this rare type of blood and on apply- These record crops were made ing at the blood bank found it was possible by Cuba's outstanding nathis own contribution. His life was ural advantages of climate, soil and topography, and by the skill and initiative of those engaged in The climate of Cuba is tropical, being uniformly warm and frost-

free, so that sugarcane grows throughout the year. Mean monthly temepratures at Havana vary from around 80 degrees in the summer months to 70 degrees in the winter. New Signpost for Health

A microscope trained on the eve Phone 55 method of judging a person's physical condition. This new development is a result of 16 years of re-For Service search and experimentation by eye. By observing the capillaries discovered that red blood cellseach about the size of a capillarydo not flow through the capillaries freely in unhealthy bodies, as they do when the health is good. Instead, they form clumps which cut off nourishment from cells usually supplied by the capillaries. This situation exists in at least 60 diseases, ranging from the common

cold to acute alcoholism and Gardenias' Life Lengthened Gardenias, which develop a yel wish-brown color in a few hours

condition for 24 to 3 hours after being treated. Trea ment with a 10 per cent dispersion of latex cuts evaporation loss b about 50 per tent. The dispersion can be applied by ordinary air-com pressor equipment, by a hand spray or by dipping. It evaporates quick ly and leaves a film less than onethousandth of an inch thick, which is perfectly transparent and posesses a very low, moisture-vapo

> Forerunner of Telegraph During the Napoleonic wars, two Frenchmen, the Chappe brothers, employed a system of semaphores constituting the first telegraph and utilized a chain of towers on the highest hills of France to commu-nicate between cities and between elements of Napoleon's armies. In the daytime, semaphore arms were used, and at night lanterns were nung on these arms. The inventor of this system, one of the Chappe thers, recently was honored b French scientists as one of the significant inventors of all time.

ransmission coefficient.

Sunday Motoring in Holland Gasless cars called "Fietstaxis" have made their debut in Holland If one doesn't mind pedaling, everything is all right. The cars are made of lightweight metal with one con-trol for steering and a set of dou-ble pedals for pedaling. Car can carry two in front with a rumble seat for a third passenger. Wheels are bicycle type. The cars can be rented by the hour or day. It's a break for the Dutch, who are forbidden by law to use their autos on Sunday in order to save gas.

corn and has produced it in vastly greater quantities. He has made it the king of crops, producing about Enforcement Officers Dr. C. T. Pankhurst greater quantities. He has made it the king of crops, producing about 4 billion bushels a year. Corn for cattle, corn for man and we don't know whence it came from.

In New Maries, in caves, crosses, or Michigan and Telephone and Telephone and Telephone and Telephone and Telephone are the companied to the product of the In New Mexico, in caves, grains of Michigan is just off the press.

Our men, trained in Buick ways, will give you brakes that stop you as Buicks should, with new brake linings that are right in size and brake drums turned to perfect round.

They can replace sealed-beam headlights to give you new-bulb brilliance—and while they're at it, check battery, voltage, wiring and headlamp-

wheel alignment for easy steering.

In a word, they'll renew your Buick with the same care and interest they would lavish on their ownand do it at no greater cost than for just ordinary service.

So drop in. Get set for some summer fun that's up to lively Buick standard.

This Spring...it seems everybody's fancy is turning to

the most Beautiful BUY of all

... and the reason is,

this most beautiful buy of all!

to buy, operate and maintain!

Yes, so great is the demand for new Chevrolets this

spring that it seems everybody's fancy is turning to

it gives so much and costs so little to operate and maintain

lamp too far from the chair or so far forward that it is uncomfortably bright for reading. Floor lamps should be placed at the rear corner of a chair at the left. When, selecting floor lamps, choose the larger senior model for massive chairs and the shorter junior model for low modern and small scaled furniture.

To Clean Silver—Always place in hot suds immediately after use. Then dry with a soft cloth. If it does become tarnished, cover with the summer and the work of consour milk for half an hour, then should be placed at the rear corner. To New Bowne Township Unit to the proposed building 25x75 feet is expected to be let early in the summer and the work of construction will follow soon.
