BUDGET PLAN FOR KENT.
The Press is glad that the Citizens' league has again urged the adoption of a budget system and central purchasing agency upon the Kent county supervisors. This has been done before and nearly two years ago the supervisors agreed to the system and detailed ledgers were prepared and an inventory and appraisal ordered. There the mat-

ter was allowed to rest.
It seems rather illogical on the It seems rather illogical on the part of the city supervisors not to have pushed this reform through to conclusion. Grand Rapids has operated under a budget system for years and saved much money thereby. The city pays more than three-quarters of the county's expense, yet the city members permitted a condition to continue which they know from experiences in muniknow from experiences in muni-cipl affairs is inevitably wasteful

and costly.

If there is any good reason why city and county alike should not place the stamp of approval on the work of the budget committee and place the new financial system in operation The Press would like to know what it is.—Grand Rapids

McLemore resolution and of the pacifiet and pro-German attitude

against our participation in the war, was as thoroughly demoraliz-

ing to the conscience of the American people as anything that has

ever taken place. The failure of Mr. Ford's son to go into the

army at this time, and the approval by the father of the son's

refusal, represent exactly what might be expected from the more!

disintegration inevitably produced by such pacifiet propaganda.

Mr. Ford's son is the son of a man of enormous wealth. If he

went to war he would leave his wife and child immeasurably dis-

tant from all chance of even the slightest financial strain or

trouble, and his absence would not in the smallest degree affect the

efficiency of the business with which he is connected. But the son

stays at home, protesting and appealing when he is drafted, and

now escaping service. Your two sons have eagerly gone to the

front. They stand ready to pay with their lives for the honor and

the interest of the American people, and while they thus serve

America with fine indifference to all personal cost, the son of

wealthy Mr. Ford sits at home in ignoble safety, and his father

defends and advises such conduct. It would be a grave misfortune

to the country to have Mr. Ford in the Senate when any question

of continuing the war or discussing terms of peace may arise, and

it would be an equally grave misfortune to have him in any way

chance for misunderstanding, between patriotism and American-

ism on one side, and on the other pacifism, and that foolish sham-

cosmopolitanism which thinks it clever to deride the American

flag, and to proclaim that it would as soon be a Hindoo or China-

man as an American. If there should be at any time in the

future a Hindoo Senate, and it should choose, in a spirit of

cosmopolitanism, to admit outsiders, there is no reason why

Michigan is facing the test, clear-cut and without shadow of a

deal with the problems of reconstruction in this country.

United States Write

From Theodore Roosevelt

Oyster Bay, Long Island, October 19, 1918.

I congratulate you on your nomination, but far more do I con-

gratulate Michigan and all our people. It was my good fortune

to have you serve under me as Secretary of the Navy, and I can

testify personally to your efficiency and your disinterested and

single-minded zeal for the public service. To a very peculiar de-

gree you have stood for that kind of government which puts the

interest of the people as a whole first and foremost, and treats all

other considerations as negligible, when the public weal is in-

volved. The record made by you and your two sons in this war

is typical of your whole attitude as a public servant. Both your

boys at once entered the Navy, and are now on the high seas. You

sought employment abroad; when that was refused you, you ac-

cepted any position that was offered in which you could render

It is not primarily an issue between the Republican party and the

Democratic party, for Mr. Ford does not seem to have any firm

political convictions, and was content to take the nomination on

any ticket without regard to what the general principles of the

men supporting that ticket were; and his memory about past

politica is so hazy that although he has mentioned a Republican

candidate for president for whom he thinks he once voted, it does

not appear that this is possible, unless he is in error as to his own

political legue. It is the issue of straight Americanism, of straight

patriotism, and of preparedness for the tasks of peace and war, as

egainst a particularly foolish and obnoxious type of pacifism,

preached in peace and practiced in war. This is the first time in

he history of our country in which a candidate for high office has

men sominated who has spent enormous sums of money in de-

moralizing the people of the United States on a matter of vital

interest to their honor and welfare. The expenditures on behalf

My dear Commander Newberry: I watte to congratulate you on being the Republican candidate Senator in the State of Michigan. I sincerely hope that you will be elected, and I am very certain that if you are, you will render to the State and to the country a valuable service in your high office. I feel that I can say this from personal observation of the way in which you discharged your official duties both while you were Assistant Secretary of the Navy, and while you were in the came Cabinet with me under President Roosevelt. It is of the blanest importance that in the settlement of the important quesgrowing out of this war, we should have men in the senate of experience in governmental matters, and of your political The Democratic majority in Congress has not been one which the President or the country could depend for the botton of measures adequate to the winning of the war. The Ble of the United States can be much more confident, if we have Republican majority in both Houses, that the legislative branch The Government will wisely cooperate with the Executive Adminteretion, and by constructive criticism make that Administra-effective than if Democratic majorities in both Houses and. With Mr. Ford's known pacifist views, carried to

an extreme, indeed, with his nondescript political affiliations, and with his engaging in this canvass simply at the instance of the President, the people of Michigan are placed in a dilemma in respect to how he will represent them. He will either go into the Democratic caucus and follow implicitly the wish of the President, who induced him to run, or no one can know what he will do, not even Mr. Ford, in contingencies that are likely to arise. If you are elected, the people of Michigan will know that you will act with the loyal Republicans and that you will back the President to the utmost when he is seeking Congressional assistance for the winning of the war, and that you will be independent and courageous in pointing out the mistakes of administration, with a view to their remedy. An Increase From Every Acre

NE SURE way to get a profitable increase crease the fertility of the soil. The least expensive, least troublesome, and surest way to do this is to apply stable manure in a light, even top dressing with a Low Corn King manure spreader. The manure is already accumulated. The soil needs it and will respond to proper spreading. Five to eight tons to the acre does the business. No more help, no more power is needed. Just buy and use a light draft

Low Corn King Manure Spreader

Three sizes - small, medium, and large. All narrow boxes. All steel frames with working parts of the spreader securely attached to the frame. Turns short. Drive from both rear wheels. Return apron driven by worm gear which insures even spreading up hill and down. Pull comes straight on steel frame. Solid two-inch rear axle working in roller bearings carries seventy-five per cent of the load. All-steel beater cannot warp, shrink, or rot. Built up to Internationa Harvester standards of quality in every respect. Buy a Corn King spreader and use it. The increased yield from a few acres will pay for your spreader.
