

the United States and Canada are purchases of the dollar "trout stamps" that are the Michigan con-**Vining Retires** servation department's new method of collecting license rees from trout fishermen.

year the new license-collecting method was used—to outstate collectors and it is believed that Michigan philatelists bought several times as many.

The 1949 issue is printed in numbered sheets of 20 stamps. As of October 31, license dealers had reported sales of 161,342 stamps of the 1948 issue.

There's a story going around become effective Jan. 1, 1949, Rapids, an honorary member of the about a plumber over at Lansing terminating his service with full who wrote to a government official retirement in Michigan State college extension work.

Park Congregational Church, Grand Papids, an honorary member of the terminating his service with full J. Morgan Smith Ten of Grand Rapids and a former member of lege extension work. chloric acid good for cleaning clogged drains. He asked the offi-cial about it and received this re-

"The efficiency of hydrochleric acid is quite indisputable, but the corrosive residue is imcompatible with metallic permanence."

The plumber was quite pleased and wrote that he was glad that the official agreed with him. Back came a second letter:

"We cannot assume responsibility for the production of toxic and noxious residue with hydrochloric acid and suggest that you use an alternative procedure."

Again the plumber was pleased and he wrote again thanking the official and agreeing with him. The official finally wrote to hm:

"Don't use the hydrochloric sold, it eats hell out of the pipes."

well-known manufacturer of chewing gum made a statemen about advertising that pretty well rates tops. While traveling through the west one day, a chance ac-quaintance on the train said to years in the MSC extension service him, "Everyone knows your gum.

It's sold everywhere. Why do you continue to advertise?"

when the leave of absence begune in the point of the service as Employment in the service as Employm

The story goes that the manufacturer turned and said, "My friend, this train is going along very smoothly right now. Do you think we ought to take off the engine?"

Why all this international fuss about nuts and bolts? Don't we and the British both use feet and

a nut off a truck handle in London township which the city of Grand to replace it. The same would go for nuts and bolts on weapons, air craft parts, and many other kinds of war goods which this country and Britain have been try country agricultion. a sigh. She was tuckered out, and her throat felt funny. Goodness, was she going to have a fainting spell? A drink of water . . where were evening callers. Withteyville P. T. A met Friday evening at the school. George fit? She caught the girl's eye. "Do you know where the drinking was ter is?" mamma saked. "At the end of the car. Bring me one, too, will you?"

Mamma pulled the gold watch from her belt. Eight o'clock. The time when she and papa always had a snack. Mamma brushed at her eyes. Silly to miss the old coot so.

Mamma took the shoe box from her knitting bag. She could feel the girl watching. "Want a sand-wich?" mamma smiled, "these and miss believed the girl watching. "Want a sand-wich?" mamma smiled, "these are chicken and these home-made liver sausage." The girl reached for the chicken sandwichs, both of them. Mamma was tired the back of the seat again. She tried putting uper a started sching. The girl lookeds of comfortable and mamma ast back and watched her. Pretty litting thing.

Thanks to many people for many things

THIS IS THE SEASON OF THANKSGIVING . . . And there is much for which we can all be thankful in this great country of ours. Certainly we are thankful for a bountiful harvest of grain and corn, for a high level of production and employment, for a standard of living that is the envy of the world. Most of all, perhaps, we are grateful for our American heritage . . . freedom of opportunity, freedom of choice, freedom to think and worship according to our own beliefs.

We Feel as a Chevrolet dealer it is an appropriate time to convey our sincere appreciation to the people of this community for their loyalty, patience and

Story to be told an American child...

wouldn't let them do what they wanted to do. They wanted to worship God in their own way, and he wouldn't let them.

So they got together in each other's houses, and they locked the doors, and they talked-so that no one outside would hear them - about what they ought to do. And they decided to sail in a ship to the other side of the world.

strange shores. The woods were all about them and not even the promise of food. Yet they got down

indians. So they set up guards to protect them from their wives and their children and themselves to eat. of them got sick and died. But the others carried on.

And in the spring they planted again. All the time they had to fight off the Indians to protect themselves That year, when the harvest was in, they all got

ogether and knelt on their knees and thanked God for being so good to them. They had their troubles, but at least they had their freedom - and that was why they thanked God. For they felt that nothing was better than freedom - and nothing is. It's been a long time since the Pilgrims first came

here. But every fall we still have Thanksgiving. For

The men went into the woods and cut down trees no matter what happens - whether we have war, or and built homes. Some of them were killed by the sickness, or trouble of any kind - just like the Pffgrims, we can still do what we want to do here in And that's why we have Thanksgiving here in

> America. Nobody anywhere else in the world has Thanksgiving. For nobody anywhere else in the world has quite what we have here in America.

> have Thanksgiving. Because maybe some day, everywhere else in the world, they'll have what we have So let's all of us, right now, not only thank God for what we have, but pray to Him that everybody,

everywhere else in the world, can some day be just as

Freedom is everybody's job

BARK THAT BITES - To test various types of insulating coatings for telephone wires, Bell Laboratories maintain a dense birch forest in New Jersey. Wires strung through the forest show how different materials resist the rubbing action of tree limbs under actual outdoor conditions.

50,000 GRAINS OF COAL - Did you know there was coal in your telephone? Actually, there are about 50,000 grains of it - behind the diaphragm of the mouthpiece. This is enough to cover a surface about the size of a dime. Coal is used in telephones because it can translate the vibrations of your voice into electric waves on wires. These waves can be sent to another telephone, where they are converted back into your "voice."

HANDY HUNTING GROUND - It's easy to locate a doctor, veterinarian, farm equipment dealer, feed and grain supplier or any of the countless other people you need to call at one time or another. They're listed by trade or profession in the Yellow Pages in the back section of your telephone directory. Make a habit of using the Yellow Pages and see how much time and effort it saves you day-in and day-out all year round.
