To Our Readers.

Our new linotype was installed last Saturday. Not one person in the office was even familiar with its operation; but with a day and a half of instruction, it has been successfully used in the production of this issue of the paper, all of the country correspondence and editorial and some locals being machine set.

This issue is of necessity of a mongrel type, so far as typography is concerned, being part hand composition, being part days have been lost in installing the machine and learning to operate it, this issue is also unavoidably late.

We ask the indulgence of our readers and confidently promise better things to come.

Lowell Property Owners Halt Plans for Garage.

Claiming that their property will be damaged if George F. Kreiser is permitted to erect a garage in the vicinity of their residences, Peter Finnis, William F. Flynn, William R. Andrews, Elmer S. White, David E. Pratt and Edith M. McNaughton of Lowell secured a temporary injunction in the circuit court Friday and filed a petition for it to be made permanent.—Herald.

NOTICE.

All persons owing me past due accounts are hereby notified to call and settle. Hereafter, 30 days time will be allowed; but only to persons and firms of approved credit. We aim to do as near a cash business as possible and no store at the present time that uses any other method can give the same offers. This policy is being generally adopted in every community, to the benefit of all concerned.

Yours for up-to-date merchandising. M. N. Henry.

WEDS ALBION GIRL

Andrews-Smith Wedding at Albion.

From the Albion Recorder, Oct. 8. Saturday afternoon at 6:00 o'clock, a very pretty wedding took place at the home of Mr. and Mrs. Gardner Smith of Mar-engo when their daughter, Miss Bernadine Marie, was united in marriage to Mr. Harry Kellogg Andrews, of this city.

Miss Smith was a graduate of Albion college and is well known in Albion social circles. She is an alumna of Alpha Chi Omega fraternity and was popular in college activities. Mr. Andrews was also a student at the college, a member of the Sigma Chi fraternity and at present is employed in the offices of the Malleable Iron Co.

The bride was attired in a beautiful, although simple, gown of white moon-glow tulle, trimmed with silk lace tracings of silver. Miss Elsie Overmeyer of Toledo sang "Love's Coronation" which was followed by Mendelssohn's wedding march, played by Miss Marian Rosacrans of Tecumseh. Dr. A. R. Johns met the young people in a bower of palms where the ceremony was performed.

After the congratulations, fifty guests sat down to a three-course dinner, served by the Misses Ethel Rogers, Frances Marsh and Dorothy Johns and Mrs. J. F. Burbar. The table decorations were pink rose buds, candles and smilax, seven tables being used for the guests. During the dinner music was furnished by a Victrola.

After the dinner, the bride and groom left for Chicago and other points, among them Ft. Sheridan, where Wayne Smith, a brother of the bride, is in training. As the bride was leaving home, she tossed her bridal bouquet to her mother. Mr. and Mrs. Andrews will be at home to their friends in Albion after November 15 at their home in Elizabeth street.

The out-of-town guests were Wayne Smith of Ft. Sheridan, O. A. McUTCHEON of Milwaukee, Wis., Mrs. Rena Greenhalp of Kalamazoo, Mr. and Mrs. A. M. Andrews, Mr. and Mrs. W. H. Draper and Miss Marion Draper of Lowell, Mr. and Mrs. Gardner Gunnison of Jackson, Miss Helen Fiske of Denver, Colo., Clarence Dave of Detroit and Mr. and Mrs. Hawk of Marshall.

School Notes.

Mr. Doxtader of Middleville has come to take Mr. Himebaugh's place as Science teacher.

A patriotic program was given in chapel Tuesday morning.

Songs were sung by the school. The Gettysburg address by Bertha Dawson. Music was given by the High School chorus. A violin duet was rendered by Misses Creaser and Blake, accompanied by Mrs. Mitchell. Mr. S. P. Hicks gave patriotic remarks; and the program closed with the singing of America.

The football team played a game with Lake Odessa last Friday; and won by a score of 40 to 14. The Lowell team has not been beaten this year; and the best game of the season is to take place this week Friday, when our team meets the Kent City team.

Arrangements were made last Friday in chapel for a literary society. The following committee was appointed: Misses Huckle and Arnold, Irma Kallinger and Wilbur Young.

Mr. Vaughan's pleasant smiles are missed about the building this week. He is at home with the gripe.

To Whom It May Concern.

Having received many inquiries as to whether Edison records can be successfully played on other makes of phonographs or not, I make this public statement for the benefit of any one interested.

It is an established fact proven by thorough tests that no other method than the use of Edison's diamond stylus will play Edison records without injury to the record, nor will any other so-called jewel point reproducers properly re-create music in its natural life-like tones as only are possible when using the Edison stylus diamond reproducer, which is the result of years of scientific research by the master man and his aids, who hold the secret of properly grinding and also correctly setting the diamond so it will bring out all the beauties of tone without any damage to the record.

"Sequel." Do not buy any make-shift phonograph with the expectation of using records you cannot buy from licensed Edison dealers, or which cannot be successfully used if obtained otherwise. Signed

R. D. Stocking, sole agent for Edison phonographs in Lowell and vicinity.

STORING VEGETABLES IN BANKS OR PITS

Incches thick. The depth of the earth covering is determined by the severity of the winter in the particular locality. It is well to cover the pits with straw, cow fodder, or manure.

Vegetables kept very well in such pits. It is not difficult to get them out in cold weather, so that when a pit is opened it is desirable to remove the contents at once.

Swarming is not desired by keepers of back-swinging swarms. It is a pest which is common to all swarms.

THE COST OF WAR THE NEED OF SACRIFICE

In the nationwide campaign for the second war loan, the United States is emphasizing the vital need of money for the successful carrying on of the war. Millions of men are being trained and equipped. Ultimately they must be transported over seas and followed by an unending supply of stores, the lack of which would spell disaster. To carry out his plans it will be necessary for the Government to spend more in the present year than it has in all the previous years of the twentieth century. Nor is this all. We must stand ready to advance to our Allies the funds which they may require to enable them to properly finance their fourth year of war.

This will cost from \$18,000,000,000 to \$20,000,000,000--half our annual income. To raise so vast a sum speedily, it is necessary to draw on the resources of the whole nation by war loans. No individual citizen or corporation can hope to shoulder this burden. The task is too great. It demands the combined energy of the whole American people. This is a fact which must be understood by everybody. War loans and Government bonds are rather new things to the American people as yet. How essential these loans are to the success of the war must be generally appreciated and every man must feel his obligation to subscribe.

Owing to the vast size of the country, the task of placing this situation before everyone must not be left to the officers of one Government alone. Each individual must take an active part in supporting the loans and in winning the support of others also. Only in this way can we hope to attain results proportioned to our size and wealth. To some extent we feel disposed to congratulate ourselves on the first Liberty Loan, in which it is estimated \$3,000,000,000 was offered to the Government by about 4,500,000 persons; but when we remember that France, with considerably less than half our population, subscribed as much to its first loan and that England, after two and a half years of war, raised \$5,000,000,000 from 8,000,000 subscribers, we can understand how far we must go to make as good a record. That it can be done is unquestioned, and it will require the conscientious effort of everyone of us.

WHAT IS THE SECURITY?

Q. A United States Government bond is frequently spoken of as "best security in the world." Why is this true?

A. Because the promise to pay a Government bond is backed by the faith and honor of the United States of America and by the taxing power of this whole country, which is the richest nation in the world.

Q. Has the United States issued bonds before; and, if so, has it ever failed to pay all of its bonds when they become due?

A. This Government has issued bonds before, and has never failed to pay every bond when it became due with all the interest on same. Even after the Civil War, when the country was suffering from a heavy debt and was not nearly so rich as it is today, all of the Government bonds were paid when they became due.

WHAT A LIBERTY BOND WILL DO

- If you can't serve in the ranks of the army yourself, you can at least help to send a fighting man.
- Do you know what a \$50 Liberty bond will do? Consider; it will--
- buy three Springfield rifles, complete;
- buy 1,500 rounds of ammunition, enough to supply sixteen soldiers going into battle;
- buy ten new rifle barrels to replace those worn out;
- pay one soldier for seven weeks;
- feed one soldier for five months, or a company of 150 enlisted men one day;
- equip one soldier with clothing complete for a three-year enlistment;
- keep the clothing of one soldier in repair and replace worn-out clothing for two years.
- And a \$100 bond will place a soldier on the firing line fully clothed with complete equipment, including overcoat, extra clothing, underclothes, shoes, rifle bayonet, cartridge belt, two blankets, poncho, ninety rounds of ammunition and one day's rations.
- Bonds of larger denomination will get action in proportion.

Patriotism involves sacrifice. To be patriotic you must buy more Liberty Bonds than you can afford.
