## HAPPY ALLEN IS ON AGAIN

TRADES CAMP LAKE PROPERTY FOR MCCORD GENERAL STORE

McCord's General Store, Allen G. Lasby Proprietor, that's the way it reads, beginning Monday, August 17, when our good friends, Mr. and Mrs. Happy Allen took possession of the Reynolds General Store at McCord's, having traded in their Camp Lake resort property for the McCord's business, store and real estate.

At this writing taking inventory is underway, but business is proceeding as usual and some interesting specials will be announced from time to time. The new proprietors announce that they will do a grocery and general merchandising business and invite a continuance of the store's former patrons, of their own many friends and a share of the general public's favors all of which they will surely appreciate.

ANNOUNCING THE FACULTY, LOWELL PUBLIC SCHOOLS, 1925-1926

R. J. MacVean will begin his fourth year as superintendent of the Lowell Public Schools. Chief among the principles for which he stands in regard to education are: Every boy and girl should attend high school, and an equal educational opportunity for every child regardless of home, location and other factors. Twenty-five consecutive years in the school room, either as a student or a teacher is his background for the profession. His teaching experience includes nearly every department and phase of the modern twelve grade school. Three years of rural school teaching provided first hand contact with the problems in the first eight grades with children from four to eighteen years of age. He was next principal of a village high school experiencing with the administrative position a varied multiplicity of teaching and coaching duties. From this he went to a city school system as teacher of science and mathematics and coaching of athletics which provided experience from yet a different angle. He is now in his second position as superintendent of schools.

Briefly the position are as follows:

- Faculty
- Ralph J. MacVean, Superintendent.
- Senior High, Principal, Social Science, Coaching, Miss Jennie McGuffie, Mathematics, Miss Ella Buchanan, English, Public Speaking, Miss Beulah Keely, Latin, English, Elmer Miner, Agriculture, Chemistry, Coaching, Miss Mary Williams, French, History, Miss Irene Hartman, Home Economics Department, Miss Margaret Gritcheit, Commercial Department.
- Junior High
- Kenneth Poulson, Principal, Science, Miss Bernice Kammeraad, English, Penmanship, Miss Mary Piersers, Social Science, Spelling, Austin Edington, Manual Arts, Physical Education, Miss Kathryn Everett, Mathematics, Miss Harriet House, Girls' Hygiene, Physical Education.
- Central Building
- Miss Charlotte Fry, Grades 5 and 6.
- Miss Leone VanAnroy, Grade 6.
- Miss Lucy Moody, Grade 5.
- Dora Bangs, Kindergarten.
- W. Ward, Children, a. n. j.; E. Ward, children, p. m.
- East Ward Building
- Miss Lois Krieger, Grades 3 and 4.
- Miss Frances Sydman, Grades 1 and 2.
- West Ward Building
- Miss Katherine Perry, Grades 3 and 4.
- Miss Marion Bushnell, Grades 1 and 2.
- South Ward Building
- Miss Alice Eastman, Grades 1 and 2.

Some comments upon the faculty may be of interest and convey some information of value, particularly to prospective students. Nine members of the faculty have degrees which calls for at least four years college credit. Teachers who have not the degree have at least two Teachers' Life Certificate from two years special training. Most of the teachers have taken work beyond the degree or Life Certificate. It happens that these people come from quite a variety of teacher training institutions, including the three State Normal Schools nearby, the University of Michigan, Michigan State College, Albion College, Hope College and two outside the state, Teachers College, Charleston Illinois, and Ohio Wesleyan University. No attempt is made to cater to any necessarily particular institution only so far as some are outstanding in their training for some specific work. Each teacher has a department of work for which they have specialized in their preparation. Lowell may well feel honored in the fact that three of her teachers have attended Columbia University of New York City. Columbia University is unquestionably the outstanding teacher training institution of today.

Improvements to Great Students. One of the outstanding improvements when school opens September 1st, is an enlargement of the type writing room. A partition has been removed and changed which gives an outside window to the typing room. The added space was unused previously as it was prepared for office practice which is not taught in that manner now. Formerly there was no heat nor direct light for the type-writing room and students were crowded into one group. Now the room is about a half larger, has the large outside window and a radiator. Students will work individually as each of the eleven typewriters has a separate desk. The desks in the fifth and sixth grades and in the Junior High school have been revarnished. Due to it being necessary to tear up considerable of the gymnasium floor in order to get to the return pipes to the boiler an entry run in two. New tables are turn pipes in some places were nearly rusted in two. New tables are being secured for the sewing room and improvements made to put the department up to standard as recommended by the State Supervisor of Home Economics.

By meeting these standards Lowell will share the Federal Funds provided for this work. A much larger flag pole has been procured at the high school building replacing the old one. The interior of each of the south and east ward school buildings are being re-decorated. Some other minor changes and improvements or repairs will be made to put everything in good condition for another year.

## ADA POWER DAM SEEMS LIKELY

The Cascade township board and William G. Yates, of Grand Rapids, the latter the possessor of a permit for the erection of a dam with a 22-foot head of water across the Thornapple river at Ada, reached an agreement Tuesday, at a conference with the Kent county road commission relative to the problem of disposing of the covered bridge midway between the Cascade bridge and Ada.

Mr. Yates' proposition of one of two alternatives with regard to the bridge was accepted. He agreed to give a bond to guarantee the raising of the bridge one foot and the grading of the road to the new level of the bridge, or to pay the township \$7,500 as the township might elect. This problem arose when it was made known that the water level, when the dam is installed would make necessary the raising of the bridge. There is some consideration being given to a new roadway between Cascade and Ada, it is said.

### Open Bids on Road

The county road commission announced it will open bids next Tuesday on the construction of 2.12 miles of 16-foot gravel road in Caledonia township, which is an extension of the Whitneyville road and the connecting link between the south end of the present road and the Barry county line. It joins the Middleville road.

State Highway Com. Frank E. Rogers notified the Kent commission, as well as all other county road officials in the state, that there has been considerable unfavorable comment of late regarding the rather ragged appearance of many of the state trunk lines due to the presence of weeds and brush.—Grand Rapids Herald.
