### AN ANNOUNCEMENT

In keeping with our policy of using the most improved and satisfactory methods known in the banking business, we have installed a new Burroughs Multiple Register Bank Bookkeeping Machine. This new machine might almost be called a mechanical bookkeeper, except that it does things that the pen and ink bookkeeper could not do. It not only adds and subtracts automatically but it posts ledgers and writes customers' statements, computes balances, accumulates three separate totals at one time and proves its own work. This new machine will be on display in our bank lobby. We cordially invite you to come in and see how it handles your account.

### Lowell to Soon to Have New Movie Theatre

Harvey Callier has sold his house, the old Garstone place, at the west end of Main street pavement to Will Wood, who will wreck it and use the material in the building of a new house. This is preamble to the announcement that Mr. Callier's long considered plans for a new theater building are about to materialize. Architect's sketches of front and side elevations and of the stage and auditorium have been received. These provide for a substantial and handsome brick building 50x120 feet, two stories high, with an auditorium seating 400, fronting a twenty-five foot stage, providing for vaudeville entertainment as well as moving pictures. In front on the ground floor space is provided for two business places, 12-30 each, and there will be office rooms above. To consolidate his interests, Mr. Callier will sell his ice business and confine his activities to his Saranac light and power plant and his Lowell and Saranac theaters. He is certainly an enterprising citizen and The Ledger heartily wishes him success in his latest undertaking.

### Suffering of Mrs. Kerekes Ends in Sweet Rest

Caroline Raimer, daughter of John C. and Barbara Raimer, was born November 23, 1860, at South Bendon, Ottawa County, Mich., and departed this life October 2, 1927, aged 66 years, 10 months and 29 days. She came with her parents to Lowell, where on August 11, 1881, she was united in marriage to Bela A. Kerekes. To this union three children were born, Bessie G. Fryover, of Grand Rapids, and William P. and Benjamin H. Kerekes, of Lowell. Besides her children she leaves six grandchildren, one sister, Mrs. W. H. Beauchamp, of Lowell, and four brothers, Frank Raimer, of Hudsonville, Mich., Albert Raimer, of Lansing, George Raimer, of Lowell, and Herman Raimer, of Grand Rapids, and also several nieces and nephews. Because of a kind and generous disposition she acquired a host of friends. Being a very ambitious woman she was a real home maker and possessed all the qualifications of a loving mother. Funeral services were held Monday at one o'clock p. m. at the home of Benjamin H. Kerekes, Rev. A. T. Cartland, officiating clergyman. Burial at Oakwood cemetery.

**CAID OF THANKS.**

**WHO STOLE THE EVIDENCE?**  
Some one stole a 5-gallon can of gasoline from the Butler farm between Lowell and Advance, the south side and later returned and took the whole barrel. Deputy Sheriff Bowles found the can and got a warrant for men by the name of Torpey and Rube and they were to have been tried before Justice Sprague but some one entered the office through the transom and took away the can which had been held in evidence. So, the case rests, but Pat says the end is not yet.

**KENT SUPERVISORS VETO SALARY BOOST FOR CIRCUIT JUDGES.**  
Each of the three circuit court judges almost received a \$1,000 salary increase for 1928. On Tuesday when the board of supervisors considered their salary schedule, a motion for the county to supplement by \$3,500 the \$5,000 each of them now receives from the state was apparently carried, 22 to 21, but yesterday it was discovered the vote on the roll call was a tie.

When the proposal was again placed before the board the increase was turned down, and unless the board changes this position each of the judges will receive only \$2,500 from the county.

The salary of the juvenile court probation officer, Robert Walker, was raised from \$1,700 to \$1,800, and that of Edward N. Linkfield, probation officer, was boosted to \$2,200. A total of \$21,272 was appropriated for compensation of the prosecuting attorney, his assistants and stenographers. This is a small increase to provide for an additional assistant and an extra stenographer. A petition to increase compensation of deputy sheriffs from \$1,700 a year was turned down.—Grand Rapids Herald.

Digestible Feed at Lowest Cost  
Producing milk at a profit depends first, on the supply and cost of digestible feed, and second on the efficiency with which the cow turns this raw material into milk. A cow today must bring in \$100 over her feed cost before she can be considered profitable. On most dairy farms are home grown feeds, grains and roughages.  
**AMCO 24% DAIRY**  
Can be used nicely as a supplement with low quality roughage. It contains several ingredients, is very palatable, carries the needed mineral content and is digestible enough to feed a cow completely and well when the roughage she gets is low in protein, high in fiber and of low digestibility.  
The price is very reasonable.
