\$18.00 ὁ σάκκος τῶν 100 πάουντς διὰ παράδοσιν είς Σπάρτην, Τρίπολιν, Τρίκκαλα, Θήβας, Λαμίαν, Κυπαρισσίαν, (Μεσσηνίας), 'Αγρίνιον, 'Αμαλιάδα, Πύργον καὶ ὅλας τὰς Νήσους.

The August 12th issue of the Greek daily newspaper, The Nat- Lowell, R. 1, found in the woods ional Herald, of New York City, carried a two column cut of the near their home a turtle with the King Milling Company mill, with the caption "The Small Flour initials "E. R. 1897". This was put Mill That Has Done Big Things for Greece". Following is a free on there by the boys' grandfather, translation of a part of the text:

"Through th co-operation of the King Milling Company of Lowell, Michigan, who had the interest of the people of Greece at heart and the will to help feed the starving of war-torn Greece, the location of the well. c18-19] we are making a second 5,000 bag shipment of flour to Greece".

#### LEDGER **ENTRIES**

JOINING THE WORLD COURT NUMBER 18 The United States has officially placed itself under the jurisdiction of the International Court of Justice. The government has indicated the type of issues which it will Tremendous Problem submit to the authority of this tribunal. Thus is realized the hopes which have been entertained by a ships. But when such items are King Milling Co. and all other who have wished to see the counleft with us at the office we must flour mills of the United States try joining with foreign nations

vating trial of trying to get more court, a vast amount of misery, foreign differences by such &

RAILBOADS' BIG JOB

The railroads of this country just as soon as the miles can get them to move the vast bulk of load the railroads will have to

a great power of organization in the way they systematized the traffic, and the railroad employes cooperated with the skill that is typical of American workers and To Ex-Service Men the ambition to move traffic as Service men who are applying fast as possible. The public should to move this year's great traffic

LOVE AND THE EATS

A newspaper philosopher remarks that the course of true love is said never to run smooth, but

Some men who were not wholly satisfied with their wives, have remained attached to them because they provided the family with such excellent food. A discontented man feels a lot better after he has had one of those nice dinners. A man will think a good long time before leaving a woman who is a good cook. Also some women have stuck by husbands whom they did not thoroughly approve of, because these men provided them with enough money to buy good food. Somehow life looks brighter when people are well fed.

ORGANIZATION PROGRAMS

The officers of community orbefore them in arranging their programs for the coming season, They are keen to present features that will interest the people. Many singers, instrumental performers, entertainers, etc., are open to engagement. Lecturers offer information and inspiration covering a

wide range of subjects. Home talent can provide many of these features. There is a great deal of dramatic and musical ability in our own neighborhood, also gifted public speakers on many themes. The community is indebted to the churches and community organizations and workers for what they do in presenting educational and recreational features, which are a most important

factor in the life of the home town.

HOME TOWN THOUGHTS People who maintain nice looking front yards, but allow their back yards to remain in a disorderly condition, would enjoy their home places more if they would make all parts of them attractive.

VEGETABLES SHOULD NOT

BE STORED TOO EARLY It's well to consider storage of some of the garden surplus for winter eating, but Jack Rose, Michigan State college extension specialist in home gardening, warns against storing vegetables too ear-

Whether in basement storage room or outdoor pit, cool weather is necessary for good results. Crops in storage give off some heat which must be replaced by cool air. One warm spell may cause the entire crop to be lost. Rose advises temperatures for most vegetables in storage from 34 to 48 degress.

WINDBREAKERS

Nationally advertised and nationally famous gabardine, corduroy and poplin, tubtested, jackets and coats lined with wool or rayon at Coons.

BOYS FIND BOX TURTLE

# Meel our Doss:

MRS. ROE

Who's the Big Boss of any business? That's easy-the person or persons who own the business!

In the case of Michigan Bell, our Big Boss is "Mrs. Richard Roe" and thousands of other thrifty folks who have invested in Bell System securities and provided the money for enlarging the system and improving the service.

Now let's see what Mrs. Roe's investment helped make possible. Here are just a few examples:

• From 1920 through 1945, it has permitted the Bell System to increase the number of telephones in service from 8 million to 22 million - almost 16 telephones for every hundred people in the United States. · It has provided the facilities for handling a record-

breaking billion and a half toll calls in 1945, compared to 360 million in 1920. · It has financed the development and installation of dial telephone equipment so that now 4 out of 5 telephones in

Michigan, for example, are dial operated. . It has paid for the construction of 75 million miles of wire and cable throughout the nation, and accomplished many other improvements too numerous to mention

If this progress is to continue-more money will have to be obtained from more investors through the sale of additional Bell System securities. And, since investors naturally want a fair return on their savings, telephone rates should be sufficient to permit paying a reasonable rate of return.

Michigan Bell's "cost of living", like yours, has been rising rapidly. If it continues to go up, rate increases may become necessary to insure adequate earnings. In any event, Michigan Bell wants telephone rates no higher-and no lower-than necessary to operate the business efficiently . . . pay good wages . . . give a fair return to investors and, thereby, protect the future quality of the service we give you.

Pealeillia for Mastitis

Treatment of chronic bovine mastitis with penicillin is a promising new use for the "miracle" drug, according to U. S. department of agriculture scientists. Small quantities of a culture filtrate of the penicillium mold grown on corn steep liquor was not cord in preliminary experiments, and towels may leave a stubborn stain after washing. A cloth were used in preliminary experiments. Of relatively low and variable penicillin content, they gave excellent results when infused into affected quarters of 59 cows. The culture filtrate eliminated from 48 to 60 per cent of the infective or the soap on calcium, and heat on protein show up. ganisms, including streptococcus againctine, the principal species of

ganisms, including streptococcus agalactiae, the principal species of bacteria causing mastitis, and also various staphylococci which complicate the condition. Although not conclusive, these results are believed to warrant further tests with purer penicillin.

BAD NEKGHBOE POLECY

Lemuel went to a neighbor to bor row a coll of rope. The neighbor, Jake, replied that he was going to be needing his rope for some time "I am going to tie up some sand with it," Jake said.

"The up sand!" exclaimed Lemuel "I don't see how you can do that!"

"Oh, you can do almost anything with a rope when you don't want to City was a chose third with 3,060

# Opens Monday, Sept. 9 at 1 p.m.

The Lowell Board of Education invites pupils of the surrounding territory who have an Eighth Grade diploma to attend Lowell High School. Those who will enroll in the High School for the first time are urged to do so on Friday or Saturday, Sept. 6 or 7. The office will be open Friday night, Sept. 6, for those who cannot come during the day.

The Lowell High School is on the accredited list of the University of Michigan and is also on the list Approved by the North Central Association, the highest recognition given to any High School in the state. No other school within a radius of fifteen miles has this high rating.

Physics II

Business Law

Shorthand & Typing IV

REQUIREMENTS FOR GRADUATION 1. Two years of Physcial Training are required. (Exception for 1946-

2. All subjects in capitals are required; three years of English are 3. Sixteen credits are required; a credit is given for the successful in music, or 3 credits in shop will be allowed towards graduation, that is, not more will be counted as part of the 16 credits 4. No credit for academic courses is given unless unit courses are completed in a satisfactory manner. Any one year subject is a unit course. Two years of a foreign language is a unit course. Partial credits for such activities as projects, music and public

speaking are allowed. Students who expect credit in shorthand must also secure credit in typewriting. SUGGESTIONS TO STUDENTS IN ELECTING COURSES 1. We believe that the purpose of the high school is two-fold: (1) to offer something of interest to those who will not complete the four years of work and for those who will not continue their education upon graduation, and (2) to act as a college prepara-tory school. Students and parents should plan courses accordingly.

3. All elections are subject to the approval of the superintendent or principal. 4. Students should elect their subjects according to the number of years they have been in high school.

5. Students who are not enrolled in the commercial course may take a subject in this course if the class is not too large. For

example: Any freshman may take business mathematics or geography if the classes are not over-crowded. 6. It is recommended that students who have completed one year of Algebra should complete one year of geometry. Those who plan to take Chemistry or Physics should take Algebra and Geometry.

7. It is recommended that all boys take at least one year of shop and girls at least one year of home economics. 8. All students who plan on attending college should complete four years of English.

9. Students taking Agricultural course are urged to take Algebra or Business Mathematics.

10. Those interested in Engineering should plan to complete the fol-

lowing credits: English 3 or more, Language 2 or more, laboratory science 2 or more and all mathematics 11. Those interested in nursing should plan to complete the following credits: English 3 or more, language 2 or more, laboratory science 2 or more. Typewriting is desirable.

12. Those interested in medicine or dentistry should plan to complete

2 years of Latin, 2 years of another foreign language, Chemistry, 13. Students who plan to enter college should attempt to determine just which courses they will pursue at college and they should learn just what the college will demand of them for entrance.

COLLEGE ENTRANCE REQUIREMENTS Virtually all colleges require sixteen credits including two major and two minor sequences for entrance. A major sequence consists of three credits in any one academic field and a minor sequence consists of two credits in any one academic field. Only the following subjects count as sequences:

9th Gr. 10th Gr. 11th Gr. 12th Gr. English Englis English English English Eng. 7 & 8 Eur. Hist. U.S. Hist. \*Economics Biology Chemistry Language\*\* .....Latin Latin \* Some colleges will accept credits in World Geography, Social Prob-

\*\*Some colleges will accept only one language sequence. 

lems or World Civics as part of the sequence.

Board of Education-C. H. Runciman, President; F. F. Coons, Secretary; F. L. Stephens, Treasurer; D. A. Wingeler, R. Royden Warner

#### IT'S BACK

Yes, WHITE FLOUR is back and your favorite grocer has ample stocks of the regular grade PURE GOLD, KING'S FLAKE, SPECIAL BREAD and SINCERITY FLOURS.

We are proud of the good emergency grade flour that we made under government regulations. But we are prouder of our white flour that is now on your grocer's shelf. It is precisioned milled under excellent supervision and will bake fine bread, cake and pastries.

Ask your grocer for KING'S FLOUR. It is milled in Lowell.
