Reprint of a Letter Received in Our Office Last Week

Jackson, Michigan, October 2, 1946

King Milling Co., Lowell, Michigan.

Dear Sir:

Some few years ago I came up to Michigan to live from the South, and at different times I have tried the Corn Meal that they have up here and to me it was just terrible and I often wondered if I would ever get used to it. And of late as you know it has been very hard to find meal at all, but I happened to go into a little store that I hardly ever trade with since it is quite far from my home and found a package of meal, and a day or so later I decided to try the meal, and it was so much like that we have in the South that I went to the sack and looked at the place it was milled, to be sure it was not from the South.

At any rate why I have written to you is to tell you how good your meal is and to say that since I have been up here, it is the first decent meal that I have seen or tasted. I can't understand why I do not see it more often in the other stores. At any rate it sure is good meal and just put up more like that and make these fellows up here ashamed of the stuff they call Corn Meal.

Here is hoping you lots of good milling.

Yours truly,

-, Jackson, Mich.
