WHAT CUSTOMERS SAY Albion, Mich., Dec. 27, 1929, I will give you a report on my experience with your Chick Mash. I had 3000 on King's Feed and 1000 on another com-mercial feed. When they were 3½ week old

When they were 3½ week old I took out what cockerels I could tell. I weighed 1000 birds and those on your feed weighed 41 Ibs, to the 100, and those on the other feed weighed 33 fbs. to the 100. I then put all birds on your feed, but those started on the other feed never caught up, and you could see the difference up to the time they were put in laying quarters. In fact, I have good proof that yours have layed the best. M. O. LEWIS

Bangor, Mich, Nov. 23, 1929. I am very glad to say that I have been feeding King Poultry Feeds to our flocks for four years and can say that in the 30 years I have been breeding poultry I have had the least moralty in rearing our chicks and the best production from our laying flocks on this feed. I have tried about every brand of commercia and home mixed feed known. Our 319 egg hen at East Lansing contest, just closed, was a 100% King Feed raised bird. Since I have been using King feeds we have not had a fall cold. Previous to the use of this feed we used to be bothered each fall with cold In the past four years we have not had a cold and I am thoroughly convinced that these c were caused from the lack of properly nutritious feeding. If we poultrymen would use a feed composed of strictly high quality pure ingredients like present in the King brand we would elim-inate a lot of trouble. My inate a lot of trouble, My April pullets are now laying 75. H. A. KEISTER.

National Bank Building

SERVICE SERVICE

IF you have read any of the South Seas stories by Beatrice Grimshaw you know how wonderfully thrilling and thoroughly worth while they are. And you can also appreciate the fact that her novels have practically "cornered" the literature of that fascinating district. You will find "Black Sheep's Gold" quite up to the Grimshaw high standard in romance, color, and adventurous incidents.

EFFICIENT GREASING

Don'i be content with old

fashioned methods of auto

greasing! Have your car

thoroughly lubricated by

our improved and modern

method. The picture shows,

how our up-to-date equip-

ment ficilitates a complete

greasing job for every type

of car. You save time and

money by using this ser-

to choose a SIX! After all, it is a perfectly simple matter to This makes it unnecessary to take the axle decide which automobile to buy in today's apart to examine or clean it. market. Only two questions must be answered

to your satisfaction-First: Which car gives the most for my

money? Second: Which car represents the soundest investment in satisfaction

and pride of ownership? In buying a low-priced car con-

sider the following facts:

. . . It is wise to choose a six-cylinder motor-for six cylinders are

necessary to take out vibration Six-Cylinder Motor and roughness. Six-cylinder

smoothness will save the motor, the chassis, the body, the passengers and the driver. The Chevrolet is a six. And yet it sells at a price

that anyone can afford to pay. This very low-priced car lasts longer, not only because of fine materials and oversize parts, but also because it is a six. Its big, smooth, 50-horsepower six-cylinder engine is always "taking it easy." There is no feeling of strain.

. . .

With all its six-cylinder smoothness and power the New Chevrolet Six uses no extra gasoline or oil. Efficient design makes this possibleoverhead valves-high compression power from any fuel-very latest carburetor-closefitting, long-wearing pistons-crankcase ventilation-air cleaner. You can really have extreme economy and still satisfy your ideal of truly modern transportation.

Chevrolet economy is also the mark of Chevrolet sincerity in manufacture. To illustrate:

Chevrolet valves are readily accessible and adjustable. This saves replacing valves, and also makes it possible to preserve the efficiency of the engine.

. . .

Fully Enclosed Brakes

A similar example is found in Chevrolet's molded brake lining-reducing ROADSTER OR PHAETON See your nearest Chevrolet dealer the necessity of frequent replacement, and consequent expense.

Furthermore, there is a rear axle

The new Chevrolet Six is full of such evidence that true motor car economy comes from modern advancement and refinement.

Like the finest cars, the Chevrolet Six provides the comfort and protection of four springs controlled by hydraulic shock absorbers. They are mounted lengthwise, in the direction of car travel, and self-adjusting Delco-Lovejoy Shock spring shackles maintain quiet.

With low suspension and extra wheelbase, the

Chevrolet Six has excellent proportions. Its impressive front view is distinguished by

the genuine honeycomb radiator, another mark of modern cars.

> The gasoline tank is in the rear, for safety and finer appearance.

Chevrolet beauty instantly says "Body by Fisher"-costly car style, with the permanent quiet Safety Gasoline Tank of Fisher composite steel-andwood construction.

Body by Fisher also gives you a genuine nonglare windshield, adjustable driver's seat, more space, deeper and wider cushions, clearer vision, finer

There is just as much extra value everywhere in the car. BY ANY STANDARD the Chevrolet Six is the greatest value in the low-price field.

It is wise to choose the Chevrolet Six with its six-cylinder valve-in-head motor . . . with full scientific equipment ... with its Body by Fisher ... with four long semi-elliptic springs, long wheelbase, low suspension, rear-mounted gas tank, honeycomb radiator and all the other features of this day and age.

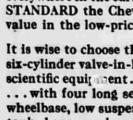

today and drive a Chevrolet Siz. Ten minutes at the wheel will show you what a difference six inspection plate on the Chevrolet. f.o. b. factory, Flint, Michigan Cylinders make.
