TAXPAYERS GET BREAK AT LAST; KENT TAXES CUT

STATE AND COUNTY LEVY IS LESS THAN HALF OF LAST YEAR'S—LOWELL-TWP. CUT FROM \$16,989 TO \$8,150.

With a 1934 county budget, adopted of \$909,941, which is \$263,000 under last year's total, and Kent's share of the state tax already whittled from more than \$1,000,000 in 1932 to \$160,000, Kent county property owners will benefit by a more than 50 per cent cut in their winter taxes.

Other townships in the county bear proportionate reductions. The county, in the opinion of Peterson, was in a position of safety against any contingencies that would lay up a debt against the 1935 budget that might seriously curtail regular county functions.

Oh, what's a war in China, League of Nations, needy slums? We read things of more interest the day The Ledger comes. The news we like best is from our old community.

Old Favorites Your Health

2560 Burlington, Detroit, Mich. Mr. Editor, Lowell, Mich. Dear Mr. Editor: Enclosed herewith are words of an old song you may like for your "Old Favorites Column." The old songs seem to be gaining in popularity with radio singers. I should like to get them in your "Old Favorites Column." I have "Fanny Footed Nannie," "O, Say, Say, Say," "Fair, Fair, Fair," "Golden Hair," and "The Old Song." I see this column in your paper continues.

Yours very truly, (Mrs. Albert) Ethel M. Roth.

"MILL-MAY" (By Charles G. Eastman) The strawberries grow in the morning. Mill-May. And the blue-bird sings on the tree. On the knolls the red clover is growing. Mill-May. Then come to the meadow with me. We pick the ripe clusters among the deep grass. On the knolls in the morning. Mill-May. And the long afternoon together we'll pass. Where the clover is growing. Mill-May. Come, come, 'ere the season is over. Mill-May. To the fields where the strawberries grow. While the thick morning stems and the clover, Mill-May. Shall meet us where ever we go. We'll pick the ripe clusters among the deep grass. On the knolls in the morning. Mill-May. And the long afternoon together we'll pass. Where the clover is growing. Mill-May. The sun gleaming under your bonnet. Mill-May. Shall kiss a soft glow to your eyes. And your lip, the strawberry leave on it, Mill-May. At that the sea shell would trace. Then come the ripe clusters among the deep grass. We'll pick in the morning, Mill-May. And the long afternoon together we'll pass. Where the clover is growing. Mill-May.

THE COMMON COLD. As the cold fall and winter months come on, the incidence of the so-called "common cold" increases. This probably occurs because people live indoors more than in the summer time, and thus there is opportunity for more intimate and continuous contact with a case.

SUNDAY DINNER SUGGESTIONS. BY ANN PAGE. Sweet potatoes and yams rival white potatoes in popularity at the season and little wonder as they are of excellent quality and low in cost. Buy the best quality and price and low cost. You will get more for your money. It is a pleasure to enjoy a great variety of them. The following are suggestions of what to buy and how to cook them.

Low Cost Dinner. Minute Tapioca. Boiled Ham. Creamed Onions. Deep Apple Pie. Coffee.

Very Special Dinner. Boiled Ham. Creamed Onions. Deep Apple Pie. Coffee.

Homemaker's Corner. One hour is required to process pint jars of canned meat, 40 minutes for quart cans. The best results are obtained for potatoes in each of those years, but with present relatively low level of corn prices in general, high percentage of unemployment, and the greatly reduced consumer buying power, the price that farmers will receive for their potatoes this year cannot be predicted with any degree of accuracy.

On cold rainy days, and on days that the worst weather rages, Uncle Sam carries The Ledger into the country home. On these days the Auction Bill folders helpfully in the wind or is torn to pieces by the gale. The Ledger is read by the man you wish to reach when he has the greatest leisure, that is, when he is sitting around the table after supper. The Auction Bill on the other hand is glanced at as the farmer or buyer is hurrying past. Nine chances out of ten he won't even see it. Then, too, The Lowell Ledger you reach thousands of readers through its large circulation. That's the biggest argument. Besides the ad. we furnish you with the necessary bills to be placed in stores, shops, elevators, etc.

Imagination Goes Far
With the Superstitious

No matter how intelligent we are by nature, or how reasonable and wise we may become with the experiences of years, man never quite loses his fear of the supernatural nor belief in its manifestations, regardless of how exalted his circumstances and conditions. An instance has just been reported from Monacaeri, near Turin, where a young couple, setting up housekeeping, had just moved into a dwelling which had been unoccupied for some months. No sooner had they established themselves in these quarters than all sorts of mysterious and astonishing, as well as terrifying noises became audible. Doors shut and opened of their own accord; windows rattled; vapors of unknown source moved here and there; now and then the strains of music, or of shrill whistling were heard. These experiences were so alarming that next day the trembling pair sought the aid of the police. A gendarme, stationed there the next night, insisted strenuously that he heard all the various commotions, too, and not only that, but actually saw a weird shape floating about to be compared with nothing he had ever witnessed before. Which all goes to prove that superstitions, if not native to the individual, are at least contagious, and may be acquired and entertained even by the most staid and unimaginative of the population. — Il Messaggero, Rome.

Apply These Tests

October 16th was the deadline. On that date, Michigan's new financial responsibility automobile law took effect. When you place your order for auto insurance, apply these tests—

- 1 Is the Company sound and dependable? (Almost two-thirds of the assets of the Wolverine are free and clear above liabilities).
- 2 Is the policy "non-assessable"? (Wolverine is a Stock Company—policies can never be assessed).
- 3 Will you be protected no matter whom you injure? (Most policies will not cover injuries to relatives or employees. Wolverine policies cover "any person or persons").
- 4 Will any property you damage be paid for? (Most policies exclude property in your charge. Wolverine covers all property of other persons under all conditions).
- 5 Is it reasonable in price? (Protection for injuries up to \$10,000 and damage to property up to \$5,000 can be had in a Wolverine policy for as little as \$17.00 a year).

Use care in the selection of your insurance. Let us explain the complete protection found only in Wolverine Auto policies. Shall we call—or will you?

Importance of Grasses in Man's Advancement

Civilization has been built directly upon one or another of the cereal grasses, supplemented in some cases with pasture grasses, according to a professor of Berkeley university, Calif. Cereal grasses changed man from a nomad to a settler. Even the calendar and social life was made necessary by the cultivation of cereal grasses. In 2700 B. C. the Chinese instituted the symbolic ceremony of sowing five useful plants each year, these being rice, wheat, sorghum, millet and the legume, soy beans. In Egypt, barley and millet were produced as early as 4000 B. C. On the American continent, civilization is practically synonymous with one grass, maize or Indian corn. The greatest portion of the dry land surface of the earth is occupied by grasses.

Leafy Alfalfa Is Best

The percentage of leaves as compared to stem is one of the factors to which an inspector and grader of alfalfa hay gives particular attention. A high proportion of leaves is the most important single indication of quality. This is because the leaves of alfalfa carry about three times as much protein in proportion to their weight as the stems do. Protein is the most expensive and most valuable part of alfalfa hay, and hay cured to retain a large proportion of its leaves is worth more and deserves the higher grade. The hay grades, as defined by the United States Department of Agriculture, are designed to reflect real market values and consequently the alfalfa grades emphasize leafiness.

STRANGULATION

Like an octopus, special taxes upon the motorist and the automobile industry have so enveloped us that they threaten to stifle the very life blood of Michigan's principal industry. The Automobile Club of Michigan is marshalling forces throughout the state to fight unfair automobile taxation. Despite fewer cars and less driving this year, motorists of Michigan will pay the greatest amount of taxes in their history. Even if driving does not increase, and if registrations continue at their present low figure, there will be another increase in 1934.
