SOME FOLKS SAY

You can't sell good goods in Lowell, I mean now, fine wares that may seem expensive because they are intrinsically worth the price. But I know better, because I have been selling good stuff right here in Lowell to satisfied customers for many years, to people who know what they want and are willing to pay a right price for an honest to goodness article, whether it is

Watches, Jewelry, Clocks, Bric-a-brac, Cut Glass, Silverware, Fancy China, or Dinnerware.

A call will convince you that what I say is true. Drop in. You're welcome whether you buy or not.

FLOOD IS RECEDING COMING TO LOWELL

Grand River Passes 18 Foot Stage. Crest Reached Wednesday.

This Thursday morning at 9:30, Grand river below Main street dam, had fallen 9 inches from yesterday's high water mark.

Flood water reached its highest stage in Lowell yesterday and is slowly receding after inflicting the usual spring time inconveniences upon residents in the lower sections of the village and upon business men through the flooding of basements.

Goods were mostly removed to places of safety; but basement fires were put out and stoves are being used to warm the stores.

The King mills were closed down Sunday morning and the Cutler factory followed suit Monday.

Fortunately the rain which set in Sunday night and continued until Monday afternoon stopped by evening or high water marks of former years might have been reached. As it was, boats were used to reach some houses south of Main street on Tuesday night and wading boots were in demand. On the West side, residents experienced more than the usual degree of trouble with flooded basements and cellars, many furnace fires being extinguished.

From Worthy Willard's place on the East side and from the Kellogg house and evaporator on the West side to the south side of Grand river was the usual spring-time lake, so familiar to old timers "at the mouth."

Usually, the Flat and Grand rivers have not agreed as to the proper time to rise and fall; but this year they made it unanimous, the Grand backing up until its level was but a few inches lower than the Flat at the Main street dam.

Even Walker creek went on a tear and contributed to the troubles of the usually serene West side.

River observer Lewis Morse reports the highest stage of Grand river at 18 and 3-10 feet Wednesday forenoon, when it became stationary, which was 2-10 feet higher than that reached last year. The rise Tuesday night was 6 inches; and the total rise since Saturday night was 12 feet.

The crest of the flood reached the Lowell light and power dam on Flat river Wednesday and by noon the river had fallen four inches.

St. Patrick's Celebration.
A most enjoyable event occurred on Monday evening, March 17, at the home of Mr. and Mrs. Frank Raymond when the Greene Circle members and guests numbering about one hundred in all met to celebrate. Green decorations in various artistic modes adorned many in honor of the circle and St. Patrick. A short program was given after which a very elaborate supper was prepared by the hostesses, consisting of genuine Irish stew, coffee and doughnuts.—Com.

WOODMAN NOTICE.

NOTICE
Of election April 7, 1919. Hear Ye, Hear Ye.

The polls of this election will close at 8 o'clock. It was thought best by the township board that we extend the time for voting from 5 o'clock until 8 o'clock that the factory men those who were actively employed through the day might have the evening hour for voting.

At the election to be held in this state on Monday, April 7, 1919, there will be submitted to the electors three proposed amendments to the Constitution of this state as follows:

A proposed amendment to Section 10, Article X of the Constitution, authorizing the State to borrow money to be used for highway purposes and issue bonds therefor, and to read as follows:

"Section 10. The state may contract debts to meet deficits in revenue, but such debts shall not in the aggregate at any time, exceed two hundred fifty thousand dollars. The state may also contract debts to repel invasion, suppress insurrection, defend the state or aid the United States in time of war. The money so raised shall be applied to the purposes for which it is raised or to the payment of the debts contracted. The state may borrow not to exceed fifty million dollars for the improvement of highways and pledge its credit and issue bonds therefor on such terms as shall be provided by law."

The effect of this proposed amendment, if adopted, will be to provide that the state may borrow money for highway purposes and issue bonds therefor.

A proposed amendment to Section 3, Article XVI of the Constitution, to prohibit the increase or decrease of salaries of Public Officers, and to read as follows:

"Section 3. Neither the legislature nor any municipal authority shall grant or authorize extra compensation to any public officer, agent, employee or contractor after the service has been rendered, or the contract entered into. Salaries of public officers except Supreme Court justices, circuit court judges, probate judges and judges of courts of like jurisdiction shall not be increased nor shall the salary of any public officer be decreased after election or appointment."

The effect of this proposed amendment, if adopted, will be to prohibit the change of salaries of Public Officers after appointment or election, except those of justices or judges of courts of record.

A proposed amendment to Article XVI of the Constitution, by adding a section thereto to be known as Section 12, and to read as follows:

"Section 12. It shall forever be lawful in this State to import, transport for sale, use, buy, sell, keep for sale, use, barter or furnish every kind of cider, wines, beer, ale and porter, and to possess the same in a private residence. So much of Section 11, Article XVI of this Constitution, as prohibits the manufacture, sale, keeping for sale, giving away, bartering or furnishing of vinous, malt, brewed or fermented liquors, is hereby repealed. The legislature by general laws shall reasonably license the manufacture of, and reasonably license and regulate the sale and keeping for sale of vinous, malt, brewed or fermented liquors. Provided, however, that the electors of each city, village or township forever shall have the right to prohibit the manufacture, sale or keeping for sale of vinous, malt, brewed or fermented liquors within such city, village or township."

The effect of this proposed amendment, if adopted, will be to provide for the manufacture, sale, keeping for sale, giving away, bartering or furnishing of cider, wines, beer, ale and porter in this state.

This statement is made in compliance with Act 203, Public Acts of 1917, which in part is as follows: "The Secretary of State shall prepare concise statements, setting forth the purpose, nature and effect of proposed amendments, and send to the daily and weekly newspapers with a request that said papers give as wide publicity as possible. Publication of any matter by any paper under the provisions of this act shall be without expense to the State of Michigan."

Very respectfully,
Coleman C. Vaughn,
Secretary of State.

"DEMOS" AND G. O. P. IN HARMONY NOW FOR FIRST TIME IN YEARS

Both Line Up for Prohibition—"Demos" Swat Wine and Beer Bill
Lansing, Mich.—Politicians who can remember the day when anything that was approved by the G. O. P. was damned by the Democrats, vice versa, are marvelling at the spectacle presented to their gaze in the current campaign. For the first time within the memory of party patriarchs, the rival camps are in agreement upon one issue—and the issue is prohibition.
Campaigners for the G. O. P., who were represented by the other party with much ostentation to the resolution endorsing prohibition enacted by the last state convention, while the democrats, with equal gusto, are swatting the proposed wine and beer amendment to be submitted in April by the wets. If the efforts of party workers count for anything, according to observers, the wine and beer bill is due to receive short shrift at the polls in the coming election.

NEWSPAPER VS. POSTER.
Cliff Collier, the anti-temper, considered the best authority on the public sale business in Clarke, or you might say in any county, told a local newspaper that he would rather have all his clients would cut out the sale bill and sale card advertising and spend the money buying nice big display advertising space in the county papers. He asks: How in the dickens is a fellow going to read a public sale bill stuck up on the four corners when he goes by in his "fizzie" at a 30-mile-per-hour clip, and who is going to stop and "fizzie" just to read a sale bill? Another thing he asks: What farmer has got the time to throw away driving around town looking up bills, when he can get his advertisements right up to the family hearth in the family paper in the evening, to be read at leisure hours, where it does some good? It gives the farmer and lawyer a chance to look the advertisement over carefully and pick out the stock and other things he wants before he attends the sale. It makes things at a sale speed up, it brings larger crowds and it comes from a greater distance, consequently it brings in more money. Newspaper publicity and a lot of it is what gets the people, Mr. Collier says, and never worry he will do the rest.—Democrat, Osceola, Ia.

STUDY CLUB MEETING
The study club met at the home of the president, Mrs. J. S. Hooker, Saturday, Mar. 14, at 3 o'clock.
The meeting was called to order by the president. The minutes of previous meeting were read by the secretary, Mrs. C. J. Bradish, and stood approved.
Mesdames Wm. Stowell, R. Van Dyke and C. J. Bradish then took charge of the meeting, they having prepared the lessons for the afternoon's study.
Active interest was shown in the subjects brought up by these ladies, chiefly in civil and local government.
Announcement was made by Mrs. Hooker that Mesdames D. G. Look and J. M. Meyers would be our teachers at the next regular meeting to be held Tuesday afternoon at the home of Mrs. Chas. Doyle.
The club then adjourned, each lady taking with her pamphlets concerning the amendments to be voted on April 7, 1919.

FINANCING VICTORY LOAN
WILL HELP INDUSTRY
Must Be Distributed Among All the People—Every American's Savings Needed to Keep Wheels Turning.

Stuart Rosewood, president of Sears, Roebuck & Co., and a dollar a year government employee, stated recently that Germany surrounded, not so much because she was beaten as because for military chiefs saw the impending withdrawal of American men, munitions, airplanes, food and supplies, which they knew meant a reduction in the national credit for the German nation.
"The Victory Loan—It should be called the Thinking-into-action fund," says a part of the bill for that proposition that saved the lives of hundreds of thousands of American boys, can no more be avoided against the destruction of life which our preparations averted," Mr. Rosewood pointed out.
"The loan must be financed before industry can go ahead. Proper financing of the loan means that it must be distributed among all the people, means that the savings of every American must be tapped to the government. This work wide distribution is effected—and it can only be effected with the assistance of the great organizations which have been built up during the past drives—the financial forces will have to search the loan. Such a result would be disastrous to the business world, for funds needed in trade reconstruction would have to be withdrawn from circulation and interest rates would mount so high that private concerns would find it almost impossible to borrow for their needs."

MICKIE SAYS
