Lowell Stores Join in "Buy Now" Campaign

Local N. R. A. Chairman Gives Timely Interview

America is ready to swing into another great movement to combat the forces of unemployment, and for the next twelve weeks a nationwide program will be under way to speed up the momentum of the business machine. Just how these farflung plans will be carried out was described today by R. Van Dyke, chairman of the N. R. A. committee in Lowell.

"This project quite naturally follows the Blue Eagle campaign," he said, "which has captured the imagination and the enthusiasm of the entire nation as nothing has done since the stirring War days of 1917 and 1918. The Blue Eagle drive, including the codification activities of the N. R. A. has resulted in placing more than 90 per cent of the business of the country under the President's Agreement. More than 2,000,000 workers have been reemployed and millions of dollars have been added to the weekly pay envelopes of those who toil. All this has spelled tremendous happiness for millions of homes and has completely changed the economic outlook.

"But it is to be remembered that this addition to the buying power of the public has also placed burdens on business because of the increased payrolls. Business must be speeded up in order to make it possible for these loyal employers who are operating under the Blue Eagle to continue to maintain their payrolls.

"The activities will be based on the logic of our slogan, 'Now is the Time to Buy.' You will note we are not making use of the word 'campaign.' Our plan calls for a logical systematic program to be carried on between now and the holidays with the sole object of stimulating a well-ordered business acceleration. There is to be no emotional appeal, but rather an ap-

Price-Rite Hardware To Better Location

Lowell's new and up-to-date store, the Price-Rite Hardware, started here three months ago, has already outgrown its present quarters and will move next week to a larger location in the Negocine block, next to Henry's Drug store.

Daring Picturization Of Popular Novel

"Beauty for Sale," the new feature which opens Sunday at the Strand Theatre, is a daring picturization of the sensational Faith Baldwin novel, "Beauty." It is a drama of modern city life, with a particularly intimate locale behind the scenes in a fashionable beauty salon.

Open to Children Coming 5 Years

Because of the fact that the enrollment in the kindergarten this year is so small, school authorities have extended the age limit. All boys and girls will be five years of age before February 1, 1934 may enter the kindergarten at once. If parents plan to enter their children before the close of the school year they are earnestly requested to do so immediately.

Lowell Board of Trade Issues Proclamation

Inasmuch as the National Government is instituting a nation-wide "Now is the time to buy" program to assist in carrying out the purposes and aims of the N. R. A. movement and to do all possible to speed the recovery of prosperity, and WHEREAS, it is readily conceded that the present needs of the consumer were never greater in the history of our country, and to keep the wheels of industry moving, goods and merchandise must be bought and used or it is impossible for the merchant and manufacturer to pay the increased wages put upon them by the N. R. A. We firmly believe that a great percentage of the people can buy, and should buy, much more than they are doing at present.

From a selfish standpoint all should now buy because prices are constantly going up, and every dollar put into circulation means many \$ in business turnover. The faster money is put into useful trade and circulation, the sooner we can expect business recovery and so much sooner will your job, business and farm recovery be realized.

Business in the United States is certainly on the upgrade. Labor officials concede that 2,500,000 more workers have been put on the pay rolls, adding two billion dollars to the annual purchasing power of the American people; farm prices are up 33 per cent against a year ago; in the last six weeks \$400,000,000 of frozen foods were released to depositors of 265 banks; the reorganization of the Grand Rapids Savings Bank seems at last to be effected and we firmly believe our local banking situation will be cleared up in the very near future.

To speed up the recovery of prosperity everyone must do his part, and the important step at present is to get business moving and money into circulation. The employer of labor is co-operating but there is a part for all. Will you do your best to help out by buying all needed merchandise that you possibly can?

On behalf of the Lowell Board of Trade we hereby proclaim the coming three months as a time when all the resources, patriotism and co-operative spirit of this community be mobilized to translate into permanence the gains already made in the N. R. A. Blue Eagle program and to make further advance on the road back to prosperity.

FALLING LEAF

NOT ALL poets put their thoughts in rhyme. Witness the following by Dick Baldwin in the Northville Record:

Come morning and the chill of a new kind of weather. Down cellar we glide to start a fire in the long-undertaken furnace and the joy of stirring up a little heat warms up the heart. The sizzle of the steam sounds good as we eat the morning oatmeal.

Outside the hills show trees turning gold and brown. We step on a cricket in the kitchen and know then that autumn is here. Outdoors we find the flowers drooping and the leaves of trees falling on our heads. A pumpkin is turning yellow in the garden call out and say: "Pick us now before the frost comes."

The day passes and home from work we go. The sun drops down an hour sooner than awhile back. The evening meal is over and darkness comes and we sit and rest and know that in the comfortable evenings around the family hearthstone are here. Yes, the summer with all its happy memories is gone.

ENOUGH FOR CRIMINALITY

DOES somebody question whether the gangster does all but own America? A few days ago, before the Senate Sub-Committee Investigating Crime began its sessions in Detroit, Senator Vandenberg said:

We are opposed by an annual crop of 40,000 criminals who perpetrate 12,000 killings a year, 50,000 robberies, 3,000 kidnapings, 100,000 assaults, 50,000 burglaries and 5,000 arsons.

And the Senator added the significant remark that a "nation which pays from twelve to eighteen billions of dollars tribute a year is guilty of either fatal complacency or of cowardice in the face of a greater enemy than ever faced us abroad."

If this does not indicate that the thug has made a happy hunting ground of the United States, then we confess we do not understand what constitutes proof. The American people need nothing more than they need an effective impetus which will make them refuse to tolerate any longer a prostitution of the law which makes it protect the criminal instead of the public; the continuance of cowardly judges, gangster lawyers, outrageous parole mills, weak penal codes or pink tea penology.—Detroit Free Press.

Intelligence is what you get from home. Common sense you must develop yourself. Learning is what you obtain in school. Knowledge is what the world hands you. Judgment comes only with the years. Experience is a bitter medicine administered by life itself, and must be taken with a bit of conscience. Wisdom is a phantom often chased but seldom overtaken. Success or failure are a matter of opinion. Reputation is the golden scale. Contentment the final objective.—Buckeye, Archbold, Ohio.

Tax Relief Law Explained Here

1932 Taxes Should Be Paid This Month; County Treasurer Vidro Explains Property Owner's Rights Under New Relief Statute.

To inform taxpayers of their rights and benefits under new legislation passed at the last session of the legislature, the following has been compiled in the form of questions and answers.

It is pointed out that property owners now delinquent in their taxes should pay 1932 taxes during October in order to escape penalties and interest.

These questions are asked every day of the week. Because they are of such general interest the public should have the correct answers. Of course, in this series of questions and answers there are several situations not covered.

In an interview with The Ledger, Thomas Vidro, treasurer of Kent County, says:

"We realize that this act is very confusing to anyone not familiar with Delinquent Tax Laws and suggest that you publish with the article that I and my staff are glad to assist all who will inquire either by mail or by personal call."

The questions and answers are given below:

Q—How much longer may I pay 1932 taxes without interest or penalty being added?
A—October 31, 1933 is the last date on which 1932 taxes may be paid without interest or penalty.

Q—How much interest and penalty will be added on 1932 taxes after November 1, 1933?
A—The law provides that a 4% penalty on delinquent taxes shall be made plus interest at the rate of three-quarters of one per cent per month from March 1, 1933. Thus the charge made in November, 1933, will be 4% plus interest for nine months or 6%, making a total of 10% to be added.

Q—When will unpaid 1932 taxes go to sale?
A—At the 1935 annual tax sale on the first Tuesday in May.

Q—I owe 1930, 1931 and 1932 taxes. How should I pay first?
A—1932 taxes should be paid first. Under the new laws affecting delinquent taxes, a longer period of time with lower interest rates is granted on the taxes of 1931 and prior years.

Q—When must 1930 or 1931 or prior years taxes be paid to escape interest and penalty?
A—Taxes of 1931 or prior years must be paid any time before September 1, 1935, without interest or penalty.

Q—May I pay my taxes in installments or must I pay the entire amount at one time?
A—The county treasurer's office is glad to cooperate with any taxpayer by accepting partial payments. If you wish to pay this by a series of payments they will assist you by arranging a schedule of payments.

Q—Are 1932 taxes affected by the Moore-Holbeck delinquent tax bill?
A—No. The Moore-Holbeck bill, which will be explained in questions and answers to follow, does not apply to 1932 taxes, but affects taxes for the year of 1931 or prior years.

Q—What is the Moore-Holbeck delinquent tax bill?
A—The Moore-Holbeck bill is one adopted by the 1933 legislature which permits the amortization of delinquent taxes of 1931 or prior years over an extended period of ten years. It cancels the tax sale of 1934 and permits the payment of these taxes any time before September 1, 1935, without interest or penalty. It provides for payment by installments of one-tenth each year, the first payment being due before September 1, 1935.

Q—Do I have to make application to come under the terms of this bill?
A—No. Any taxes of 1931 or prior years are automatically brought under its provisions.

Q—Must the 1932 taxes be paid to take advantage of the Moore-Holbeck bill?
A—No. It is advisable to pay the 1932 taxes before November 1, 1933, but the fact that 1932 taxes are unpaid does not prevent the taxpayer from receiving relief.

Q—When may I pay the first installment on 1931 or previous taxes under this act?
A—Any installment or installments may be paid before September 1, 1935 without interest. Unless the first payment is paid by that date, the taxes go to sale in May, 1936. Installments may be paid at any time before the due date.

Q—What interest do I have to pay under this plan?
A—No interest is collected on any installments paid before September 1, 1935. After that date they bear interest at the rate of 4% per annum.

Q—May I pay all installments in one or two years, instead of spreading the tax over a 10-year period?
A—You may pay the installments as far in advance as you wish, thus saving yourself interest.

Q—I have an unrecorded warranty deed on which the 1931 and 1932 taxes are unpaid. Does this new law permit this deed to be recorded?
A—Previously, in order to record a warranty deed, it was necessary to obtain a tax certificate which certified that there were no delinquent taxes on the property covered by the deed. The Moore-Holbeck act, however, states that taxes of 1931, or prior

years are not to be considered as delinquent since under the law they will not be due until 1935. Therefore, in the case mentioned in the question above, it would be necessary for the 1932 tax to be paid in order to record the deed, but the 1931 tax need not be paid.

Q—I owe the 1930 and 1931 taxes. Can I pay the 1930 tax now and the 1931 later?
A—No. The 1930 and 1931 taxes amounts are totaled into one sum. This total is divided into ten (10) equal installments and payable in one or more installments. The first installment must be paid before September 1, 1935 to avoid interest.

Q—I have not paid the 1927-28-29-30 or 31 taxes. Is there any way to redeem this property?
A—Yes, if the State has bid in the land for the 1927-28-29 taxes at the annual tax sales and they were not sold to an individual prior to March 7, 1933, these taxes will come under the "Moore-Holbeck" bill, and can be paid on the installment plan.

LOWELL MFG. CO.
RESUMES WORK;
ORDERS DOUBLE

PROSPECTS GOOD FOR CONTINUOUS RUN DURING WINTER MONTHS—CORPORATION WELL ORGANIZED AND IN SOUND FINANCIAL CONDITION.

Citizens of Lowell will be much interested in the business outlook for the Lowell Manufacturing Company as given by the president of that organization in a statement made to The Ledger this week.

"There is no thought of closing our Lowell plant or making any material changes in the operation of it, only to secure more volume of business and increase the production," declared the president.

"We have been fortunate in obtaining more bookings on our sprayers for 1934 up to this time by nearly double what we had done during the same period one year ago. We regard the outlook as very favorable for 1934, and anticipate that the production at the plant will equal, or perhaps exceed, the figures of 1931 or 1932."

In speaking of the firm foundation upon which the Lowell Manufacturing Co. is built, the president emphasized that the corporation is not dependent entirely upon one individual for its success. Right at this time the company's field men are in the field booking orders every day, the office is in perfectly good hands, the work is proceeding soundly and safely, and the corporation finds itself in a very excellent financial position with ample liquid capital for any immediate or prospective needs. The Pres. also stated that the company has no banking indebtedness and no merchandising indebtedness. All bills are accounted, and the corporation's cash position with banks is very good.

Factory operations were resumed last Monday and it is fully expected they will continue throughout the winter months. The plant operates under the N. R. A. employees working 40 hours a week.

All of these facts should prove very gratifying to the people of Lowell. The corporation management deserves great credit for the manner in which the business has been conducted, enabling it to emerge from the past depression with credit to itself and satisfaction to this community.

Evangelistic Party At Nazarene Church

The Gaddis-Moser evangelistic party, internationally known for their great religious work, will conduct a series of meetings, October 17 at 7:45, starting Tuesday, October 17, at the Nazarene church. The services will close Sunday evening, October 29.

Many people will desire to improve the opportunity to hear the Rev. M. Gaddis, who is a powerful speaker, while the Moser sisters rank high as singers and instrumentalists. Rev. Vernon Shirley, the local pastor, on behalf of the church extends a cordial invitation to all to attend these services.

Anniversary Sale On At the Coons Store

In celebration of its forty-first year in business in Lowell, and also as its part in the N. R. A. recovery program, the Coons Clothing Store is inaugurating a special sale that is bound to attract the attention of buyers for many miles around. The sale is made especially timely because buying done now means big savings in the certain trend to higher prices.

Law to Compel Care in Driving

Doom of the Reckless Motorist Seen

The middle of this month will mark the passing of the careless and irresponsible Michigan motorist. After Oct. 17 it will be up to him to become a careful driver avoiding all accidents, or to be able to settle promptly any judgment for damages in excess of \$300, or to surrender his driver's license and his registration certificate.

The new Motor Vehicle Financial Responsibility Act, which becomes effective this month, does not require any car owner or operator to do anything before he is held responsible for an accident that injures or kills a person or causes damage in excess of \$300, but it reaches out for the offender after he has been found responsible.

Four Effects Provided
After the judgment is returned, many painful things begin to happen if it remains unsatisfied after 30 days.

First, the owner or operator will have his driving license canceled by the Secretary of State.

Second, he will find himself barred not only from the highways of Michigan but from the roads of 21 other states and six Canadian provinces.

Third, he will continue barred until the judgment returned against him is fully satisfied.

Fourth, he will find that after the judgment is satisfied he will be required to establish proof of ability to respond in damages for three years before his right to drive is restored.

The escape through bankruptcy proceedings—often taken advantage of in the past—has been closed. The motorist will find that under the new law he must pay the judgment returned against him before his petition to be restored to driving rights will be considered by the Secretary of State.

He may escape other debts but not the judgment for damages. That judgment must be settled to the satisfaction of the victim of the accident or the guilty driver will remain a non-driver.

Civil Security Only
"The evidence of financial responsibility required from the car owners and operators," points out an official of a leading insurance co., "is security only for civil liability imposed by law

and not security for criminal liability.

"If the intent of the law to keep off the highways and streets any motor vehicle operator or owner: (1) against whom a final judgment in excess of \$300 resulting from the operation of his motor vehicle had remained unsatisfied 30 days, and until evidence of ability to respond thereafter in damages within specified limits has been filed; (2) any owner or operator whose license has been suspended for any violation which requires suspension in Michigan until such person shall furnish evidence of ability to respond thereafter in damages within specified limits.

"The law specifies that proof of ability to respond in damages may be furnished by: (1) a deposit of \$1,000 in cash or approved collateral with the State Treasurer; (2) filing of an approved bond by a surety company authorized to do business in the state or a personal bond with at least two individual sureties; (3) the certificate of an insurance company authorized to do business in the state of residence of the motorist filing or in the state where the motor vehicle is registered, certifying that the insurance company has issued a public liability policy of \$5,000 and \$10,000 for personal injury to others, including death, and a \$5,000 property damage."

All Drivers Included
The new law includes the owners and operators of motor cars and trucks, motorcycles and tractors.

In simple words it provides that a motorist held legally responsible for an accident must settle with the victim or victims. If the motorist has insurance he must continue to carry insurance for three years after the judgment is paid or furnish the other specified evidence of financial responsibility. If he is not insured he must settle and then either secure insurance or deposit cash or file bond for three years.

Any idea of beating the judgment by going through bankruptcy will be just a waste of court fees, it is pointed out.

Pithy Points Picked Up and Pally Put By Our Peripatetic Pencil Pusher

Mr. and Mrs. Bruce McQueen, Dr. B. H. Shepard and Mrs. Shepard returned Friday from a short bird hunting trip to the Upper Peninsula. The party returned with the full legal limit of forty prairie chickens. The ladies proved their skill by bagging their share of the birds. Prairie chickens have been steadily increasing in numbers in Northern Michigan during the past ten years.

An asprey, moving southward on its fall flight was shot along the Flat river near Lowell last week by a Grand Rapids youth. The bird was taken to the Kent Scientific Museum by the young hunter who did not know the identity of his unusual kill. The bird had a wing spread of more than five feet. Although the Asprey is not a true hawk yet it comes under the hawk classification and is therefore not protected. Those who know this interesting bird declare that it deserves protection.

Supt. Carl M. Horn of Dowagiac, son of Mrs. C. H. Horn of Lowell and a graduate of Lowell High School, has been appointed advisory member representing the State of Michigan to the North Central Association of colleges and Secondary schools for the year 1933. Mr. Horn is one of the four members representing the State of Michigan.

While testing an electric pad, Blanche, young daughter of Lieut. Gov. and Mrs. Allen E. Stebbins of Ionia, received a shock that hurled her across the bathroom and rendered her unconscious. She was found an hour later by her brother.

Warner Roth is the new sub-clerk at the Lowell post-office and he is taking hold of his new duties with neatness and dispatch.

Over 600 persons are now on the payroll of the Ypsilanti Reed Company at Ionia. Over \$15,000 in wages are now paid out every two weeks.

Cost of collection of the gasoline tax by the Department of State for the first six months of 1933 was six-tenths of one per cent. This is a reduction of 25 per cent as compared with collection costs for the entire year of 1932.

Speaking about domestic infelicity—and not all of it is Hollywood bound—the Lapeer County Press tells of the farm couple that cooked with gasoline—the stove exploded and blew them both out into the front yard. One of the neighbors said it was the first time they had gone together in 10 years.—Ionia County News.

It took some quick thinking on the part of the committee on arrangements in charge of the home-coming celebration at Newago to outfit a quartet of youngsters who had been induced to enter an ice sitting marathon. Cakes of ice were provided upon which the boys were given a comfortable seat and it was to be an endurance test—the one who stuck to his seat the longest would be the winner. But the kids were made of sterner stuff than the committee envisioned and after the local ice man had been sent back for more ice a couple times they devised the expediency of sprinkling sodium chloride, which is high hat for salt, on the fresh cakes before the boys were seated. It had the desired effect—salt on ice made the old-fashioned ice cream freezer function—and salt on the ice blistered the kids just south of their suspender buttons, but at that one of the little rascals stuck it out 53 minutes longer and copped the 75-cent prize. Not that it would have any important effect on the tide of human affairs, but just the same we'd like to see a bunch of pajama clad lassies try out that kind of a stunt.

Probate Judge Wm. E. Rasmussen, Montcalm county, is the first tax payer in the state of Michigan known to have paid his old age head tax of \$2.00. Mr. Rasmussen has paid to Wm. C. Bowler, treasurer of Montcalm county his \$2.00 and has a receipt dated Sept. 8 to show that he has made his payment for the old age pension.—Edmore Times.

THING I'M
GOING TO BUY—IS A
MAYTAG

"With prices going up I want to buy a lot of things. But not another thing till I get a Maytag. Because with a Maytag, I can save money to buy other things."

- That's sensible buying. Because it is buying quality you can use—quality that pays a weekly return on your money.
- The Maytag washes clothes faster, washes them more thoroughly, more gently and at lower cost per washing because it is a better designed, better built washer. • Select your Maytag at today's low prices.

Lowell Woman's Club

The Lowell Woman's club met at the home of Mrs. Leo Denny Wednesday afternoon. The country for study was "France."

Mrs. C. Leary gave a very interesting paper dealing with the typography, climate, population, customs, manufacturers, products, mines, art and schools.

Miss Mable Hall gave piano selections by French composers and gave a brief description of the music and the composer of each.

Mrs. W. E. Hall conducted an open Forum, and more was brought out about the music, art and the church. Miss Hall assisting her mother with piano selections.

Mrs. Houseman talked on Paris fashions.

Mrs. S. B. Wenger gave some French Current Events.

Mrs. Nellie Andrews passed some pictures taken in France. Jannis Denny then favored the ladies with three piano selections.

The club ladies are producing some very interesting programs which are greatly appreciated by those attending.
