Evergreens of the Northwest are among the most beautiful Christmas decorations. The common Douglas fir with its distinctive pendent contestills a room with grace and fregrence.

Small spruces near the coast and some of the true firs of mountain forests also bring their fresh breath into the Christmas setting.

The spruces have stiff, prickly needles and are symmetrical. The true firs have regularly spaced, prim-looking branches and can be nicely decorated. For mantel vases, for wreaths and for door sprays pine with holly or cones and a bright bunch of berries or a gay red ribbon are a choice holiday motif.

EXTRA WAR

> That's a date to remember by ACTION, not words! Our boys on Wake, Guam, Corregidor in the entire Pacific area have been doing something about it-dropping their bombs, and sinking their bayonets, and pouring out the lead of their rifles in payment to the enemy. We at home have to do something about it too—until the day of Victory We have to stick to our "battle stations" in whatever kind of war job we are doing. We must redouble our efforts in civilian defense. We must salvage metal, paper, fat, as though our lives depended on it-because they do! And above all, we must buy War Bonds with increased enthusiasm and DOLLARS! Not only an extra War Bond on the Anniversary date of Pearl Harbor . . . December 7th . . . but War Bonds until there is
