This week the United States Government begins the task of borrowing nine billion dollars from accumulated savings and idle funds in the next several weeks as an essential part of winning the war more quickly and more completely.

During these critical weeks you probably will be visited by a representative of one of the securities firms or banks which are contributing their time and effort - without compensation of any kind-to the Victory Fund Committee. He will explain to you, for instance, the benefits that you can obtain from the new Victory 2%'s-available for the first time. Welcome him as a war worker when he calls. If you miss him, ask
