Farmers' Problems

From Fremont Times-Indicator.
Much is heard of current high prices of agricultural products.
What people often overlook is the fact that war has also brought the farmer many a tough problem.
The price of everything he must buy is substantially higher now than in pre-war days. His taxes, like everyone else's, are at record highs. Shortages and priorities make it difficult and sometimes impossible for him to obtain new calculations.

Build Your Own Picket Fence

Why not frame your home and all you own with an attractive wood picket fence? It is easy to build, inexpensive to buy, and requires no critical materials other than nails to hold it together . . . and some hinges if you install a swinging gate. You can do the work yourself.

All parts required to build a wood picket fence can be purchased ready-to-put-together from any retail lumber dealer. If you remember that the posts should be spaced not over eight feet apart, unless the stringers are heavier than 2 x 4 stock, the rest depends on your personal needs and desires.

# Avoid **Income Tax Trouble** in 1943

Keeping adequate financial records is the surest way to avoid tax difficulties. Not only does the federal law require the farmer to keep ample records but experience and common sense point the wisdom of such practice.

With the importance of farm financial records in mind, the Lowell Ledger has been able to complete arrangements to furnish, in combination with a year's subscription to the paper, a copy of "Agricultural Records," the easy accounting system for farmers, at a special price of \$1.79.

The regular price is \$5.50 and only by offering the record system to you with a year's subscription to your newspaper can

we supply it at this remarkable special price. Here is how the offer works. If you are a subscriber to this paper, you merely extend your subscription for one year at the usual price and are thereby entitled to buy one copy of "Agricultural Records" at the special price of \$1.79. If you are not a subscriber now, you may subscribe to the paper for one year at the regular price and become entitled to buy one copy of "Agricultural Records"

for the special \$1.79 price. If you think of trouble when you think of making income tax returns, you need a copy

of "Agricultural Records" because it: 1. Requires no bookkeeping knowledge.

2. Takes only a few minutes a week. 3. Makes a permanent record of your in-

come and expense. 4. Shows how to figure farm income and deductible expense for tax reporting. We'll be glad to show you a copy of "Agri-
