MOTHER'S DAY

FASHIONS IN MOTHERS have changed since motherhood first came into being. One admits that the late Whistler's "Mother" is probably a far different picture than today's vision of the busy Ameritees, heads philanthropic movements, manages salvage drives, guides Scout groups, helps unite schools and parents, keeps up with current events, reading and radio, taking an interest in art and music; carrying on with cleaning, cooking and sewing in the home, or Harry F. Sgt. Houghton Writes About Natives of South Pacific

LOWELL, MICHIGAN, MAY 11, 1944

A most interesting word picture of the country and natives in the Cape Gloucester area has been given by Sgt. Lewis A. Houghton, in letter to Tom Walsh, manager of the Grand Rapids airport, dated April 8, 1944. Sgt. Houghton is the son of Supervisor Frank Houghton, and was among the first of our boys to see active service in the News of Our Boys South Pacific area. His letter to Mr. Walsh follows:

"Just a few lines to let you know that the rabbit arrived okay. It came at the right time, when the chow was not plentiful as it usually is.

Keep Michigan First . . !

Sure, Michigan is only one state out of 48 . . . . But Michigan led all the rest in the production of Navy beans in 1943. Let's keep Michigan first again this year! PLAN NOW TO PRODUCE MORE BEANS.

We shipped over one half of all beans we purchased last year to the men in the fighting forces. The price to grower is guaranteed. Beans are one of Michigan's best paying crops.

Paramount's screening of Ernest Hemingway's great novel "For Whom the Bell Tolls" has made moving picture history in many respects. Perhaps one of the most unusual was the "making-up" of 50 square miles of the High Sierra Mountains, where the victure was photographed because these mountains

look so much like the Guadarrama Range in Spain where the story "For Whom the Bell Tolls" is centered.

Since the picture was to be taken in technicolor, which emphasizes yellow, it was necessary to subdue the yellow in cliffs, trees, bushes and shrubbery, so that just the right color effect would be obtained when the picture was screened. Paramount sent out a crew of mountain climbers to do this gigantic make-up job on the face of nature. But instead of being equipped with the usual make-up job on the face of nature.
