to render assistance to those who have questions to ask. Parents and children should feel free to consult with them.

For ten weeks workmen have been busy getting the schools ready for another year. Extensive repairs have been made, and new equipment has been added wherever found necessary. The floors, walls and desks have been cleaned or painted and the entire atmosphere about the school is one of cleanliness. Nothing has been spared in order to put things in first-class shape. The children should be happy in their new surroundings and ready for work. They are to report on Tuesday at 8:30.

Bell to Ring

In conformity with a request voiced at the annual meeting the old bell has been mounted on top of the High school building and it will be rung daily at 8 a. m., and at 12:45 noon. Sessions will start at 8:15 in the morning for the upper six grades, and at 8:30 for the lower grades. In the af

We don't begrudge Lowell barbers a darn bit because they have a weekly half holiday during dog days. We'd probably like golf, too, if we ever got started at it and could afford it, but we've had to content ourselves with the simpler things of life, like fishsimpler things of life, like fishing and just tramping the woods. But to go back to the thought we had when we started out: Let the barbers have their weekly half holiday but we suggest for their consideration the idea of not all closing up on the same day. Race Drivers' DEMAND putated at ankle. John Robertson, 76, died. H. Zeigler bought meat market at 420 W. Bridge, Grand Rapids, at 420 W. Bridge, Grand Rapids,

HE Indianapolis 500 Mile Endurance Race is famous as an endurance test and battle of tires for no driver can win this race who has tire trouble. He races over a hot brick track at a speed of 100 or more miles per hour. For eleven consecutive years Firestone Gum-Dipped Tires have been on the winning cars.

I'OR years the winner of the hazardous race of Pike's Peak climb-where a slip meant death-used Firestone Gum-Dipped Tires.

1. THESE drivers do not simply choose Firestone Tires. They demand them. They know by experience that this tire never fails. It never fails because it is built not to fail by the special Firestone processes of tire building.

(a) Every fibre effection thread going into the making of the cord fabric, which is the foundation of the tire, is coated and cushioned in rubber by the Firestone patented Gum-Dipping process.

(b) Under the tread is the Firestone pa Gum Dipped Double Cord Breaker which means not only two extra plies where most needed, but also sets the Firestone Tire spart as an all cord tire, while others are weven fabric and cord.

(e) Firestone Super High Speed Tires now have 32% more rubber in the trend, giving deeper grooves that will give you over 50% more non-skid wear before the tire is smeeth.

THESE are not just features. They are basic differences in tire building proved by service on every kind of road and track.

3. You may never intend to race. You may never intend even to speed. You may never climb Pike's Peak. But, every day—whether you know it or not—your life depends upon your tires.

4. WE HAVE these Super High Speed Gum-Dipped Balloons for sale today. They are the same tires that the racing drivers demand—the premier tires of the world. Their first cost is low. Their cost per mile of service makes them cheaper today than even cheap tires. They are inexpensive, not only because the price of rubber is low, but because we have joined with Firestone to bring into the sale of tires the same degree of efficiency which goes into their manufacture. The benefit of all this is in the price to you.

5. DRIVE IN TODAY. We will examine your tires and make you an allowance for your unused mileage. We can equip your car with new Firestone Super High Speed Tires at a much lower cost than you ever expected. They will give you unequalled service and satisfaction.

We have just received a big piece of power farming news—the Mc-Cormick-Deering FARMALL price has been cut \$50, and we are at once passing the information on to our customers. The Harvester

"We are glad to be able to make a reduction in the FARM-ALL tractor price at this time because right now the farmer is seriously in need of anything that will help him to cut down his costs of crop production."

"Due to manufacturing economies and anticipated reductions in material costs, we were able to reduce prices on the McCormick-Deering implement lines, effective for the pres-

"Recently, by the same process, we lowered the price on the 10-20 McCormick-Deering tractor \$40, and cut the 15-30

"Now, to complete our program of reductions, we announce a \$50 cut in the price of the FARMALL." "These price reductions, made during recent months, mean

a saving to farmers of millions of dollars." "As the original all-purpose tractor the McCormick-Deering FARMALL has won tremendous popularity. More than 100,000 FARMALLS have been built. Already this tractor has created a real revolution in farming. It is the best in-

vestment a farmer can make." "The new price \$825 f. o .b. Chicago, is the lowest ever placed on the FARMALL."

You have probably seen the FARMALL Tractor at work. If not, we will demonstrate it any time, on any job. The FARMALL replaces 6 to 10 horses and 2 to 3 men. It plows 7 to 9 acres a day . . double disks 18 to 25 acres . . drills up to 45 acres . . plants 24 to 46 acres . . cultivates 33 to 50 acres and, in later cultivatings, 50 to 65 acres. It handles every farm power job, including row-crop operations. Put the best tractor power to work now-at the new FARMALL
