The higher men climb the longer their working day. And any young man with a streak of idleness in him may better make up his mind at the beginning that mediocrity will be his lot. Without immens pustained effort he will not climb high, And even though fortune or chance were to lift him high, he would not stay there. For to keep at the top is harder almost than to get there. When Nell heard the men's voices below and their steps on the sairs, she exprtienced an emotion that shook her so strongly that all her hardshood left her, and she covered her face with her hands for a moment. Then she lifted her head and went to the door to greet them.

Ken was tossing and muttering. He did not know the doctor.

As Dr. Scott made the examination he was told what had happened. That Ken's filly was ill—dying—and that Ken had gone down to her late the night holding the horse in his arms.

"His school opens Monday—day after tomorrow," said Rob, ending on a question.

The doctor shook his head, said, "Not a chance," and put the covers back, parting the facker of Ken's pajamas, and loosening the tie of the trousers, baring the narrow brown body, laying his fingers on it, tapping them.

Faith

Act faithfully and you really have faith, no matter how cold and even dubious you may feel. It is your purpose God looks at and not your feelings about that purpose, and your purpose or will is therefore the only thing you need to attend to.
