Lowell Defeats Cedar Springs by 53-0 Score

Last Friday the local grid-iron warriors took another step toward the county championship when they snowed Cedar Springs under to the tune of 53-0. The game was devoid of spectacular football except for the runs of Layer and Haysmer. This is Layer's first year and his success at toting the ball thus far this year would indicate that he will

be a prize package before he finishes his High school work. The team as a whole played excellent football.

WAYLAND HERE FRIDAY.

If comparative scores mean anything then Lowell is in for a real battle Friday afternoon when Wayland defeated Godwin 12-0. East Grand Rapids, considered seriously as a contender for championship honors, defeated Godwin 6-0. Coach Finch is satisfied that the game will be a real battle.

Are You Guilty?

A local merchant accosted a farmer on the street the other day—the farmer was on his way home from the express office with a package of goods which he had just received from an eastern mail order concern.

"Why didn't you come to my store and buy these goods instead of sending out of town for them?" said the merchant. The farmer looked at the merchant for a moment and then said:

"Why don't you patronize your home paper more and advertise what you have to sell? I have taken our home town paper for years and it's seldom that I see your advertisement. I sent out of town for these goods simply because I didn't know that you had them."

LOWELL'S GIVICERE

We Believe--

—that Lowell is the best town in America because it is our HOME TOWN.

—that a good government is the basis of civic progress and we pledge ourselves, individually and collectively, to lend every assistance possible toward maintaining an honest, energetic administration.

—that every good citizen should give his moral and financial support to every civic enterprise or public institution that makes for the physical comfort and the advancement of our community.

—that every loyal inhabitant of Lowell should patronize local merchants and business men and thus reap the many benefits that come from financial co-operation in the community.

—that Lowell should be kept clean and attractive, publicly and privately, in order that good, substantial citizens will be proud to come and live here.

—that Lowell can and will grow if every man, woman and child here will unite in carrying our good name to other communities and contribute the energy and support necessary to make this an ideal town—the best place in the land.

We, the undersigned, Believers in Lowell, heartily endorse the above:
