New 1946 Pontiac Now Showing Here

Motorists of this area are among the first in the nation to see the 1946 Pontiac models when the first shipment by the company of new cars since 1942 arrived here and went on display immediately.

A preview look at the new Portiacs now on display at the L. E. Johnson Sales Room, 214 East Main St., reveals advanced styling which emphasizes a road-hugging appearance and plane-like contours. Dominated by the famed Silver Streak, the frontal appearance commands attention with its massive, flowing beauty, enhanced by a newly designed grille, relocated parking lamps and heavier bumpers extended in a sweeping curve to protect front fender skirts.
