THANKSGIVING THIS YEAR

DAY to count our blessings, just one day, and so many blessings? Or are you of a different mind and ask what we can be thankful for at such a time as this? That there are bombings of Every User of Gasoline women and children, that cities lay in ruins, homes destroyed, hearts laid low, all this and more today's

blessed. Outlawry, humanity battling against brutality, lost hopes and cherished dreams cast aside, missied people, persecutions, poverty, all led people, persecutions, poverty, all these cutting at our foundations in today's Thanksgiving world. As of today twenty-one million American workers are investing eight per cent of their salary - every pay day - in United States War Savings Bonds. This is a very remarkable tribute to our armed forces who are fighting this war. But this job is only two-thirds accomplished. · There are mine million additional American

workers who are not investing in War Bonds every This appeal is directed to two groups of First - the twenty-one million people who are

investing eight per cent of their wages. We ask them to increase their investment to ten her cent Second - the other nine million whom we ask to

per cent or more of their earnings. It is our earnest hope here at the Treasury Department that by New Year's Day thirty million Americans will be investing ten per cent or more of their wages in War Bonds through the Payroll Savings Plan.

War calls must go through this Thanksgiving

> Please do not make social Long Distance calls

War goes right on, despite Thanksgiving. And messages essential to the war effort will crowd the wires as on other days.

War-loaded Long Distance lines cannot carry the usual flood of social calls this Thanksgiving.

Therefore, please make only the most urgent Long Distance calls on Thanksgiving Day, and keep those calls as brief as possible.

Ing at least 10 percent of gross payrolls into War Bonds every payday.

Associate Field Director Engelsman says that women have contributed directly and indirectly toward this record. When a man devoted 10 or more percent of his pay envelope to War bonds, the woman at home has had a powerful voice in the decision. Her planning, her economies and her cheerfulness play their part in the success of payroll savings.

The Treasury Department is counting upon this woman influence in its current campaign to "top that 10" in the success of payroll savings.
