# School Problem, Lowell's Opportunity

Lowell's school problem is almost entirely due to the fact that the community has been growing so rapidly that the schools have not been able to keep up with the increase. In other words, we are having growing pains and the prospects are that they will become more acute. Previous to the war the approximate total of men employed in Lowell factories was two hundred. Today the number has grown to upwards of six hundred.

Among the many assets of this community none rate higher than our boys and girls and by the same token our citizens have no greater responsibility than that of providing educational fa-cilities that will prepare our boys and girls to meet and assume ilities of life after their school days are over. Educa-

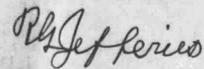

tion and learning bring confidence and courage to the possessor.

For many years Lowell Public schools have held high rank in the estimation, not only of the citizens and parents of the Villige of Lowell, but also of the people residing on the farms and in the neighboring towns within a wide circumference. We must never slacken in our efforts in maintaining and advancing these condi-

No community can exist without seople and the principal mainstay that has maintained this community together has been peo-ple. Let a goodly number of people move elsewhere and everyone suffers in consequence—the schools, every business place, the Bank, the newspaper, etc., even every person who makes his living here, to say nothing of the shrinkage in the valus of homes and other properties.

Lowell's school problem is, in fact, Lowell's opportunity to go

forward to greater achievements than ever before.

# SPRING'S INTERIOR DECORATING MADE EASY OVERS OVER WALLPAPER WOOD, BARE PLASTER, BRICK WALLBOARD, OLD PAINT, ALCIMINE. DRIES IN ONE HOUR DIL BASE PAINT, NO WATE FOR THE JOY OF LOOKING

lomorrow!

212 East Main St.

HOMES THEMSELVES THIS EASY "WON-KOTE" WAY. Intensify "the Joy of Looking" at your home

Do it Today. Dries right away New "as tomorrow," this durable OIL-BASE paint covers in one coat directly over any surface - old paint, bare plaster, wood, metal, wallboard, casein, calcimine-even wallpaper. No primer, sealer or sizing is required.

WON-KOTE dries with a hard, smooth surface that does not soil easily. It is a sheen-She's doing it! WON-KOTE dries with a hard, smooth surface that does not soil easily. It is a sheen-finish flat paint with a hard, non-porous surface that can be easily washed with soap and water. While it is a fast-drying paint-it "sets" in one hour and dries for use in two hours So can YOU! —its slow setting qualities permit it to be brushed on in the regular way any oil paint is applied. This easy brushing quality makes WON-KOTE quite different and faster working than water-thinned paints. Its oil body allows time for self leveling and eliminates brush or lap marks. It can be "spotted-in" over scratches, etc., without refinishing the entire wall.

WON-KOTE will not rust metal hardware or nail heads covered in painting. (Water paints must have an undercoat where metal is encountered.) Being an oil paint WON-CGTE does not absorb water colors and streak the finish, nor does it cause wallpaper to wrinkle as water-thinned paints do. One

coat covers all patterns. Any loose edges can be easily made secure simply by applying a little WON-KOTE to the back of the paper. "You can't beat the Dutch" ... "You can't beat the Dutch" ... "You can't beat the Dutch Kraft Paint!"
