If Hughes' "Ideal" water-proof hair brush isn't the best hair brush on the market, we do not know values. It is made from the highest grade boar bristles and not from wire. Each bristle is vulcanized into a cushion of pure para rubber. The handle, though highly polished, is water proof and will retain its lustre. "This is real merchandise" said an out-of-town lady who knows a great deal about hair brushes and who stopped at our store while passing through town and was looking at this brush. "I should think every lady customer of your store would have one of these brushes."

For on those few pre-

of its chief executive. That Mr. Wilson's victory over Mr. Hughes will not be conceded without a recount in the close states, such as California, New Hampshire, New Mexico and North Dakota, was determined at conferences of the Republican leaders here. Chairman Willcox asserted a recount would be demanded wherever the margin of Democratic victory was so small that comparatively few votes would turn the scales. He and his associates say they take the position that there should be no cloud upon Mr. Wilson's title to the presidency. The Democrats, for their part, declared

Time: The year 1811. David Larrence, young English weaver, comes to Corydon, Indiana territory, intending to kill an old enemy. He meets Patrice O'Bannon and his charming daughter, 'Toinette, and becomes clerk in Colonel Posey's store. In Job Granmer and his daughter Lydia, recently come from Britain, David finds congenial acquaintances, but he and Doctor Elliott dislike one another. Elliett wants to marry 'Toinette and tries to poison her against David. Cranmer mystifies David, who overhears spies planning to meet at night in the courthouse. He hides there. What he hears and the strange adventure which befalls him is told in this installment.

"Have you ever met the president, Mr. Blackford?" Harrison went on. "Once only, Governor Harrison. I shall never forget seeing him at our commencement exercises last September; he was there with his two classmates, Philip Freneau and Judge Brackenridge of Pittsburgh. They were great cronies while in college, I believe. One saw them wandering under the elms with their arms around one another's shoulders, laughing at some nonsensical ballad about smoking that Mr. Freneau had writ-

LESSON FOR NOVEMBER 19 FROM MELITA TO ROME.

LESSON TEXT-Acts 29:11-31. GOLDEN TEXT—I am not ashamed of the gospel; for it is the power of God un-to salvation to everyone that believeth.— Rom. 1:16.

In this lesson we see somewhat of the human side of Paul's character. No man appreciated fellowship more than he. Look up Acts 17:15; 18:5; I Cor. 7:6; I Thess, 3:1, 2; II Tim. 4:21. I. The Sea Journey (vv. 11-14). Paul left Melita (Malta) probably February, A. D. 60. From there to Syracuse was a distance of between 80 and 100 miles. From the island of Syracuse (now a part of Italy) to Rhegium was one day's sall. From Rhegium to Puteoli was 180 miles. Puteoli (modern Pozzuoli) is in the Bay of Naples, eight miles from the modern city of Naples. Paul and his band who had dore so much for the Maltese were specially honored with many honors.

In these verses we have a picture of Paul seeking out his brethren wherever he went, thanking God and taking courage as they came to meet with him and converse with him. It is a picture upon which we ought to ponder deeply and be grateful that it reveals to us a side of Paul little known and appreciated.

II. The Land Journey (vv. 14, 15). At Puteoli, Paul and his companions began their march to 140 miles to the city of Rome. After a march of 60 miles they reached the famous Appli Forum, i. e., "The market of Applus." Here Paul is met by the first delegation from the church at Rome, who were waiting to welcome him and Luke and escort them to the capital city. A second delegation met them at the Three Taverns, or "The Three Shops," as we would call stores in the modern sense. These Christians had come at no small cost, as they had to walk 46 miles to the Appli Forum and 33 to the Three Taverns, and then walk the same distance back to the city. Thus it was that the sight of these friends cheered Paul and be

may be gradually accustomed to the lius, who had become a friend of Paul, to the forum, which was the center of imperial power and magnificence and near which was the "house of Caesar." (Phil. 4:22.) Paul was not sent to prison for it was against the law to put a Roman into prison without a trial, but he was permitted to dwell by himself in "his own hired house." Of course, there was a soldler who guarded him. 'This was the city where Paul had so long desired to preach the Gospel. (Rom. 1:14-16.) As in other places, he first turned to the Jews, for he loved his own people no matter how much he had suffered at their hands. He got them together that he might preach unto them Jesus and sought to conciliate them. He had no charges

to bring against them. It was not pleasant for him to be bound with a chain, but it was a great cause which had brought him to the was "for the hope of Israel I am Southern regions are especially bound with this chain." His whole teaching and work was for the fulfillment of this promise. (See Acts 23:6:

24:15; 26:6-8). In Paul's preaching he always emphasised that a Messiah was risen from the dead as a guaranty of all other resurrections. In his day, 33 ia this present one, there were those who spoke against this, and yet that resurrection was to conquer the world and to save it from moral ruln. Those present had had no word out of Juden. (v. 21.) At a later and a public meeting (v. 23) there came unto him, that is, into his lodgings, great numbers to whom Paul sounded the Gospel of the kingdom and gave his personal testimony. He proved out of the law of Moses and out of the prophets, common ground for them all, that the Messinh had truly come, the prophecies of the kingdom of God had been fulfilled, and that Jesus by his life and death and teaching had shown the Jews how perfectly the latter were fulfilled. This Paul did from morning till evening, following the same line as in his speech before Agrippa and in other places where he had been testifying, All of his explanations and testimonials centered in Jesus. It was no abstract mental theory for an improved order of society but a definite reign of a definite person, Jesus of Nazareth. Paul is a great example for any Bible student to follow. As on so many other occasions.

Paul's preaching caused a division. (v.

And again he turns to the Gentiles. (v. 28.)

Paul told them plainly what lay at the root of their unbelief (v. 27), and though they refused the salvation it was none the less of God. Paul continued in the city of Rome

for at least two whole years unhindered in his work, dwelling in his own styled the house of burgesses. At this hired house, preaching and teaching with all confidence. From his prison there has flowed a river of light that has broadened and

deepened throughout the centuries, from his receptions with others, his touch with the soldiers of the guard, and his writings.

It is generally believed that Paul's death occurred several years after the close of the book of the Acts, that he suffered a second imprisonment and was martyred under Nero.

It has just begun. On his recent Lowell visit our friend Pattengill quoted pointedly the old war song "Michigan's on guard tonight;" and that must be our watchword during the next few years. No deserting the colors. No sleeping on post; but Mich igan on guard night and day, for law and order, sobriety and decency, against blind pigs, boot leggers and law violators of all sorts and sizes,

To this end, in village, township, county and state. it will be the good citizen's duty to see to it that public officials are chosen who will enact good laws and enforce them. The best of laws are useless unless our officers enforce them, but if officers do not do their duty they can be and should be removed. It will be up to the people to see that this is done.

The Wets say they are going to "Make Michigan bone dry." Glory to God! That's just what we want. They'll find us fighting right by their side on that proposition. And is this all? No! We

love Michigan much; but we love America more. It is not enough to save our state. Our whole glorious country from the lakes to the Gulf and from ocean to ocean must banish King Alcohol forever. Uncle Sam must abandon his inFERnal revenue on rum. Twothirds of our territory is white now. It must all be so and it will be, soon. All we fear is that the whole world will beat us to it and that we shall be the last and not the first, as we should be, to sever our shameful league with hell.

So, this is our task. Is it big enough?

From this time on, the test of every office seeker from

As the catalogue houses passed from the elementary and experimental stages to that of a permanent and pronounced reality the gambling instinct of the consumer kept pace with the humbug's progress.

The consumers read the bewitching circulars describing the many wonderful bargains; they fumbled the pages of the huge catalogue in bewildering amazement. Costs Everybody Money To Shippers on the Pere Marquette Railroad: We are doing everything possible to relieve the car shortage. We need your op-operation, in fact, we must have it if we are to be successful in our efforts. There are too many oars on Pere Marquette teamtracks.

Many of these cars are now being used as warehouses. Possibly some of you are figuring that the payment of demurrage justifies this. Such, however, is not the fact. We would far rather have the car than the demurrage so that we can get cars to move your neighbor's freight and possibly your own freight when you put in your next order.

One of the principal causes of the coal shortage is the shortage of oars due to the inability of carriers to keep cars moving.

Please do not under any circumstances keep a car under load, or hold it for loading, a single day longer than is imperatively necessary.

Only prompt action on your part will enable us to supply you with cars when you want them.

MR. SUDDS SPEAKS

By KEITH KENYON.

Mrs. Van Kreeper, elegant in rich black silk, drew on her gloves preparatory to a morning's shopping. Outside the big stone house a dove-gray car, with two men in dove-gray livery, waited before the steps.

Then something occurred to the mistress of all this magnificence and she pressed a bell. "Send Mr. Sudds to me, Hutchison."

When the private secretary appeared she sat down, "I've just thought of something, Sudds, and I guess I'll get it off my mind before I go out. Take that chair there!"

He obeyed. "It's about Miss Joanna. She is coming today, Sudds."

"Yes, Mrs. Van Kreeper?" "It's a little difficult for me to express exactly what I want you to do, but it amounts to this: Her grandfather and myself want her to get married. Her parents, you know, are both dead, and the earlier she marries the better, for we are not going to live forever and there are settlements

"Now, I've tried to talk marriage to her and so has my husband, but she just laughs at us. So I have been thinking that if you would put the gravity of the situation up to her, show her the business side of it and her duty to us, it might bring the desired result. And incidentally there are two young men you might mention. One is Reginald Crecy, the other Houghton Vance. Either one would be acceptable to us. They have family and

money and all that. You understand." Joanna came. The house was alive and astir with new life before she entered the door. Youth, beauty, vitality and a certain quality of incorrigibility that was irresistible came with

She changed her clothes and, trilling a tune as she came downstairs, she stuck her head into the smail office off the library. "Hello, Suddsy!"

"How do you do, Miss Joanna?" "Oh, just call me Joanna."

"But Mrs. Van Kreeper would-" "Oh. can Mrs. Van Kreeper. Yes, I now she would, Sudds. So don't do it when she's around. When there's just you and me, though, you do as say. I'm going to call you Billy." "Oh, Miss- I mean Joanna. What would Mrs. Van-"

"Never mind, Sudds. I mean Billy. Come on out and show me the new shrubbery and the last baten of pupples and everything. Let those let-"Gladly, Miss- Gladly, Joanna!"

"Oh, never mind calling me that if it's going to give you St. Vitus' dance. You can make it Jo if you like. That's right. Lock up the desk. Too bad you're English! You'd have made a perfectly bully American. Come on now and tell me what grandma's got up her sleeve about Reginald Crecy and Houghton what's his name?" while. "She wants you to marry them,

There's little comfort in most low priced cars. You can't use their speeds. They jostle you - they ride roughly - they don't hold the road.

LEDGER GOES TO \$1.50

New Subscription Rate Goes Into Effect December 1.

Confronted by a "Twixt the deviland deep sea" situation, a choice between an increased subscription rate and business extinction, the newspapers of the country are raising subscription rates 50 per cent, to offset, in a measure, an advance of 300 per cent in the cost of print paper.

Barry county publishers announced an advance to \$1.50 per year several weeks since. Ionia county newspapers followed suit two weeks ago and Kent county publishers acting individually are taking like action.

The Ledger has been slow to act in this matter, hoping that the present \$6.50 per cwt, price of print paper was but temporary and that an advance in price might be avoided; but so far from promising relief paper jobbers predict a further advance of \$2 per hundred in the near future and Aver the former price of \$2 to \$2.25 per cwt. will never re-

Facing such conditions The Ledger feels impelled to announce an advance in rate to \$1.50 per year, beginning December 1. Up to and including November 30, renewals will be received at the old rate of \$1.00 per year and to accom-modate our rural subscribers The Ledger office will be open Saturday evenings from 7 to 8 o'clock.

The Ledger is one of the largest country weeklies in the State and for years has been worth the price. With us a large advertising patronage has never meant a reduction in the amount of reading matter. When advertising was good we have increased the size of the paper to take care of all local and vicinity news matter. Our endeavor in the future, as in the past, will be to produce a home paper worth the

outlaw chiefs." "Has -Cheseldine's gang been busy lately?" asked Duane. "No. Probably all the stock that's

being shipped now was rustled long ago. Cheseldine works over a wide section, too wide for news to travel inside of weeks. There are some people who think Cheseldine had nothing to do with the bunk-robberies and train hold-ups during the last few years in this country. But that's poor reasoning. The jobs have been too well done, too surely covered, to be the work of greasers or ordinary out-

"What's your view of the outlook? How's all this going to wind up? Will the outlaw ever be driven out?"

"Never. There will always be outlaws along the Rio Grande. All the armies in the world couldn't comb the wild brakes of that fifteen hundred miles of river. But the sway of the outlaw, such as is enjoyed by these great leaders, will sooner or later be past. There's talk of Vigilantes, the same that were organized in California and are now in force of sight. in Idaho. So far it's only talk. But the time will come. And the days of Cheseldine and Poggin are numbered."

"Had he come to?" inquired Duane. "Sure. He asked for whisky." "Did he say anything else?" "Not to me. I heard him talkin' to the father of them girls."

"You mean Colonel Longstreth?" "I reckon. He sure was some riled, wasn't he? Jest as if I was to blame fer that two-bit of a hold-up!" "What did you make of the old gent's rage?" asked Dunne, watching the innkeeper. He scratched his

"More nerve, maybe," Dunne replied. "Show me a bed now, inn-

Once in bed in the dark. Dunne composed himself to think over the events of the evening. Why had that desperate robber lowered his gun and stood paralyzed at sight and sound of the mayor of Fairdale? This was not answerable. There might have been a number of reasons, all to Colonel Longstreth's credit, but Duane could not understand.

Next morning Duane walked up the main street and back again. Just as he arrived some horsemen rode up to the inn and dismounted. And at this juncture the Longstreth party came out. Duane heard Colonel Longstreth utter an exclamation. Then he saw him shake hands with a tall man. Longstreth looked surprised and angry, and he spoke with force; but Duane could not hear what it was he said. The fellow laughed, yet some-

Early in the afternoon from a ridgetop Duane sighted Fairdale, a green patch in the mass of gray. For the barrens of Texas it was indeed a fair sight. But he was more concerned with its remoteness from civilization than its beauty. At that time, in the early seventles, when the vast western third of Texas was a wilderness, the pioneer had done wonders to settle there and establish places like Fair-

A boy took charge of his horse. Duane questioned the lad about Fairdale and gradually drew to the subject most in mind.

After getting supper Duane strolled up and down the main street. When darkness set in he went into a hotel, bought cigars, sat around, and watched. Then he passed out and went into the next place. It was full of men coming and going-a dusty-booted crowd that smelled of horses and smoke. Duane sat down for a while. with wide eyes and open ears. Then he hunted up the bar. He stayed in there for a while, and knew that strangers were too common in Fairdale to be conspicuous. Then be returned to the inn where he had

not succeed in getting any closer to Laramie, but he found the idlers on the corners and in front of the stores unsuspicious and willing to talk. It did not take him long to find out that Fairdale stood parallel with Huntsville for gambling, drinking, and fighting. The street was always lined with dusty, saddled horses, the town full of strangers. Money appeared more abundant than in any place Dunne had ever visited; and it was spent with the abandon that spoke forcibly of easy and crooked acquirement. "I guess not. But Bo needn't to have soaked me. I've been robbed before without that."

"Well. I'll take a look after Bo." replied Duane. He went out and glanced down the street toward the center of the town. He did not see anyone he could take for the innkeeper's assailant. Then he looked up the street, and he saw the young fellow about a block away, hurrying along and gazing back.

Duane yelled for him to stop and started to go after him. Snecker broke into a run. Then Duane set out to overhaul him. There were two motives in Duane's action-one of anger, and the other a desire to make a friend of this man Laramie, who Duane believed could tell him much. Duane was light on his feet, and

he had a giant stride. He gained rapidly, kept him in sight, in the shade, on the paths, and up the road into the courtyard, and he saw Snecker go straight for Longstreth's house. Duane was not to be turned back by that, singular as it was. He entered the first door and burst into the presence of Miss Longstreth and a number of young people. Evidently she was giving a little party.

Lawson stood leaning against one of the pillars; at sight of Duane his face changed remarkably, expressing amazement, consternation, then fear. (TO BE CONTINUED.)

FIRST AID TO BURLESON

John C. Koons, formerly chief inspector of the post office department, was nominated by President Wilson as first assistant postmaster general, to succeed Daniel C. Roper, who resigned from the department in order to assist the Democratic national campaign.

Mr. Koons, as first lieutenant to Postmaster General Burleson, will be acting postmaster general in the absence of his chief.

Mr. Koons entered the postal service 20 years ago as a railway mail clerk at a salary of \$1,000 a year. His ability and efficiency attracted the attention of his chiefs, and he was transferred to Washington and made a post office inspector. Under Postmaster General Hitchcock he was promoted to the position of chief of salaries and allowances. The more recent promotions of

Mr. Koons, which culminated in his selection as first assistant postmaster general, include his appointment to the parcel post commission, a committee of postal experts to work out regulations for the development of the parcel post. As a result of his work on this commission Postmaster General Burleson promoted him to be chief inspector of the post office department.

Mr. Koons, while having lived in Washington for the last ten years, has his legal residence in Carroll county, Maryland, where his family has lived for generations.

HISTORIC SCENES IN OLD NEW ENGLAND

Old Hadley, a beautiful New England town, situated upon the east bank of the Connecticut River some twenty miles north of Springfield, Mass., was a center of great activity during the stirring days of King Philip's Indian wars. On Sept. 1, 1675, while at worship in the village meeting house, the inhabitants of Old Hadley were surprised by an attack upon their settlement by a horde of Indians.

Abandoning worship, they seized their arms and rushed out to defend their homes, but the suddenness of the attack found them utterly demoralized. When the confusion was at its height there suddenly appeared

in their midst an unknown man of grave and elderly bearing, who at once took command of the situation, issued orders, rallied the defenders and in short order routed the redskins from the town. Then, as suddenly as he had appeared, did the stranger effect his removal from the scene, and his identity for many years remained a comparative mystery.

It was later established that the deliverer of Hadley was General William Goffe, one of the three living regicides of Charles I. and for whose head a liberal bounty was offered. After years of pursuit from place to place he found safe hiding under the hospitable roof of Pastor John Russel of the Old Hadley congregation. It is believed that after his spectacular deliverance of the Hadley settlers he remained still undiscovered in the Russel household until his death some five years later.

A beautiful state road winding up the Connecticut valley takes thousands of autoists each year directly by the spot where General Goffe rallied the inhabitants of Old Hadley to the defense of their homes.

Stories of a Buddhist Image. Interesting stories are told of a Budthist image in a temple in the suburbs of Kioto. According to a record contained inside the image it was carved by a famous Buddhist priest, and it is believed that worshipers of the image will surely receive divine favor. At one time when a fire broke out in the temple, unknown to the caretaker, the image awoke him by calling "Fire!" and thus saved the temple from destruction. Another story says that the image was once stolen by a thief, who. however, fell dead when he was running away. Still another report says that no dust ever accumulates on the lead of the image.
