LOWELL, MICHIGAN, JULY 3, 1919

MODERN PLAY, "IT PAYS TO AD-VERTISE," AND BIG MUSICAL NUMBERS.

Four Great Lectures—League of Na-tions and Freedom of the Seas to Be Discussed—Five Days of En-tertainment and Down-to-the-Min-

A clean modern play, entitled "It Pays To Advertise," the Dunbar Singers and Bell Ringers, the Steely Concert Company and the Lombard Entertainers; great timely lectures—these are but a few of the attractions of the 1919 Redpath Chatauqua scheduled to appear here. The entire five days' program is replete with features of compelling interest. "The League of Nations," "The Freedom of the Seas," and other down-to-the-minute topics, each finds a place in the discussions of the week, thus keeping up the reputation of the Chautauqua as a powerful factor for enlightenment on public problems.

The Dunbar Male Quartet and Bell Ringers will be the attraction on the opening afternoon. For

on the opening afternoon. For many years a Dunbar Quartet and Bell Ringers company was one of the most popular of Chautauqua and Bell Ringers company was one of the most popular of Chautauqua and Lyceum organizations. The present company was organized by Ralph Dunbar of the orginal Bell Ringers and is most worthy to bear the Dunbar name. The members of the Dunbars appear in solos, quartets and readings and carry 150 hand bells upon which are played some of the best overtures and solo numbers. In order to secure an especially high quality of talent the singers have all been given a four-year contract. The Dunbars will give a prelude at night.

"America's Today Gleaned From Yesterdays, 'Over There,' " will be the subject of the opening night lecture by Elwood T. Bailey. Mr. Bailey as a welfare worker over seas spoke to several hundred thousands of our soldiers, both in the fighting zones and in our camps. In his lecture he tells the story of the return of the American soldier to his country, the readjustment of the soldier and the problems which confront each and all today.

Extraordinary costumes, some of them imported from Japan, Chinese II and the problems which confront each and all today.

Extraordinary costumes, some of them imported from Japan, Chinese II and the problems which confront each and all today.

Extraordinary costumes, some of sponded to an encore, them imported from Japan, Chinese A contest to write as many things them imported from Japan, Chinese chimes, something never used on the Chautauqua platform before; a remarkable one-stringed cello and a gypsy camp fire setting are a few novelties which make unique and compelling the program of the Lombard Entertainers who give a full concert on the afternoon of the second day and a probled of night. This ond day and a prelude at night. This company consists of Harry Lombard and Lela Fairchild Lombard, his wife, and their work is replete his wife, and their work is replete with good musical material given in an entertaining and delightful way. At night O. E. Behymer (Bee'-nighmer) of the Sheldon School of Salesmanship, Chicago, will lecture on "The Romance of Business." As presented by Mr. Behymer, business is one of the most entrancing of adventures, an enterprise of vital interest to every man, woman and terest to every man, woman and child. This is a lecture which ev-eryone interested in making a suc-cess in life should hear. Following his address Mr. Behymer will an-swer any questions suggested by his

cess in life should hear. Following his address Mr. Behymer will answer any questions suggested by his lecture.

The Steely Concert Company, consisting of Mr. and Mrs. Walter Steely and their 18-year-old daughter Erlynne, will be the attraction of the third afternoon and will also give a night prelude. For more than fifteen years Mr. and Mrs. Steely have been delighting big audiences everywhere with vocal and instrumental specialties. Besides being possessed of excellent voices they all appear in piano and marimbaphone selections. Also Mr. Steely plays the saxophone and concertina. Miss Steely is a cartoonist as well as a musician and her drawings constitute a feature of the program.

Dr. Vincenzo de Sente meted Ital.

Dr. Vincenzo de Sente meted Ital.

the program. Dr. Vincenzo de Santo, noted Italian journalist and orator, who appears on the third night, will dispears on the third night, will discuss among other world topics the problem of the league of nations. He will also tell of the astounding spirit of modern Italy. Dr. de Santo speaks English perfectly. He is a contributor to magazines and newspapers, both in the United States and Italy, and his lectures are based on a wide knowledge of this and foreign countries. It is at once aparent that Dr. de Santo's lecture is one of the big features of the week.

Dr. E. T. Hagerman will lecture on "The Man with One Window," on the fourth night. For twenty on the fourth night. For twenty loved husband and father. Also for the beautiful flowers, on the fourth night. For twenty consecutive years Dr. Hagerman has appeared as a lecturer on the Lyceum and Chautauqua platforms and "The Man with One Window" is considered to be the strongest address of his career. Dr. Hagerman has a message and he presents it in a clear forcible, pleasing manner. On the afternoon of the fourth day the Artists' Company will give a concert of vocal and instrumental music of exceptional merit. The same company will give a prelude at night.

night.

At night, on the fifth day, the side-splitting American comedy "It Paps to Advertise," will be presented by a company of eight. This is a play which was extraordinarily successful in the great metropolitan centers and likewise on Chautauqua. It is so well balanced in human values that it cheers the heart and diverts the mind at the same time. Last year on one of the big Redpath Seven Day circuits "It Pays to Advertise" proved to be one of the biggest features of the whole week. This clean, rollicking comedy will be a fitting finale to a great program.

IDLE HOUR NEWS

Wednesday and Thursday one of those good Metros: "After His Own Heart," starring Hale Hamilton. Price 6c and 11c,
July 4. Evening only. Metro feature, "Unexpected Places" and Lupe comedy, "That's Him." Price 6c and 11c,
Saturday, July 5. the powerful

Saturday, July 5, the powerful dramatic star Edmund Breece in "The Shooting of Dan McGrew," a gripping play of the great show world. Also a Sunshine comedy. Afternoon, 6c and 11c. Evening 11c and 17c.

Sunday, extra special, Jess Will-ard in a Western drama, "Challenge of Chance." Tuesday evening, "Lure of the Circus," and a good comedy.

CHRISTIAN SCIENCE .SERVICES. Christian Science services are being held regularly at eleven o'clock each Sunday morning in the Idle Hour theatre. Every one cordially invited. Subject of sermon for next Sunday, July 6, 1919, "God."

Hale's Orchestra, Tony Johnson and Pavement Dance in Lowell July 9. Lowell's live entertainment com-

Lowell's live entertainment committee announces another "wide open" evening in the old town on Wednesday evening, July 9.

Hale's six-piece orchestra from Belding accompanied by Tony Johnson entertainer, late of the U. S. Naval quartet, will furnish music and entertainment for the pleasure-leving public.

loving public.
Pavement dance and lively music and fun from 8 o'clock till 11 and all out doors of room for everybody. Main and street will be brilliantly illuminated from end to end and business places will be open for the convenience of the visiting and trading public.
No closing this Thursday after-

noon on account of legal holiday, July 4. Half holidays will be resumed

Thursday, July 10.

No ball game arranged for yet.

The new suits can't be delivered before July 5. Games with teams from neighboring towns will probably be arranged. Alto is said to be organizing a team and a game will doubtless be booked. Watch for further announcements.

Obituary—Samuel Ons a.

Samuel Onan was born in Tompkins county, N. Y., June 10, 1837, and departed this life June 23, 1919, aged 82 years, 13 days. In 1856 he came to Michigan and in 1867 was united in holy matrimony to Miss Emma Stinton; of Lowell. To this union were born four children who have grown to manhood and womanhood and have leated upon near by farms, namely: Seward Onan, Mrs. William Hesche, Mrs. Anna Thomas and Mrs. Lena Green. Their loss is his gain. The deceased has been a great sufferer, but patient. He expressed good evidence of being prepared for this great change which awaits all men. He leaves to mourn his loss a faithful companion and wife, four children, one son, three daughters, ten grand children, 2 great grand children and a host of friends. The departed was a member of the U.B. church of West Lowell.

The McDannell store building has been rented to Grand Rapids parties.

The Doyle Grain Co., Moseley, Mich

NE thing that stands out in farming with power the country over is the low cost of operating a tractor that runs successfully on kerosene

The fact has become so apparent in the last year or two that we think you must have been doing a little quiet figuring to see just what you are losing in time, labor. and money by not having a tractor especially built to operate on low-priced, economy fuels. Remember that the

Titan 10-20 Tractor

is designed and built with but one purpose in view-delivering its full rated horse power and doing good serviceable drawbar and belt work at all loads within its capacity,

on kerosene or any oil fuel down to 39 degrees Baume. You know what kerosene costs compared to gasoline. The difference in the present prices of these fuels represents a saving of from fifty to sixty per cent in the cost of fuel to a Titan owner. What higher recommendation can a tractor have than demonstrated ability to deliver at all times, in all seasons, low-cost, dependable power at drawbar and belt?

The Titan does that. We want a chance to show you plainly just why it does. Let us

remind you again that Titan tractors are safe tractors to buy. Come in and get thoroughly posted. Read over the printed folders and study the tractor. Decide on a Titan investment. For Sale by E. E. Brown

THE MAN WHO WINS. The man who wins is the man who Ahead with his work each day;
Who's never struck by his adverse luck
But makes of his labors play.
From early dawn he toils right on,
And knows that the world's all right.

And he sings a song as he goes along, The man who wins is the man who And sees that the sky is blue; Of smiles and of sunshine too. He never growls and he never howls
That the world is out of gear—
But he meets the shocks and the jealous knocks
With a great broad smile of cheer. The man who wins is the willing man Who grinds while others play; The sun shines bright and his heart's of life you must dig in

And work away every newborn day.
When you really expect to win.
—[Michigan Tradesman. has just finished rushing to the res-cue of the peanut. There was ungraph, mail and otherwise (preferably aeroplane) information on the supply, demand, commercial movements, disposition, quality and market price of the plebian nut. Senaket price of the plebian nut.

weight automobiles as a measure of economy. He says that a five-passenger car with a weight of about ened with loss of much of its wheat e

tires. He might have added that with light cars the roads would last longer and the up-keep expense would be less. Likely as not Henry Ford's new car will fill the bill.

We have a "hunch" that if the city building boomers do not stop drafting labor from the farms that the near future will see a high cost of living condition that will astonish the oldest inhabitant. Short-handed farmers were willing to work their heads off to feed the world during the war, but they know pretty well when they have had enough and the time is not distant. What we need more than a building boom is a back to the farm movement.

That capitalism is largely responsible for the growth of Bolshevism, the I, W. W., and red ragism in general, is a familiar charge but a New York educator says that "Hogism" and "not capitalism is to blame;" and he adds that capitalism is to blame; "and he adds that capitalism is to blame;" and the adds that capitalism is to blame; "and he adds that capitalism is to blame;" and the such a paper.

New York has a teamster strike and tons of produce are rotting on the pirat charge and more charal sund ons of produce are rotting on their hearts and soft spots in their hearts and tons of produce are rotting on the pirate of the sund that the such as a teamster strike and tons of produce are rotting on the pirate is always some.

The Back teasts has been dead of the pirate of the produce are rotting on the pirate of the produce are produced to the part of the produce are rotting on the pirate

Infair profits have "hard spots on their hearts and soft spots in their heads." Isn't it true?

The Peace treaty has been algaed and President Wilson is on the way, home from his super-human task. We have heard much from the opposition to the League of Nations and now we shall hear from the one who knows most about it and judgment may well he reserved.

By the profits have "hard spots on their hearts" have heard with them who knows most about it and judgment may well he reserved.

By the profits have "hard spots on their hearts" have heard super-human task. We have heard much from the opposition to the League of Nations and now we shall hear from the one who knows most about it and judgment may well he reserved.

By the profits pots has a teamster strike and tons of produce are rotting on the piers. There is always some one or something to stop the wheels, of industry—like a city pavement, we everlastingly being torn up somewhere.

Senators Swanson and Simmons had made impassioned pleas, but all to no effect until the Wisconsin statesman pointed out that Battle Creek, Mich., has demonstrated the guber's use as a perfect substitute for meat, wholesome as well as delicious and solvent of high costs, whereupon the senate acquiesced. People may now be looking for wirelesses that peanuts have jumped from a nickle to fifteen cents per sack.—[Detroit Free Press.] t by reducing the size of As us small boys used to

"If you have money enough you can commit any crime and escape punishment." You have heard that said and perhaps believed it, but the case of the Boston wool men fined \$10,000 each and sent to prison for 18 months for defrauding the government out of \$1,379,000 income tax, shows that the charge is not always true. These men offered to pay the government \$1,500,000 to settle and escape the jail sentence; and they not only failed, but they mus pay their taxes and fines and go to jail besides. A few such cases will go a long way in restoring public confidence in the justice of the law as administered.

A well-known engineer advocates

The procession of interned mans from America to the could fill fame has been augumented an nine hundred lot from Charley they wouldn't help prevent, which they openly defended; may we never see their like age

and predicts the building of lightweight automobiles as a measure of economy. He says that a five-passenger car with a weight of about 900 pounds should give 30 to 40 miles to the gallon of fuel and from 10,000 to 15,000 miles to the set of tires. He might have added that with light cars the roads would last longer and the up-keep expense would be less. Likely as not Henry Ford's new car will fill the bill.

RICKARD'S VIEWS DO NOT COINCIDE WITH THOSE OF HAR-DIN. AND THE INEVITABLE COMES TO PASS.

Synopsis.-K. C. Rickard, an engineer of the Overland Pacific rallroad, is called to the office of President Marshall in Tuscon, Ariz. While waiting Rickard reads a report on the ravages of the Colorado river. despite the efforts of Thomas Hardin, head of the Desert Reclamation company. Hardin had been a student under Rickard in an eastern college and had married Gerty Holmes, with whom Rickard had fancied he lege and had married Gerty Holmes, with whom Richard had the lege and had married Gerty Holmes, with whom Richard had had been summed up, could be guessed from the what do you know of the interests at about this fiver business.

Summed up, could be guessed from the what do you know of the interests at about this fiver business.

Estrada turned his pensive gaze on the line of the American. "Yes, often. I thought, wooster's antagonism was open and the line of the interests at about this fiver business."

Estrada turned his pensive gaze on thousand dollars into a frill. God, do the American. "Yes, often. I thought, wooster's antagonism was open and the line of the interests at about this fiver business." save the Imperial valley and wishes to send Rickard to take charge. Rickard declines because he foresees embarrassment in supplanting Hardin, but is won over. Rickard goes to Calexico and, on the way, learns much about Hardin and his work. Rickard meets Mr. and Mrs. Hardin and Innes Hardin, the former's half sister. At the company offices he finds the engineers loyal to Hardin and hostile to him.

The river is a poi to MacLean, whom he had drawn to bling of its would-be captors. His task be rushed in to the break. He urged but—" CHAPTER V—Continued.

The door opened and Rickard came one side, out of earshot of the checker players.

The door opened and Rickard came of the checker of the sterile land. No wonder Hardin was sore; his noose of the maintained. "If it's not won this time, it's a lost of the window of the windo

Oglivic explained degree was the machinery had the minutes of the last meeting.

"Leave them here." Rickard waved him toward Estrada, who held out his hand for the papers.

Reluctantly the accountant relinquished the papers. His retreating coattails looked ludicrously whipped but no one laughed. Hardin's scowl deepened.

"Showing his power," he thought." "Showing his power," he thought." "Estrada pushed the minutes through with but a few unimportant interruptions. He was sitting at the same desk with Rickard. Hardin, sensitive and sullen, thought he saw the meeting managed between them.

Several itimes he attempted to bring of the last meeting. "Why not get the machinery here? What's the use of taking chances?" dehanded Rickard.

Hardin felt the personal implication. He was on his feet in a second, "There are no chances." He looked at MacLean. "The machinery's done. It's no use getting it here until we're ready." "There's another man you ought to meet. He was with the second Powell expedition. He's written the best book on the river. He knows it, if any man does. You wanted these maps." Estrada was gathering them together.

The was of taking chances?" demanded Rickard. "I want river islory." "There's another man you ought to meet. He was with the second Powell expedition. He's written the best book on the river. He knows it, if any man does. You wanted these maps." Estrada was gathering them together.

Thank you. And you can just strangle that forcboding of yours, Mr. We are told the Czecho-Slovak state will be a small one, and as a result its existence will be precarious, assum-

Elickard had served on the road; of the job is the heat-baked barrancas of Mexico, where Marshall had "found" joke.

"And the Scotched option?" reminded Hardin to give up his trip to Lee Angeles. It might be better, after all, for the new manager to take the way.

"Madelean's coming at his own poor the color of the way.

"It was just that. A case of Hardin to give up his trip to Lee Angeles. It might be better, after all, for the new manager to take the way.

"Madelean's coming at his own poor to catch. The exponent of a quarry in the granite hills back of Hamilins," continued Rickland, not looking at Hardin.

Instantly Hardin was on his feet. His first thundered on the table. "I shall oppose that," he fared. "It is absolutely unnecessary. We can't afford it. Do you know what that vill cost, gentlemen?"

"With Babcock."

"With Babcock."

"With Babcock."

"With Babcock."

"Bardin's was better. "Estrada, if I had the very our son to rely on for which. Three times Hardin's crossed the ocean trying to corner the opport. Rickard interrupted him. "I want an interval of the work of the larger of the work of the larger of the work of the limits are not of the design at his own poor that it does not refer to the following note, solve. The following note, solve, The following not

Their heads were still bending over Estrada's rough work bench when the Japanese cook announced that dinner was waiting in the adjoining car. MacLean and Bodefeldt and several young engineers joined them.

It had been outwardly a wasted day. Rickard had lounged, socially and physically. But before he turned in that night he had learned the names and dispositions of his force, and some of their prejudices. Nothing, he

but you're lending it, not giving it to us. You are going to his office and man has made a circle of failure when the dereads going to his office and shrinks from the reproaches at home. "A 'has-been' at forty!" he mused. Where were all his ships drifting?

Where were all his ships drifting?

Where were all his ships drifting?

Yamanaka was a strong Buddhist and a leader in the movement to revive and reform Buddhism and establish it as a bulwark against the rapid encroachment of Christianity. He decided an excellent way to do this was to found a school for girls which would be more attractive than

Rickard entered a few minutes later, Estrada behind him. Ogilvie followed Rickard to his desk.

"Well?" inquired the new manager.

Ogilvie explained lengthily that he had the minutes of the last meeting.

"Leave them here." Rickard waved "Leave them here." Rickard then called for a report on the clam-shell dredge being rushed at Yuma. Where was the machinery? Was it not to have been finished in were all Indian. He's smart. Smart "Leave them here." Rickard waved "Leave them here." Rickard then called for a report on the clam-shell dredge being rushed at Yuma. Where was the machinery? Was it not to have been finished in were all Indian. He's smart. Smart "Leave them here." Rickard waved "Leave them here." Rickard then called for a report on though he were pure Indian. The did not seen the were pure Indian. The sent though he were pure Indian. The double he were pure Indian. The sent though he were pure Indian. The did not sent the was a trapper, his great-grandfather there was a trapper, his great-grandfather the were pure Indian. Fred A. Godfrey

The Farm Man Office directly across from City State Bank.

ONE thing that stands out in farming with power the country over is the low cost of operating a tractor that runs successfully on kerosene

and other low-grade fuels.

The fact has become so apparent in the last year or two that we think you must have been doing a little quiet figuring to see just what you are losing in time, labor and money by not having a tractor especially built to operate on low-priced, economy fuels. Remember that the Titan 10-20 Tractor

is designed and built with but one purpose in view—delivering its full rated horse power and doing good serviceable drawbar and belt work at all loads within its capacity, on kerosene or any oil fuel down to 39 degrees Baume. You know what kerosene costs compared to gasoline. The difference in the present prices of these fuels represents a saving of from fifty to sixty per cent in the cost of fuel to a Titan owner. What higher recommendation can a tractor have than demonstrated ability to deliver at all

times, in all seasons, low-cost, dependable power at drawbar and belt?

The Titan does that. We want a chance to show you plainly just why it does. Let us remind you again that Titan tractors are safe tractors to buy. Come in and get thoroughly posted. Read over the printed folders and study the tractor. Decide on a Titan investment. For Sale by E. E. Brown
