down the kitchen sink each year People who do not like fat meat will be glad to give the government their share. One boy used to say there should be a fat meat hole under the dinner table, down which could throw the fat portions, and that there should be a woodchuck at the bottom to consume it

Fats play a great part in the human organism, and they provide a large share of the heat energy that is indispensable to animal life. European countries were supposed to have suffered severely in the first World war, due to a shortage of fats. The people should conserve these vital substances now to an munitions production, and probably after the war there should be more efforts to save them.

SOLDIER'S FOXHOLE DIVERSION-Private Vincent Costante at Fort Benning, Georgia, models a sculptured likeness of the girl back home. Active service in the foxholes has no terrors for the United States Army soldier of 1942. Possessed of talent, ingenuity and a will to win, he finds diversion wherever he may be. It is an old American trait. At Valley Forge after a dreary winter had passed the Continentals played a game which since has been evolved into baseball. Confederate cavalrymen with "Jeb" Stuart rode their best when they joined in rollicking song, and veterans of the old 155th Pennsylvania Infantry used to tell of their lively card gameon the rocks of Little Round Top during Pickett's charge at Gettysburg. It's the same indomitable spirit that so long has kept

He'd take a look at the evening paper The following eight hours proved more crowded and the search for a secretary more futile than he had imagined. The mere mention of the word Alaska set the prospects he interviewed into shivering refusal. "Tubby'll have to get one for himself on the coast," he concluded as

Click! It slipped into place. Janice Trent! Billy Trent's sister "Jan." He remembered her as a leggy child of twelve when he had spent his last college vacation before the war at the Trents' country place. She had exasperated her brother and himself by tagging after them on fishing expelitions. Darm shame that he and Billy, who had meant so much to one another, had drifted apart. Ye had gone to Trent's office at once upon his arrival in New York, only to learn that he was out of town.

He stared unseeingly at the advertisement. Last night at the dinner when he had regretted Billy's absence, Silsbee, the class gossip, had confided:

Farm Book-Keeping

Offered to Ledger subscribers at a big saving with a year's advance subscription. An approved system of practical value to every farmer.

Avoid **Income Tax Trouble** in 1943

Keeping adequate financial records is the surest way to avoid tax difficulties. Not only does the federal law require the farmer to keep ample records but experience and common sense point the wisdom of such practice

With the importance of farm financial records in mind, the Lowell Ledger has been able to complete arrangements to furnish, in combination with a year's subscription to the paper, a copy of "Agricultural Records," the easy accounting system for farmers, at a special price of \$1.79.

The regular price is \$5.50 and only by offering the record system to you with a year's subscription to your newspaper can we supply it at this remarkable special price.

Here is how the offer works. If you are a subscriber to this paper, you merely extend your subscription for one year at the usual price and are thereby entitled to buy one copy of "Agricultural Records" at the special price of \$1.79. If you are not a subscriber now, you may subscribe to the paper for one year at the regular price and become entitled to buy one copy of "Agricultural Records" for the special \$1.79 price.

If you think of trouble when you think of making income tax returns, you need a copy

of "Agricultural Records" because it:

1. Requires no bookkeeping knowledge. 2. Takes only a few minutes a week.

3. Makes a permanent record of your income and expense.

4. Shows how to figure farm income and deductible expense for tax reporting.

We'll be glad to show you a copy of "Agricultural Records" and explain just how to use it. The whole thing is so simple that the explanation will take almost no time.

Stop in at the Ledger office next time you're in town and talk it over.
