THE PEOPLES PROBLEM

Elsewhere in this issue we publish an article headed "Our Railroads," written by F. F. Rosewarne, Pere Marquette agent at Lowell. The article engenders thoughtful consideration for many reasons. No other industry has wider distribution

of ownership than the railroads. Renewed railroad prosperity would mean renewed general prosperity. One-fourth to one-third of the reserve funds of life insurance companies and about 15 per cent of deposits in savings banks are invested in railroad securities. There are about two million stocks. Endowed schools, colleges and hospitals are commonly dependent for part of their income on funds invested in the rail-

MELODY FARMS DAIRY Grade "A" Milk

Is the BEST FOOD for Growing Children . . and Even for Adults!

And POUND for POUND, It Is BY Far the Lowest Priced Food You Can Buy, When You Take "Food Value" Into Consideration

There is no better food in the world for growing children or for adults than CLEAN, pure, wholesome milk. It contains just the elements that the human body demands. You will find that children will be a whole lot better off if pies and pastries are omitted from their diet, and a glass or two of clean, pure milk substituted at each meal. They will enjoy better health, will develop a better physical foundation, and you'll find that there will be a big saving in doctor's bills. Just try it out and see.

But above everything else, the milk should be CLEAN, because ordinary milk is a recognized carrier of germs. Here is where Melody Farms Dairy can be of great help to you, by providing milk that is just as CLEAN as any milk produced in Michigan, as proven by ACTUAL TEST by State Inspectors. Melody Farms Dairy has fully met EVERY REQUIREMENT demanded by the state in the production of clean, wholesome milk, and is legally PERMITTED TO SELL GRADE "A" MILK.

As A Mother, You Feel That There Is Nothing Too Good For Your Children!

You are careful to see that every particle of food is made SAFE before it passes their lips. You see that vegetables are thoroughly coeked; you remove the protective covering from fruits; nuts are shelled; you know that the drinking water is safe.

Inasmuch as IMPURE MILK has doubtless been the source of as many serious epidemics of disease as any other one cause, there is every reason WHY you should exercise due-

caution in selecting the milk you use in your own home. Especially in these hot months you should be careful of the milk you use, because bacteria multiply very rapidly in warm milk.

We always will recommend Melody Farms
Dairy Grade "A" Milk, because of its safety,
as shown by actual TESTS made by Michigan
