## Lowell Planning Grand Christmas Starting Dec. 18

### Lifesize Models to Show Nativity Scenes Each Night of Pageant

What will be Lowell's first Community Christmas promises to be a success in every way. Workmen are busily engaged in planning the installation of the Nativity scene featured by lifesize models, the lighting system and the public address system.

The display will be shown from Tuesday night, Dec. 18 to Christmas night, Dec. 25, inclusive and will be supplemented by programs each evening.

### Dedication

The opening of the exhibit will be highlighted by dedication ceremonies. General chairman, Mrs. Lee Lampkin, will officially open the activities by addressing the crowd over the public address system. Theron Richmond, president of the village, will dedicate the scene to the war veterans; Bruce McMahon will respond on behalf of those who returned from the armed forces; Rev. Paul Z. Hoorstra, pastor of the Nazarene church, will give a five-minute address on the meaning or inspiration of Christmas. Henry Weaver, chairman of the Christmas Committee of the Board of Trade will pledge the support of the Board to the undertaking. Music will supplement the program which starts at 8 o'clock. All of the programs will be produced over the public address system which will have a microphone in the Congregational church parlor.

### Other Programs

Except for the program on Saturday night all programs will start promptly at 8 o'clock and last not over 1 1/2 hours. On Saturday, however, the program will start at 7. Mrs. Howard Thurler and Mrs. Harry Stauffer will play appropriate music over the Hammond organ and the school and all the churches will cooperate in providing special vocal or instrumental numbers. It is expected that appropriate records will also be available. Except for the opening night there will be practically no speaking. On Christmas Eve, the Christmas Story will be read as part of the ceremony.

The Board of Trade offers \$50 in prizes for the best Christmas displays. There will be prizes of \$7.50, \$5.00 and \$2.50 to the merchants for the best window decorations and same prizes for the best decorated yards to homes.

## M. S. C. Extension Service Assembles Labor-Saving Ideas for State Tour

So that Michigan farmers may profit from the many labor-saving ideas and home convenience methods, machines and gadgets that have come from wartime farming and from the laboratories of Michigan State college, a traveling display is being prepared to tour the entire Lower Peninsula.

To be known as the Michigan State College Rural Progress Caravan, the exhibit will travel 8,000 miles to visit at least 50 counties for one-day showings between January 3 and March 29.

Carrying the theme, "labor saving", the caravan will consist of a display of scores of farm convenience items and ideas gathered by county agricultural agents and college agricultural and home economics specialists. Local farmers are to be invited to bring their own creations to the show in their county.

Two trucks and two trailers will be used to haul the 340 lineal feet of displays, models and equipment now being assembled at the college. At least 100 individual pieces of equipment, including models and full-sized machines will be carried from county to county. Specialists will be on hand at each meeting to explain ways of building and using the device. Efforts will be made to make plans available to interested persons.

Work of constructing and painting the many panels carrying messages and information has been under way at the college for several weeks. A total of nearly three months is being required to complete the task.

Magnitude of Display Sponsored by the Extension Service of the college and financed principally by the Emergency Farm Labor department, the caravan represents the co-

## Method of Stopping Xmas-Tree Needle Drop

Do you know that you can make needles stick tightly on the branches of your Christmas tree? Many stores—using Christmas trees for holiday atmosphere—have found out that needles will hang on tightly if Floralife, a cut-flower food, is added to the water in which the tree stands. Housewives also are discovering this delightful fact. Just a spoonful need be stirred in. Floralife normally is used by florists, cut-flower exhibitors and gardeners to double the life of cut flowers. But, in December, Floralife increases its usefulness as a life extender for Xmas trees! Not only does this chemical keep trees in tip-top shape, but it co-incidentally reduces housework; no sweeping up of needles. Floralife is sold by Kiel's Greenhouses and Gift Shop.

## Lowell Basketeers Drop in Overtime

### By Forrest Buck

Board of Trade Sports Chairman

A capacity crowd at the high school gym Friday evening saw Godwin edge out a 30 to 26 win over the Lowell Red Devils in an overtime game.

Lowell jumped to a 7-3 lead at the first quarter and held a 14-11 advantage at halftime. During the third quarter Godwin pumped in three quick baskets to take a 21-17 lead going into the final period.

Lowell rolled to a 26-24 lead with only a minute remaining. Bruges of the suburbanites slipped in a long tom to tie the score and force the game into overtime.

In the three minute period Lowell could not score while Godwin cashed in on two shots to grab a 30 to 26 decision. Kyser and Wittenbach were high for Lowell with 13 and 6, while Evink scored 8 points for Godwin.

Other league games saw Lee defeat East Grand Rapids 32 to 17 and Wyoming Park outscored Grandville 32 to 24.

## Muskrat Trapping Looking Favorable

Barring unfavorable weather this month, muskrat trappers in southern Michigan counties should have better-than-average success.

High water conditions this year should have increased muskrat populations according to conservation department game men.

The muskrat and mink trapping season opened December 1, ends December 31, in counties south of the north line of Oceana, Newaygo, Mecosta and Isabella counties. A Jecota is extended eastward to baginaw Bay.

## Secure Prominent Speakers for M. S. C. Extension Meeting

M. L. Wilson, national director of the Extension Service, Washington, D. C., will be one of the headline speakers at the Annual Extension Conference to be held at Michigan State College, December 17 to 20.

Other speakers from outside the college who are on the general session programs include Dr. Theodore W. Schultz, of the department of economics, University of Chicago; Karl Knauz, extension field agent, Washington, D. C.; Eunice Heywood, home economics field agent, Washington, D. C.; and T. T. Martin, state 4-H club leader from the University of Missouri. Malcom W. Binyay, editorial director for the Detroit Free Press, will be the speaker at the annual get-together banquet on Monday night, December 17.

This includes following the recommendations given by the manufacturer for washing or dry cleaning.

The question of whether water-repellent garments can be washed depends on which type of finish has been used. One method of treating for water repellence involves injecting chemicals into the fibers. This produces a durable finish that will not wash out. A second method is the application of a wax-type chemical solution as a coating on the yarn. This is non-durable and the fabric must be re-treated after laundering or cleaning. Many laundries and cleaners are equipped to re-treat such garments.

The durable finish remains effective through many dry cleanings. In washing wet cleaning it is important that all the soap be removed, for soap contracts the water repellent effect.

Fabrics treated by either method wear longer because the repellent finish gives the fiber protection against water and non-oily spots and stains. In everyday wear they stay clean longer and wash more easily.

## BE WISE—DON'T TRAVEL

Officials of the Association of American Railroads warn that passenger trains throughout the nation will be more crowded than even the most jam-packed troop transports during the coming Christmas holidays.

The officials say that persons endeavoring to travel at Christmas will be caught in mad races to even find standing room on trains.

The travel situation is bad, and is going to get worse, instead of better, for the next 60 days.

## The Christmas Store for Men

## Hunters Told How To Improve Sport Should Not Fail to Make Annual Report

Hunters have opportunity to help make their sport more enjoyable.

When they report their success or lack of it, at season's end, the conservation department can compile information that will be helpful to them when the next season rolls around.

For instance the department can inform them where most deer were shot and where most hunters were found.

Return postcards are supplied with hunting licenses. A penny stamp and three minutes' time are the hunter's contributions.

Yet, only 17 per cent of licensed hunters cooperated following 1944 seasons. Conservation department reports reflect this lack of cooperation.

State law says that hunters can be taken into court and fined for failure to cooperate. The department says it isn't worth it. Strict enforcement of a similar law was tried in Pennsylvania, the law was later repealed. Wisconsin law says that a hunter who fails to report can be refused a license to hunt the following season; the law is not enforced.

Michigan sportsmen's groups help to collect the reports of their members. Such help is available but returns often are spotty. For example, few club members travel far from home to hunt rabbits.

The department has recently mailed 7,600 reminder cards to forgetful hunters, 80 per cent return; proof, it believes that hunters' failure to report promptly is not intentional.

The fact remains that such failure hurts hunters themselves.

Lowell school vacation for the holidays will be from Monday, Dec. 24 to Tuesday, Jan. 1, inclusive, with school resuming on Jan. 2.

Greeting cards for local delivery should be mailed not later than December 15 to assure delivery before Christmas day.

During the past couple of days the mercury has been edging closer and closer to the zero mark. Spotted readings in this locality have ranged from 5 to 15 above zero. Relief is expected by Thursday or Friday.

The Ledger has been informed that the Lowell Post of the American Legion is planning the erection of a home of its own when building conditions permit. It is understood that \$16,000 has already been subscribed towards the project which is to have a total cost of around \$40,000.

Fitch Beach has been planning for sometime to build 25 houses in Charlotte and last Tuesday went to Bay City where several companies are located who build prefabricated houses. They all claimed it would be at least one year before they would be in a position to commence building again as they had all been working on war contracts and had no dry lumber.—Charlotte Republican Tribune.

Looks as though houses will have to be built on the mass production plan if we ever get anywhere.

## DID YOU KNOW

That Norm Borgerson has a grandmother living in East Jordan, Mich., who was 100 years old the 4th of this month? Her name is Mrs. Ingeborg G. Martinson and she was born in Norway, in 1845 and came to this country in 1885. She has two daughters, one son, 18 grandchildren and 20 great grandchildren.

That the Rev. N. G. Woon gives a heap of his time in addition to his numerous church duties to various civic enterprises? Last Saturday we happened to notice this gentleman of the cloth cleaning up the west side park for the forth coming Christmas program which will feature the Nativity Scene. Our boy scouts have a grand opportunity to aid this splendid enterprise.

That Milton Fuller, vice-president of the King Milling Company has an 18-year-old nephew in the U. S. Navy, who bears the name Milton Fuller? Having no son of his own Mr. Fuller takes justifiable pride in his namesake.

Four boys have been dropped from the club for not coming to the meetings or offering an excuse for their absence. They are: Pat McCormick, Bob Bird, Martin Johnson and Jerry Jasperse. This was necessary to keep interest in the club high and to preserve its ideals.

There are only 35 booster pins left, and these will be sold at the basketball game Tuesday. Anyone wishing these pins come early as they are the only ones left.—H-I-Y reporter, Humphrey Johnson.

**Flag of the United Nations**  
Have you ever seen the flag of the United Nations? It is sometimes known as the Four Freedoms flag. Although it is not an official flag, it is the work of a group of citizens who felt that a flag would indicate the objectives of the United Nations and gain support for its aims throughout the world. It was first unfurled in Washington on March 18, 1943. It consists of four vertical red bars on a white field. It is not intended to wave alone but to be flown alongside the flag of the country in which it is displayed.

**Take a Victory Bond - It's Free**

BY BRUCE BARTON  
Reprinted by permission from November Readers' Digest.

I have heard people sigh at word of the Victory Loan Campaign, and say, "I suppose I have to buy another bond. But I don't see how I can afford it."

This is just like saying, "I suppose I really ought to start saving money, but it's an awfully expensive thing to do!"

The fact is, of course, that you don't buy bonds. As W. B. Bachman, a Detroit writer, forcefully pointed out the other day, the speakers on the radio and the poster artists and the advertising writers have been using the wrong word for four long years. They have been asking the public to do something that is impossible. You can't spend money on bonds. You simply take them. They cost you nothing. My E bonds are nothing but certificates showing that the Barton family has made a deposit in the U. S. Treasury instead of in a bank or a cookie jar. When we take an E bond, we transfer a bank deposit to the safest depository in the world—the U. S. Treasury. We put in noninterest notes and we get an interest-bearing note as our deposit slip!

To take a bond—note that word "take"—is still a patriotic act. That alone is inducement enough for any American. Just as your money in the bank pays for loans and investments and all the bank's

manifold activities, so your money in the U. S. Treasury helps to care for the wounded, to end war contracts, to maintain armies of occupation, to bring home returning fighters, to prevent inflation. Your bonds brought about this mighty atomic blast that put a period to this war. Your bonds today are returning flesh to the bones of those who survived wounds or prison-camp torture—of Wainwright, of Boyington, of unknown thousands of our men who played their own gallant parts in the total defeat of our enemies.

I remember reading the typical experience of George Lott, whose two arms were shredded by a mortar on the Lorraine front. From his battalion aid station Lott was transported 4500 miles in easy stages, by ambulance, train and plane. He passed through three field dressing stations and five hospitals in France and England before being returned to the United States for final treatment and recovery. Your bonds paid for the care of all the George Lotts of this war.

And yet you can count on getting back \$4 for every \$3 you put in!

So get bonds today—get them regularly—and hold onto them. That is about as close as you are likely to come in this life to having your cake and eating it too.

There can be no pleasure in any work unless it be done right—and personal interest usually marks the difference between doing a thing right and doing it wrong.

**Snow School Notes**

The following pupils have been neither absent nor tardy for the period ending Nov. 30, Mary Bibbler, Madelyn Cole, Darrel Hesche, Douglas Antoinides, Phyllis Cole, Jean Antoinides and Junior Bibbler. The best spellers are Mary Bibbler and Phyllis Cole.

The pupils have completed their Michigan project and now are working on the early pioneer history of the Snow Community. Mr. Reynolds loaned us a fine exhibit of Indian relics.

For Thanksgiving the second and third grades wrote poems, the fourth grade invitations, the fifth grade stories and the seventh grade wrote plays. Mary Bibbler's play was selected as the best and dramatized. Mrs. Ruby Avery, the teacher gave a surprise treat of ice cream and cake.

The fourth, fifth and seventh grades have organized a Hobby club with Douglas Antoinides president and Darold Seelye, Secretary. The meetings are held on the first Monday of each month.

We enjoyed making designs from colored paper. A collection of our art work was shown recently at a Teacher's meeting in Grand Rapids.

We have a new globe and dictionary purchased with money we earned last year by selling milkweed pods and our prize money received for our art exhibit at the I-H fair.

We contributed \$3.50 to the Junior Red Cross. We closed our sale of Tuberculosis seals by turning in \$35.00, an average sale of \$2.33 per child.

We are now busy with our Christmas activities. We are filling some baskets for shut-ins. We will have a Christmas tree and party for our parents and friends on Friday afternoon, Dec. 21, when school will close for a two weeks vacation.

Merry Christmas and a Happy New Year to all—Snow school Scribes.
