Being a Collection of Various Topics of Local and General Interest

Speaking of the gains which have been made by the Building & Loan Associations of the state since March 1 of this year, it is gratifying to note that the Lowell Building & Loan Association stood eighth in the state in percentage of gain in assets for the fiscal year 1929-30.

The John C. Hicks store at St. Johns has been in business continuously for 82 years and has had an advertisement in every issue of the local paper during that period. Should you suggest to Mr. Hicks that he might have been around \$75,000 better off had he not done this advertising venture to assert that his reply would be that his store would have been lost in the shuffle long ago had it not been for the fact that he met and beat city competition in quality of goods and service and made the community know it through his advertising.

The highest point of land in the lower peninsula of Michigan has now been definitely determined as being at a place about seven miles southeast of Cadillac. Two hills at this place, both of about the same height are approximately 1,710 feet above sea level. Gaylord is the highest city in Michigan being 1,325 feet above sea level, according to the Geological Survey Division of the Department of Conservation.

The Porcupine Mountains in the west-end of the upper peninsula are 2,023 feet above sea level.

Man, Wife Killed 3 Children Hurt

An automobile accident on US-16 Sunday afternoon resulted in the instant death of the driver of the car, Mrs. T. M. Sawyer, fatal injuries to Mr. Sawyer, the bus driver, and a critical injury to their three children. They were on their way from Grand Rapids to their home in East Lansing.

The accident occurred near the John Freeman residence, not far from the South Boston garage. Mrs. Sawyer attempted to pass another car, but observing a car coming from the opposite direction, she attempted to pull back into the line of traffic and in so doing apparently turned too abruptly. The Sawyer car swung off the road on the right side and crashed into a tree.

Some Kent Farmer Will Get in on This

Does anyone want to build a summer shelter house for poultry? The agricultural engineering department at Michigan State College will build one for a Kent county farmer. Such a house provides shelter for pullets after they are taken from the brooder house until they go into the laying house. The plans call for the poultry man to furnish the materials, the college to furnish the labor. This house is scheduled to be built July 24th. Anyone interested should get in touch with county agent K. K. Vining, Grand Rapids.

Remember When KOPF FACTORY BROUGHT FAME IN EARLY DAYS

OVER 70 YEARS SINCE ESTABLISHMENT OF LOWELL'S FIRST FURNITURE FACTORY—MANY INTERESTING "REMEMBER WHEN'S" ARE RECALLED BY A DAUGHTER.

Henry "REMEMBERS WHEN" ALL RIGHT. Henry Schreiner, former old-time Lowell business man, whose harness shop went down in the rack and rush of the flood of June 6, 1905, for he was in it with both feet—clothes and all, and only the hastily extended hand of a friend saved him from death as the old shop went down and crashed into kindling wood.

Well, Henry could jump better than Frank could pull better than now, for he was in it—certainly takes its toll even in strong men like Hank and Frank.

Interest Growing in Big Parade

Interest is growing daily in the parade of floats which will be held Friday, Aug. 7, of the Lowell Centennial-Homecoming. Upwards of 20 Lowell firms have thus far decided to participate and the number is increasing daily.

Mayor M. N. Henry, Rep. D. G. Look, William Winchell and R. G. Jeffries on Tuesday visited several points in the interest of the Centennial and were everywhere assured cordial co-operation. The Parnell parish will participate with at least three floats and in addition W. J. McCarty and some of Parnell will bring their prize winning Belgian mares—and they are beauties—one being Camielle, grand champion last year at both the West Michigan fair and Iowa free fair.

Sparla will participate with appropriate floats, as will also Cedar Springs and Kent City. Sparla will not doubt also be well represented. You need not be surprised if the 30-piece Kent City band is also here, and the "Mary Jane Creamery" of Kent City will have a novel float. Saranae will have at least three floats and Greenville, Belding and other towns, including Alto and Caledonia are expected to participate.

Mercury Made Oil New Achievement

There can be no doubt that one of the year's most important developments in the automobile and auto world is none other than the announcement of an entirely new motor oil now being refined by the Sun Oil company and distributed in this section by the Ada Oil company.

Of even more far reaching significance, however, is the fact that the new Sunoco Motor Oil is Mercury made, according to Sun officials, is an entirely new process, developed, patented and used exclusively by the Sun Oil Company.

From the motorist's viewpoint the Mercury process is important due to the fact that crude oil refined by this process becomes a pure motor oil of outstanding durability. In other words, most motor oils are made in some respects but usually they are weak in others. Some, for instance, have low consumption but probably high carbon while others frequently have low carbon but possibly poor mileage or heavy sludge deposits.

Motor oils produced by the Mercury process are declared to be good in all respects because they are pure oils of outstanding durability.

The Town of Crash

In looking through the paper One summer Monday morn, I found a spot wrote of a lot. Though saddened and forlorn.

If this be a town or city, A township or resort, A playground or a race track, We'd like a full report.

More people die at this place According to the press, Than die in any other spot, It sure must be a mess.

To-day the headlines name it Across the page they dash, About the great disaster Of fourteen killed in "Crash!"

Now we do feel we should appeal To the citizens of "Crash" To burn their town or tear it down To stop those headlines rash. It's ten to one if anyone Is killed or jammed or smashed, The papers will if possible Have them killed in "Crash."

Note—Original poem by William Kerekes. Printed without his permission. Headline writers of the daily press will please take notice.

Unique Landscaping at Blue Mill Station

Down at the Blue Mill on West Main street is a unique sight. Peter Mulder, the proprietor, has spent some time now in perfecting a miniature "Cabin on the Hills" with a mountain-like background of rocks, ferns and flowers. The log cabin is completely furnished from its dainty white curtains at the windows to a police dog on the rustic porch. Concealed in the cabin is a tiny electric motor which is used to propel water down a flume over a paddle wheel into a miniature lake, filled with lillies. At one side of the cabin is a spruce tree and almost in front is a tiny light-house, bravely sending its warnings across the lake. The light in the tower revolves by its own heat.

Mr. Mulder has planned it all down to the bird and rabbit hutch near the cabin and the man in the boat on the lake. It is well worth your time to see this creation and hear "Peter" tell how he built the miniature scene.

Interest Growing in Gifts of Gold

Interest appears to be growing in the weekly Wednesday night drawings, judging from the increased attendance. The band concerts also prove a big attraction. The gold winners this week were as follows: Engle Hansen, Segway, \$2.50; William Cole, Lowell, \$5; Orrin Frost, 14-year-old Moseley boy, \$10. Scores of money-saving bargains on new goods at cost and even less are advertised for this week Saturday by Lowell merchants.

Odds and Ends Here and There

Mr. and Mrs. Homer Knapp, of Grand Rapids, were calling on old Lowell friends Sunday. Mr. Knapp was the son of Stephen B. Knapp who brought the first threshing machine into the Lowell country, probably longer ago than any one now living remembers.

Herbert Reynolds, the lad who suffered severe electric shock as mentioned in these columns last week, has been taken to Blodgett hospital for observation. No serious results are anticipated but the move was made as a matter of precaution.

The large, comfortable seats, 25 in all, recently ordered by the American Legion, have arrived and will be in use at various points along the Main street for the comfort of visitors during the coming Centennial and at other times. This gift of the Legion is greatly appreciated.

The improvements which Wm. Christiansen has been making to the interior of his store are nearly completed. When all is finished the store will present an attractive and artistic appearance.

Louis Racine is redecorating and making other improvements to the interior of his restaurant.

"Frank's Place" at Fallburg on Flat river is proving a popular place of recreation this summer. Mr. Jones provides boats and bails, picnic grounds and tables for his guests—and with a cheerful welcome.

Kent Farmers to Visit Neighbors

See what you ever had a desire to see have the other fellow is doing on his farm, the kind of equipment he has, the cattle he keeps, or the methods that he is pursuing?

Kent county farmers will have a chance to see what some neighboring farmers are doing on two tours, the first of which will be held Tuesday, July 14th. This tour will run to the east and south part of the county. The tour the following week, details of which will be given later, will run through the northern part of the county.

The tour next week Tuesday will start at the farm of Mr. William McCarty, ½ mile west of the Parnell church in Grattan township, at 9:30 o'clock. At the McCarty farm we will see the use of electrical equipment, seven pure bred Belgian mares, a very good wind break, and other things of interest. Mr. McCarty operates a 360-acre farm.

The second stop will be at the farm of Vincent Cary in Vergennes township. Here the soils department of Michigan State College have for several years carried on a soils demonstration. This work has covered fertilizers and green manures.

The annual reports will be read and there will be two directors to elect in place of Harold L. Weekes and Verne E. Ashley, whose terms expire.

In the matter of money alone our schools represent a yearly business of upwards of \$50,000 and for this and other reasons interest should be manifest by patrons attending and taking part in the annual meeting.

H. W. WILLIAMS MEETS DEATH IN AUTO ACCIDENT

WAS VICE PRESIDENT SUPERIOR COMPANY OF LOWELL AND SUCCESSFUL SALESMAN—TRAGIC DEATH GREAT SHOCK—BURIED WITH MILITARY HONORS.

Harold W. Williams, vice president of the Superior Furniture Co., of Lowell, was instantly killed in an automobile accident while rounding a curve on US-12 near Waterville last Thursday. His car collided head-on with a car driven by three boys. Mr. Williams was catapulted from his car by the impact and his neck broken when he hit the ground. The occupants of the other car escaped serious injury although their car was wrecked.

Mr. Williams' body was taken to the home of his parents, Mr. and Mrs. E. H. Williams, in Grand Rapids, where the funeral service will be held Sunday, Dean Jackson officiating. Burial was in Oak Hill cemetery.

Mr. Williams was but 35 years old. He was a member of the Lowell post of the American Legion and his mother was a member of the local Auxiliary. His death is a serious loss to the Superior company as he was an active and successful salesman from Chicago to the Pacific coast and had a large acquaintance with furniture men in his territory. He had many friends in Lowell who are deeply grieved over his tragic and untimely death.

Among those from Lowell attending the funeral services were the following: G. D. Cook, superintendent of the Superior Co., and Henry Graham and A. H. Storz, color guard, and W. J. Kropf and Forrest Smith, color bearers, Frank Stevens, bugler, and N. E. Borgerson, all of the local American Legion post.

Mr. Williams was a sergeant in the field artillery, 37th division and served over seas. He was buried with military honors.

Distribution of Covert Rd. Costs

A summary of the distribution of costs on all Covert roads built in Kent county has been compiled by the road commission. In all there were 47 roads built in the county under the Covert act and on 43 of these there was a state reward or a subsidy.

The total amount of state reward was \$407,275 or 22.6 per cent of the total costs of the roads. Townships paid \$550,031 or 30.5 per cent. Kent county at large paid \$301,574 or 16.7 per cent, and the special assessment districts paid \$545,120 or 30.2 per cent. The total amount spent for Covert roads in Kent county was \$1,804,000.

It will be seen from this summary that approximately 40 per cent of the cost was borne by the county and the state reward. The plan of paying this was on a system whereby the county advanced the money to build the road and this amount was refunded by the state. Thus on the 43 roads where state reward was given the county advanced 40 per cent of the cost but was refunded 25 per cent when the work was completed. This money was spent on other road projects and for maintenance, since at that time there was no weight and gas tax money coming to the counties.

Charlie Chaplin Is Coming Here in New Picture

Bringing with him the old baggy trousers, the slender cane, the dingy derby and the funny feet the Charlie Chaplin of old is coming to the Strand Friday and Saturday in his new picture, "City Lights." Three years in the making this promises to be a new note in screen entertainment for Charlie plays alike on the funny bone and the heart strings while his sympathetic characterizations lend added color to the story.

The Sunday and Monday bill at the Strand features Gloria Swanson in her latest offering, "Indiscreet." It is a departure from her recent comedy roles and recalls the wonderful work she turned in as Sadie Thompson in her previous dramatic vehicle. Gloria has a notable supporting cast in "Indiscreet" with the work of Ben Lyon particularly outstanding.

Did anybody mention price?

Do you knock on wood every time you get out for an airing in the car?

Is your heart in your mouth when you swing into a curve at a little more speed than the law allows?

There's nothing like a set of junky old tires to take the joy out of driving.

Why worry about blowouts when you can buy sturdy Goodyear Pathfinders at present levels?

Never in the history of the automobile has tire mileage been priced so low.

Superwrist cord, Goodyear craftsmanship, long life, safe riding.
