4. Lowell High School is approved and accredited by the University of Michigan and also the North Central Association of secondary schools. This means meeting the highest standards set for qualification of teachers, organi-zation of courses, class periods, pupils per teacher, building and equipment facilities and general administration.

5. Besides the more usual academic subjects and the general college preparatory course, there are also vocational courses including a Smith-Hughes state approved four-year department of agriculture; a two-year home economics de-partment; a four-year commercial department; and a two-year course in mechanical drawing and shop.

6. Competent faculty members promote the extra curricular activities of public speaking, musical organiza-tions, athletics, and class or group organizations.

7. The tuition is lower than in many surrounding schools with like advantages. For students beginning with the ninth grade, it is \$75.00 per year, of which the local district pays, at least \$60.00. The personal tuition must be paid at the time of enrollment at the beginning of each semester, \$10,00 the first and \$5,00 the second. Below th ninth grade, tuition is \$15.00 per semester. Seventh and eighth grade students enjoy splendid advantages in our Junior High school. Bural students will do well to enter here in the seventh grade.

8. Most students drive each day, some for a distance of ten miles and they have as good an average of attendance and scholarship as our town students.

9. We strive to maintain the good features of each, the rather small and the rather large school, but guard vigorously against their particular faults. Our enrollment of 300 in the Junior and Senior High school aids us greatly in accomplishing this goal. A fine, friendly, democratic school relationship and spirit means much to new students.

10. Over one hundred non-resident students are en-rolled with us. We have ample facilities for many more. The Superintendent of schools will welcome personal con-ference with interested students or parents and will gladly answer any inquiries.

HOW TO KEEP WELL WEATHER

\*WHAT should a baby eat in hot weather? Not a new-born baby Straight-Lined Coat Every mother knows or should know that for the first nine months of life there is no food that ever has been or ever will be discovered that is as good for the baby and that insures his health and growth like mother's milk. But, by the time the baby is nine

months old, he needs and should have something else than milk.

This subject is considered important enough, by the Oklahoma state board of health, for a special buildtin of instruction to mothers. This is in the form of a daily feeding program, simple enough so that any mother can Contest Might Be follow it, but properly balanced so that the child will get the right proportions of food which it needs. The daily schedule which is for bubles from nine to twelve months old is as fo lows:

(G oz.)

Preparation : for 30 minutes over direct dict. flame or 112 hours in double ""Both are worse,' he said,"

Just because we sell the best known and best procurable makes of merchandise we do not feel we are entitled to one cent more profit than we would be in selling unknown brands.

Take Hart, Schaffner & Marx Suits for example: We wouldn't have any trouble getting \$3.00 to \$5.00 more per garment than we do.

On broadcloth underwear we are asking \$2.50, whereas getting \$3.00 would be as easy as falling off a log.

We believe in treating you right---right when you need the goods most.

This entire store is chuck full now with your kind of merchandise, in your size, at your price.

## Quicksand Formation

Quicksand is loose sand into which Com. solid bodies readily sink. Quicksands are composed of very small rounded Friends of The Ledger baving bus- particles which, under ordinary pres iness with the Probate court are sure, do not pack together, and, when carnestly requested to direct that moistened, behave like a fluid. They the necessary printing be sent to are especially common in glacial de where and the business will help by the continentat lee sheet.
