

MODERN METHODS

These days the average farmer has about all the advantages of his town neighbor if he cares to use them. The farmer can do his banking by mail if he cares to take advantage of modern methods. It is safe, prompt, satisfactory and the thing to do. Many of our customers are banking that way. They mail us their checks and we at once credit their account and mail a duplicate deposit slip. It is much safer to have the money to your credit than it is to carry around the checks.

CASCADE PIONEER IS DEAD

Came to Michigan Over Seventy Years Ago.

Mary Adeline White was born in Tunbridge, Vermont, July 12, 1827 and died in Cascade, Kent county, July 30, 1914 aged 87 years.

She came to Michigan with her parents, Wm. C. and Catherine White and located in South Boston in 1843. After three years they moved to Cascade, where she has resided ever since.

She taught school in Lowell, South Boston and various districts in this community 21 terms. In all her work as a teacher was truly that of a pioneer. Among her pupils in one school she had 17 Indian children. She has lived in Cascade township 68 years.

At the age of 25 years she was married to Alva W. Blood, to whom she was born one son, DeAlton C. Blood, who survives her and who with his faithful companion have cared for her in her declining years.

About two years after the birth of her son her husband passed away. She was united in marriage again to Nathan Weston in 1860 who died in 1887. Mrs. Weston was a woman of sterling integrity, a forceful character, honest and upright in principle, thoroughly interested in civic and educational affairs of the community, outspoken but always true to her convictions absolutely void of deception.

The relatives and friends to attend Mrs. Weston's funeral were Frank A. Hatch of Muskegon Heights, James Hatch of Saranac, Mr. and Mrs. Carl Hestor, Mr. and Mrs. Schravens of Grand Rapids, Mrs. Cora Matheson of Penn., Mr. and Mrs. Henry Dunn of Grand Rapids and the teachers who were her pupils, Wm. Waterson, Henry Cogor and Chas. Holt of Cascade, J. J. King of Alaska, Hosen Sinclair of Dutton, Venzie Doty and Geo. Lewis of East Cascade.

The families of Edson Gardner and Walter Rogers suffered a slight accident Sunday morning while driving to Fallsburg with a team and light wagon, the vehicle tipping over, probably from unbalanced loading, and spilling the party out on a sandy hill near the "burg." Mrs. Rogers suffered a fractured rib and bruises, but the others escaped entirely or with slight bruises.

HEADS FOR LOWELL

Surveyor for Electric Line Finishes in Portland

From the Portland Review: Edgar French, the engineer who is running lines for the proposed electric road to connect Detroit and Grand Rapids, will change his headquarters this week from Portland to Saranac, the surveyors having worked so far west that Saranac will be more central for the present.

No survey will be made at present from the main line of the road into Ionia, but later a "stub" or "spur" will be run from a point not far from the Steele schoolhouse into the city.

Engineer French found conditions quite satisfactory in getting in and out of Portland. Coming into the village on De Witt street the line crosses Grand river at the lower bridge. The engineer says the present bridge will not be strong enough to carry the heavy cars and arrangements must be made for strengthening it or a second bridge built. Just across the river the survey carries the road along the bank back of the home of Joe Patterson and Frank Finis and at the Pere Marquette depot turns onto the highway, following this to a point beyond the Culverton railroad crossing, near the Probert farm, where the P. M. tracks turn north. Here the electric road diverges, for the first time, and heads straight west for Saranac, probably following the highway most of the distance.

The survey will be carried on through Saranac, Lowell and Ada without delay and Grand Rapids will be reached in a few weeks. The engineer will then lay his figures before the promoters of the line and unless they are unexpectedly large there will be something doing.

As bearing upon the intentions of the parties who are back of this survey it might be stated that it will cost between \$3,000 and \$4,000 and is evidently not being made for fun.

SNOW SCHOOL REUNION

Enjoyable Gathering of Old School Mates at Picnic Dinner.

The sixth annual reunion of the Snow school was held last Thursday at the school building in West Lowell. Though the attendance of thirty-seven was smaller than that hoped for, the occasion was unusually enjoyable because of the presence of a number had never attended a previous reunion.

A picnic dinner was served on the lawn about noon. During the afternoon an informal program was given, including singing and instrumental music, readings, recitations and remarks from various members, and an original poem by Mrs. Marion Headley of Ada, written for the occasion. Loren Lewis was re-elected president and Mrs. George Lewis was made secretary. Ice cream was served after the program.

Among the company were the following from Lakeview: Mr. and Mrs. J. Vining, Miss Wright, Messrs. Will Stevens and Roy Snow. Mr. and Mrs. Will Robinson of Taveanna and Mesdames E. L. Kinyon, Geo. Murray, John Callier, and E. E. Clark of Lowell were in attendance, the others being residents of West Lowell, Cascade and vicinity.

When You Buy a Furnace You Buy for a Lifetime of Saving and Satisfaction if You Buy the Right One

You want the gratification of knowing that the house-heating question—so far as you are concerned—is settled for good and all; and that it is settled right.

For that reason you cannot afford to put in a cheap, unreliable, cheaply-installed furnace. Such furnaces quickly get out of order, are veritable "fuel eaters," and give uncertain heating results. They are a constant worry, bother, and big expense, and sooner or later must be replaced at a still greater expense.

The heating plant that is best suited to your needs—and that will settle the heating question to your permanent satisfaction—is a

Round Oak Furnace, Made in the Dependable Round Oak Way

When properly installed it comprises a perfect heating and ventilating system, bathing each room in the summery warmth of pure, healthful, constantly-renewed, humidified air, heated to just the degree of temperature desired. No dust—no gas—no smoke.

Some of the Satisfied Users in Lowell and Vicinity—John Wingzier, Mrs. Gottlieb Rittenger, Alto Grange Hall, Lowell German Church, Dr. C. H. Anderson, F. T. King, Andrew Tasker, W. L. Stowell, Emmanuel Yeiter, John H. Rittenger.

Better, more healthful, and much cheaper than steam or hot water. Requires but little attention. Never gets out of order. Burns any kind of fuel. Consumes all wood and gases and reduces the smoke to a minimum. Saves one-half or more in fuel expense, and will soon pay for itself in that one item alone. The first item is the final cost. Come in and talk the matter over with us—we will gladly furnish plans and estimates without obligating you in any way. The Round Oak Furnace Book will interest you. Ask for it—it's free.

UNSHIRTED PIMPLES ON FACE

My throat, I have—Two or three years ago pimples began to come on my face and I had despair. The pimples made a very unattractive appearance. They were red and inflamed and some came to a head and festered and the itching caused me to scratch them. I tried several remedies but they only temporarily relieved me. I was bothered with the trouble two or three years when I decided to try Cuticura Soap and Ointment. I used it for a free sample and I noticed relief from them, and I bought more. I used two boxes of Cuticura Soap and Ointment and am now free from pimples and dandruff.

"I'm open for conviction," said one lady. She liked her regular soap and washing powder. She tried RUB-NO-MORE just to see. Now you ought to see how easily she keeps her house dirt-free with this "workless" dirt remover.

FREDERICK C. MARTINDALE

Candidate for Nomination for Governor on the Republican Ticket.
As promised in our last, here is a summary of reasons given by over 25 of Michigan's leading citizens from the various walks of life for supporting Mr. Martindale for Governor.
1—"Because he stands for all that is good in public and private life."
2—"Because from his record in public life we are assured of the soundness of his judgment, straight forward, unswerving, business administration."
3—"He neither stamps nor offers words, but he always gets it."
4—"He is a man of deeds rather than words; he keeps every promise, with him there are no empty platitudes."
5—"I consider him a square-cut, honest man and one who will give everybody a square deal."
6—"Because with him for Governor every man, woman and child, and every interest and industry would be guaranteed a square deal. All in the field of poor, with or without political influence, look alike to him and receive the same treatment at his hands."
7—"Because he is a vote getter and his nomination would mean a united party and guarantee a Republican victory, not only for the entire State ticket, but for the Congressional, Legislative and County tickets as well."
8—"He is progressive and yet conservative; progressive, insofar that he advocates and works for every measure that is for the good of the common people; conservative, insofar that he believes in protection to every human and property right."
9—"Having been associated with him in the Legislature, I know him to be right on public issues and well qualified for the position of Governor."
10—"His record is one of service and he has proven faithful to every trust and thereby endeared himself to the common people."
11—"Of all the candidates, Mr. Martindale is best fitted by experience, training and temperament to be Governor of a great State like ours."
In the election of 1910 Mr. Martindale, running on the same ticket, and 45,000 popular votes more than the born, and in 1912 55,000 more than the New-Yorker and 10,000 more than our popular Lieutenant Governor Ross.

A Bacon Breakfast

Braces a person up for the work of the day. Nothing else is so satisfying, nothing else supplies an equal amount of energy to "do things" providing.
The Bacon is mild, sweet and nicely streaked with fat and lean.
Now, you might think it was an easy matter to find such Bacon--BUT IT ISN'T. Most Bacons are too salty, or too fat or too lean, or too something or other. If you prefer something just right we can give it to you. Try an order.
