obituary. John Kropf was born January 1, 1872, in Scharzeneck, Canton Bern, th Switzerland, and died July 6, 1924. In 1889, when a young man of 17, he emigrated to this country and lived near and in Lowell ever since. March 18, 1893, at the age of 21 years, he united in marriage with Elisa Reuser. This union was bleased with six children, two sons and four daughters, of whom one daughter died in infancy. During the pastor-ate of Rev. W. Magdanz, they united with the German Methodist church and hand in hand they served their Master. He will be missed by his family, because he was a good hus-band and father; missed by his friends, because he was a true friend. His work is done, his career is end-ed; he has finished his course. He reached the age of 52 years, 6 months and 5 days. He is survived by his sorrowing wife and five children: Mrz. Freda Davern of Carson City, Walter of Saginaw, Mrs. Rose Win-geier, Miss Olive Kropf and Anthony of Lowell, and two grandchildren. He also leaves five brothers and two sisters. the failure of the balloon to go up on time, it was necessary to call off the other numbers on the sports pro-gram. pursuit of custom and tradition will be greatly diminished. Proper education of every youth is the greatest obligation of the people of this nation and in every commun-ity of this nation. What America is to be in the future depends largely upon the influences brought to bear upon each child from the home, the school, the church; and the school has come more and more to be responsi-ble for moulding the character and developing the intellect of our young nota. Miss Eva Maxson, a sister of the groom, attended as maid of honor. She was gowned in green canton crepe with silver ribbon. William Foster, a brother of the bride, acted as best man. About the Lumber Business

Let us tell you the plain story about the lumber situation-we are offering lumber for sale in Lowell at a figure below actual cost, providing usual expenses of doing business are considered.

However, we guarantee every bit of lumber sold to be absolutely up to grade in every way.

We have not only a million dollars of assets to back up this guarantee; but an unbroken record for "square dealings" for over a third of a century.

Now, let us tell you the reason why we are offering these bargains to you Lowell people. It is simply meeting competition.

With the development of good roads, certain lumber companies have developed the idea that they can sell cheaper away from home than they can in their own town.

This doesn't seem sound to us; but, on the other hand, the other fellow may be right. We don't want to be one of those who always says, "It can't be done." We want to know the truth through real experience.

We do know that we couldn't sell in Grand Rapids at the prices we are offering in Lowell-but perhaps it's true we can make money at these "less than cost" prices in Lowell. Anyway, we are willing to pay the price to find out.

While we are finding out, you want to make money by calling us for anything in the lumber line.

THE proof of Red Crown's more and better mileage is in the fact that "once a Red Crown user, always a Red Crown customer."

Red Crown extra mileage is de-pendable. Wherever you get Red Crown the quality is the same. The extra miles come from com-plete combustion.

Every drop of Red Crown is con-verted into power, because the chain of boiling point fractions is unbroken and combustion is perfect. There is no waste to Red Crown.

The perfect combustibility of Red Crown not only produces an un-broken flow of smooth, rhythmic power and extra mileage, but it gives added flexibility. That's why the engine responds to the throttle with superlative smooth-ness and zest with Red Crown in the tank.

In fact, Red Crown sums up the service ideals of the Standard Oil Company (Indiana). It is as re-liable in bad weather as in good; on a grade as on the level; in mud as along a boulevard; and you can get it every few blocks in the city and every few miles in the country - everywhere, throughout the Middle West.
