MILLIONS IN MISSING MONEY

ACCORDING TO W. O. Woods, Treasurer of the United States, there is now outstanding \$472,199,000 in old large sized bills which have been officially recalled since July, 1919.

ACCIDENTS MAY OCCUR TO ALL

HOW AND WHEN? "HOW, when machinery is multiplied as it will be in thousands-fold—how when tens of thousands of hands are made idle by the ingenuity of the human mind?"

THE ABOVE QUOTE BRINGS TO MIND the debate now going on throughout the United States over the question of man versus the machine.

LIFE ON OTHER SUN-SYSTEMS

WESSEE in the papers that a professor has discovered bacteria living in meteorites, thus indicating that some form of life exists in the outer void that fills the immense spaces between the stars.

SCIENTISTS will soon be speculating upon the importance of what this discovery means, and some bold souls may even go so far as to try to picture the creatures that may have an existence on other sun systems.

REAL SERVICE to your community requires more time than money, which you probably haven't got.

THE MORAL FOLKS IS SAD

A PROMINENT local citizen, complaining about business conditions, has recently asked why he didn't get another job, and his answer was, "pride." Getting down to raw meat, the gentleman explained a lot of trouble in the present era.

IT IS EASY to do in prosperous times, but when the day of reckoning comes, as it will, the price to be paid hangs over the debtor and is a constant threat of extinction from a financial point of view.

THE MAN who makes \$100 a month has his eye on his friend who makes \$200, and he thinks of all that he could do with that much money.

NOW, what is the point? Well, frankness compels the admission that most of us live beyond our incomes, expecting to catch up the slack out of the next boost in our incomes.

TILLERS HEAR OF MANY PLANS FARMER'S WEEK

DIVERSITY OF OPINIONS IN IDEAS ADVANCED TO MEET CONDITIONS—TWO KENT COUNTY MEN AMONG THE SPEAKERS.

Ideas advanced by farmers for the improvement of agricultural conditions which were presented at meetings during Farmers Week at M. S. C. included price fixation, non-interference with governmental functions, harder work at home, better loan facilities, decreased taxation, improved grading of products, regulation of trucking, and dozens of other remedies.

Practices advocated by N. P. Beebe, Niles, were sale of quality goods, use of an attractive package, and the employment of good salesmanship.

Ernest A. Reubs, Caledonia, said, "Farm efficiency has never been as much as scratched the surface. We still work much as our fathers and grandfathers did."

A round robin discussion by growers of regulated harvests for beet brought forth an array of conflicting opinions about the proper time to pull beets and the proper way to pile them.

County Surveyor Serves 40 Years

T. O. Williams, of Grand Rapids, has been Kent County Surveyor for 40 years.

It was in 1891 that the young engineer came from Allegan, his home town, and the following year he was elected County Surveyor, a post he has held ever since.

The year of his election marked the beginning of the last great depression and Mr. Williams recalls vividly those days when his office staff, in a big office, consisted of himself and the late Mrs. Williams, whom he had married the previous May.

The surveyor is not a salaried officer and in those days the principal work was farm surveys, principally on petition of a majority of landowners in the section.

Before coming to Kent County Mr. Williams served two terms as Allegan County surveyor and spent some time in southeastern Kansas, after leaving Michigan Agricultural College in 1883.

Mr. Borgerson states that the showing this year is largely due to the outgoing business of local concerns.

New Tax Plan Causes Study

Many Wonder Why New Proposal Comes Before State Expense Cut

BY ELTON R. EATON (Lansing Correspondent for Lowell Ledger)

Just why Governor Comstock put in his plan to raise additional taxes for the state before he gave the legislature his economy program no one around the state house has been able to figure out.

This estimate is apparently arrived from the figures gathered in 1929 by the department of commerce in Washington.

Members of the legislature who have anticipated that the governor would recommend a sales tax to take the place of a general property tax and have given the matter some thought, express the idea that a sales tax of three per cent would prove an injury to business and work to the direct benefit of mail order houses.

Local merchants who have been consulted agree that this estimate is about right.

Goes to Kent Jail For Starving Hogs

Robert Pillsbury, a farmer living four miles west of Cedar Springs, is serving a 15-day sentence in the Kent county jail for having starved to death two hogs. Pillsbury pleaded guilty to a charge of cruelty to animals and was sentenced by Justice Totten of Cedar Springs to 15 days in jail or a \$15 fine. He chose the jail term.

The warrant was obtained by Martin King, Kent county humane agent. Pillsbury starved the hogs to death with 10 acres of unhusked corn standing in the field, King alleged. Pillsbury eluded King after the warrant was sworn but was arrested later by state police from the Rockford post.

Murphy were appointed by the chair to draft a constitution and bylaws, after which a meeting will be called to elect officers, and complete the plans.

SCHOOL BOOK TRUST FLYED BY ALTO MAN

WRITER CITES LOCAL INCIDENT SHOWING THAT A WORKER PUTS IN OVER TWO DAYS TO EARN PRICE OF BOOK ON ZOOLOGY.

Alto, Michigan, Jan. 25, 1933. Mr. Editor:—Most of us—the American people—have become so accustomed to being gouged by predatory interests of various types that we are ordinarily indifferent to the various kinds of legalized robbery and profiteering to which we are subjected.

The editorial which is quoted herewith furnishes an interesting sidelight on the whole situation and affords, in my opinion, convincing proof of the manner and the extent of the profiteering to which we are subjected.

"One of the Trust's favorite rackets is to change textbooks at frequent intervals, thus boosting sales."

"West Virginia is probably no worse gouged by the School Book Trust than many other states; but the Wheeling Intelligencer has been making an effort to end the graft and in the course of its campaign wrote to the minister of education of Ontario, Canada, to find out how that thrifty province managed things. The response was truly startling."

Remember When

Mrs. Hazel Maynard Halstead of Ionia formerly of Lowell, sends in the following "Remember When's." Mrs. Halstead has been an invalid for several months and her thoughts naturally wander back to the days of her girlhood in the old home town. She writes: Remember when there were board sidewalks on Lowell's Main street?

When there was a roller skating rink in Train's opera house? When we fished for bullheads on rafts near the old cooper shop?

When we arose the morning after Halloween to see what we had lost—or acquired? When the ladies wore "rats" in their hair?

When horse-drawn busses met at Grand Trunk trains? When the grocery man treated his customers to candy or cigars when the monthly bill was paid? —Hazel Maynard Halstead

As he returns to his home, Barbara learns who the man is that Barbara loves. He himself, Dennis spends several weeks in the hospital. Barbara returns to stay with Pauline, but on one pretext she goes back to visit Dennis. Pauline stays high for Dennis' return home.

Barbara says only one day after Dennis' return from the hospital. Much against his will Dennis finds a new attraction in Barbara, who plays the same cool and detached role as formerly. A fortnight after Barbara's return to New York, she receives a letter from Pauline that she and Dennis are coming to New York for a little vacation.

Upon their arrival a round of gay entertainment is planned, including a party at which Dennis and Pauline meet each other's company. Dennis is irked through all barriers and tells her he loves her. She is called home by the illness of her mother. Dennis stays on. Barbara is happy.

NEW GUY WITH THE STORY
Dennis walked to the window and stood looking out into the "back street," he said after a moment.

"You needn't call," Pauline said breathlessly and waited until she can go by myself quite well," she said as he did not speak. "If I had a word to say to you, I would have said it."

"Do you think you need to go?" "In sure, you see these letters have been sent on from home, so that means it is a day or two before they get here."

Dennis thrust a hand into his coat pocket. "I heard from Stornaway this morning—he's coming to town for a few days. He wanted to dine with him tonight. He broke off and added, almost too abruptly, "I'll pack now. You go and look up a train. Barbara will be sorry, won't she?"

Barbara was dressing when Pauline rang her up. "Good-bye?" For a moment Barbara's heart seemed to stand still. "What for, my dear?" "Good-bye—when on earth?" "Mother—she isn't really going to Pauline with her very young man?" "Shan't I see you again?" "Barbara's voice was a little breathless. Wouldn't she be able to say good-bye to Dennis?" "I'm going by the twelve-fifty train—she's the best. Dennis has booked a seat and is coming to see me off."

"There he was not going with her, Barbara's pulses quickened. "The twelve-fifty from where?" she asked.

Iron was first used in prehistoric times, known as the "iron age." There is mention of the use of iron in Genesis 4:22, by Tubal-cain, the forger of the Chalybeian tempering iron. Scythians, the first to use iron, were mentioned in the Bible, and the word "iron" is used in the Bible to signify strength and power.
