STILL UNSOLVED THE CRITICAL food problem in this country continues to occupy the front page of our newspapers, the topic of conversations round Lowell, and the subject of radio discussions. It has recently added importance in the naming of a new head of production, distribution of food and recruiting of farm labor. The approval of this selection by the president finds the Senate leaders of both parties in accord, which is encouraging to all who are interested in the food question, and who isn't! A recent Town Meeting of the Air program was devoted to this all-important topic and brought up the issue of taking the skilled, able-bodied young farmers off the land and hoping to substitute some of them with unskilled men, women and children. There are certain instances they warn us, when unskilled labor can be of use in harvesting and planting, but according to those who are versed in the complete picture of farm tion for days, they can destroy productivity of a dairy herd in three weeks time, can inflict harmful results to hens by improper feeding and so on. They must be in and so on. They must be in the content of the conte administration, is where the re-campaign in Tunisia." cruiting of emergency workers could be harmful. This must be taken into consideration by the new food head. We each day realize more fully the fact there is a scarcity of food and there is apt to be more of it if steps aren't taken to improve prevailing conditions on our farms. It appears that if we are to feed Europe after going hungry, we need to do some

MERICA - Let's be frank about it . . . so far, many of us back home have been fighting this war from an easy chair.

THE 2nd WAR LOAN DRIVE IS ON!

America...you've

got to get tougher!

Many of us have bought War Bonds out of extra cash, out of money we didn't miss too much. We haven't been really tough

But this war is a hard, down-to-reality war. And many of our boys are dying in it.

We've got to buy MORE

So your government asks you to buy Bonds and more Bonds - to get really tough with yourself. We're asking you to give up the frills and "extras" for the rest of this war.

We know how human it is not to make sacrifices until the crisis drives us to it. In England they felt the same way until the bombs started falling. Now they can't do enough!

Bombs are such persuasive things. But just as persuasive ought to be the spirit of our brothers, sons, husbands - who are ready to give all. Think now . . . what are your dollars, compared to

If you could see

Look at it this way - suppose you had a magic carpet that could take you to Africa and New Guinea. Suppose you could hear the groan of American boys wounded, and American boys dying . . . Say now, how many Bonds would you buy?

THEY . . . are dying. And they will keep on dying until we drown the enemy in an overwhelming torrent of bombs, bullets, guns, tanks, planes, ships, and shells.

That's why we're asking you, in this one month of April alone, to lend Uncle Sam 13 billions of dollars - by buying War Bonds. 13 billions of extra dollars - over and above any buying that you'd be doing anyway!

A lot of money

Of course, 13 billion dollars is a lot of money. It'll take sweat and tears to raise it. It'll mean going without now. But also-it will mean savings now-to buy later. It'll mean giving up everything you can't square with your conscience, so that we, us, our children,

can have a better, more decent place to live in when this war is won.

The drive is on

So during this month of April, if someone calls on you to ask you to buy War Bonds in this 2ND WAR LOAN DRIVE, will you buy to the limit—and then buy more?

Better yet, will you go to your Bank, Postoffice, or wherever you're used to buying your Bonds - and buy NOW? Will you lend extra money this month? Money that can hasten the day of Victory? Money that can help to save American lives-perhaps your son's or your brother's or your husband's-by helping to shorten

Money buys money

Remember, what you're really buying with your money is still more money. For after all, these Bonds are money! Money plus! Every r you put into War Bonds will bring you a dollar plus intere So the more Bonds you buy the better for you. Americans -

Get Tough - with yourselves - for your country. There Are 7 Different Types of U. S. Government Securities - Choose the Ones Best Suited for You:

United States War Savings Bonds - Series E: The perfect investment for individual and family savings. Gives you back \$4 for every \$3 when the Bond matures. To Hasten Victory

No American wants this war to go one minute beyond the time we can bring it to a victorious end. To hasten that victory-to save possibly the lives of millions of our boys on our far flung fronts-it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sac-rifice offered by our boys in service. They give their lives —you lead your mency.

> Nathan Hale Sketch Nathan Hale, Revolutionary patri-

ot, who at 21 lost his life in the service of his country, was born in Connecticut on June 6, 1755. After he was graduated from Yale he taught school until the outbreak of the Revolutionary war. He rose to the rank of captain and when George Washington asked for a volunteer to penetrate the enemy's line to obtain information about its strength of Mr. and Mrs. G. L. Roth. and designs, Hale offered himself. Disguised as a Dutch school teacher he obtained the information and had nearly reached his own picket line when he was discovered. Taken before General Howe, he was condemned to death the following morning-September 22, 1776. Just before he was hanged he uttered his immortal words: "I only regret that I have but one life to give for my country.'

vinegar, says Robert Nichell, called the human encyclopedia of Belfast, Northern Ireland. This 32-year-old memory wizard has memorized the answers to 31,541 questions. A test failed to stump him. The day the First World war started, the day it ended, the birthdays of George Ber-nard Shaw and Gary Cooper he rat-tles off without hesitation. He can tell the day of the week for any date running back hundreds of years. When asked what anniversary the day of the test recalled he said that Jack London died on that date 25 years before. He was correct every time.

Stradivarius Vielina
The earliest violins known to have been made by Antonio Stradivarius are inscribed Antonius Stradiuarius Cermonensis Alumnus Nice lai Amati, Faclebat Anno (the date), followed by the Maltese cross and the initials A. S. enclosed within a double circle. On later instrum "Fecit" appears instead of Facie bat" and his name is spelled Stradivarius, the change from u to v having been made about 1730. There have been so many excellent imitations of the genuine Stradivarius that the expert knowledge of a connoisseur is required to determine the authenticity of an instrument after careful examination,
