New power for your BUICK!

Today's Power, Today's Performance, Today's Zip - for Buicks up to Ten Years Old!

TAYBE this sounds too good to be IVI true. But it's a fact! Even if your Buick dates back as far

as 1937, you can have a hoodful of factory-fresh Fireball power-a sleek new power plant that's the same as the engines going into the latest Buick cars.

Everything about it is brand-new. A new carburetor and air cleaner help make every drop of fuel give up all its power. A new distributor, complete with vacuum and centrifugal advance, puts new snap in your getaway and new pep in all driving. A whole new wiring harness prevents electrical loss. And tucked in the flywheel housing is a new smoothie of a clutch that'll make driving more fun than ever.

508 W. Main St.

young again-give it new power and or thousands and thousands more

How much does It cost? Not nearly what you'd expect-often less than a comprehensive overhaul. And it's it makes your car worth so much more when it comes time to turn

You Never Get Too Old

Nutritionists have disproved the theory that when you're grown your body loses its ability to store calcium and other milk minerals.

Too many oldsters let their bones get weak from lack of nourishment, WHICH IS ONE REASON WHY PEOPLE OVER 50—especially women-BREAK SO MANY BONES.
