Did you give him a lift? He's a brother man And bearing about all the burden he can.

Did you give him a smile? He was downcast and blue,

And the smile would have helped him to battle it through.

Did you give him your hand? He was slipping down hill, And the world, so I fancied, was using him ill. Did you give him a word? Did you show him the road? Or did you just let him go on with the load?

Do you know what it means to be losing the fight?
When a lift just in time might set everything right?
Do you know what it means—just the clasp of the hand When a man has borne about all a man ought to stand?

Did you ask what it was? Why the quivering lip, Why the half-suppressed sob, the scalding tear dip? Were you a brother of his when his time came of need? Did you offer to help him, or didn't you heed?

A large number of people availed themselves of the opportunity of hearing the Hamilton-Lincoln debate last Sunday evening.

The debates were well prepared and ably presented their side of the question. The decision as to whether Alexander Hamilton or Abraham Lincoln contributed most to the Republic rests with those who were close listeners. Most people are practically unfamiliar with the life of Hamilton and his valuable services to the land of his adoption in the formation period of the Union.

Hamilton created the Union and Lincoln saved it. Both great men of their day rendered invaluable service to their country. The Building committee as yet are

The girls of the department are doing the cooking and serving the lunch cafetaria style. A committee from the Students' Council has charge of the financial part. These under the able management of Miss Young are making the lunch room a large success. It.ast week's notes left out by mistake.]

Owing to the bad weather condition the game with Zeeland was canceled. Last week Salurday Lowell played Bockford at Bockford. This game decided the county championship. The game was the best played by the Lowell team this year. Although we lost the game the Bockford team had to play hard to get it. The final score was 14 to 13 in favor of Bockford. Our outstanding stars were Custer and Lewis. Custer's charging ends, runs and Lewis's tackle, his great ability to find a way through the line filled the crowd with many thrills. Too much praise cannot be given these two players. The whole team played together as one man.

Christmas Seals Save Human Lives

Complying with the request that write a message to the people of Michigan on the subject of tuberculent for the coming Christmas Seal sale, I could almost contine what I have to say to the one word "Hopefulness". However, I must explain just a little the basis of this pleasing hope.

Sixteen years ago when I first became actively engaged in the interest of those afflicted with the white plague, little if any real constructive work had been done in the United States in combating this terrible discuss. A few dectors in various parts of the country, following the discovery of the tubercle bacillus by Koch, were doing what they could to arouse the

However, together with the preventoria; the open air schools and several other agencies, the state is beginning to take care of its tuberculous, and the result is being shown in cutting down the death rate to 79.8 per 100,000 during the first six months of 1921, the lowest mark in the history of Michigan. tuberculosis hasn't a chance in a well nourished body that breathes fresh air.

To get pienty of nourishment, freedom from worry and fresh air is an industrial question, but so closely connected with the health question as to be a part of it.

We of Michigan should remember that of all the large cities of the world Detroit for a great many years was the freest from tuberculosis, and is now, although our thousand deaths a year are far too many.

A cure can be brought about anywhere in our own state of Michigan.

But the great work of education must go on, as must the work of saving lives and preventing the spread of the disease by caring for the afficted,

Dodge used her money to enable little children to have their fighting chance in life when the shadow of the great White Plague was found to hover over them.

White Plague was found to hover over them.

I wish I had time to tell you about all the children who are now under the care of Mias Ethel Dudley who loves them with a love that passeth understanding. There's a human interest story about each one that brings a lump to the throat and a mist to the eyes, from four-year old Ralph who has lain for a year on a Bradford frame but never complains, to 15-year old Ywe Moy, the Chinese lad who has the rapt face of an artist and the smile of a little child as he lies on his snowy pillows and paints pictures for the school room walls.

You would like to med Otto who was considered a hopeless case a year age and can new walk and romp about the corridors, and Emma, who is a little rely-poly new in contrast to the emaciated condition she was in last Pobreary when she entered the institution, and is so affectionate that you condition the walk of the children who are within the walk of the hospital right now. "Invest as many pennies in Christmas seals during December as you will in postage stamps and you may feel assured that your act is assisting the state and your own community in the prevention and control of tuberculosis", declares Dr. R. M. Olin, Michigan commissioner of health, in codorsing the Michigan Tuberculosis association's annual seal sale.

"Unlike many organizations which go to the public for popular support", says Dr. Olin, "this association has a positive record of accomplishment in lowering the tuberculosis death rate and alleviating misery and suffering to which it can point. food, rest.

Nearly every community now has a child welfare organization of some sort. People are beginning to realize that children do not just "grow" as Topsy did, but that there is a right and wrong way to bring them to healthy maturity. In order that America may keep her place among the nations of the world our citizens must be stalwart in mind and body.

We have not yet recovered from the shock we experienced when the army inspection found one-third of our young men physically unfit. This fact gave a great impetus to child welfare work.

What part has the Christmas Seal sale played in this fight for "B-tter Babies" and young people? The following child welfare work has been carried on under the direction of local tuberculosis societies and committees: CRUSADE in 23 counties; MILK LUNCH in 14 counties; HOT LUNCH in 7 counties, SCHOOL INSPECTION nties; LOCAL CLINICS in in 28 counties; LOCAL CLINICS in 17 counties; SUMMER CAMPS in 4 counties. Michigan has over 800,000 school children; about 200,000 have been enrolled in the Modern Health Crusade. This work has been almost entirely financed by Seal sale money. The demand for all lines of health work is growing and this should encourage us to go on until every child courage us to go on until every child in the state is reached. The active campaign has been going on in this country for many years and for a much longer time in Engiand and Germany. In France there has been less unified effort. The death rate from tuberculosis in Paris is a great deal higher than in London or New York or even Berlin.

During the past few years our own death rate has dropped amazingly. Plotted representations of white plague victims all show gratifying downhill curves. The figures in our own state are most encouraging. From 1906 to 1910, 99.7 people in every hundred thousand died from tuberculosis; in 1919, 85.8. The difference, 13.9 people, a goodly number of men, women and children.

#### How One Minister Feels About It

I am a little red seal. I am stamped on letters and packages at Christmas time. I carry the Christmas spirit of goodwill. I go as a gift to the cause of Mankind. Just as the Christ Child of Mankind. Just as the Christ Child came as a gift to a world in trouble, so I go as a gift for folk who are suffering. And I have the satisfaction of knowing I am helping people. Tuberculosis is preventable and generally curable. In 1910 the death rate in Michigan was 97.6. Thus far this year it is only 79.8. So you see I am helping and winning. I am only a little red seel, but I am in big business. I like to have old folk as my partners I like to have old folk as my partners and I am mightily tickled to have children. So buy me everybody! Use me! Send me! And here's to the happiest Christmas you ever have known!

EDWIN W. BISHOP, Pastor Plymouth Church, Lansing, Mich.

#### Samuel Gompers Says-

I am very glad to express my own personal interest in and endorsement of the fourteenth annual Christmas Seal Sale to be held in December of this year. I sincerely hope that this sannual event will result not only in a much wider extension of the educational message of the National Tuberculosis Association and its affiliated agencies than has been possible heretofore, but that it will bring to your organization a sufficient revenue with which to carry on their life-saving work during the year 1922.

I am mindful of the tremendous toll that tuberculosis takes among working men and working women. So long as this disease takes at least one out of every six deaths from the ranks of workers in this country, so long will the American Federation of Labor stand shoulder to shoulder with the national, state and local tuberculosis associations of the country in their efforts to suppress this deadly plague. With sincere appreciation of the work that you are doing, I am

By Leo P. Cook. On an early summer day of 1918 the Michigan College of Mines was receiving recruits for its special training course for soldiers. They had been sent in by draft boards from various parts of the upper peninsula. As a reporter I was on hand to size up the ew men and to pick up such human DIG IN FRIEND DIG IN. interest news as might serve to dress up the routine stuff of the day.

Out from the medical examiner's office came a big young fellow. He was better than six feet tall and he probably stripped at 180. He picked his suitcase out from among a collection in the hall and started away from the building, headed out of the campus, in palpable dejection. He looked like human interest stuff and, with the genial effrontery that a reporter like human interest stuff and, with the genial effrontery that a reporter knows how to get away with after a few years of practice, I accosted him. To put it bluntly the youth had been declined by his country in need because he had TB. He was tuberculous,

declined by his country in need because he had TB. He was tuberculous, a consumptive.

Up to that moment I had rather entertained the idea, at least for some years, that it was nothing short of criminal for a man to permit himself to become a tuberculosis victim, and especially in Houghton county. Had we not been educating the people? Had I not written literally hundreds of columns of educational matter on the Great White Plague? We had preached the open window, and clean living, and entdoor air and good food, and here was a great, husky chap, epicadid material for a soldier, who was going home, maybe to die.

He typified to me the necessity for etaraff vigilance, for persistent, untiring perseverance in the work against the plague. And that is why the state and country associations must be maintained at their fullest capacity and their highest efficiency, not for a time but forever more.

And he ise but one of legion, and I want to do my little share in preventing such tragedies by making the organized fight against tuberculosis a

#### A Contrast

IN THE YEAR of our Lord SOME PEOPLE in Michigan BOUGHT CHRISTMAS seals to fight TUBERCULOSIS and FROM THAT day to this THAT FIGHT has been on AND SINCE 1910 MORE people have bought CHRISTMAS seals so more FIGHTING could be done UNTIL TO-day the death-rate FROM TUBERculosis ta OUR GOOD state is way down IN SPITE OF increase in pop. AS COMPARED with the rate WHEN THE first soal was sold

THIS IS WHAT MIGHT HAVE BEEN (All Figures Prepared by Sureau of Vital Statistics, State Dept. of Health) if there had been no seal OR MICHIGAN'S good people HAD NOT bought so generously TO HELP furnish the sinews OF THIS WAR it is safe TO BELIEVE the death-rate OF TO-DAY would be the same as OR GREATER than the rate AND IF it had remained as 1910 1920 WOULD have seen 585 MORE Michigan funerals AND TUBerculosis would BE THE GRINNING gainer BUT SINCE 1910

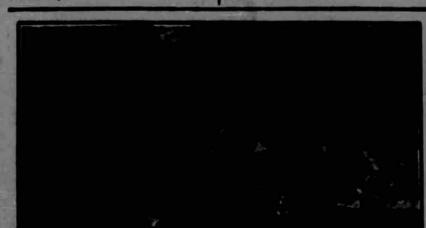

AND THAT Is what was.

LIVES HAVE been saved in our state FROM T. B. alone AND YOUR pennies helped do it

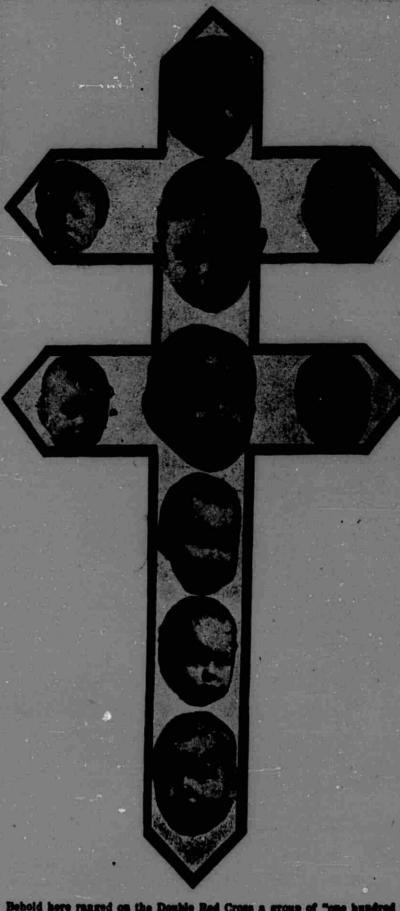

With Apologies to K. C. B. and L. F. B.

Be a "Fresh-Air Grank"

To avoid tuberculosis keep strong and healthy. Be a "fresh air crank." Insist on pure air day and night, summer and winter, in your homes, workshops, office, school rooms, street cars, theaters, and every other enclosure in which you must spend part of your time. Avoid unventilated, over-heated, crowded enclosures. These are incubators for tuberculosis germs. Avoid dusty places. Dry sweeping and dry dusting are dangerous practices. Before moving into a new house have it thoroughly aired, cleaned and washed; the former occupant may have been a consumptive. Never put pencils, coins, or other things commonly handled by other persons in your mouth. Bun-Be a "Fresh-Air Crank" other persons in your mouth. Sunshine and fresh air are the greatest enemies of tuberculosis. — "Public Health."

#### Christmas Seals Save Babies

Behold here ranged on the Double Red Cross a group of "one hundred per cent" babies. Every one of these tots is fat and healthy. Their smiles alone would tell you that they don't know what illness is. They never have been ill and they have a mighty good chance to grow up into strong men and women. To help make and keep all babies in Michigan like this group is one of the aims of the Michigan Tuberculosis Association. The Christmas seal will help to do this.

#### THE WHITE DEATH

By A. P. JOHNSON, Publisher of the Grand Rapide News

When, along with war, the world has rid itself of tuberculosis, we will near the millennium. We will then have eliminated more than half of all the suffering that exists. It is safe to say that when we stamp out tuberculosis we will free man's mind of many of the abnormalities that make for war, for poverty, for social and economic depression.

nomic depression.

I shall not go into figures. They are too staggering. Let it suffice that only a few, a very few, go through life without scarred lungs. Only a few escape at least a touch of the germ that heralds the "white death". So universal is this disorder that within two generations of nearly every family it claims end or a number. Look for the Christmas seals. Don't wait for any one 'to ask you to buy them. The soldiers and sailors, sick and dying, who will, among others, benefit by the sale of these seals, did not wait to go into action when you were in danger. Yes, you did yours, we all did ours, when the romance and fever of war stirred our blood and melted our hearts. But there yet remain among us many of those who bear the scars of war. And they are not all scars. They are open, bleeding wounds, gas-filled lungs that make a fertile field for tuberculosis. The State Federation is heartily with the Michigan Tuberculosis association in its work."

#### How the Christmas Seal Originated

it is hard to imagine a time when the seal was not in existence. But the seal is only celebrating its fourteenth hirthday this year. Miss Emily P. Bissell of Deleware was the originator of the idea in this country and it was due to her energy that it took such strong hold from the first. She obtained her idea from article by Jacob Riis in which he described the use of a little seal in Denmark to secure funds for a hospital there.

Miss Bissell, in October, 1997, preposed to the Deleware Red Cross to

Miss Bissell secured the support of Philadelphia stores, the managers of which were very skeptical at first. But the idea caught on from the first. Let Miss Bissell tell the story in her own words:
