CITY DADS VS SCHOOL BOARD

Officials of Village Council and School Boards at Odds over Library Rent.

A dead lock situation exists between the Village Council and the School Board of District No. 1 on the matter of library rent. The Council has fixed a rental price of \$300 per year for library room heated, lighted and "janitoried," which is double the price formerly paid.

In the interests of the public, the Village Council suggests a compromise at a figure around \$200, that the library may remain where it is and continue its function as a public library, which, largely, it would cease to do if moved to the high school building, although the latter arrangement may be better for the school.

We don't want the library room vacant, and so far as the public is concerned, village or school district, and the money involved it is much like transferring it from one pocket to another.

The important thing is to continue the public library in the apartment intended for it, a matter of more importance than the money involved. A spirit of compromise on both sides will settle the matter on a basis satisfactory to the public.

These are the members of the Village Council: President, M. N. Henry; Trustees, J. A. Archart, Harry Day, S. S. Lee, P. C. Peckham, C. H. Runciman and J. C. Smith.

The school board is composed of the following: D. G. Mangle, W. S. Winegar, F. E. White, H. L. Weekes and O. J. Yeiter.

Any taxpayer desiring to express himself on this matter may do so through this medium. Copy for same should be in printer's hands Monday morning.

BAD FIRE SATURDAY

Earl Brown Home Burned. \$3,000 Loss. Insurance \$2,400.

The Packard house owned by Earl Brown and occupied by Earl Brown and family, was partially destroyed by a fire resulting from an exploding oil stove at 5 p. m., Saturday. Loss on household goods about \$1,000. Insurance \$1,000, which does not cover loss.

The scattered, burning oil, made a quick, fierce fire, and the firemen did well to stop the destruction when they did. Some of the furniture was removed, but most of it was in a badly scorched condition.

Mrs. Brown and her baby inhaled too much smoke, and the former was made ill by it. She is at the home of her sister, Mrs. Bert Charles, and is feeling better. Earl says his home just now is where he hangs his hat.

Mr. Austin expects to rebuild the house as soon as possible.

OLD RESIDENT GONE

Frank Randall's Long Illness Ends in Death. Funeral Friday.

Frances D. Randall died at his home in this village at 6:45 a. m., Wednesday, July 16, after a lingering illness. He had been a resident of this village for about 40 years.

Mr. Randall was born in Gramby, N. Y., Oct. 26, 1848, and would have been 71 years old had he lived till next October. He was married to Mina Johnson in Gramby, Nov. 24, 1868, and they celebrated their golden wedding anniversary last November. Mr. Randall was a cooper by trade and had worked at that trade here until failing health compelled him to give up something over a year ago.

Besides his widow he is survived by two sons, Frances of this village and Orris J. of Grand Rapids, five grandchildren, one of whom, Zora Randall, has made her home with her grandparents most of her life, two sisters, Mesdames Orrilla Kingston and Sarah Bowerman, seven brothers, Asa, Willard, Theodore, Charles, Albert and Solomon, all of Ionia, and Frederick of Chicago. Funeral services will be conducted at the home Friday at 2 p. m.

Roller Bearings.

Experiments to perfect a bearing that would withstand the heavy strains of a heavy case mill led to the discovery of the principle, and to the development of the Hyatt roller bearing, by John Wesley Hyatt, the inventor, who also invented celluloid in his search for substitute material for ivory used in billiard balls. His studies in flexibility about the billiard ball use preceded and led up to his invention of the first flexible roller bearing.

Dunbar Male Quartet and Bell Ringers Coming on Our Chautauqua Week

The Dunbar Male Quartet will be the attraction on the opening afternoon of the coming Redpath Chautauqua. For many years the Dunbar Quartet and Bell Ringers Company was one of the most popular of Chautauqua and Lyceum organizations. The present company was organized by Ralph Dunbar of the original Bell Ringers and is a worthy bearer of the Dunbar name. The Dunbars appear in solos, quartets and readings and carry 150 hand bells upon which are played some of the best overtures and solo numbers. An especially high quality of talent was assured in organizing the company by the fact that the singers were given a four-year contract. The Dunbars will give a prelude at night.

Notice to Water Customers. Sprinkling hours are from 6 to 8 a. m. and 6 to 8 p. m. This change has been made necessary on account of the scarcity of water.

Many customers do not seem to realize the gravity of the situation, violating the rules, some through negligence, others with intent. A great amount of water is wasted through defective fixtures and faucets which are left running. This condition must be remedied or offenders will be cut off.

Use of water for sprinkling purposes must be discontinued during a fire. By Order of Water Committee.

Jumps Into Reed's Lake Trying to End His Life; Pulled Out and Jailed.

George Druce, 22, of Ionia, jumped from the deck of the Major A. B. Watson into Reed's lake last night in an attempt to commit suicide. Passengers on the boat saw him leap to the railing and plunge into the lake. A boat was lowered and "Babe" Apsey rowed to where the man was down, rescuing Druce as soon as he had committed suicide.

Druce, who worked for about two weeks as elevator boy at the Boston store, lived at the home of Mrs. Bond, 438 Bond avenue, N. W., upstairs. He left a note to Mrs. Anna Sheboy, a waitress at the Ohio House, telling her that when she read the message he would be "sleeping the last sleep." "If I have caused you sorrow or trouble, I beg your forgiveness," he concluded.

Mrs. Sheboy stated last night that Druce had been ill and that several women at the hotel had at different times tried to influence him to end his life, as he had threatened.

Druce is lodged at the county jail, where he was taken shortly after recovering by Deputy Sheriff Coney Johnson--Grand Rapids Herald July 12.

Druce formerly lived in Lowell and moved away about a year ago.

Lynn Perry has the new Lowell laundry nearly ready for business. The building has been over-hauled and renewed and a three-story plus chimney built to carry away the smoke from the boiler and an extensive equipment installed. Expects to have an opening day soon.

Mrs. A. M. Andrews spent the fore part of the week at the farm home with her daughter and family.

Put your Edison on your porch some evening and give the neighbors a real concert.

"The House of Kuppenheimer Clothes"

A Few Words For Men

About the "Foreward"

Have you ever noticed how many men have the inclination to lean forward slightly in the region of the neck and shoulders? Some people call them stoop shouldered, but that's too broad a term. In most men, the stoop isn't accentuated enough to put them in this class. We call them the "foreward type" and we have the clothing model that is designed specially to fit them—it's the "Foreward," created by

The House of Kuppenheimer

It dispenses with the many aggravations of poor fit which many men have endured in the past. The "Foreward" hugs the neck smoothly and lays evenly on the shoulders, and yet it adds a touch of erectness which puts the wearers in the erect-men class. We take a lot of pride in our ability to fit men of every type and build. It's a feature at this store and you should know about it.

Correct Lubrication Is Tractor Insurance. NO matter how good your tractor may be it cannot give satisfactory service unless it has proper lubrication. This means not only plenty of oil, but the correct oil, properly applied. After long years of experience the Standard Oil Company (Indiana) has produced three oils which will correctly lubricate the entire range of tractors. These in the order of their viscosity are: Heavy Polarine Oil, Stanolind Tractor Oil, Extra Heavy Polarine Oil. Any Standard Oil representative will be glad to show you the chart of Tractor Lubrication, prepared by our Engineering Staff. It indicates specifically which of these three oils the Standard Oil Engineers have found will give the best results in your particular tractor. We have just published a 100-page book "Tractors and Tractor Lubrication," prepared by our engineering staff, which you will find a valuable reference book, and we believe it will save you many days of tractor idleness with the resultant money loss. It's free to you for the asking. Address: Standard Oil Company, 910 So. Michigan Ave., Chicago, Ill. 1750 (Indiana)
