progress.

The difficulty of getting taxes collected has been one of the worst phases of the business situation. It has impaired the credit of hundreds of cities. A city might seem solvent enough on paper, but if its people couldn't pay their taxes, the financial fabric was threatened. If cities can't collect their taxes, some of them will probably not be able to pay the interest on their

bonds, which would affect the in-stitution and individuals that have bought these bonds. Also if cities can't collect their taxes, they either have to raise the assessments on those who are able to pay, which threatens to drive people and industries out of such

If they are made so high that people just can't pay them, some of them lie down and won't try to pay. When taxes are reasonably low, the cities live on a sound foundation, business is encouraged, and the people retain their purchasing power.

of Harmful Body Waste
Your kidneys are constantly filtering
waste matter from the blood stream. But
kidneys sometimes lag in their work—do
not act as Nature intended—fail to remove impurities that, if retained, may
poison the system and upset the whole
body machinery.

Symptoms may be narging backache,
persistent headache, attacks of dizziness,
getting up nights, swelling, puffices
under the eyes—a feeling of nervous
anxiety and loss of pep and strength.

Other signs of kidney or bladder disorder may be burning, scanty or too
frequent urination.

There should be no doubt that prompt
treatment is wiser than neglect. Use
Doen's Pills. Doen's have been winning
new friends for more than forty years.
They have a nation-wide reputation.

Lowell township Republicans and Democrats held their respective caucuses at the city hall last Sate this means a long step toward

progress.

The difficulty of getting taxes collected has been one of the worst phases of the business situation. It has impaired the credit of hundreds of cities, A city might seem solvent enough on paper, but if its people couldn't pay their taxes, the Creek. financial fabric was threatened.

If cities can't collect their taxes, some of them will probably not be able to pay the interest on their bonds, which would affect the institution and individuals that have bought these bonds.

Also if cities can't collect their taxes, they either have to raise the assessments on those who are able to pay, which threatens to drive Pontiac. people and industries out of such communities, or they may have to close up or curtail schools, road work, and other essential services.

The financial solvency of the wood. country rests on taxes. Which Dr. Eugene B. Elliott (R)\*, Lanbe reasonable. If they are made so high that people just can't pay them, some of them lie down and won't try to pay. When taxes are reasonably low, the cities live on a sound foundation, business is encouraged, and the people retain their purchasing power.
