with high winds and minor damages.

Twenty-five of the Citizens Telephone poles were blown over, some on local and some on rural lines and Mr. Trouble was busy until Tuesday noon restoring something like order. All service was resunded by that time, although much of the work was but temporary.

The Lowell municipal light & power lines suffered a like damage, with broken poles and tangled wires; but Supt. McMahon and his cerw of willing workers were on the job at 3 o'clock Friday morning and service was resumed that evening by temporary adjustments, though permanent repairs will continue for some time.

than One Thousand Dollars Given in Lowell.

The campaign for funds for the Knights of Columbus officially closed Saturday, May 11. The quota set for Kent and Ottawa counties was \$35,000.00 and from all reports this amount will be nearly doubled. Towards this fund the people of Lowell contributed \$1013.75, a sum of which we are justly proud. While there was no definite quota set for Lowell the campaign managers at there was no definite quota set for Lowell the campaign managers at Grand Rapids were much elated and stated it was more than they expected. Which goes to prove that the people of Lowell are not found "wanting" when any worthy enterprise asks for assistance, and that our record for "Going Over the Top" is unbeaten and that we stand ready to make many sacrifices for the cause of democracy.

The local committee wish to express their appreciation to the men who so willingly gave of their time in the soliciting of funds and likewise to those who donated to this worthy cause.

MEMORIAL DAY.

MEMORIAL DAY.

Memorial day will soon be here.
Arrangements for its observance are under way. Next week the program will be published. President Wilson proclaims May 30th a day of fasting and prayer. The people of the nation are asked to gather that day in their places of worship and to pray for the victory of American armies, which will bring a peace founded upon mercy, justice and good-will.

It woul be a sacrilege to engage in any sports on the day set apart to honor the memory of our departed heroes. At the time when the entire civilized world is engaged in the mighty conflict for humanity, the desceration of Memorial day would be an insult to the rial day would be an insult to the memory of every American soldier living or dead and should be classed

## An Appeal to Humanity. Lowell Committees Named.

The American Red Cross has aptly been called, "A great net of

mercy drawn through an ocean of unspeakable pain."

To this organization, which is one of the great factors whose product is absolutely necessary to success against the Huns, we must again give. Our gallant boys in camp, field and trench are more pleading. They have offered their lives—their all. Are they more patriotic than we? Is it not a privilege as well as a duty to give? The long rows of silent cots over in France are filled with the wounded and the dying. They laid lives on the altar of their country. They have done their best. They plead for the tender care of men and nercy drawn through an ocean of have done their best. They plead for the tender care of men and women, the surgeons, doctors and nurses who apply all that science, skill and devotion can accomplish. The Red Cross is the greatest mother in the world. She is warming thousands, feeding thousands, nursing thousands. She reaches out her hands across the sea to "No man's land" and comforts and man's land" and comforts and cheers thousands who must stand in stenched and water soaked holes, where cold and wet bite deeper than Boche steel or lead.

than Boche steel or lead.

All must give. Boy, girl, man, woman, everyone from the poorest to the richest. Selfishness must be cast aside. Duty, guided by patriotism must take its place.

We must say to our sons, husbands and brothers, "You have offered your all; we will back you with our sympathy, our care and our money." Dig deep into your pockets. We will furnish the greatest mother the world ever knew, The Red Cross, what she needs. This for God, Country and Humanity.

The speaker is Pat McCoy of the Cameronians and Royal Scouts, mentioned in dispatches by Field Marshall Haig for bravery in battle. He served in the British army from 1914 to 1918. Was wounded twice, gassed, suffered shell shock and trench fever and is still an optimist. He was an eye witness of German atrocities and has the story straight from other witnesses also. He tells of life with the boys over there and how the Red Cross and Y. M. C. A. are helping.

This event is given under the auspices of Lowell Rebekahs. Reserved seats on sale at Williams' store.

Quite a lot of damage was done in Keene township by the Thursday night wind storm. Silos, windmills hen coops and wood sheds were blown down, barns turned on the walls and Alonzo Frost's barn doors were blown off and struck on top of his house, making a big hole in the roof. Have not heard of any live stock being killed yet.

Swift & Company's total profit in 1917 was less than 4 cents on each dollar of sales of meat and by-products. Elimination of this profit would have had practically no effect on live stock and meat prices.

PUTTING HIS MONEY TO WORK

By HAROLD BELL WRIGHT.

THE hope of the world is not alone that the armies of humanity will be victorious, but that the spirit and purpose of our warfare will prevail in our victory. The hope of the world is in the Red Cross, because the Red Cross is voicing this spirit and purpose that must, through the force of our arms, triumph. Just to the degree that we can evidence this Red Cross spirit of mercy and brotherhood we will hold true in the dangerous hour of victory to the ideals that have forced us into the trenches in the defense of human rights and human liberty.

The one sane and saving thought in this delirium of death that now possesses the world is the Red Cross.

Wherever the storms of battle hell rage, amid the fires of ruthless destruction, in trench and camp and hospital, these soldiers of mercy with heroism unsurpassed are carrying the flag of the highest conceivable ideals of humanity. The ideals for which our armies have taken the field are, by these unarmed hosts, proclaimed to friend and foe, in that unmistakable language of universal mercy and brotherbood. In the terms of wasted towns rebuilt, of broken humanity salvaged, of dying children rescued, of desolate families succored, the Red Cross declares the cause for which we war and proclaims the principles and ideals that must and will in the end prevail. Above the thunder of the guns, the roar of exploding mines.

the crash of fallen cities and the cries of tortured humanity, the voice of the Red Cross carries clear and strong the one message of hope to our warburdened world.

The black horror of this world's crisis would be unbearable were it not for the spirit and work of this mighty force. The normal mind refuses to contemplate the situation without this saving power.

city, town and hamlet, men, women and children are united in this work of declaring to the world, through the Red Cross, our message of mercy and brotherhood, that keeps our hearts from sinking under the burden of woe and sustains our faith in human kind. It is the constant daily, almost hourly touch with the Red Cross work that is felt by every citizen in the land, that inspires us with courage and hope.

Out of this hell of slaughter the Red Cross will guide the warring nations to a heaven of world-wide peace and brotherhood.

Because it is the living expression of those ideals and principles in defense of which we are giving our all in lives and material wealth-because on every field of death it is proclaiming its message of life-because it keeps ever before us and the world the cause for which we war-because it will preserve us in the hour of our victory from defeating ourselves-the Red Cross is the hope of the world.
