or Prest-O-Lite or Search-light tanks—

Countless numbers of little Acetylene lamps are used by miners in their work beneath the ground—

Locomotive headlights and passenger coaches are lighted with Acetylene—

Light-houses and buoys use Acetylene—

Parts of the Panama Canal are lighted entirely with Acetylene—

The use of Acetylene for welding and cutting metals has become one of the big factors in the great metal industries of the world—

The story of Acetylene and its uses is one of the most fascinating commercial stories of the age. It would take pages to tell.

Lighting and Cooking for Country Homes

The mission of the PILOT is to bring a clear, clean, light and quick, cool dry cooking service, to take the place of the drudgery, dirt and inconveniences of hot stove lamps, the dirt, heat and labor of the old coal or wood stove—

Convenience in place of back-breaking labor—

Cleanliness instead of dirt, grime and ashes—

Beautiful city-like fixtures in place of unsightly kerosene lamps—

A cool kitchen instead of a hot, stifling one—

Order instead of confusion—

Comfort instead of dim, hot, smoky lights—

Safety instead of constant risk—

Twenty minutes once a month or so to put U Carbide and water in the PILOT, instead of a half every day filling lamps—

Light always on tap in every room—

Burn lights, fastened to permanent iron piping and protected by heavy glass globes instead of dangerous lamps and lanterns—

Automatic igniters instead of matches—

All these and more—costing no more than you are paying for kerosene.

The proof is shown in 13 years of satisfactory results in the large factories we have been compelled to build at Newark, N. J. and Chicago, Ill. to take care of the increasing demand for PILOT Lighting Plants—

In our salesman and dealers in more than a thousand cities and villages throughout the country.

Consider Your Women Folks

They're the ones who have to spend half their days in the kitchen grime of filling, cleaning and carrying coal around the house. In shoving away their strength and their over hot, cranky stoves.

Ask the "Mother" in your house how much this heat, clean, always-ready light and a real gas range will mean to her.

Ask yourself if she hasn't earned this comfort and convenience—when you consider its low cost—a thousand times.

Then write or phone me and let me come out and show you how little this entire improvement will cost.

Do it today while you have it in mind.
