## Contract For New School Let To

Horner & Kelly.

The contract for building the new Central school was let to SUCCESSFUL AFFAIR WELL Horner & Kelly of Grand Rapids at \$47,000. The Kelly of the firm is "Joe," a former well known former local boy and a graduate Wholesalers and Retailers Fraof the Lowell schools; and Lowell people will be pleased to know that his firm got the job. The old building is to be sold

for wreckage today (Thursday)

This is the last week of school in the old building and the year's citizen put it. work will be completed in the lity hall building. The plan of operations therein is given in the

operations therein is given in the school notes in this issue.

The idea of moving the old building to another site for temporary school use was found too expensive and the expedient chosen will be more satisfactory.

The people are fortunate in havitage in the school use was found too. The citizens of Lowell accepted the invitation of the lowell business men and a general good time was enjoyed by all present.

The concert to be given Thursday by the Lowell schools promises to be a great success. The program consists of "Merry Lads and Lasses" and the "Kerry Dance" by the High School Glee The people are fortunate in having such good quarters as the City hall will afford for temporary school purposes.

Bills were allowed: Light & Power amounting to \$331.40; general fund \$469.22; City hall op. fund \$25.16.

Obituary-Mrs. Margaret Perry Margaret Frazee was born near Tiro, Crawford County, Ohio, Nov. 15, 1833, and died April 23, 1915, at her home near Saranac. She was married to David Hamilton Jan. 1, 1866, and settled on a farm near Elmdale. Mr. Hamilton departed this life in 1887. Later his wife moved where she married David Perry. In the year 1892 she moved on the farm near Saranac where she

remained until her death. She was converted in 1889 and ioined the United Brethren church at South Lowell and remained a member until moving to Saranac where there was no church of her choice. She was a good neighbor, always kind and helpful in time of sickness and lived

up to her faith until death. Funeral services were held Monday of last week at her home. Rev. Moxon of Freeport officiat-Burial in Bowne Center

News and Notes of Interest by T.F. Doyle's Long Illness Closed In Death

This community was shocked o learn of the death on Thesday morning, May 4, of T. F. Doyle, at his home in this village. Although it was generally known that he had been ill and confined to his house for a long period of time, with the announcement of his death came the realization that an honest and sincere man, a good citizen, a kind father and husband, and a Christian gentleman had gone.

He wasborn in Vergennes township, this county, on the 16th day of June, 1855 and was nearpresent, Archart, Henry, Lee, it to your town to keep your back sociation and under graduates day of June, 1855 and was near-absent Mange and Weekes. yard clean. Courter of active years of Mr. Doyle's life John Welsh, arrested for va- in many a day's hard labor. If Kalkaska and C. E. Balyeat of were spent in lumbering. At an early age he went to the lumber in the employ of Blodgett & Byrne for some years and also of the Muskegon Lumber Co. 1 the year 1886 he went to th state of Arkansas and there engaged in the lumber business for about twenty years. A portion of this time his family lived in Arkansas making their home in Pine Bluffs and Little Rock in that state.

His ability as a timber expert was known the country over. He estimated timber in many states of the Union and his services were sought after by firms and lumber companies knowing his ability in that field. He made many trips to the Pacific coast, British Columbia and Vancouver Island besides his activities in the Southern states. Since his removal to this village about seven years ago he had come to be known as one of our leading citizens. He has served as President of the Lowell State Bank practically ever since his residence here and was a director in the King Milling Company during the same time. He was public spirited, charitable, a friend of everybody.

The entire community mourns for his loss and extends its sympathy to his family in their sad pereavement. Funeral services were held at St. Mary's church, Lowell, this Thursday morning at 9 o'clock, with burial at Parnell cemetery near the home of his vouth.

S. O. Littlefield Passed Away Monday Evening

Samuel O. Littlefield died at his home in this village Monday evening, after a lingering illness. Funeral services were held this morning, Rev. L. A. Townsend officiating and interment was

made in Grand Rapids. Samuel Littlefield was born in Ohio, June 16, 1835 and was the son of Samuel and Candace Littlefield. The mother was early left a widow with a family of little children and came to Ionia where she had relatives. Later they moved to Grand Rapids where Mr. Littlefield lived

Twenty-seven years ago he was married in Lowell to Emma their home with the exception of four years in Big Rapids. Mr. Littlefield has been a mem-

ber of the Baptist church for many years: He leaves, besides his wife, a son Otis, by a former marriage, a nephew, James Scott and a niece Carrie Scott, both of in Grand Rapids. Grand Rapids, and numerous other more distant relatives.

## Spraying Profitable For Famers to the vicinity of Lake Odessa where she married David Perry.

The yield of apples can be increased 25 to 40 per cent in any orchard by proper spraying and the fruit will be larger, sounder and free from worms. It will soon be time for the second spray, just after the blossoms fall Spray with S. W. Dry Arsenate Lead, 11/2 pounds to 50 gallons of water; then follow ten days later with a second spray. The Arsenate of Lead will prevent the enormous destruction and loss caused by the 'Coddling Moth" commonly called "Apple Worm,"

S. W. Dry Arsenate of Lead is more economical than the paste, because it only takes 1½ pounds of the dry to 50 gallons of water; whereas it takes 3 pounds of paste to 50 gallons of water. Modern machinery, expert chemists' particular care in handling, has enabled the Sherwin-Williams Co. to market a dry Arsenate of Lead with a finer and a more perfect crystal than has yet been produced. Try it.

Put up in 1/4, 1, 5 and 10 pound packages,

## LOWELL LEDGER LANSING NOTES

Lansing-Practically every bit of legislative action this week was upon subjects that have been once threshed out and more or less thoroughly discussed and chronicled. The senate is worked exclusively on measures that have been discussed and voted upon in the house and house committees and the house order of business was made up exclusively of senate bills.

There was little interesting discussion. Where matters of difference And all work in connection arose conference committees were appointed, but there was little lively debate or interesting legislative action and the work dragged along with hardly an objection to punctuate the droning monotone of the reading

In the senate, the Stevens bill providing that persons receiving shipments of liquor in dry counties must give an affidavit as to their qualification under the law to receive was passed, but an amendment tacked on to relieve transporation companies of all liability. The Koehler bill providing that the declaration of independence should be read on certain Leans, Collections, Real Estate and public holidays in the schools was amended in the senate to include the Lowell, Mich. provisions of Representative Weissert's bill which makes it part of school qualification to memorize the National anthems. As amended, this bill went back to the house which concurred and the bill then was sent to the engrossing clerk to be prepared

> for the governor's signature. By practically unanimous vote the house in committee of the whole killed Senator Wood's bill providing that the state automobile license fee be increased from three to six dollars per year. On third reading several bills amending the general game laws were | Holland. passed. Among them was Senator Hilsendegen's bill making it unlawful to kill more than one deer.

Senator Hilsendegen's bill providing or a board of mediation and conciliation for the settlement of industrial disputes, which was killed Monday, was revived and passed by a vote of 66 to 26 and new life was given the of Horses Ogg bill requiring fraternal beneficiary societies to have rituals, when this bill was taken from the table and passed. However, it was so amended Monday that it is not operative until accepted by a majority vote of the membership of the societies coming under its provisions.

In committee of the whole the house agreed to Senator Scott's bill ed to young Kaiser's father. appropriating \$2,415,925 for the general expenses of the state government during the next two years. This measure which covers all expenses not in-Dr. W. B. Huntley cluded in special appropriations is Benton Harbor Woman Kills Husband

commonly known as the omnibus bill. As the result of a resolution intro duced by Representative Petermann that was unanimously adopted, the legislative employes in the house will receive pay until the date of the final adjournment May 20.

In a spirit of economy two years ago the legislative employes were Physician and Surgeon dropped from the pay roll on the date of the business adjournment, but this year the house employes will receive nearly four weeks additional pay. The clerk's force will be required to put in full time as there will be much work to be done after the lawmakers leave Lansing Thursday night, but many of the janitors, assistant sergeants and committee clerks will draw their pay although there is no

In committee of the whole the house agreed to Senator Murtha's bill appropriating \$100,000 for a campaign board of health. The bill was then placed on third reading and unanimously passed and ordered to take

immediate effect. Senator De Land's bill providing a senate, was placed on final passage Mitchell Co. deducted from its income Livery and Transfer senate, was placed on final passage Mitchell Co. deducted from its income in the house. Under the terms of the market value of timber stumpage, maintain offices in Lansing all the compensation during a session. They will also codify an compile the election laws of the state and have them they have already been elected Secretay Alward of the senate and Clerk Pierce of the house will hold the jobs during the next two years.

## MEN IS ADVANCED

AWARD BY ARBITRATION NOT SATISFACTORY TO THE EMPLOYES.

IS BINDING FOR ONE YEAR

Sixty-four Thousand Men Affected By Findings of Board Acting Under the Newlands Law.

Chicago-An arbitration award advancing to some extent the rates of pay of 64,000 locomotive engineers. firemen and hostlers employed on the. 140,000 miles of line of 98 western railroads in the great area of the United States and Canada bounded on the east by the Illinois Central and the Great Lakes, was signed here Friday. A dissenting opinion was filed on behalf of the brotherhood of enginemen, in which the arbitration was branded as a failure and the Newlands law, under which it was arranged, an inadequate device for the settlement of industrial disputes. The award, effective May 10 and binding for one year only, was frankly declared as merely postponing for a twelve-month the actual settlement of the differences involved.

The railroad members of the board issued a formal statement criticising features of the regulations governing the arbitration and remarking that certain concessions, regarded as intrinsically unjust, were made for the sake of preserving peace with the employes.

Judge Peter C. Pritchard, of Richmond, Va., chairman of the board stated that while in his opinion the men in certain branches of the service were entitled to greater advances than were made, he had to make conbe made, and he found much of a hopeful nature in the award.

Charles Nagel, of St. Louis, former secretary of commerce and labor, who with Judge Pritchard, represented the board of mediation and conciliation on member who issued no statement. He is known to have been deeply offended by the recent attack made on him back onto the same basis as before as an arbitrator by officers of the brotherhoods, who pointed out that he was a trustee of the estate of the late Adolphus Busch, and that railroad securities form a part of the assets of

## REPORTED SUNK

STEAMER GULFLIGHT VICTIM OF SUBMARINES NEAR SCILLY ISLANDS.

British and French Steamers On Same Day Sent to Bottom By German Under Sea Craft.

London-Three merchant shipsone American, one French and one British-were destroyed Saturday, with some loss of life, by German submarines operating off the Scilly Islands and the Irish coast, according to reports received here Sunday.

The ships were the American oil tank steamer Gulflight from Port Arthur, Tex., for Rouen, France; the French steamer Europe, from Burry for St. Nazaire, with a cargo of coal, and the British steamer Fulgent, destination and cargo unknown.

The Gulflight which left Port Arthur April 10, was torpedoed at noon Saturday og the Scilly islands, according to a dispatch received by the Central News agency. Her captain died of heart failure as result of shock and were drowned. The other members of the crew were taken off b ya patrol boat and landed. The vessel was towed into Crow Sound and beached. The Gulflight, a steel vessel of 3, 202 tons, was built at Camden, N. J. in 1914, and was owned by the Gulf Refining company. She was 383 feet

long, 51 feet beam and 30 feet deep. The Europe, according to a dispatch from Penzance, Cornwall was attacked Saturday morning near Bishop's rock, off the Scilly islands. The submarine first signalled the crew of the Europe to leave their ship. When they had done this, the submarine shelled the steamer, which failed to sink.

WHEN CLEANING THE HOUSE

Renovation of Furniture and Woodwork is One of the Most Important Considerations.

Housecleaning is here. We hear the sound of rug beating, see windows devoid of their hangings, come upon evidences every day that the annual cleaning period is under way.

Of course all furniture must be thor-

oughly gone over at this time. Fur-

niture, like other woodwork, tends to shrink if it becomes too dry, and

should be washed for the sake of moisture as well as of cleanliness. Hence furniture, besides being cleaned when necessary with suitable cleaning compounds, should be sponged occasionally with clear water and wiped dry. But do not use soap or washing powders on painted or varnished furniture. Remove dirt, dust and stains with other cleansing agents and rinse by sponging with clear water. Wipe dry, oil and polish. Detergents recommended for cleaning furniture, removing finger marks, white spots and stains CAPTAIN DIES FROM SHOCK are olive, sweet, linseed, paraffin and other oils; whiting, fuller's earth, cold tea, kerosene, turpentine, soda, es-

> phaltum, vinegar, various acids and combinations of these. To wash furniture, use a large sponge, wipe dry as possible with a chamois skin wrung out of clear water, or with a soft flannel cloth. Do not use dry chamois on varnished wood or polished surfaces. Wipe always in one direction, preferably with the grain of the wood.

sence of peppermint, camphor, as-

Wash carved wood with a stiff hair paintbrush dipped in clear water. Or wash with cold tea applied with a sponge or brush, wipe dry, oil and

To keep polished or varnished furniture in good order, each article should be gone over lightly once a week on cleaning day with clear hot (not boiling) water without soap, or with cold tea or any other suitable cleanser. Or, if there is not time for this, after dusting the furniture rub it over

with a cloth moistened with kerosene, turpentine, cold tea or cold-drawn linseed oil, or with a mixture of equal parts of these. This practice will assist in keeping it in good order.

HOUSEHOLD HINTS

Soap should be stored some time be-

fore using in order to get the best

value out of it. Remove wrapper, put

the soap on a tin and place in a hot

oven until moist, but be careful not to leave it too long or it will run out of shape. Remove and place in a cool spot. In a few hours it will be found hard and will last twice as long. When washing and rinsing colored

In the New York home of James Brood, Dawes and Riggs, his two old pensioners and comrades, await the coming of Brood's son, Frederic, to learn the con-tents of a wireless from Brood, but Frederic, after reading, throws it into the fire and leaves the room without a word. Frederic tells Lydia Desmond, his fiancee. that the message announces his father's marriage, and orders the house prepared mother, tries to cool Frederic's temper at the impending changes. Brood and his bride arrives. She wins Frederic's liking at meeting. Brood shows dislike and veiled hostility to his son. Lydia and Mrs. Brood meet in the jade room, where Lydia Brood meet in the jade room, where Lydia works as Brood's secretary. The room, dominated by a great gold Buddha, is furnished in oriental magnificence. Mrs. Brood, after a talk with Lydia, which leaves the latter puzzled, is startled by the appearance of Ranjab, Brood's Hindu servant. Mrs. Brood makes changes the boysehold and value her hydrand! in the household and gains her husband's consent to send Mrs. Desmond and Lydia away. She tries to fathom the mystery of Brood's separation from his first wife and his dislike of his son, but fails. Mrs Brood fascinates Frederic. She begins to fear Ranjab in his uncanny appearances and disappearances, and Frederic, remem-bering his father's East Indian stories and Ranjab performs feats of magic for Dawes and Riggs. Frederic's father, jeal-ous, unjustly orders his son from the dinner table as drunk. Yvonne follows Frederic to the jade-room and influences him to apologize to his father and the guarte for his alloged large. Brood tells guests for his alleged lapse. Brood tell the story of Ranjab's life to his guests "He killed a woman" who was unfaithful to him. Yvonne plays with Frederic's infatuation for her. Her husband warns her that the thing must not go on.

### CHAPTER IX-Continued.

"It sounds rather ominous." "If he waits long enough you may discover that you love him and his going would give you infinite pain. Then

is the time for him to go." "Good heavens!" he cried, in aston- dreams?" ishment. "What a remarkable notion

of the fitness-" "That will be his chance to repay James," said she, as calm as a May

"By jove, you are a puzzle to me!" he exclaimed, and a fine moisture came out on his forehead. "Let the boy alone, James,"

went on earnestly. "He is-" "See here, Yvonne," he broke in fair to him, even though I may not ap- dreams are-" pear to be. You are-"

"That is also a matter we cannot gently on his arm. discuss," said she calmly.

discuss, just the same," said he. "Sit have to say. Sit down!"

For a moment she faced him defiantly. He was no longer angry, and therein lay the strength that opposed her. She could have held her own with him if he had maintained the angry attitude that marked the beginning of their interview. As it was, her eyes | fell after a brief struggle against the dominant power in his, and she obeyed, but not without a significant tribute to his superiority in the shape

He took one of her hands in his, and stroked it gently, even patiently. "I will come straight to the point. Frederic is falling in love with you. Wait! I do not blame him. He cannot help himself. No more could I, for that matter, and he has youth, which is a spur that I have lost. I have watched him, Yvonne. He is-to put it coldbloodedly-losing his head. Leaving me out of the question altogether if you choose, do you think you are quite fair to him? I am not disturbed on your account or my own, but-well, can't you see what a cruel position we are likely to find ourselves-"

"Just a moment, James," she interrupted, sitting up very straight in the chair and meeting his gaze steadfastly. "Will you spare me the conjectures and come straight to the point, as you have said."

He turned a shade paler. "Well." he

Their Care and Cultivation

Beautiful Shrubs That Protect Bulbs.

### WHEN TO PLANT BULBS

By MRS. JOHN FIELD. Hardy bulbs should be planted as early in the fall as possible. Dealers will not begin sending out bulbs much before the latter part of September. Early orders get the

best bulbs. The best soil for bulbs for the house is a rich loam mixed with sand.

If too heavy, add turfy matter to lighten it. Always choose a well-drained lo

cality for your bulb-seed; if not naturally so, put at least six inches of noon sunshine. broken crockery, pieces of brick, old shoes, old bones, and the like in the bottom of the bed. Never take bulbs out of the package

leave them exposed to the light or air, as this will cause loss of moisture is to promote development of flowers; and weaken vitality. The scales of lily bulbs often beto the air, because of the evaporation All plants require a good light. of the sap, which is the life blood of the bulb. Such bulbs are weakened, and hardly worth planting. Put all

place until ready to plant. Many plants will grow well in an ordinary window in winter, but the bloom. If allowed to mature seeds, number that will soften freely under they cease to bloom. special preparation. Many failures kinds, as well as to the extremes of send out roots from the joint, wheth-

bulbs in the cellar or in a dark, cool

September is a good time to root cuttings taken from soft wood plants, but the "bloomers" for the house should have been slipped and rooted last May or June. Cuttings taken as late as September of the new halfripened wood of many annuals and perennials will make nice house plants and some of these should bear flowers if well cared for.

Hardy bulbs may be planted among shrubbery, and these will give bloom | plants. at a time when the branches of the up the grounds wonderfully. The good light, but some shade during the shrubbery will in turn serve to pro- hot season, where strong winds cannot tect the bulb flowers and foliage from | rack them.

disastrous effects of early, cold rain storms and rough spring winds.

### **GENERAL FLOWER HINTS**

Cut and pile sod for pot compost las Weather seldom affects weeds ad-

Heavy shade is often worse than strong sunlight.

Sow seeds for basket plants and window garden now. Don't neglect the potted plants; wa-

ter well, and shade from the after-Prune older, weaker branches from shrubs and roses that are done bloom-

ing, and mulch roots. Many plants will bear strong sky the florist sends them in until you light that would be badly damaged are ready to plant them. Do not if set in strong sunshine.

Prune out the branches of the dahlwater well, and tie to stakes. When shade is recommended, dark-ness or dense shade are not meant.

Root geranium slips now, if you want winter bloomers. Keep growing thriftily, pinching off all buds until late September.

To root hardwood, shrubbery plants, cut just below the joint, as all slips

heat to which the ordinary room is er soft or hardwood. Do not make the mistake of rooting for winter bloomers, plants that bloom only in summer. Some geraniums

> bloom more freely than others. For potted plants that must have sunshine, set the pots in a jardiniere, or set in a box with a packing of moss around them to encourage moisture. Evaporation is rapid; if showers are

few, the plants will become stunted

from thirst; if too much rain, weeds must not be allowed to choke the All shrubby pot plants should be set shrubbery are bare of foliage, lighting in a sheltered place, out of doors, with

TWENTY-SECOND YEAR Under one management Subscription by Mail, Postpaid ONE YEAR..... \$1,00

SIX MONTES..... TEREE MONTHS.....

Entered at the postoffice at Lowell, Michigan as second class matter.

Vox Populi, Vox Dei.

The Ledger believes with the immortal Lincoln in "Government of the people, for the people and by the people."

It believes there is on earth no higher power than the people, but usurpation that should be overthrown.

It believes that when rightly understood, "The voice of the people is the voice of God;" and that officials high and low who are unwilling to listen to and heed that voice should be relieved of public responsibility.

The following editorial from the Lake Arthur, La, Herald of April 9, shows what others are thinking along this line of popular rights:

"The wets won their fight in the supreme courts for saloons in Shreveport. Now will some bright young lawyer stand up and tell us Why is the supreme court?' and what authority has the supreme court to review a law passed by the representatives of the people. Do we have a government by the people or a government by the supreme court? If the supreme court has the authority to say what laws we shall be governed by, 'why is a legislature?' Why go to the expense of a legislature if the laws must be passed by a supreme court before they can be enforced? If we are to have an authority higher than the expressed will of the people what is the object in in allowing the people to express their will? The supreme court has usurped the authority it exercises over the acts of the legislature, and there is no place for a usurper under a democratic form of government. Let's abolish the supreme court!"

## What the Town Knocker Ought

Friend, you are continually harping on the idea that this town isn't a fit place to live in. You are everlastingly knocking on the people, their customs and habits. You say they have never been anywhere and will never learn anything. The idea you try to throw out is that you are strictly up-to-date and are entirely too wise to waste your precious time among this class of barbarians. It is all right for you to think that way but it is all wrong for you "to shoot off your mouth" about it. If you don't like it here, hike out to the greener pastures. The people got along all right before you came, and they will manage to wiggle along after you are gone. We will take it for granted that you are world traveled but most of us think you were never out of Podunk. We will also let it pass that you have been a power elsewhere, but most of us would bet that you have never held fy you here.

## The Business Outlook

The "World's Work," which indorses the Wilson administration, and the New York "Sun, which sneers at it, are both of the opinion that business has turned the corner on the road to good times. The members of the American Newspaper Publishers' association which held its twentyninth

Wednesday evening serial "Elaine"

An Interview with Mr. Ford

The following interview was given by Mr. Ford to one of the aggressive Ford agents, who returned to his home and gave it to his territory in the following newspaper advertisement.

This is the most Important Advertisement I Ever Caused to be Published. Read Every Word and then Marvel!

On a personal visit to Mr. Henry Ford 1 broached the subject of a possible August 1st Rebate.

(The Ford Company announced last year—as you well remember—that if their total sales reached 300,00 cars between August I, 1911, and August I, 1915, each purchaser during that period would receive back a refund of \$10,00 to \$20,00.) "Mr. Ford," I suggested, "Is there anything I can say to our people

with regard to the Ford Motor Company's 300,000 car rebate plan?" "We shall sell the 300,000," was the quiet reply—and in 11 months. i full month ahead of August 1st?" "Then a refund is practically assured?

"Yes-barring the totally unexpected. We are 50,000 to 75,000 cars behind orders today. Factory and branches are sending out 1800 cars

I then said to Mr. Ford; "If I could make a definite refund statement we could increase our local sales 500 cars. "You may say," was Mr. Ford's deliberate and significant reply to this "You may say that we shall pay back to each purchaser of a Ford car between August 1, 1914, and August 1, 1915, barring the unforseen, the sum of \$50. You may add that I authorized you to make this statement!"

What can I add to the above? \$15,000,000 cash coming back to Ford owners! And to prospective Ford owners up to August 1, 1915, it actually means—Ford Touring Cars for \$490—less the \$50 rebate! Ford Runabouts for \$110—less the \$50 rebate! What is there left for me to

Training of Child Is Most Important
By MARY E. WYNNE, Boston, Mass.

mind and the body of the child is one of society's most important works and that to do this well the home must co-operate with the school, would seem most apparent

That the training of the

facts. But a very large proportion of the fathers are so engrossed in getting enough dollars to keep body and soul together that they leave the care of the children wholly in the hands of the mothers.

The crowded tenements afford little opportunity for real home life. Home means merely a place in which to eat and to sleep.

There are hundreds of women like the workingman's wife who said: "I just dreaded Saturdays because the children drove me nearly crazy, but now that a movie picture house has come into our neighborhood I pack the whole five kids off every Saturday and the house is as quiet as on a school day."

In other words, she paid 50 cents a week out of her husband's meager wage to get rid of the sight and sound of her children. Her idea of responsibility to them is to cook for them, to buy their clothes, and when sick to take them to the infirmary.

She represents a large number of parents who think that the chief business of the school is to take the children off their hands for the larger part of the day and to provide a safe place for them to be off the street, out these parents never trouble themselves to know what their children may be learning, nor what habits and ideas they may be forming at school. With multitudes the struggle for mere existence is so strenuous that they have neither the intelligence nor the time for any thought beyond that struggle. Hence poverty is one cause of parents' indifference to the school.

But a far more reprehensible indifference is often found in parents vho have had greater opportunities and whose income gives them a chance o think beyond the everlasting demands of the butcher, the baker andworst of all—the landlord. The other day one of these well-to-do mothers aid, "If I had time I should visit Jack's class while Miss - is eaching, for Jack, who has always liked school, this year hates it. But 'm so busy I can't find time."

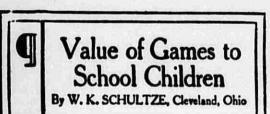

Then she settled down to embroider her initials on bath towels! So usy she could not get time to find out what influences were being exerted n her boy that were showing themselves in an entirely changed attitude owards his school life.

Near the end of the year she received notice by mail from the teacher hat Jack's work, which had steadily grown worse throughout the year, rould prevent his promotion. Jack would have to take two years to do ne year's work. The irate mother now found time immediately to visit he teacher, and expressed vehemently her surprise and indignation that er boy, who had always been considered "smart" by his other teachers, hould have done so poorly with her.

When the teacher could get a word in edgewise the mother learned nat this year Jack had chosen for his intimate associates a group of idle, garette-smoking boys whose influence had been most baneful.

"Surely you know your boy's playmates and have seen his bimonthly ports, for here they are, bearing your signature." Then the poor mother new that her boy had lied to her when he said his teacher did not send me reports, and had, moreover, forged her signature. Had she or the

An intelligent interest in the child's welfare would lead the mother o visit in a friendly way each teacher under whose influence her child comes. Since so little of this is done, one must conclude that another large proportion of parents are stupidly indifferent to the importance of the school upon the lives of their children.

Do teachers and parents sufficiently realize the great and good influence of contests on young people? public view, where they

learn to act with dignity, to think and speak on their feet. This publicity begets confidence. Contestants are not afraid to hear their own voices nor to see their own shadows.

In after life everything worth while has to be contested for, and the trained contestants win life's prizes. The medal winners graduate into North sea almost to the Indian ocean. pathfinders, leaders of men and women. Baseball, football, harness racing, cards, chess, dancing, running, boxing, skating, acting, sailing, rowing, swimming, debating, reciting, music, art work, singing, shooting, fencing, tennis, billiards, lacrosse, all develop manhood and womanhood enormously, if sanely enjoyed.

The bestowal of the laurel wreath upon one's brow or the pinning of times. It was on the Chersonese, the the medal on one's chest is an experience which is ennobling and encouraging. Pity those who never experience this ecstasy.

Games develop valuable youthful faculties as nothing else doesmemory, the nerves, caution, endurance, bravery, strength, sportsmanlike

fairness, sportsmanlike courtesies and application. Sports inculcate a desire for nice apparel and a handsome bearing.

The contestant is never a quitter. The chest which is adorned with trophies is not liable to belong to a thief, backbiter or weakling of any class. No one realizes what it is to win a hard-fought contest in either of the great fields until he finds himself face to face with the test, with a sea of faces looking on.

The moving picture machine will prove of far greater benefit to humanity than a simple amusement and recreation.

I believe that in a few years motion picture exhibi-

LA/ 4114 A MAG

tions will be a part of every school curriculum. A moving picture machine is not an expensive article, and in schools where expensive laboratories are impossible the most delicate experiments in chemistry and physics, as well as more intricate sciences, can be shown with as good results as though the professor were to stand before the class and give them an actual exhibition.

The possibilities of the camera are almost limitless, and in recent years pictures of bacteria have been produced with ease. By the use of the motion pictures experiments with the rarest substances and germs shown only in the largest colleges can be brought to the humblest school and displayed, enabling the students to get a training equal to that of a course in a much better equipped college and at less expense.

Lectures can accompany the films and be read during the progress of the picture, to add to its interest and instructiveness.

I am told that the plan has already been tried with great success in ome western schools, and I do not doubt that in a few years it will be quite the usual thing.

A college professor says the minimum wage for single women should be \$9 a week, but a single man could not live under \$10. This is another outrageous blow at the equality of the sexes.

A new lever is to be added to the automobile. To touch it in time of danger is to prevent skidding. Those who have attempted a skidding bout will appreciate that invention. is exhibiting a mammoth bobcat which

he killed several days ago about five But just think of the lectures we will have to tolerate after the war!

Motto of the submarines: "There's always room at the bottom!"

### **AEROPLANE SCOUT RETURNS TO REPORT**

This picture shows one of the armored aeroplanes of the British corps, snapped just as it returned to its base after having gone on an important scouting expedition. The lieutenant, who had been making observations of the enemy's positions, is hurrying off to report his findings to the commander

## **CPENING OF DARDANELLES MAY** HAVE WIDE REACHING EFFECTS

Development of Indicated Operations Seems to Purpose Expulsion of Turks From Constantinople-Allies in West End Need Oil and Grain, While Russia Desires Southern Ingress to Her Territory for Her War Shipments.

correspondent writes: The most striking characteristic of which its main interest centers first in one part of the world and then in that off the Dogger bank, while on land attention is riveted at one time on the Belgian coast or the campaign in Lorraine, and at another in the Carpathians or on a life-and-death struggle in Poland. This week the minds of both naval and military watchers of the conflict have been directed to the Dardanelles, the gates of Asia. There another phase of the world-wide war is opening, the effect of which no man can tell.

Each of the contending empires in the conflict possesses an advantage which in a measure compensate one the other. While Britain holds the Every form of game brings command of the sea, Germany has the the youthful contestants into interior position on land, which enables her to strike alternately heavy blows on either front. She also has been able, with the assistance of Austria and Turkey, and aided by the geographical conditions, to drive a wedge between the communications of her enemies which extends from the ships themselves will be comparative-The movement in the Mediterranean indicates the determination on the part of the superior sea power to cut located by the British submarines is that wedge in two.

The strategic importance of the straits between Europe and Asia has been recognized from very ancient peninsula on the western side of the straits, that the Turks got their first foothold in Europe. It may very well be that if it now falls into the hands of Great Britain its occupation by British troops will mean the uprooting of the last vestige of Ottoman rule in the northern continent. There are at least indications of the development of a far-reaching operation from both ends of the Sea of Marmora, having for its purpose the expulsion of the Turk from Constantinople.

There are other objects of first-class importance to be obtained from a successful attack on the Dardanelles. Now that the Archangel route is closed by ice, communication between Russia and her allies has almost entirely ceased. There is no outlet for the immense supplies of corn and oil of which they are in want and which she could furnish, and, on the other hand. the only source of supply of the munitions of war, which she cannot manufacture herself, must be brought over the long and difficult road from Vladivostok and Harbin. The opening of the Dardanelles and the Bosporus must have, therefore, an immediate and important effect both in the western and eastern theaters of war. Nor can it be doubted that a substantial gain of this character to Germany's foes would directly influence the nations which have been for so long hesitating about entering the war. All the Balkan States would be affected considerably, and while Greece could scarcely stand still with Russia at the gates of Constantinople, Italy might well feel that this sharp stroke removed the last doubt as regarding the side with which she should be acting.

Dardanelles have long been regarded as impregnable, it is more than likely that as other fortresses have

wild animals yet in the woods of this ing.-Kansas City Journal.

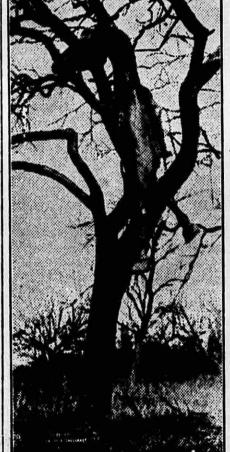

New York.-The Herald's naval against the modern materials of war, so those in the straits will be overwhelmed by the mass of explosives this great war is the rapidity with hurled upon them from the long-range artillery of the battleships of today. killed by her brother, Louis Crowden When the forts in the straits were Miss Crowden is in a serious condition little food value in themselves, though another. Something like eight thou- planned ships were dependent upon sand miles separated the scene of the wind and they carried guns which

> those mounted in the land batteries. a British squadron through the straits in 1807 his vessels were assailed with huge shots, some of them weighing 800 pounds, but even these heavy missiles did little damage. Today the British ships will throw shells filled with high explosives, each more than double the weight of the shot thrown at Vice-Admiral Duckworth's ships, and the destruction wrought by such missiles

will be immeasurably greater. Moreover, it is unnecessary for the ships themselves to approach near enough to be injured by the shore batteries, even if the guns in these have been somewhat augmented from German sources. It is already announced that the forts at the mouth of the straits, about two miles apart, have been crumbled into atoms, and those in the narrows, further up, can be similarly treated at ranges at which the ly immune. There remain other obstructions in the shape of mines in the channel, but that these have been

WHAT ONE SHELL DID

Trenches in Poland.

Few people realize what great power there lies in the modern shells and explosives. This unusual picture vividly tells what an enormous amount of destruction a shot from one of the French 75 mm. guns is able to accomplish. When this horse was struck by the shell the force of the shot cut the animal in two and lifted Of the operation itself, although the the fore half of the carcass into the

Modern Living.

certain, and their removal should be no difficult task. Once the passage is clear for the ships of war, and these are off Gallipoli, the remainder of the business is simple.

With the numbers and composition of the Turkish garrison in the Gallipoli peninsula the British authorities must be acquainted, and, the forts being destroyed, a force of sufficient strength doubtless will be landed, if necessary under the fire of the guns. The configuration of the mainland by a narrow isthmus not four miles wide at Bulair, and open to bombardment from the sea at either side, makes the occupation and holding of it by the stronger sea power easy. The pos session of the peninsula, as the late admiral of the fleet, Sir Geoffrey Hornby, said in 1877, when he took an ironclad fleet through, guarantees a safe passage, not only for the ships of war, but for their auxiliaries as well.

The appearance of a Franco-British fleet off Constantinople and the consequent wiping out of the Ottoman navy, even with its German re-enforcement, will make the task of Russia at the Bosporus end a light one. Already, it is said, Russian forces are assembling at Odessa and the transports are available whenever required, so, in the opinion of many astute onlookers, the ultimate success of this undertaking is scarcely in doubt. It will be one more lesson of the ubiquitous exercise of sea

Girl Bitten by Rodent Thought Her Cheek Punctured by Hypodermic Needle of Night Intruder.

Lafayette, Ind.-Miss Bernice Crow den heard a noise in her bedroom at her home and, thinking it was a burglar, did not move. In a few minutes they are sometimes eaten in a salad. she felt warm breath on her face and was too badly frightened either to gredients of cakes, creams and confecscream or to move. She thought that tionery, being added for the flavor the was about to be chloroformed and which they impart. Saffron and maria second later, when she felt a sharp gold petals once were considered imsting in her cheek, she was certain that a hypodermic needle had been used by a burglar. She screamed for her brother, who rushed into the room and found Miss Crowden's cheek bleeding.

The cause of the wound was not determined until a physician was called. He declared that the young woman had been bitten by a rat. A rat, believed to have been the one that bit the young woman, was caught and Cooked squash flowers may be folded from the nervous shock.

## TO PREPARE AND

AGRICULTURAL DEPARTMENT EXPERTS GIVE RESULTS OF STUDY AND EXPERIMENT.

Certain Species Are Eaten as Vegetables-Garden Flowers for Cooking Purposes-Stale Cucumbers Are Bad for Digestion.

(Prepared by the United States Depart ment of Agriculture.) It is not generally realized that there are certain flowers and fruits that we prepare and eat as vegetables. One example is the portion of the cauliflower we eat, namely the flower head, and the globe artichoke (quite a different plant from the Jerusalem artichoke which yields edible tubers) is another. Capers, cassia buds and cloves are unexpanded flower buds. Among the fruits that we use as vegetables may be mentioned the pumpkin, squash, cucumber, peppers, okra, eggplant and tomato, and very often the banana and IMAGINED RAT WAS BURGLAR more commonly the apple, for instance, in the old-fashioned fried apples often served with meat.

> Pickled Nasturtium Buds. Some of our popular garden flow cooking purposes. Nasturtium buds are sometimes pickled, and as their flowers have a flavor like water cress, Orange flowers are well-known inportant adjuncts in cookery, chiefly for the yellow color they imparted, and are often mentioned in old recipes for soups, etc. Saffron is still a staple article in use by professional cooks. In southern Europe squash blossoms and the tiny squash to which the blossom is attached are dipped in batter and fried, and locust flowers also are used for fritters in France, as are elder blossoms in Germany. in an omelet. But such things have

purposes. Rose petals are used in the Orient for making a very sweet

Violets are used in cookery for imparting a purple color, while a number of other colors are made from blossoms or leaves, the more common being spinach. Some highly-prized flavoring extracts are made from flowers; for instance, rose extract, orange flower water, and a sirup of violets. Nasturtium flowers are used like tarragon flavoring vinegar. Valuable Vegetable Fruits.

The distinction between a fruit and a vegetable is not always easily made. On the borderland between the two are a number of valuable food plants which have appropriately been called 'vegetable fruits." Members of the gourd family have already been cited. This family furnishes the largest fruits of any known plants, some being over eight feet around and weighing more than two hundred pounds. The squash, both winter and summer varieties, vegetable marrow, cucumber, and melons, belong to this family. Careful cooking will make a great deal of difference in modifying the texture or flavor of squashes or pumpkins. The best of these are heavy in proportion to their size, having thick rather than thin flesh. Where the fibers are coarse, long cooking and straining will reduce them, and an excess of water may be evaporated. Where the shells are hard, bake or steam and then scrape out and mash the flesh. Baked in the pan with roast beef, mutton or other meats they gain

an added flavor. The cooked, strained pulp of squash or pumpkin, in addition to its use for pies, is sometimes combined with milk or stock for soups, or is added to doughs like those of corn bread or muffins, or may be cooked with sugar and spices for marmalades.

to grow too large. Either variety, crookneck or turban, should be so tender that the seeds and skin are edible be cut in slices and fried, though they are most commonly boiled. When

Stale Cucumber Bad for Digestion. Many people do not eat cucumbers. because they fear they may cause indigestion. This is often true if the cucumber is stale, wilted or overgrown. A fresh young specimen, thoroughly peeled and left in cold water (sometimes salted) before serving, loses its bitter juices and is a palatable and usually healthful relish.

The cucumber may be served as a salad by itself or to accompany fish or meats, or may be grated to add to rich sauces. Cut in strips it may be cooked, and served on toast like asparagus, and cooked in many other ways. The skin and seeds may be removed and the firm flesh used as a case for salads or, like pepper and tomato, filled with forcement and baked. A little onion cooked with sions with other vessels. creamed cucumber improves it for

The tomato is a vegetable fruit to ishes and a large variety of many being in an excess of grief. To head noted as one of the fiercest of the serious phases of the high cost of liv- the rescuers can drive away the ani. materials appetizing. The sour taste ened of men," says Lance-Corporal Z of the tomato is due chiefly to citric Stilton.

acid, its distinctive flavor to special

substances difficult to identify. The peeling of tomatoes may be easily removed if the tomatoes are plunged into boiling water for less than a minute, then drained, and chilled over ice, if possible. They may then be peeled when needed. Perfectly ripe tomatoes may be scraped with the back of a knife to loosen the skin. which then will peel easily, but this is less rapid than the scalding process. If cooked tomatoes are to be strained, it is unnecessary to peel them before stewing, as the skin will remain in USING FLOWERS AND FRUITS the strainer with the seeds. Some persons believe that immersion in hot water injures the appearance and flavor of the tomato and peel them without this treatment.

Many persons prefer to serve tomatoes unpeeled, particularly the hothouse tomato or other varieties with thin, tender skins. If this is done, the tomatoes, like all other fruits or vegetables eaten raw, should be washed carefully. The very small red tomatoes which grow in clusters, known as cherry tomatoes, often found in large markets, are very attractive for salads. These and the yellow plum tomatoes are perhaps always eaten without peeling.

When a banana is used underripe it s less of a fruit than a vegetable. It is also commonly used for fritters. It may be baked or fried like a potato or yam, and served with meats. The South has come to appreciate this fruit as a vegetable more readily than the North, though such uses are

now very general. A simple way to cook bananas: Remove the skin, scrape off the rough outside, cut large ones in two across, ers occasionally have been used for dip in egg and crumbs, and fry brown in deep fat.

HER TIME WELL OCCUPIED

Pity the Poor Society Woman Who Is a Martyr to Duty of Being Well Dressed.

The other day I called on a friend vho lives in a fashionable New York apartment. She told me she went every morning for a "fitting."

I protested. "You mean in the spring and fall, when you are getting your things

don't you?" "No; I mean every day, through the eight winter months. It's an awful nuisance. No wonder I'm a nervous wreck. I wish John would let me wear ready-made things. It's absurd, but it's a fact that I hardly ever go they help to give variety to the diet. through the day without going either Sometimes rose petals, violets, and to the tailor, the dressmaker, or try good many things made between sea-I have to squeeze in time to go shopping; I want to see what the new imported things look like, and go to the openings. I've discovered a dear little Frenchwoman who makes all my lingerie (my friend wears lingerie, not underwear), and very cheaply, too, considering the exquisite work she does, but she expects me to tell her just how I want everything done, and to choose designs for the embroidery, and to buy the lace and ribbon; and, of course, I try on every garment. Stockings and veils are about the only thing I can get ready-made, and it takes a lot of time selecting them. Don't you think the new veils are awfully trying?"-Atlantic.

Tobacco in History. It has been settled to the general satisfaction of students of tobacco history that one Hernandez de Toledo introduced the smoking habit into Spain and Portugal in 1559, and that he brought his tobacco from Santo Domingo. Jean Nicot was the ambassador of France at the court of Portugal and he, acquiring the habit in Lisbon, carried it with him back to France, where the habit took hold in fashionable circles some time before Sir Francis Drake and his men carried Indian pipes and tobacco to England in 1585, at which time Sir Walter Raleigh set the pipe-smoking fashion at the court of Elizabeth, whence it. spread over England. The habit of taking snuff followed closely in the trail of the pipe smoke.

Fishes See Well.

An examination of the eyes of many fishes in the tanks of the public aquarium at New York was recently made by means of the retinoscope and other instruments. It was learned not only that all fishes can see well, but, that of the many examined none was The summer squash is not always near-sighted nor suffered from any abfully appreciated because often allowed normality. Considering their big, rolling, glassy eyes, a squint-eyed fish would be a horror! The glassiness, by the way, is owing in many cases to the when cooked. Summer squashes may fact that, in the absence of lids, the eyeballs are protected either by a slimy material, or by a transparent fully grown they may be used like skin; these are not noticeable in life, winter squash, skin and seeds being but after death quickly become cloudy or opaque. Fishes such as the absurd little puffers, which dig in the sand, have real lids that close over the eve. The studies of fishes' eyes have proved valuable in understanding and relieving human near-sightedness.

A "Searcher Out."

The science and genius of Mr. Marconi have made it almost impossible for alien spies to use a wireless telegraphic installation in the British Isles, but there is in use by the war office a "searcher out," which indicates the whereabouts of any "wireless" used for the receipt or dispatch of messages. It is called the direction finder, and was primarily intended to enable the navigation officer of a ship to take bearings of wireless telegraph stations, with a view to finding the position of his ship or avoiding colli-

The Charger's Lament. "One man of the - Lancers I which cookery owes much, although found lying on his back with his eyes for many years it was supposed to be staring at the skies. He was dead, poisonous. It has been used in this without doubt. Standing over him country for less than a century, but was his horse, without a wound. It its growth in popularity has been was looking into his face every few combinations of soups, sauces, rel- ful way that sounded just like a human

(1) Foley's Honey and Tar Compound, the standard family remedy for coughs, colds, croup, whooping cough, tightness and soreness in chest, grippe and bronchial coughs.

(2) Foley Kidney Pills, for over-worked and disordered kidneys and bladder ailments, pain in sides and back due to Kidney Trouble, sore muscles, stiff joints, backache and rheumatism.

For Sale by M. N. Henry.

## You will have only yourself to blame if you are "talked into" buying an "unsuitable" or a "theoretical" Car.

The two commonest mistakes made in buying an automobile are—First, Buying a car not suited to your needs.—Second, Buying a car that has not passed the theory stage.

The first mistake-buying an "unsuitable" car-is perhaps made even less often than the second. But for your own sake study your needs sensibly, just as you study your household needs, and buy a car you can afford to enjoy—a car you will have pride in, and yet one that will not be a "ghost of reproach" to your good sense.

The second mistake - buying a "theoretical" car - is perhaps the sadder mistake of the two-because when you have made this mistake, you have on your hands some engineer's or designer's untried theory, instead of a tried, known, successful car. And you have paid a price that, put in the right car, would never have been a reproach — but would have

bought an automobile of real pride

It is because we see these two mistakes being constantly made - because we see sensible people being constantly talked into these "automobile fiascos" that we boast so much about the record of the car we sell-The Maxwell.

38,000 happy satisfied Maxwell owners are driving 38,000 handsome streamline Maxwell Cars to-day—at an up-keep cost that any man of any standing can afford, and at an original cost that is simply a practical investment.

## 200 Maxwell Cars Every Day

Twelve hundred a week, five thousand a month. That is the actual output of "The Wonder Car" right now and constantly increasing.

Not bare promises that cannot be kept, but actual deliveries to Maxwell Dealers.

Stop! Think a moment. There must be something back of a production so great. There must be the hearty approval and confidence of the public in the car they buy and the car must merit it all.

26 Maxwell cars every hour of the business day. Yes, that is just what the public are buying, and when you order a Maxwell, you get one the day you want it.

Back of each Maxwell stands one of the greatest and most efficient organizations in the industry, and one strong enough financially to insure you against the purchase of an "orphan car" and to give you actual deliveries of a wonderful car on the day you want it.

## The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers -in every part of this country-are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices. This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

### ELMDALE Last Saturday morning Elmdale

had another ratiroad tragedy. While

walking up the trackenroute to Elm-

dale with a small pail of eggs to do trading, David Arnold was struck and killed by train No. 48, ¼ mile north of town. Train No. 48 did not discover the tragedy at the point where the accident occurred, the crew could not see him, as the engine was running backward. His body was not discovered until after the section of the morning freight No. 61 had also passed over the body. Conductor Rochester, who was standing on the back of the calabose, was the first to see the mangled body lying on the track. He at once notified the crew and the Elmdale section force were called and they guarded the body until Justice Andrews of Lowell, who was called, arrived. He ordered the body taken to the depot where it was held until the Lowell undertaker to show deserved appreciation. ell. Mr. Araold was a man 75 years old and lived alone 1', miles north and 1/4 mile east of Elmdale. The only

relatives that are known of, are several grandchildren who live at Moitne. W. E. Chambers loaded a car of potatoes Friday and Saturday, the buying price being 25c per bushel.

to distinguish any of the objects, and the Turks

Fascinating possibilities exist in the thought

of what the dust that has been accumulating

since the year of the conquest by Mohammed II

may conceal. It is doubtful if many treasures

in gold and silver and gems will be found, though

even this is possible. But the chances that pre-

cious manuscripts of the classics may be dis-

covered are greater. Splendid libraries, contain-

ing, probably practically all the lost classics,

the sultan's library, which have been seen, and

that only hastily, by few foreigners. But the

chief hope of scholars lies in their trust in one

of the least objectionable traits of the Moslem,

his dislike of destroying anything with writing

on it. Even if he does sacrifice pictures and

sculpture, he usually leaves books alone, in case

the name of God should be written on them.

Had it not been for this superstition the world

would be very much poorer in the old learning

be remembered that Constantinople is to the

Russian church and to its adherents what Rome

is to the Roman Catholics, and for the last 200

years in particular it has constituted the prin-

cipal object of all Muscovite religious and po-

litical aspirations. Without attaching any

credence whatsoever to the purely mythical tes-

tament of Peter the Great about Constantinople,

a document which was never heard of until the

beginning of the nineteenth century, nearly a

bundred years after his death, and which is a

forgery concocted by the Pole Sokolniki and the

Frenchman Lesueur, at the instance of the first

Emperor Napoleon, there is no doubt that Czar

Peter had set his heart upon the acquisition of

Constantinople and had impressed this idea upon

However, whether the will be authentic or

genuine or not the fact is it does embody na-

tional aspirations, and has had a great effect on

Catherine the Great was equally bent upon

transferring the capital of her empire from

Petrograd, and from Moscow, to Stamboul, and

when Napoleon I and Alexander I planned to-

gether their sharing the dominion of the world,

the Muscovite ruler insisted upon the possession

of Constantinople on political and religious

grounds, declaring it to be "the key to the door

of Russia." Napoleon would not and could not

his people as a national ideal.

Russian imagination.

As for its strategic and political value it must

There are known to be 3,000 manuscripts in

Islam desecrated the holy places as the conqueror rode into the city through the gate of St. Romanus. And, as he entered the palace the new ruler was heard to recite, so tradition has it, some lines of Persian poetry running as

"The spider has spun her web in the palace of the Caesars, "The owl has sung her watch song on the

towers of Afrasiab." Supersaturate with history as is the city, its present-day aspect, as the long revenge of time hastens to its final satisfaction, and the crosses that will replace the crescent are already in the making, is one that is more redelent and reflective of the immediate down-at-the-heels Orient than of the earlier cen turies It is a medley of mosques and minarets, of magnificence and squalor. of kiosks and cafes. Palaces jostle miserable huts. and enchanting kiosks, in Saracenic style, gay in color of stone, stucco or tile, and with superb by side with the cheapest of frame houses and mean cafes. Broad open squares, like unkempt back lots where tin cans and goats most do congregate, however, are contrasted also with the narrowest of illsmelling alleys doing duty as streets, and yet above all this meanness, all this huddlement of cheap and unpretentious buildings

the use made by the Moslem conquerors of the of the London Times, who for a period was emseven hills, more or less dominated by splendid ployed by the Turkish Tobacco Regie. Mr. Bell seraglios and mosques, including the metamorphosed Santa Sophia itself, gives Constantinople today its peculiar character above all other cities, and makes the near or distant view under varying aspects of sun and season one of unrivaled magnificence, so that it is today the chief picture city of the world.

The mosques seem to be part of as well as rising out of a sort of curious mushroom growth developing out of roofed refuse of stone and stucco that spreads all over the two sides of the Golden Horn, that famous arm of the bay on which the city is situated with Stamboul, the old city on the west, and Galata and Pera, where the foreigners live, on the east, stretching along the shores of the Bosporus toward the Black sea. And the mosques are wonderful. Here they rise, huge masses of clustered rectangular structures with all sorts of subsidiary buildings, as it were, fied up to and plastered against them. And then out of this squat mass appear the soaring, slender minarets, cutting the blue sky in lovely tapering outline, broken only by the balconies, from four to six in number, the latter grouping only allowed in one case, however, while above the central section, fortlike in character, the domes and semidomes are uplifted, all to be crowned by the great dome which balances the entire mass in a manner that seems pure chance, but makes an indescrible effect of beauty and proportion, as is in evidence in the great

mosque Jeni-Jani near the Galata bridge.

Dolce far piente days will soon be over if it again yields to the new invaders, and a new era of enlightenment sets in. Then the street and public life will take on a new aspect and the city will be once more a place of pilgrimage. Moreover, when the capital is once more in Christian hands, what a chance for the antiquarians and archeologists and classical scholars and specialists! Every ruin should yield treasures, and of all the promising places the most promising are the mysterious vaults under the great Agia Sophia mosque, formerly the Church of St. Sophia, originally built by Constantine in 326 opposite his palace and dedicated to the Divine Wisdom (Sophia). The church as it exists today, one of the greatest buildings in the world. was erected in 532-537 by the Emperor Justinian. Anthemios of Tralleis and Isidoros of Miletos were the architects. Fossati, an Italian architect, undertook a thorough restoration of the exterior of the building in 1847, when it was

painted yellow with red stripes. It is in what may lie under St. Sophia that the interest of archeologists will center. These vaults have always been jealously guarded by the Turks, and few indeed have been the outsiders allowed a peep at them. One of those who gaw the most was the late Moberly Bell, manager

The "will" is probably less authentic than that broken in the coiffure of the day is famous mot of the Czar Nicholas, who just be the straight, clean line upward from fore the Crimean war in 1853 said to the British the nape of the neck to the lower ambassador, apropos of Turkey, that "we have edge of the crown. Short hairs are slipped and held in position in the carrying out Saul's foul designs. This on our hands a sick man-a very sick man. It apt to make this line broken and will be, I tell you frankly, a great misfortune if

one of these days he should slip away from us; especially before all the necessary arrangements have been made." The English ambassador was strictly noncommittal even after the czar had pointed out the horrors of a general European war which might ensue if the great powers were not careful, so the Russian autocrat repeated his remark about the "sick man" to Prince Metternich, the celebrated wit, who

was the Austrian ambassador, and it was Metternich who cynically turned the tide against any European co-operation with Russia in handling the Turkish situation, by remarking curtly,

Ahem, the sick man, the sick man; is your majesty speaking as the doctor in the case or as the uneven, and as the barrette is not add a few drops of vegetable coloring life. This explains the expedient of heir." With that the other powers turned against fashionable, the twisting sideways of and mix. his own interests. How many of us, like Jonathan's lad. unconsciously bear tidings of mighty import, messages of life or of condem- "We're getting up a May day celenation, as we go about the discharge bration. Can you suggest any fea-

The Lessons of the Lesson. True friendship costs. God's love gave to the world his Son. Jonathan's frlendship for David was costly, but was given gladly, not grudgingly. True friendship neither forgets duty nor neglects its desire towards the object of its love. It is not governed emotionally, yet it disregards all other ties, if they are wrong. Not even a father or mother should lead us to wrong a friend. When David came into power he remembered the everlasting covenant made with Jonathan (II Sam. A Feer Model of Gray Taffeta With a 9:5). Our "Son of David" has made a White Pique Vest, Full Ruffled similar covenant with us (Acts 16:31: 2:39). True friendship is of slow Parasol Is a Gray Silk Canopy growth, but is not easily killed, chilled by reverses, nor frozen by adversity (Prov. 18:24). True friendship is unselfish. It gives and does not seek. Jesus called his apostles friends (John 15:15), for a true friend will The V-shaped neck line is still in give up even his life for those he evidence. thrown to the winds. desk. "I left a note for Mr. Warrington who has gone to Saigon. I see is this?" it in his key box. Will you please return it to me?"

The clerk did not hesitate an instant. He gravely returned the note to her, marveling at her paleness. Elsa crushed the note in her hand and moved toward the stairs, wondering if she could reach her room before she broke down utterly. He had gone. He had gone without knowing that all he wanted in life was his for the taking. In her room she opened the note and through blurred vision read what was alone. He paused before the door she had so happily inscribed the night before, "Paul-I love you. Come to me. Elsa." She had written it, unashamed.

She flung herself upon the bed, and there Martha found her. "Elsa, child, what is it?" Martha

shoulders and stared into the faithful Well, I love this man Warrington and he loves me. But he has Elmore. Tell him that Mr. Ellison is gone. Can't you see? Don't you un- here." derstand? I am going to Saigen; up and down the world, east and west, until I find him. Shall I go alone. or will you go with me?"

Then Martha did what ever after endeared her to the heart of the stricken girl-she mothered her, "Elsa, my baby! Of course I shall go with you, always. For you could not love any

man if he was not worthy." Then followed the strangest quest doubtless ever made by a woman. From Singapore to Saigon, up to Bangkok, down to Singapore again; to Batavia, over to Hongkong, Shanghai, Pekin, Manila, Hongkong again, then Yokohama. Patient and hopeful, Elsa followed the bewildering trail. She left behind her many puzzled hotel managers and booking agents; for it was not usual for a beautiful young woman to go about the world, inquiring for a blond man with a parrot. Sometimes she was only a day late. Many cablegram's she sent, but upon her arrival in each port she found that these had not been called for. Over these heart-breaking disappointments she uttered no complaint. The world was big and wide; be it never so big and wide, Elsa knew that some day she would find him.

In the daytime there was the quest; but, ah! the nights, the interminable hours of inaction, the spaces of time in which she could only lie back and think. Up and down the coasts, across islands, over seas, the journey took her, until one day in July she found herself upon the pillared veranda of close the door as you go out." the house in which her mother had; been born.

CHAPTER XIX.

The Two Brothers.

From port to port, sometimes not stepping off the boat at all, moody, restiess and irritable, Warrington wended his way home. There was nothing surprising in the fact that he never inquired for mail. Who was there to write? Besides, he sought only the obscure hotels, where he was not likely to meet any of his erstwhile fellow passengers. The mockery and uselessness of his home-going became more and more apparent as to fly back to the jungles, to James, and leave matters as they were. Here a bit of luxury; but the years of econ. the astonished wanderer. omy and frugality had robbed him of would be no welcome for him at his up the loss the day after you . . not scriptural, to find that he was not Never got to the newspapers." gone out of their lives.

## Keeps the Heat in the Oven and Out of the Kitchen

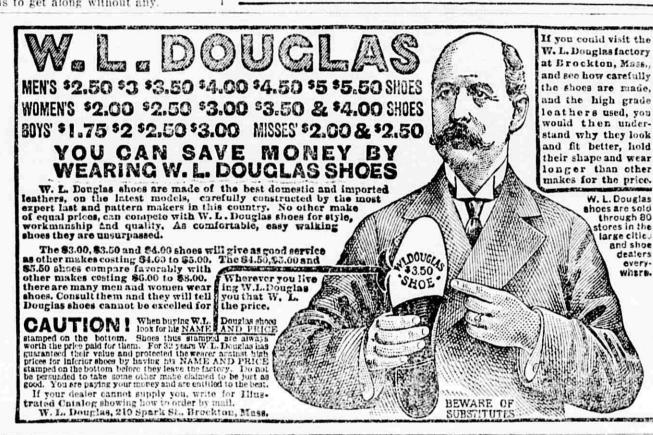

"Fireless" and Range Combined-The secret is in oven, which seals in the heat just like a fireless cook stove A turn of the damper does it-changing your range into the best and easiest used "fireless" ever invented. This "fireless" oven is the big, new feature of the NEW PERFECTION, the finest range you can put in your kitchen. Has a cabinet top with a spacious warming shelf and plenty of room behind the burners for keeping food hot.

3 Kinds of Cooking This insulated oven cooks three ways. You can adjust the flame for the quick-est kind of quick baking, or the slow, steady kind you need for baking bread and roasting meats. Scal the oven and turn out the flame and it keeps an even, steady heat for six or seven hours—this is your freless. The insulation keeps the heat in the oven and out of the kitchen-a blessing

in hot weather and a great fuel saver all the year 'round. Burns Economical, Clean Oil—This latest NEW PERFECTION burns oil. Your fire is ready by striking a match—no dirt, smoke or odor—no more lugging in coal or wood and carrying out asnes. All you need are matches Cheap as well as clean and handy. Safe too-none of the dangers of gasoline. For best results use Perfection Oil. Price Low-The price of this NEW PERFECTION with the Insulated Oven is wonderfully reasonable. It costs little more than a good fireless cooker, less than the average coal range, while giving you the service of both. You can see it at your dealer's in two sizes. Ask him for the latest NEW PER-FECTION Wick Bine Fiame Oll COOK STOVE with the Fireless Cooker Oven, Look for the triangle trademark.

72-Page Cook Book Free Just send 10 cents in stamps to cover mailing and get this fine cook book, which contains over 200 recipes compiled on purpose for NEW PERFECTION users.

STANDARD OIL COMPANY (AN INDIANA) Chicago, III.

What a Revival Is. The word "revival" is often given a meaning which primarily does not belong to it. Many emphasize the conversion of sinners as the essential element in revival work; but that is the secondary meaning of the word. Essentially, "revival" means the quickening of God's people. You cannot revive a dead man. The unregenerate sinner is spiritually dead He must be born again. Now, you may revive a partially drowned body, or a partially frozen body. The re-Since the "bear flag" days bruin has generate soul's life often weakens been an accepted symbolic represen- and wanes, until the flame almost flickers out. But if there be the least Samaritan. ## Spraying Profitable For Famers

The yield of apples can be increased 25 to 40 per cent in any orchard by proper spraying and the fruit will be larger, sounder, and free from worms. It will soon be time for the second spray, just after the blossoms fall Spray with S. W. Dry Arsenate Lead, 1½ pounds to 50 gallons of water; then follow ten days later with a second spray. The Arsenate of Lead will prevent the enormous destruction and loss caused by the "Coddling Moth" commonly called "Apple Worm."

S. W. Dry Arsenate of Lead is more economical than the paste, because it only takes 1½ pounds of the dry to 50 gallons of water; whereas it takes 3 pounds of paste to 50 gallons of water. Modern machinery, expert chemists' particular care in handling, has enabled the Sherwin-Williams Co. to market a dryf Arsenate of Lead with a finer and a more perfect

crystal than has yet been produced. Try it. Put up in 1, 1, 5 and 10 pound packages,

Motion carried. Bills were allowed: Light & Power amounting to \$331.40; general fund \$469.22; City hall op. fund \$25.16.

Obituary-Mrs. Margaret Perry Margaret Frazee was born near Tiro, Crawford County, Ohio. Nov. 15, 1838, and died April 23, 1915, at her home near Saranac. She was married to David Hamilton Jap. 1, 1866, and settled on a farm near Elmdale. Mr. Hamilton departed this life to the vicinity of Lake Odessa where she married David Perry. In the year 1892 she moved on the farm near Saranac where she

remained until her death. She was converted in 1889 and joined the United Brethren church at South Lowell and remained a member until moving to Saranac where there was no church of her choice. She was a good neighbor, always kind and help-ful in time of sickness and lived up to her faith until death.

Funeral services were held Monday of last week at her home. Rev. Moxon of Freeport officiating. Burial in Bowne Center

## OPEN MEETING News and Notes of Interest by T.F. Doyle's Long Illness Closed

In Death

This community was shocked to learn of the death on Tresday morning, May 4, of T. F. Doyle, at his home in this village. Although it was generally known that he had been ill and confined to his house for a long period of time, with the announcement of his death came the realization that an honest and sincere man, a good citizen, a kind father and husband, and a Christian gentle-

man had gone. He was born in Vergennes township, this county, on the 16th day of June, 1855 and was nearly 60 years of age at his death. His boyhood was spent on his parents' farm about nine miles

early age he went to the lumber John Lewis arrested for being you owe it to your community The April and May dues of the camps in Northern Michigan and isorderly, fine \$10.00. in the employ of Blodgett & Byrne for some years and also of the Muskegon Lumber Co. In the year 1886 he went to the gaged in the lumber business for about twenty years. A portion of this time his family lived in Arkansas making their home in Pine Bluffs and Little Rock in

that state. His ability as a timber expert was known-the country over. He estimated timber in many states the High school and grammer of the Union and his services were sought after by firms and lumber companies knowing his ability in that field. He made many trips to the Pacific coast, British Columbia and Vancouver Island besides his activities in the Southern states. Since his removal to this village about seven years ago he had come to be known as one of our leading citizens. He has served as President of the Lowell State Bank practically ever since his residence here and was a director in the King Milling Company during the same time. He was public spirited, charitable, a friend of everybody.

> The entire community mourns for his loss and extends its sympathy to his family in their sad bereavement. Funeral services were held at St. Mary's church, Lowell, this Thursday morning at 9 o'clock, with burial at Parnell cemetery near the home of his youth.

S. O. Littlefield Passed Away Monday Evening

Samuel O. Littlefield died at his home in this village Monday evening, after a lingering illness. Funeral services were held this morning, Rev. L. A. Townsend officiating and interment was made in Grand Rapids. Samuel Littlefield was born in

Ohio, June 16, 1835 and was the son of Samuel and Candace Littlefield. The mother was early left a widow with a family of little children and came to Ionia where she had relatives. Later they moved to Grand Rapids where Mr. Littlefield lived for many years.

Twenty-seven years ago he was married in Lowell to Emma Weber and this has since been their home with the exception of four years in Big Rapids. Mr. Littlefield has been a mem-

ber of the Baptist church for many years: He leaves, besides his wife, a son Otis, by a former marriage, a nephew, James Scott and a niece Carrie Scott, both of Grand Rapids, and numerous other more distant, relatives other more distant relatives.

## 50c for You May let to June 1st

During the month of May for the past five years we have had an advertising proposition for the benefit of our customers, and have secured it again for this month.

### \$1 bottle Rexall Sarsaparilla Tonio 50 cents

If you are lacking in ambition—get tired too easily—"wind" not good as it ought to be—you need a Tonic, a systembuilder; something to restore ambition, strength and wind.

### REXALL SARSAPARILLA TONIC

will do this or we will refund your money. It contains Sarsaparilla, Mandrake, Dandelion, Burdock, Stillingia, Cascara, Cinchonine and Quinidine and we can heartily recommend it as an excellent spring tonic, alterative and blood purifier. It sharpens the appetite, assists digestion and improves the general health.

Remember-During the month of May you can buy the regular \$1.00 bottles—128 doses—for 50c.

Lansing-Practically every bit of legislative action this week was upon subjects that have been once threshed out and more or less thoroughly discussed and chronicled. The senate is worked exclusively on measures that have been discussed and voted upon Maynard in the house and house committees and the house order of business was made up exclusively of senate bills.

There was little interesting discussion. Where matters of difference arose conference committees were appointed, but there was little lively debate or interesting legislative action and the work dragged along with hardly an objection to punctuate the droning monotone of the reading

In the senate, the Stevens bill providing that persons receiving shipments of liquor in dry counties must give an affidavit as to their qualification under the law to receive was passed, but an amendment tacked on to relieve transporation companies

of all liability. The Koehler bill providing that the declaration of inde pendence should be read on certain public holidays in the schools was amended in the senate to include the Lewell, Mich. provisions of Representative Weissert's bill which makes it part of school qualification to memorise the National anthems. As amended, this bill went back to the house which concurred and the bill then was sent to the engrossing clerk to be prepared for the governor's signature.

By practically unanimous vote the house in committee of the whole killed Senator Wood's bill providing that the state automobile license fee be in creased from three to six dollars per year. On third reading several bills amending the general game laws were passed. Among them was Senator Hilsendegen's bill making it unlawful to kill more than one deer.

Senator Hilsendegen's bill providing for a board of mediation and conciliation for the settlement of industrial disputes, which was killed Monday, was revived and passed by a vote of 66 to 26 and new life was given the of Horses Ogg bill requiring fraternal beneficiary societies to have rituals, when this bill was taken from the table and passed. However, it was so amended Monday that it is not operative until accepted by a majority vote of the membership of the societies coming under its provisions.

In committee of the whole the house agreed to Senator Scott's bill ed to young Kaiser's father. appropriating \$2,415,925 for the general expenses of the state government during the next two years. CAPTAIN DIES FROM SHOCK

British and French Steamers On Same Day Sent to Bottom By German Under Sea Craft. London-Three merchant ships-

one American, one French and one British-were destroyed Saturday, with some loss of life, by German submarines operating off the Scilly Islands and the Irish coast, according to reports received here Sunday. The ships were the American oil

tank steamer Gulflight from Port Arthur, Tex., for Rouen, France; the French steamer Europe, from Burry for St. Nazaire, with a cargo of coal, and the British steamer Fulgent, destination and cargo unknown. The Gulflight which left Port Ar

thur April 10, was torpedoed at noon Saturday og the Scilly islands, according to a dispatch received by the Central News agency. Her captain died of heart failure as result of shock and were drowned. The other members of the crew were taken off b ya patrol boat and landed. The vessel was towed into Crow Sound and beached. The Gulflight, a steel vessel of 3,-

202 tons, was built at Camden, N. J., in 1914, and was owned by the Gulf Refining company. She was 383 feet long, 51 feet beam and 30 feet deep. The Europe, according to a dispatch from Penzance, Cornwall was attacked Saturday morning near Bishop's rock, off the Scilly islands. The submarine first signalled the crew of the Europe to leave their ship. When they had done this, the submarine shelled the steamer, which failed to sink.

## HILLMAN IS SWEPT BY FIRE

Winona Hotel Practically the Only Public Building Left From Conflagration Starting In Town Hall.

Alpena.-The village of Hillman, in

Montmorency county, 30 miles west of Alpena, was practically destroyed by fire Wednesday night with an estimated loss of \$200,000. Starting in the town hall, the blaze buildings adjoining. The Winona hotel is practically the only public building left standing and that is damaged. Among the buildings destroyed are the Hillman bank, a branch of the Alpena County Savings bank; Davison's department store and residence: and pool room; a telephone exchange; City drug store; the Presbyterian WORMS ATTACK FRUIT TREES to be always kind, always just, always church; Knapp & Turner's saloon; a garage, and the residences of Messrs. Bateson, Cane, Naylor, Cook, Stewart

and others. Assistance was asked from Alpena at 3 o'clock Thursday morning, and a

Rain Stops Forest Fires. Marquette--Heavy rains in every part of the upper peninsula Wednesday night and Thursday ended, for the present, danger from brush and

forest fires. Owing to the high wind of Wednesday, the entire forest fire fighting forces in every county were ordered out. By Thursday deputy fire wardens in Houghton, Delta, Dickinson, Marquette, Alger, Luce, Mackinac and Chippewa countles, where the largest fires were burning, reported that the men were no longer needed.

Fire Sweeps Village of Collins. Grand Rapids.—Fire starting in the store of Elmer Jenks at the village of Collins, near Portland, early Thursday morning, practically destroyed the business section. The Jenks store was burned, and following this, the general store of Dugbee & Geager, in or twenty minutes. This will make a which were stored two car loads of firm jelly without the sharp taste that farm implements, just received. The Union church and four barns also were burned. The origin of the fire is unknown. Persons living over the stores escaped unhurt.

SYNOPSIS.

In the New York home of James Brood, In the New York home of James Brood, Dawes and Riggs, his two old pensioners and comrades, await the coming of Brood's son, Frederic, to learn the contents of a wireless from Brood, but Frederic, after reading, throws it into the fire and leaves the room without a word. Frederic tells Lydla Desmond, his fiancee, that the message announces his father's marriage, and orders the house prepared for an immediate home-coming. Mrs. Desmond, the housekeeper and Lydia's mother, tries to cool Frederic's temper at the impending changes. Brood and his bride arrives. She wins Frederic's liking at first meeting. Brood shows dislike and veiled hostility to his son. Lydia and Mrs. Brood meet in the jade room, where Lydia works as Brood's secretary. The room, dominated by a great gold Buddha, is furnished in oriental magnificence. Mrs. Brood, after a talk with Lydia, which leaves the latter puzzled, is startled by the appearance of Ranjab, Brood's Hin-du servant. Mrs. Brood makes changes in the household and gains her husband's consent to send Mrs. Desmond and Lydia away. She tries to fathom the mystery of Brood's separation from his first wife, and his dislike of his son, but fails. Mrs. Brood fascinates Frederic. She begins to fear Ranjab in his uncanny appearances and disappearances, and Frederic, remem bering his father's East Indian stories an belief in magic, fears unknown evil. firm belief in magic, fears unknown evil. Ranjab performs feats of magic for Dawes and Riggs. Frederic's father, jealous, unjustly orders his son from the dinner table as drunk. Yvonne follows Frederic to the jade-room and influences him to apologize to his father and the guests for his alleged lapse. Brood tells the story of Ranjab's life to his guests. "He killed a woman" who was unfaithful to him. Yvonne plays with Frederic's infatuation for her. Her husband warns her that the thing must not go on.

### CHAPTER IX-Continued.

"It sounds rather ominous." "If he waits long enough you may discover that you love him and his going would give you infinite pain. Then is the time for him to go."

"Good heavens!" he cried, in astonishment. "What a remarkable notion of the fitness-"

"That will be his chance to repay morning.

"By jove, you are a puzzle to me!" came out on his forehead.

"Let the boy alone, James," she tremble, and with cause." went on earnestly. "He is-" "See here, Yvonne," he broke in

fair to him, even though I may not ap- dreams are-" pear to be. You are-"

"That is also a matter we cannot gently on his arm. discuss," said she calmly.

have to say. Sit down!" For a moment she faced him defiant-

ly. He was no longer angry, and therein lay the strength that opposed her. She could have held her own with him if he had maintained the angry attitude that marked the beginning of their interview. As it was, her eyes ! fell after a brief struggle against the dominant , power in his, and she obeyed, but not without a significant tribute to his superiority in the shape of an indignant shrug.

He took one of her hands in his, and stroked it gently, even patiently. "I will come straight to the point. Frederic is falling in love with you. Wait! I do not blame him. He cannot help himself. No more could I, for that matter, and he has youth, which is a spur that I have lost. I have watched him, Yvonne. He is-to put it coldbloodedly—losing his head. Leaving me out of the question altogether if me out of the question altogether if you choose, do you think you are quite fair to him? I am not disturbed on your account or my own, but-well. can't you see what a cruel position we are likely to find ourselves-"

"Just a moment, James," she interrupted, sitting up very straight in the chair and meeting his gaze steadfastly. "Will you spare me the conjectures and come straight to the point, as you have said."

He turned a shade paler. "Well." he began deliberately, "it comes to this. my dear: One or the other of you will

She shot a glance of incredulity at his set face. Her body became rigid. "You would serve me as you served

"The cases are not parallel," said he, wincing. "You drove her out of your house,

James." "I have said that we cannot dis-

ly, as I would go if I loved another, or ceress? A-but no, it is not true!" did she plead with you-oh, I know it hurts! Did she plead with you to give her a chance to explain? Did she?" "She war on her knees to me," he James, but I have watched you when as the others were wounding her now. sorry. "Forgive me. I am tired and she flamed, standing very erect before

Yvonne arose. She steed over him like an accusing angel. "And to this day, James Brood-to

this very hour, you are not certain that you did right in casting her off!"

"Are you mad?" he gasped. "Good God, woman, how can you ask that question of me, knowing that I love you with all my heart and soul? How-"

"With all your heart, yes! But with your soul? No! That other woman has your soul. I have heard your soul speak and it speaks of her-yes, to her! Night after night, in your sleep, James Brood, you have cried out to 'Matilde.' You have sobbed out your love for her, as you have been doing for twenty years or more. In your sleep, your soul has been with her. With me at your side, you have cried to 'Matilde!' You have passed your hand over my face and murmured 'Matilde!' Not once have you uttered the word 'Yvonne!' And now, you come to me and say: 'We will come straight to the point!' Well, now you may come straight to the point. But do not forget, in blaming me, that you love another woman!"

He was petrified. Not a drop of blood remained in his face.

"It is some horrible, ghastly delusion. It cannot be true. Her name has not passed my lips in twenty years. It is not mentioned in my presence. I have not uttered that woman's name

"Then how should I know her name? Her own son does not know it, I firmly believe. No one appears to know it neath the surface with a clarity of except the man who says he despises

"Dreams! Dreams!" he cried scornfully. "Shall I be held responsible for to endure pain that otherwise would the unthinkable things that happen in

"No," she replied significantly: "you should not be held accountable. She The boy she loved was slipping away must be held accountable. You drove from her and only chance could set his you for all that you have done for him, out her body, James, but not her feet back in the old path from which James," said she, as calm as a May spirit. It stands beside you every instant of the day and night. By day heart told her that it was not love he you do not see her, by night-ah, you he exclaimed, and a fine moisture tremble! TWENTY-SECOND TEAR Under one management

Subscription by Mail, Postpaid

Entered at the postoffice at Lowell, Michigan as second class matter.

### Vox Populi, Vox Dei.

The Ledger believes with the immortal Lincoln in "Government of the people, for the people and by the people."

It believes there is on earth no higher power than the people, but usurpation that should be overthrown.

It believes that when rightly understood, "The voice of the people is the voice of God;" and that officials high and low who are unwilling to listen to and heed that voice should be relieved of public responsibility.

The following editorial from the Lake Arthur, La, Herald of April 9, shows what others are thinking along this line of popular rights:

"The wets won their fight in the supreme courts for saloons in Shreveport. Now will some bright young lawyer stand up and tell us Why is the supreme court?' and what authority has the supreme court to review a law passed by the representatives of the people. Do we have a government by the people or a government ernment by the supreme court? If the supreme court has the authority to say what laws we shall be governed by, 'why is a legislature?' Why go to the expense of a legislature if the laws must be passed by a supreme court before they can be enforced? If we are to have an authority higher than the expressed will of the people what is the object in in allowing the people to express their will? The supreme court has usurped the authority it exercises over the acts of the legislature, and there is no place for a usurper under a democratic form of government. Let's abolish the supreme court!"

## What the Town Knocker Ought

Friend, you are continually harping on the idea that this town isn't a fit place to live in. You are everlastingly knocking on the people, their customs and habits. You say they have never been anywhere and will never learn anything. The idea you try to throw out is that you are strictly up-to-date and are entirely too wise to waste your precious time among this class of barbarians. It is all right for you to think that way but it is all wrong for you "to shoot off your mouth" about it. If you don't like it here, hike out to the greener pastures. The people got along all right before you came, and they will manage to wiggle along after you are gone. We will take it for granted that you are world traveled but most of us think you were never out of Podunk. We will also let it pass that you have been a power elsewhere, but most of us would bet that you have never held better than a forty dollar amonth job in your whole life. We will get along all right, just move along if things don't satisfy you here.

## The Business Outlook

The "World's Work," which indorses the Wilson administration, and the New York "Sun," which sneers at it, are both of the opinion that business has turned the corner on the road to good times. The members of the American Newspaper Publishers' association which held its twentyninth annual meeting recently, were of the same mind. And the facts back them up: bank clearings

An Interview with Mr. Ford

The following interview was given by Mr. Ford to one of the aggressive Ford agents, who returned to his home and gave it to his territory in the following newspaper advertisement.

## The New Ford

This is the most Important Advertisement I Ever Caused to be Published. Read Every Word and then Marvel!

On a personal visit to Mr. Henry Ford I broached the subject of a possible August 1st Rebate.

(The Ford Company announced last year—as you well remember—that if their total sales reached 200,000 cars between August 1, 1914, and August 1, 1915, each purchaser during that period would receive back a refund of \$10,00 to \$670.00.)

"Mr. Ford," I suggested, "Is there anything I can say to our people with regard to the Ford Motor Company's 300,000 car rebate plan?" "We shall sell the 300,000," was the quiet reply—'and in 11 months. a full month ahead of August 1st!" "Then a refund is practically assured?"

Yes-barring the totally unexpected. We are 50,000 to 75,000 cars behind orders today. Factory and branches are sending out 1800 cars

I then said to Mr. Ford; "If I could make a definite refund statement we could increase our local sales 500 cars.

"You may say," was Mr. Ford's deliberate and significant reply to this "You may say that we shall pay back to each purchaser of a Ford car between August 1, 1914, and August 1, 1915, barring the unforseen, the sum of \$50. You may add that I authorized you to make this statement!"

What can I add to the above? \$15,000,000 each coming back to Ford. owners! And to prospective Ford owners up to August 1, 1915, it actually means—Ford Touring Cars for \$190—less the \$50 relate! Ford Runabouts for \$110—less the \$50 relate! What is there left for me to

Training of Child Is Most Important By MARY E. WYNNE, Boston, Mass.

That the training of the mind and the body of the child is one of society's most important works and that to do this well the home must co-operate with the school, would seem most apparent facts. But a very large proportion of the fathers are so engrossed in

getting enough dollars to keep body and soul together that they leave the care of the children wholly in the hands of the mothers. The crowded tenements afford little opportunity for real home life.

Home means merely a place in which to eat and to sleep.

There are hundreds of women like the workingman's wife who said: "I just dreaded Saturdays because the children drove me nearly crazy, but now that a movie picture house has come into our neighborhood I pack the whole five kids off every Saturday and the house is as quiet as on a school day."

In other words, she paid 50 cents a week out of her husband's meager wage to get rid of the sight and sound of her children. Her idea of responsibility to them is to cook for them, to buy their clothes, and when sick to take them to the infirmary.

She represents a large number of parents who think that the chief pusiness of the school is to take the children off their hands for the larger part of the day and to provide a safe place for them to be off the street, out these parents never trouble themselves to know what their children Lowe' may be learning, nor what habits and ideas they may be forming at school. With multitudes the struggle for mere existence is so strenuous that they have neither the intelligence nor the time for any thought beyond that struggle. Hence poverty is one cause of parents' indifference to the school.

But a far more reprehensible indifference is often found in parents vho have had greater opportunities and whose income gives them a chance o think beyond the everlasting demands of the butcher, the baker andworst of all—the landlord. The other day one of these well-to-do mothers aid, "If I had time I should visit Jack's class while Miss eaching, for Jack, who has always liked school, this year hates it. But 'm so busy I can't find time."

Then she settled down to embroider her initials on bath towels! So ousy she could not get time to find out what influences were being exerted n her boy that were showing themselves in an entirely changed attitude owards his school life.

Near the end of the year she received notice by mail from the teacher hat Jack's work, which had steadily grown worse throughout the year. rould prevent his promotion. Jack would have to take two years to do ne year's work. The irate mother now found time immediately to visit he teacher, and expressed vehemently her surprise and indignation that er boy, who had always been considered "smart" by his other teachers. hould have done so poorly with her.

When the teacher could get a word in edgewise the mother learned nat this year Jack had chosen for his intimate associates a group of idle, garette-smoking boys whose influence had been most baneful.

"Surely you know your boy's playmates and have seen his bimonthly ports, for here they are, bearing your signature." Then the poor mother new that her boy had lied to her when he said his teacher did not send me reports, and had, moreover, forged her signature. Had she or the ther taken pains to visit the school early in the year all this might have the battle off the Falkland islands and

An intelligent interest in the child's welfare would lead the mother visit in a friendly way each teacher under whose influence her child in Lorraine, and at another in the omes. Since so little of this is done, one must conclude that another large proportion of parents are stupidly indifferent to the importance of the school upon the lives of their children.

Value of Games to School Children By W. K. SCHULTZE, Cleveland, Ohio

Fo

Do teachers and parents sufficiently realize the great and good influence of contests on young people? Every form of game brings public view, where they

learn to act with dignity, to think and speak on their feet. This publicity | been able, with the assistance of Ausbegets confidence. Contestants are not afraid to hear their own voices nor to see their own shadows.

In after life everything worth while has to be contested for, and the trained contestants win life's prizes. The medal winners graduate into pathfinders, leaders of men and women. Baseball, football, harness racing, cards, chess, dancing, running, boxing, skating, acting, sailing, rowing, swimming, debating, reciting, music, art work, singing, shooting, fencing, tennis, billiards, lacrosse, all develop manhood and womanhood enormously, if sanely enjoyed.

The bestowal of the laurel wreath upon one's brow or the pinning of the medal on one's chest is an experience which is ennobling and encouraging. Pity those who never experience this ecstasy.

Games develop valuable youthful faculties as nothing else doesmemory, the nerves, caution, endurance, bravery, strength, sportsmanlike fairness, sportsmanlike courtesies and application.

Sports inculcate a desire for nice apparel and a handsome bearing. The contestant is never a quitter.

The chest which is adorned with trophies is not liable to belong to a thief, backbiter or weakling of any class. No one realizes what it is to win a hard-fought contest in either of the great fields until he finds himself face to face with the test, with a sea of faces looking on.

Moving Pictures of Benefit to Humanity By Edward C. Mullikia, Jacksonville, Fla.

The moving picture machine will prove of far greater benefit to humanity than a simple amusement and recreation.

I believe that in a few years motion picture exhibi-

tions will be a part of every school curriculum. A moving picture machine is not an expensive article, and in schools where expensive laboratories are impossible the most delicate experiments in chemistry and physics, as well as more intricate sciences, can be shown with as good results as though the professor were to stand before the class and give them an actual

The possibilities of the camera are almost limitless, and in recent years pictures of bacteria have been produced with ease. By the use of the motion pictures experiments with the rarest substances and germs shown only in the largest colleges can be brought to the humblest school and displayed, enabling the students to get a training equal to that of a course in a much better equipped college and at less expense.

Lectures can accompany the films and be read during the progress of the picture, to add to its interest and instructiveness,

I am told that the plan has already been tried with great success in ome western schools, and I do not doubt that in a few years it will be ed as impregnable, it is more than

A college professor says the minimum wage for single women should be \$9 a week, but a single man could not live under \$10. This is another outrageous blow at the equality of the sexes.

A new lever is to be added to the automobile. To touch it in time of danger is to prevent skidding. Those who have attempted a skidding of the leading hunters of this vicinity. bout will appreciate that invention. is exhibiting a mammoth bobcat which

## OPENING OF DARDANELLES MAY HAVE WIDE REACHING EFFECTS

Development of Indicated Operations Seems to Purpose Expulsion sting in her cheek, she was certain portant adjuncts in cookery, chiefly of Turks From Constantinople-Allies in West End Need Oil and Grain. While Russia Desires Southern Ingress to Her Territory for Her War Shipments.

in one part of the world and then in another. Something like eight thousand miles separated the scene of minds of both naval and military watchers of the conflict have been di-

Each of the contending empires in which in a measure compensate one command of the sea, Germany has the the youthful contestants into interior position on land, which enables her to strike alternately heavy blows on either front. She also has that the forts at the mouth of the tria and Turkey, and aided by the geographical conditions, to drive a wedge between the communications of liarly treated at ranges at which the her enemies which extends from the indicates the determination on the part of the superior sea power to cut that wedge in two.

The strategic importance of the straits between Europe and Asia has been recognized from very ancient times. It was on the Chersonese, the peninsula on the western side of the straits, that the Turks got their first be that if it now falls into the hands of Great Britain its occupation by British troops will mean the uprooting of the last vestige of Ottoman rule in the northern continent. There are at least indications of the development of a far-reaching operation from both ends of the Sea of Marmora, having for its purpose the expulsion of the Turk from Constantinople.

There are other objects of first-class importance to be obtained from a successful attack on the Dardanelles. Now that the Archangel route is closed by ice, communication between Russia and her allies has almost entirely ceased. There is no outlet for the immense supplies of corn and oil of which they are in want and which she could furnish, and, on the other hand, the only source of supply of the munitions of war, which she cannot manufacture herself, must be brought over the long and difficult road from Vladivostok and Harbin. The opening of the Dardanelles and the Bosporus must have, therefore, an immediate and important effect both in the western and eastern theaters of war. Nor can it be doubted that a substantial gain of this character to Germany's foes would directly influence the nations which have been for so long hesitating about entering the war. All the Balkan States would be affected considerably, and while Greece could scarcely stand still with Russia at the gates of Constantinople, Italy might of the French 75 mm. guns is able to Cannally was occupying a seat high well feel that this sharp stroke re- accomplish. (1) Foley's Honey and Tar Compound, the standard family remedy for coughs, colds, croup, whooping cough, tightness and soreness in chest, grippe and bronchial coughs. (2) Foley Kidney Pills, for overworked and disordered kidneys and bladder ailments, pain in sides and back due to Kidney Trouble, sore muscles, stiff joints, backache and rheumatism.

For Sale by M. N. Henry.

## You will have only yourself to blame if you are "talked 'unsuitable" or a "theoretical" Car. buying an

The two commonest mistakes made in buying an automobile are—First, Buying a car not suited to your needs.—Second, Buying a car that has not passed the theory stage.

The first mistake-buying an "unsuitable" car-is perhaps made even less often than the second. But for your own sake study your needs sensibly, just as you study your household needs, and buy a car you can afford to enjoy—a car you will have pride in, and yet one that will not be a "ghost of repreach" to your good

The second mistake—buying a "theoretical" car - is perhaps the sadder mistake of the two-because when you have made this mistake, you have on your hands some engineer's or designer's untried theory, instead of a tried, known, successful car. And you have paid a price that, put in the right car, would never have been a reproach — but would have bought an automobile of real pride

It is because we see these two mistakes being constantly made - because we see sensible people being constantly talked into these "automobile fiascos" that we boast so much about the record of the car we sell—The Maxwell.

38,000 happy satisfied Maxwell owners are driving 38,000 handsome streamline Maxwell Cars to-day—at an up-keep cost that any man of any standing can afford, and at an original cost that is simply a practical investment.

## 200 Maxwell Cars Every Day

Twelve hundred a week, five thousand a month. That is the actual output of "The Wonder Car" right now and constantly increasing.

Not bare promises that cannot be kept, but actual deliveries to Waxwell Dealers.

Stop! Think a moment. There must be something back of a production so great. There must be the hearty approval and confidence of the public in the car they buy and the car must merit it all.

26 Maxwell cars every hour of the business day. Yes, that is just what the public are buying, and when you order a Maxwell, you get one the day you want it.

Back of each Maxwell stands one of the greatest and most efficient organizations in the industry, and one strong enough financially to insure you against the purchase of an "orphan car" and to give you actual deliveries of a wonderful car on the day you want it.

## The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers -in every part of this country-are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices. This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car-not an excuse on delivery day

## ELMDALE

Last Saturday morning Elmdale

had another railroad tragedy. While

walking up the track enroute to Elmdale with a small pall of eggs to do trading, David Arnold was struck and killed by train No. 48, ¼ mile north of town. Train No. 48 did not discover the tragedy at the point where the accident occurred, the crew could not see him, as the engine was running backward. His body was not discovered until after the section of the morning freight No. 61 had also passed over the body. Conductor Rochester, who was standing on the back of the calabose, was the first to see the mangled body lying on the track. He at once notified the crew and the Elmdale section force were called and they guarded the body until Justice Andrews of Lowell, who was called, arrived. He ordered the denot where it to show deserved appreciation. body taken to the depot where it to show deserved appreciation. arrived. He took the body to Lowell. Mr. Arnold was a man 75 years old and lived alone 14 miles north and 4 nile east of Elmdale. The only relatives that are known of, are several grandchildren who live at Moline.

than it is today.

Islam desecrated the holy places as the conqueror rode into the city through the gate of St. Romanus. And, as he entered the palace the new ruler was heard to recite, so tradition has it, some lines of Persian poetry running as follows:

"The spider has spun her web in the palace of the Caesars, "The owl has sung her watch song on the towers of Afrasiab." Supersaturate with his-

tory as is the city, its present-day aspect, as the long revenge of time hastens to its final satisfaction, and the crosses that will replace the crescent are already in the making, is one that is more redolent and reflective of the immediate down-at-the-heels Orient than of the earlier centuries. It is a medley of mosques and minarets, of magnificence and squalor, of klosks and cafes. Palaces jostle miserable huts, and enchanting kiosks, in Saracenic style, gay in color of stone, stucco or tile, and with superb metal work, are seen side by side with the cheapest of frame houses and mean cafes. Broad open squares, like unkempt back lots where tin cans and goats most do congregate, however, are contrasted also with the narrowest of illsmelling alleys doing duty as streets, and yet above all this meanness, all this huddlement of cheap and unpretentious buildings.

the use made by the Moslem conquerors of the seven hills, more or less dominated by splendid seraglios and mosques, including the metamorphosed Santa Sophia itself, gives Constantinople today its peculiar character above all other cities, and makes the near or distant view under varying aspects of sun and season one of unrivaled magnificence, so that it is today the chief picture

city of the world. The mosques seem to be part of as well as rising out of a sort of curious mushroom growth developing out of roofed refuse of stone and stucco that spreads all over the two sides of the Golden Horn, that famous arm of the bay on which the city is situated with Stamboul, the old city on the west, and Galata and Pera, where the foreigners live, on the east, stretching along the shores of the Bosporus toward the Black sea. And the mosques are wonderful. Here they rise, huge masses of clustered rectangular structures with all sorts of subsidiary buildings, as it were, tied up to and plastered against them. And then out of this squat mass appear the soaring, slender minarets, cutting the blue sky in lovely tapering outline, broken only by the balconies, from four to six in number, the latter grouping only allowed in one case, however, while above the central section, fortlike in character, the domes and semidomes are uplifted, all to be crowned by the great dome which balances the entire mass in a manner that seems pure chance, but makes an indescrible effect of beauty

mosque Jeni-Jani near the Galata bridge. Dolce far niente days will soon be over if it again yields to the new invaders, and a new era of enlightenment sets in. Then the street and public life will take on a new aspect and the city will be once more a place of pilgrimage. Moreover, when the capital is once more in Christian hands, what a chance for the antiquarians and archeologists and classical scholars and specialists! Every ruin should yield treasures. and of all the promising places the most promising are the mysterious vaults under the great Agia Sophia mosque, formerly the Church of St. Sophia, originally built by Constantine in 326 opposite his palace and dedicated to the Divine Wisdom (Sophia). The church as it exists today, one of the greatest buildings in the world. was erected in 532-537 by the Emperor Justinian. Anthemios of Tralleis and Isidoros of Miletos were the architects. Fossati, an Italian architect, undertook a thorough restoration of the exterior of the building in 1847, when it was

one of these days he should slip away from us; especially before all the necessary arrangements have been made." The English ambassador was strictly noncommittal even after the czar had pointed out the horrors of a general European war which might ensue if the great powers were not careful, so the Russian autocrat repeated his remark about the "sick man" to Prince Metternich, the celebrated wit, who was the Austrian ambassador, and it was Metternich who cynically turned the tide against any European co-operation with Russia in handling the Turkish

situation, by re-

marking curtly, "Ahem, the sick man, the sick man; is your majesty speaking as the doctor in the case or as the uneven, and as the barrette is not heir." With that the other powers turned against fashionable, the twisting sideways of and mix. While it is an exaggeration, at any rate in locks. these modern times, to ascribe the mastery of world to the possession of Constantinople, it cannot be denied that the city occupies from a political, from a strategic and from an economic point of view, one of the most valuable and important sites in the world. It is a natural fortress of great strength, protected as it is in the rear by mountain and swamp, which make it difficult to attack by land, by those wonderful straits, the Dardanelles and the Bosporus, which furnish matchless a defense against any onslaught from the sea.

It lies at the very point where Europe and Asia meet and which connects the Black sea with the Mediterranean, and even with the Indian ocean, by way of the Suez canal and the Red sea. When the railroad now in course of construction from Ismid to the head of the Persian gulf, stripes matching at the shoulder and via Konia and Bagdad, is completed, which will constitute far and away the shortest and quick. diagonally from under the arm toward est route from Europe to India, Constantinople will become perhaps the most important station are stitched to the net. LESSON FOR MAY 9

FRIENDSHIP OF DAVID AND JON-ATHAN.

LESSON TEXT-I Samuel 20:32-42. GOLDEN TEXT-A friend loveth at all times .- Prov. 17:17.

> There is perhaps no narrative in all history or literature which so perfectly illustrates the conditions of friendship as this which is before us. Jonathan was every inch a man; affectionate, sweet and tender, deeply pious and withal loyal to both duty and friends. His rights, as the king's son. he gladly set aside for David, whom he the surrendered life (ch. 23:17).

times in the previous chapter (vv. 5, \$7@7.25; choice heavy butcher steers, 14, 30) we read that David "behaved \$7.50@7.90; fair to good, \$7.15@7.40; himself wisely." "Saul eyed David" best handy steers, \$7.40; @8.15; com-(v. 19) and his jealous anger grew as mon to good, \$6.65@7.25; yearlings, he gave vent to his hate. Jonathan's \$7.50@8.40; prime fat heifers, \$7@ desires for David drew the anger of 7.40; best handy butcher heifers, Saul (20:30), but it only put him more \$6.60@7.25; common to good, \$5.50@ upon his guard and made him more de- 6.25; best fat cows, \$6.25@6.75; good termined, if possible, to save both butchering cows, \$5.25@5.75; medium David and Saul.

safety (20.1-10). They renewed their covenant and swore fealty to each other and to those of their households (vv. 11-17). It is a standing rebuke that Christians treat so lightly yorkers, \$8; pigs. \$7.75@7.90. their covenants with the church and with the world. David was safe at Najoth (19:18-24), for each company sent after him, and Saul himself, were hindered by the Spirit of Jehavah from \$4@5.50. carrying out Saul's foul designs. This seemed for the moment to humble Saul (20:1; Ps. 97:1). Jonathan, ways, and possibly the key of the though great and mighty, was not strong enough to deliver his friend from the renewed wrath of his father. "Vain is the help of man." "Our help TO MAKE FLORAL BUTTONS is in the Lord." Jonathan showed his true friendship in that he told the ex-

II. David Delivered, vv. 35-42. Jon-A fixative is made from one heaping athan did not revile again (v. 34) when tablespoonful of white flour, into insulted and assailed by his father, which has been mixed gradually and and his manifestation of just anger free from lumps one-half cupful of (for his mother was reviled) was cold water. Let stand 24 hours in a quite different from that of his father. warm place. When ready to use, mix Any attempt to reconcile Saul to Dacarefully. Add to the perfumed bread. vid (v. 34) was a useless exposure to crumbs enough fixative to make a danger and for Jonathan to be seen paste stiff enough to be handled. Now with his friend would imperil his own add a few drops of vegetable coloring life. This explains the expedient of shooting arrows in the field. Jonathan shot his arrows "beyond," i. e., David Cut the paste into the desired size must go "beyond" and out of the reach for the buttons and mold into shape. of Saul. David trusted Jonathan's fidel-Dip tiny beads into glue and pat into ity (v. 23) when the test came, though the button with the aid of a needle. Jonathan might have good reason for playing him false in order to promote his own interests.

How many of us, like Jonathan's lad, unconsciously bear tidings of mighty in glue and insert in the paste. Place import, messages of life or of condemnation, as we go about the discharge of our daily duties.

Dismissing the boy, Jonathan drew near to David's hiding place, to the south of the stone Ezel (v. 41 R. V.), where a most touching parting took Always use Red Cross Ball Blue. Delights place between these two friends. First of all David bowed ceremoniously three times, touching his head to the ground, perhaps to show his unshaken loyalty to Jonathan as the king's son. This was but for a moment; as men of the East and friends, they rushed to each other's arms and wept for a long time. These were the manly tears of two brave men not afraid to show their love and emotions. It has been suggested that Jonathan should have accompanied David as God's elect (Heb. 13:13), but we feel that duty bade him to remain by the side of his ry on publicity campaigns. sin-stricken father. Only once subsequently, and that briefly (23:15-18). did these two meet. Jonathan's violent and untimely death drew from David one of the most touching and yet beautiful laments to be found in literature, sacred or otherwise (II Sart. 1:17-27). The Lessons of the Lesson. True

friendship costs. God's love gave to the world his Son. Jonathan's friendship for David was costly, but was given gladly, not grudgingly. True friendship neither forgets duty nor neglects its desire towards the object of its love. It is not governed emotionally, yet it disregards all other ties, if they are wrong. Not even a father or mother should lead us to wrong a friend. When David came into power he remembered the everlasting covenant made with Jonathan (II Sam. White Pique Vest, Full Ruffled similar covenant with us (Acts 16:31; Skirt and Organdie Guimpe. The 2:39). True friendship is of slow Parasol is a Gray Silk Canopy growth, but is not easily killed, chilled by reverses, nor frozen by adversity (Prov. 18:24). True friendship is unselfish. It gives and does not seek. Jesus called his apostles friends (John 15:15), for a true friend will The V-shaped neck line is still in give up even his life for those he evidence. ## Backache Is a Warning

Thousands suffer kidney ills unawaresnot knowing that the backache, headaches and dull, nervous, dizzy, all tired condition are often due to kidney weakness alone. Anybody who suffers constantly from backache should suspect the kidneys. Some irregularity of the secretions may give just the needed proof. Doan's Kid-ney Pills have been curing backache and sick kidneys for over fifty years.

Get Dean's at Any Store, 50c a Ber DOAN'S FILLS POSTER-MELBURN CO., BUFFALO, N. Y.

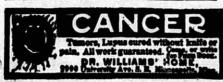

In the local treatment of woman's ille, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healting properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At druggists. Soc. large box or by mail. Bample free. The Paxton Toilet Co., Boston, Mass.

but with kindly curiosity.

traits over his desk.

The clerk did not hesitate an instant. He gravely returned the note to her, marveling at her paleness. Elsa crushed the note in her hand and moved toward the stairs, wondering if she could reach her room before she broke down utterly. He had gone. He had gone without knowing that all he wanted in life was his for the taking. In her room she opened the note and through blurred vision read what was alone. He paused before the door that is up there? Well, it's General Paul. Which door?" she had so happily inscribed the of the vice-president. He recalled the Chetwood's, the founder of this connight before, "Paul-I love you, Come to me. Elsa." She had written it, unashamed.

She flung herself upon the bed, and there Martha found her. "Elsa, child, what is it?" Martha cried, kneeling beside the bed. "Child. what has happened?"

shoulders and stared into the faithful "Well, I love this man War- "I have an appointment with Mr. rington and he loves me. But he has Elmore. Tell him that Mr. Ellison is nature. Ah, was the son; so far, the one familiar I have caused you a good deal of face Warrington had seen since his arworry, and I am going to cause you rival. There was no hand shaking; yet more. I am going to Saigon; up and down the world, east and west, until I find him. Shall I go alone, or will you go with me?"

Then Martha did what ever after endeared her to the heart of the stricken in talking about it to people who have girl-she mothered her. "Elsa, my baby! Of course I shall go with you, always. For you could not love any man if he was not worthy."

Then followed the strangest quest doubtless ever made by a woman. From Singapore to Saigon, up to Bangkok, down to Singapore again: to Batavia, over to Hongkong, Shanghai, Pekin, Manila, Hongkong again, then Yokohama. Patient and hopeful, Elsa followed the bewildering trait. She left behind her many puzzled hotel managers and booking agents; for it was not usual for a beautiful young woman to go about the world, inquiring for a blond man with a parrot. Sometimes she was only a day late. Many cablegrams she sent, but upon her arrival in each port she found that these had not been called for. Over these heart-breaking disappointments she uttered no complaint. The world was big and wide; be it never so big and wide, Elsa knew that some day she would find him.

In the daytime there was the quest: but, ah! the nights, the interminable hours of inaction, the spaces of time in which she could only lie back and think. Up and down the coasts, across islands, over seas, the journey took her, until one day in July she found herself upon the pillared veranda of the house in which her mother had been born.

CHAPTER XIX.

The Two Brothers. From port to port, sometimes not

stepping off the boat at all, moody, restiess and irritable, Warrington wended his way home. There was nothing surprising in the fact that he never inquired for mail. Who was there to write? Besides, he sought only the obscure hotels, where was not likely to meet any of his erstwhile fellow passengers. The mockery and uselessness of his home-going became more and more apparent as the days slipped by. Often he longed on the desk. "With interest," he said. he thrust it back into the cubby hole to fly back to the jungles, to James, a bit of luxury; but the years of econ. the astonished wanderer, the ability to enjoy it. STANDARD OIL COMPANY (AN INDIANA) Chicago, III.

The word "revival" is often given a meaning which primarily does not belong to it. Many emphasize the conversion of sinners as the essential element in revival work; but that is the secondary meaning of the word.

ther's eyes, and it was this which had drawn his gaze to the portrait. Chet.

COME TO RESCUE OF BRUIN

Essentially, "revival" means the quickening of God's people. You regenerate sinner is spiritually dead He must be born again. Now, you may revive a partially drowned body, or a partially frozen body. The regenerate soul's life often weakens and wanes, until the flame almost "Buck up, Paul," warned the good tative of the Golden state. He occu- flickers out. But if there be the least Samaritan. "All this kind of knocks | pies a place on its great seal, and, in spark of life left, it can be fanned the wind out of you. I know. But | deed, has become a sort of institution. | into a flame; and like the apparently

What a Revival Is.

When he is not working at his more | dead cinder in the smithy's forge, dignified job he engages in picking up that spark will touch others and acorns, acting as scavenger around kindle a flame that will enthuse a "That's the way to talk. Supposing | mountain camps and making an occa- church, a city or even a nation. A you go out to lunch with me? We'll sional raid upon farms in the hills. revival of religion, then, must logic-He has come to be known, in private ally begin with the church. warp and woof of commercial life. Inasmuch as there is such great necessity for "credit" there must be some scientific basis for it, some reason why."

"If every young man who event-ually went into business waited until he had accumulated his entire capital, there would be few great commercial institutions started for it would be impossible for him to launch a business of any great dimensions until per-haps he had reached an age when his usefulness had begun to wane. To take the place of money, however, business men have devised this system of credit to bridge over his handicap. It is the

young man's beginning.
"The credit of a man is judged along three lines, character, capacity and capital, all of which must be necessary to a certain degree in the business man's make-up. The man with character and capacity is entitled to and will receive credit. The man with capacity and capital but no in Lowell which he was visiting character is not entitled to and the first time. will not receive credit."

essential. I remember and you chorus under the direction of Miss remember when in the old days Belle Chaffin. Miss Gladys Irene the salesman used to come to us Stowell and George M. Winegar drunk and we were willing to rendered solos. trade with him even if we had to wait two or three days for him to closed with "America," sung by sober up. His principal stock the entire meeting, Mr. Hicks in trade was a capacity for drink and a long string of indecent stories. Today such a man rarely comes to us. If he does we don't let him inside our doors. The City State Bank The day has long since gone when the reliable firm sends out a drunken poker playing salesman, for that man can't do business. We have regulated booze and poker to the places that they rightfully belong.

"Great industrial institutions have found that the drink loving individual is too great a hazard for them to carry on their payroll. Result is that the railroad man is immediately discharged if it is found that he touches liquor either off duty or during his working hours. Competition is so strong in this day and age that the individual needs every ing house..... possible advantage that he may succeed to the satisfaction of his employer."

"We must capitalize what we have. We must in these days capitalize ourselves physically mentally morally and spiritually. All these things are essential to the man that makes good in life. A robust body, well disciplined mind and spirit of fair ness to ourselves and our fellow-

community of interest and cooperation between the farmer and the city man. Mr. Knott spoke especially along the lines that the small community does best when it keeps within its borders so far

## By Order of The United Sales Co., Toledo, Ohio

The Big Sale is still going on at the R. J. Merrill Store, Lowell, Mich., and there have been great crowds of eager and anxious buyers after the many bargains but the stock was too large to be depleted in such a short time so there still remains hundreds of bargains that will please you. Our advice to you would be to shop as early as you possibly can in order to avoid the rush. You will see bargains in this store with better eves than you can see them in this advertisement. We invite you to attend this great money-saving sale whether you buy or not. You are welcome to make our store your headquarters while in the city. It will pay you.
