Why the Biggest Job in town carries no pay!

What is the biggest job in your town—in anybody's town, be-tween May 14th and June 30th? It's that of the man or woman who will ask you to buy extra

War Bonds in the 7th War Loan. It carries no pay because the people who are doing this work are good Americans. In addition to buying extra Bonds themselves, they're willing to give their time to a job that's as important as

anything outside the battle lines. It's important-and it's big. Making our quotas in the 7th War Loan is a man-sized job for everybody.

Uncle Sam needs 7 billion dollars from individual Americans in the 7th! That's a bigger quota than ever before. It's bigger because this is really 2 loans in 1-last year, by this time, we had bought Bonds in 2 Loans instead of one.

And it's bigger because the need is bigger. We're building up a whole new air force, with new jet-propelled planes and even huger bombers. We're building more tanks, mortars, and everything for the increasingly bitter struggle with Japan. And we're paying the

mounting cost of victory—taking care of wounded men who are arriving in this country by thousands every month.

So-be ready when one of these War Bond workers comes to you. Open your door, your heart, your purse-for the 7th War Loan. Help America to make its quota-by making yours!

"The Seventh War Loan will be
one of the two great War Loans
planned for 1945. More payroll
money will have to be raised from
individuals in this War Loan than ever before.

"That money is needed first, of course, to help pay for the War. Just as important, however, is the fact that with incomes up, employment high, and consumer goods scarce, it is vital that we get every possible dollar over rock bottom expenses into War Bonds-NOW.
