BIG WAR MEETING IN LOWELL, MAY 9

PLANS MAKING FOR ROUSING DEMONSTRATION

Street Parade, Music, Addresses by Rev. R. H. Bready and Others. Mr. Hicks to Preside.

Patriotism will be on tap in Lowell on Wednesday evening, May 9.

There will be a grand street parade, martial music, in which the G. A. R., Boy Scouts, Lowell schools, employees of Lowell factories, the fraternal orders and citizens of Lowell will participate. Everyone having an automobile is asked to be on hand with his machine, load it full and join the parade. Better decorate with the national colors if possible.

Rev. Russell H. Bready of Hastings and others will give stirring addresses. There will be grand chorus music. Our patriotic old soldier citizen S. P. Hicks will preside, and if he doesn't "Sing America as it was never sung before," it will be because he uses up his voice in his opening remarks.

Make your plans to be on hand. Do your bit. Lowell is all right. Pack the City hall to the doors. Turn out! Turn out! TURN OUT!

Sunday Evening Union Efforts to be Resumed.

The evangelistic meetings at the City hall closed Monday evening. The Sunday evening meeting made the record for attendance, interest and conversions. Altogether the meetings have been beneficial to the religious growth of the community, with a renewal of zeal on the part of the church people and many conversions.

Dr. Mahood and his party left for new fields of labor Tuesday afternoon. The Lowell pastors will continue the work in Sunday evening union meetings, the first one to be held at the Methodist church May 6. It is hoped that the public will continue in earnest support of this movement for the public good.

Water Scarc About Over.

The Lowell water scare proves to be that and but little more. Representatives of the State Board of Health have been here and an official report will be ready far our next issue. The private wells, with one exception, proved satisfactory. The slight pollution of the city water apparently comes from the old well and pump which are probably affected by the river and will not be acquired by the village; and it is expected the trouble will soon be remedied. The water from the new well system was found to be good.

The World Looks to Michigan for a Big Crop.

The Ledger publishes the following appeal by request.

The burden of saving the world from starvation rests on the shoulders of the United States, and present indications are that by next fall there will not be food enough in this country to feed our own people let alone sending supplies to the allies, says George E. Ferrill of the United States department of agriculture, and it rests with the farmers of Michigan, as an economic and patriotic measure, to offset this condition, to plant their maximum acreage this spring. Michigan has long enjoyed the reputation of being one of the great bean producing states of the Union and this year with the foreign beans wiped out of the market and nations abroad calling for Michigan pea beans, the farmers of this state are going to plant more acres of beans than ever before.

Reports show that all foreign beans that have been held in storage in other countries for as long as five years, amounting to over five million bushels have been sold and delivered in this country for six dollars per bushel and over, the quality of which was never equal to the Michigan pea bean.

The farmers of this State will make no mistake in planting beans so that the cry of a ten million bushel bean crop in 1917 may come true. No matter how large an acreage may be planted in Michigan in all the bean growing sections of the State, it is going to be next to impossible to supply the demand that will appear for beans.

"Conditions are simply appalling when one thinks of what next winter seems certain to bring forth," says Mr. Ferrill. "From all the statistics we can gather, America has food enough to last until next fall. There is not enough to last after that. Our fate then rests on what we can harvest. What we harvest depends on what we plant now."

Fred Condon—Obituary.
