

The first television to be received in Lowell was being shown this week by Clarence Dullaway in his store on Main street. He has erected a 60-foot antenna and has been able on occasion to bring in stations at Milwaukee and Chicago. Good television reception is expected to be obtainable in Lowell in August when a Grand Rapids station is scheduled to begin daily transmission.

When the poet wrote that there is nothing new under the sun, he had never dreamed of television.

At a meeting with the common council Tuesday night, Lawrence Armstrong, village marshal, discussed traffic and parking problems and what methods of enforcement should be taken. The council commended Marshal Armstrong on his tact and diplomacy during his first year as village marshal.

Have you noticed the border of white pond lilies along Showboat lane on Flat river? They are blossoming quite full now and make a nice showing along the river's edge.

Some bright yellow paint was applied to the pavement the first of last week to show plainly the parking spots. No excuse now for parking cars over the lines.

Every community has people who try to get rich quick, who bite on pretty promises for something of unsound value. Every city town and farming district has its citizens who are trying to beat the other fellow's game.

Take the sharper thieves and the sucker gets caught. Fake stocks and fraudulent securities aren't floating about like they used to be, before "wild cat" oil mining and real estate operations were on the most part, put out of business. But it still does happen that "a fool and his money are soon parted," and there is always somebody to play the role as sucker and another to act as sharper.

Perhaps these radio "give away" programs have made us forget that you can't get something for nothing.

Inconsistency is a human failing, in society and in business.

A recent instance presents itself as a lesson on inconsistency in business. Oleomargarine has been a bone of contention for a long time. What to be done about banning of the sale or taxation of colored margarine through Congress and state legislature.

Unlever, Ltd., of London, England, owns Lever Bros. The American soap manufacturing business. It recently bought Jelle Co. of New Jersey, manufacturing oleo. The Jelle Co. most naturally is urging a repeal of laws that tax or ban the sale of colored oleomargarine, on the basis of free enterprise and competition, as well as for the best interests of the public.

This sounds reasonable to most readers. BUT, Lever Bros., a member of the 'family' has succeeded in winning a court decision over a competitor who made red soap. Seems that using red in soap manufacture has been "traditional" with Lever Bros. Lever Bros. acquires a monopoly in the use of red color in soap. Jelle Co., fights to lift the ban against using yellow coloring in oleomargarine.

It is just how the wind happens to blow, isn't it?

Jokes, jests, and jibes just by Jeff: The local fellow who doesn't want to attend the picnic will probably use the case of those 200 people who were poisoned in Kansas, as his excuse. . . They advertise the "year-round suits," but with me it's the "years around suit" . . . When you get to thinking you're pretty good, look at the scare crow in the farmer's field and think again. . . The main trouble with television is you not only have to listen to the commercials, you have to look at them. . . A Lowell lady who had raised a large family says her success is due to the fact that she always made sure they got all that was coming to them, whether it was good or bad.

Dates to Remember
Talent Scout night, Saturday, July 18.
Lowell Showboat, Monday, July 25 through Saturday, July 30.
4-H Club Fair, August 16 through 19.
Lowell Board of Trade Picnic, Thursday, August 25.

TICKETS FOR SHOWBOAT
Showboat officials Tuesday announced 30,000 reserved seat tickets have been placed on sale for the performances July 25-30.

This is the largest total ever offered and is caused by two factors—extension of the Showboat showing to an additional day and erection of additional stands to seat 800 persons which is now under way.

The reserved seats went on sale in Lowell Tuesday and will be available in Grand Rapids next week.

BUILDING PERMITS
S. D. Wingeler, cinder block and frame dwelling, 45 x 43, corner of High and Jackson Streets.
Lowell Showboat, cement block warehouse, 30 x 50, Lafayette Ave.

TAX COLLECTION NOTICE
Summer village taxes became due July 1 and are now payable at the township offices, 211 1/2 W. Main St., Lowell.

Esther M. Fahrni, Village Treasurer.

THE LOWELL LEDGER

ESTABLISHED JUNE, 1893

LOWELL, MICHIGAN, THURSDAY, JULY 7, 1949

NUMBER 10

LEDGER ENTRIES

HAIL AND FAREWELL

Death doesn't take a summer holiday. Summertime is motoring time and motoring means accidents and death. An insurance company warns of the three leading causes of accidents: liquor, bad manners and stupidity. They cause three-fourths of all deaths in motor accidents.

Stupid drivers are the worst. They pass on hills and curves, ignore traffic signs and burn up the roads. Bad mannered drivers come next. They hog the road, drive on the wrong side of the traffic lanes, ignore the other driver's rights. The drunken driver is both stupid and bad mannered and hasn't the faculty of realizing his violations. "I'm not too drunk to drive" is full of error and smacks of sudden death.

There are probably all three kinds of these automobile drivers in Lowell.

WHAT IS SAFETY?

Slashing of Marshall Plan funds, causes those who fear Russia, to use strong words against such a fool-hardy policy. It is to be remembered the Plan was promoted when we had more money in our power to administer apply to the ECAs.

Some say it is necessary to curtail over-seas expenditures to protect economy here at home. We realize it is for the nation's good to fortify, unify and sustain people to prefer liberty to totalitarianism.

Americans appreciate and understand their duty, the need of a program for economic, military and diplomatic help to foreign countries, but they also know that to imperil the economy at its source, is to lose a cause through effect.

THE VALUE OF PAPER

Paper plays an important role in the U. S. We consume millions of tons of paper each year, with newspapers, books, writing paper, building boards, wrapping paper, cartons and many paper products.

We credit the Chinese with having made the first paper, in the Second Century, B. C. Arabs attacking, in 751 A. D. captured some Chinese paper experts and brought paper to Arabia and Persia. Traders then took paper into Greece. The manufacture of paper didn't begin in Europe until the Twelfth Century in Spain. Brown paper was introduced in the 16th Century and was 100 years after blotting paper was in use. The Oriental paper was made from cotton, the European from rags, while today most all commercial papers are made from wood pulp.

Having so much paper as we have wasted it. The war taught us conservation, but soon we forgot. The increase in the price of paper is reason to recognize its worth in the American market.

There is no "power of the press" without the greater power of paper. Pins and glass containers will do very well, but imagine no paper bags! What would you do without cartons, though you may find a substitute for building board? It is impossible to imagine living without paper. Perhaps we should value it more highly in our daily use of it and conserve paper in peace-time as well as in war time.

THE OTHER SIDE

The Columbus, Ohio, Academy of Medicine, asked some folks to tell 350 doctors what was wrong with the medical profession.

First, the medical profession is a "closed shop," they said. They added that physicians' fees are too high, that doctors are unavailable when needed, that doctors are not frank enough in telling patients what ails them.

Many doctors try to keep these four criticisms from affecting their practice. Others should try. Doctors admit there must be some changes made to assure good medical attention to those needing it.

A man says he thinks the cost of hospitalization and specialist's fees is the most important item for a layman's report to the medical profession.

MICHIGAN STATE FAIR PREMIUM BOOKS READY
James D. Friel, general manager Michigan State Fair announced today that this year's premium book will list \$120,000 dollars in agricultural, livestock and home arts prizes.

This is an increase of \$10,000 dollars over last year. It is the largest amount ever offered at a Michigan State Fair. The dates of the Fair are Sept. 2 thru Sept. 11.

The premium books will be delivered by July 15. Friel states that the 10,000 who received the books by mail last year and those who exhibited will automatically receive this year's book by mail. Others should write now for a copy to the Michigan State Fair, Detroit, 3, Mich.

ANNA E. FRIEDLI DIES AT AGE 82
Ann Elizabeth Friedli passed away at her home here Thursday, June 30, after a lingering illness, at the age of 82 years.

Mrs. Friedli was born in Bern, Switzerland, June 1, 1867, and came to this country while young, spending most of her life in this vicinity. She was a member of the Seventh Day Adventist church. Surviving besides her husband, Gottlieb, are a brother, Godfrey Oesch, and four nephews.

Funeral services were held in Roth's Chapel Saturday afternoon, July 2, at two o'clock, the Rev. Robert D. Moon of Grand Rapids officiating, and burial was in Oakwood cemetery.

Interesting Topics At Board of Trade Committee Reports

The Lowell Board of Trade "Good Roads Meeting" held last Wednesday evening at the Methodist church, had a good attendance in spite of the heat. Bruce Walter, chairman of the good roads committee, introduced supervisors of Keene township, Sam Detmers; Vergennes township, Ed Mueller; and Lowell township, Frank Houghton.

Reports were received from committee chairmen, Charles Hill, regarding the summer soft ball program now under way; Frank Freeman, budget committee, who reported a fine response to the budget requests for 1949 and Ed Reynolds of the Better Business Committee who explained the summer trade days scheduled for the end of July and August.

Gerald Rollins brought up the subject of a welcoming committee for newcomers to the village. He also brought to the attention of the board the need for a booklet to show the points of interest in the community and the people of the community.

Good Roads Discussion
Bruce Walter, in introducing the road men present, explained the situation of Lowell with no hard surfaced roads coming in from the north, and the great need for improvement.

Otto Hess, head of the Kent County Road Commission, explained Kent County's lack of funds to do any new work and their inability to do any new construction. Mr. Hess told the members present the best way to get construction started on M-91 is to obtain a maintenance contract from the State Highway Department.

Frank J. Halladay, district engineer of the State Highway Department explained that no construction was planned for M-91 but that there was work being done south from Belding on a maintenance contract with the Ionia County Road Commission which might be the way Lowell could get at least the two miles to the Kent County line paved with black top this year.

Other members of the Kent County Road Commission present included, Emory Johnson, of Alto, Frank Smith and Secretary of the Commission, L. E. Kauffman of Grand Rapids; all of whom expressed their concern over Lowell's lack of good roads coming in from the north. All agreed that as soon as possible the Lincoln Lake road should be blacktopped from M-44 to Lowell.

A motion was passed by the Board that a delegation of citizens should go to Lansing as soon as possible to see the State Highway Commissioner, Charles Zeigler, to try to obtain some action in the near future.

Horse Field Day Set For Wednesday, July 13
July 13 is the date set for the Michigan Horsemen's and 4-H Colt Club Field Day at the Uphorn Farms, Richland. This will be the third anniversary of the event.

Sponsored by the Michigan Horse Breeders' association, the Michigan State College extension service, and the Uphorn Farms, the event draws spectators from a wide area.

The 3,000 acre farm carries a band of 200 acres, including 150 head of saddle bred mares of Quarter Horse and Thoroughbred breeding and 50 Belgian draft horses. About 150 colts have been foaled this spring. All colts are sold each fall at public auction and many go to 4-H Club work.

Harry Moxley, MSC extension animal husbandry specialist and secretary of the horse breeders' association, reports that the entire day will be devoted to educational work for 4-H Club members carrying saddle horse projects.

Notice of Annual School Meeting
The Annual Meeting of School District Number One of the township of Lowell, Kent county, Michigan, for the election of one School District Trustee will be held at the Central School building on Monday, the 11th day of July, 1949, at 8:00 o'clock p.m., to transact such business as may lawfully come before it.

Notice relating to election of Board members will be found posted below. Dated this 22nd day of June, 1949.

Notice of Annual School Election
The Annual Election of School District Number One, Township of Lowell, Kent County, Michigan, for the election of one School District Trustee will be held at the Central School Building on Monday, July 11, 1949, between the hours of 1:00 p.m. and 7:30 p.m. Nominating petitions have been duly filed for

Dated this 22nd day of June, 1949.

Building Permits
S. D. Wingeler, cinder block and frame dwelling, 45 x 43, corner of High and Jackson Streets.
Lowell Showboat, cement block warehouse, 30 x 50, Lafayette Ave.

Tax Collection Notice
Summer village taxes became due July 1 and are now payable at the township offices, 211 1/2 W. Main St., Lowell.

Esther M. Fahrni, Village Treasurer.

Well-Known Lowell Man Takes Post in Midland

Ken Lybolt, formerly associated with the Callier Enterprises, here, has accepted a position with the city of Midland as purchasing agent and deputy city clerk, and assumed his duties July 1.

Lybolt was well known and liked here. He was a member of the Lowell Rotary Club and the Lowell Board of Trade.

Moose Softballers Add Two Victories

The Moose continued their victory rampage when they won two contests over the weekend. The Federal Moguls of Greenville came to Recreation Park Friday night and had to be content with the short end of a 6 to 1 game.

Monday the Triangle A.C. of Grand Rapids came to town to make good their boast that they would give the Moose a thumping in a return contest. The Moose big bats, led by Maloney, played a merry tune behind the steady pitching of Potter and the A. C.'s went back to Grand Rapids with a 7 to 2 against them. This gives the Moose a record of 14 wins out of 15 games played.

This week Fridal, the Vanderveens of Grand Rapids will come to Recreation Park with a long winning streak of their own. Monday night the Grand Rapids K.C.'s will come to Lowell. This game is a re-scheduled contest of a rained out game.

Local fans should mark July 15 as their calendar, as this will be the night when Mullers Baking team, champions of the Grand Rapids first round fast ball league will come to Lowell. July 18th the Catholic War Vets Post No. 1500 will be in town.

Cary's Weekes Sponsors An Interesting Contest

An interesting contest called "Summer in Lowell" is being sponsored by Cary's Weekes. Scenes showing a series of Kodachrome Prints depicting some of the summertime beauty spots and activities in Lowell are on display at the Weekes store.

The contest closes July 23 with valuable prizes going to the winners. Read full particulars in Cary's Weekes adv. on another page of this issue.

Lowell Softball League Standings and Schedule

The following is a list of standings for the Lowell Softball League, ending June 30:

Team	W	L
Rittenger's Ins.	2	0
King Milling Co.	2	0
Alto	1	1
Christian's	1	1
Christman's	1	1
V.F.W.	0	2
Saranac	0	2

Tuesday night, June 28, Runciman defeated Saranac, 7-7; Wednesday night, Alta defeated V.F.W., 4-4; Rittenger defeated Alto, 11-4; Thursday night, King Milling Co. defeated Christiansen, 11-0.

Next Week's Schedule
Tuesday, July 12, Alta vs. Runciman; Wednesday, July 13, Saranac vs. Rittenger; and Alto vs. King Milling Co.; Thursday, July 14, V.F.W. vs. Christiansen.

Emily Post, Motorist Sets Down 12 Rules On Motor Etiquette

As one of the nation's first woman drivers, Emily Post has long been an expert motorist. Now she's set down the rules of good manners in driving.

1. A well-mannered driver will share the road, never usurping the right-of-way from other vehicles or pedestrians.

2. A well-behaved driver uses his horn as a warning device in emergencies, and never as a bad-tempered voice to threaten or scold.

3. An honorable man or woman would no more cheat traffic regulations than cheat at games or in sports.

4. Courteous pedestrians will cross busy streets at intersections, respect traffic lights and avoid darting out from behind parked vehicles.

5. An obliging driver will never fail to dim his lights when meeting other cars in the dark.

6. Well-bred people, whether drivers or passengers, are just as considerate of each other as are hosts and guests in a drawing room.

7. An accommodating driver will park his car so as not to interfere with the use of other parking spaces or the movement of other vehicles.

Highway Commissioner Declares Michigan Pays to Federal Gov't Four Times What She Receives

Michigan is not getting all of the federal aid for state highways it is entitled to receive.

Because Michigan now pays to the federal government about four times more in taxes than it gets back, it is the judgment of Charles M. Ziegler, state highway commissioner, that Michigan is missing a good bet.

"There are about \$11 million of federal funds available since 1948 on which contracts have not been let because we have no state funds to match these federal funds," said Commissioner Ziegler.

"We won't lose this money, but the people will lose one year's use of badly needed highway facilities which these funds would permit.

We also have an additional \$12 million of new federal funds becoming available in July. No contracts can be let against this new money during 1949 because we have no matching money.

"Without additional state funds we will be unable to avail ourselves of all federal aid allocated to Michigan as rapidly as need dictates. If federal aid funds are not matched by state funds and used for highway construction within a limited period, they revert for reallocation to other states which are financially able to match funds."

The problem of state highways has a familiar ring to it. It is the echo of the problem which exists today in every activity of government—local, state and federal. Costs have gone up tremendously during the postwar inflation period.

A dollar of revenue buys only 50 cents in prewar value. Something must give way. Services must be curtailed or taxes must be increased. You can't have better highways without paying more for them.

When Commissioner Ziegler points to the dollar deficiency in explaining why the state highway department is lagging in its progress program, he believes he does so with a good conscience. Ziegler is proud of his record of economy—"getting the most value from the funds at our disposal."

Ziegler maintains that he had weeded out "non-producing employees" to the extent of 478. The annual saving is estimated at \$1 million. This economy is in addition to 650 state employees who were dropped when the state department contacted with county road commissions to maintain state trunk-line routes. Ziegler considers the 475 total as the "net" reduction.

Another economy is claimed by Ziegler in the low cost of building state roads in Michigan—"15 per cent cheaper than the national average and well below neighboring states of Illinois, Indiana, Ohio, Minnesota, Wisconsin and Pennsylvania."

"Four important factors enter into these comparatively low prices," said Ziegler. "First, contractors in Michigan do not buy jobs, but receive contracts based on the low qualified bids. Second, Michigan contractors are exceptionally well-equipped to perform the work required and have highly-qualified personnel. Third, the gamble of lost time from labor disturbances is out of the picture due to the fine relationship existing between the department and the road construction unions."

"Fourth we pay contractors promptly every two weeks as work progresses, less 10 percent reserve, which enables them to meet payrolls promptly and to discount material purchases."

Michigan's state gasoline tax is much lower than the average tax of the other states.

Michigan motorists are paying less than those in other states to finance new roads and maintain old ones.

Such being the case they are "saving" money and are getting "their money's worth"—but at the expense of improved highways. As we pointed out last week, better roads and higher taxes go hand in hand. Which do you prefer?

Native of Vergennes Dies in Philadelphia Interment in Oakwood

Gravestone services were held at Oakwood Cemetery Wednesday, June 29, for John Charles Waters, who passed away very suddenly June 21 at Philadelphia, Pa., at the age of 63 years. The Rev. Norman G. Woon officiated in the burial rites.

Mr. Waters, son of Mrs. Diana Dickson Waters, long-time resident of Vergennes, was born in that township and while his business took him to various states to work and live, he still considered Vergennes as his home. His father was a native of Dublin, Ireland.

He is survived by his wife, Ann, of Ingleswood, Calif., and two sons, Tom Waters of Kansas City, Kan., and John C. of Ingleswood, Calif.

Build Food Storage To Prevent Spoilage Says Olivia C. Meyer

Those canned foods you have worked so hard to prepare deserve good storage space to prevent spoilage.

Good storage space, according to Olivia C. Meyer, extension home management specialist at Michigan State College, is cool, dry and dark. Insulation and ventilation will help keep the storage cool in hot weather and protect against freezing in cold weather.

Ventilation helps to cool the storage and ventilators should be located at the bottom and top of the food storage. Shutters make it possible to open or close the ventilators as needed.

Food storage may be either a cabinet or storage room. Cabinet type storage is often best suited for the kitchen.

Cabinets should have inside depth of 12 inches and two rows of jars can be placed on each shelf. Storage rooms usually are best for basement use. Plan the amount of shelf space needed and allow one foot of 12-inch shelf space for each five cans of any size; 20 feet of shelf space for 100 cans.

Top shelves should not be more than 72 inches above the floor. If shelves are more than three or four feet long they should be supported at 32-inch intervals. Place canned meats on the lower shelves, vegetables next, and fruits near the top.

Some 3,000 picnickers and campers failed to stop a ruffed grouse from leading her brood of 12 chicks out of the woods and into the picnic area at nearby Sleeper state park near the tip of the Thumb on Lake Huron. Following 10 minutes of unconcerned wandering about the picnic table she chased the chicks back over the highway and into the woods again.

King Milling Company Gets First New Wheat

The King Milling Company reports that the first load of new wheat was brought in this week. It was white wheat with a 58 pound test and a moisture content of 13.5 and was combined on July 5.

The wheat was grown by Roy Thompson of Boston-twp., Ionia County, on light ground and averages twenty bushels to the acre.

New Parade Feature For '49 Ionia Fair

The Ionia Free Fair is investing upwards of \$1,500 in a first hand investigation of the old saying that "everyone loves a parade."

This is what it will pay in prizes and favors for a parade that will be a brand new feature this year and will raise the curtain on Monday, Aug. 8, for its annual week.

The parade, starting at 10:30 that day, will wind its way through the uptown business section, onto the midway at the fair grounds and to the Floral Exhibition Building at the further end.

The day is the traditional "Children's Day" at the big exhibit and in line with this all youngsters 6 to 16 years of age from anywhere in three of the parade divisions will be paid for doing so if they are good enough to qualify for a series of prizes offered.

Three Divisions
One of the three divisions for youngsters—there are two others also open to adults—will be for those appearing in Clown Costumes. Prizes of \$15, \$10, \$5, \$3, and \$2 will be given to those awarded first to fifth places. Five other awards of a dollar each will then go to the next five.

The same list of prizes will be given to the youngsters appearing in Animal Costumes and adjudged the best ten.

Another series of 10 one dollar prizes will go to boys or girls appearing and riding the best decorated bicycles.

All taking part in the three youngster divisions, whether adjudged prize winners or not, will get special favors.

Two other divisions in which anyone regardless of age may appear will be one for floats and another for antique automobiles. The prizes for first to fifth place in the former will be \$50, \$35, \$20, \$10 and \$5. The awards for the antique cars will be \$25, \$15, \$10, \$5 and \$5. This will be for those than can run the entire parade route. Any falling victim to their ancient wheezes and rattling and dropping out will collect only sympathy and "also-ran" listing from the judges.

High School Bands
Five high school bands, those at St. Johns, Lake Odessa, Fremont, Ewart and Ionia, have already been secured to furnish music for the parades.

Baird Bros. To Exhibit New Home for Two Days
Baird Brothers announce the opening next Saturday and Sunday of one of their new F.H.A.-approved homes located at the corner of N. Hudson and Hunt Streets.

The house has two bedrooms, living room, bath, kitchen, full basement and space for an extra room.

The house has been completely furnished by Roth & Sons Co.

Farm Bureau Picnic Saturday, July 9th

Don't forget the Kent County Farm Bureau picnic to be held at Fallsburg Park, near Lowell on Saturday, July 9th. After the picnic at noon, Russell Mawby will tell of some of his experiences while visiting many farms in Europe last summer.

Ben Hennick, Director of Michigan Junior Farm Bureau will also be present. Free ice cream will be served and there will be games for everyone.

Dedicate Haven Hill To Conserve State's Natural Resources

Top educators of Michigan will be briefed on new ideas in conservation teaching at a meeting next week.

Haven Hill, former Edsel Ford estate east of Highland, will be formally dedicated as an educational center when state officials and educators gather July 7 and 8.

The 4,600-acre property is to serve as a demonstration area where school heads will be shown how pupils can be made into better citizens by learning at first-hand how their future welfare depends on the conserving of the state's remaining natural resources.

Attention High School Band members. Mr. Jessup will have a practice Monday, July 11, at 7:30 p.m. at the high school gymnasium. This is for Amateur Night and the Showboat. Be sure to be at practice.

Band Practice
Attention High School Band members. Mr. Jessup will have a practice Monday, July 11, at 7:30 p.m. at the high school gymnasium. This is for Amateur Night and the Showboat. Be sure to be at practice.

Baseball at Fallsburg
There will be a ballgame at Fallsburg Park Sunday at 2:30. Constants not known at this time.

Our want ads bring results.

Our Farm Families Will Meet at MSC Wednesday, July 27

Several thousand people are expected to attend Statewide Farm Family Progress Day to be held on Wednesday, July 27, by the Farmers' Home Demonstration at Michigan State College in East Lansing. Those invited as guests of the college include agricultural leaders, FFA families, and their friends.

The object of the forthcoming State event, is to encourage better farming and better living among FFA cooperating families and to recognize those who have made exceptional progress. Three to six families have been selected in each County by USDA County Council members as having made the most outstanding advancement in farm family, and community living—since becoming associated with the Farmers Home Administration, of its predecessor agency, the Farm Security Administration.

Local Progress Day winners totaling about 251, include families "starting from scratch" and those starting somewhat higher on the agricultural ladder. All will receive recognition at the State meeting with individual certificates of achievement being awarded them in a special ceremony.

YOUR WASHINGTON REVIEW

The story comes to me of a Russian "humour" magazine called "Credulity." A typical joke concerns a woman talking to a Soviet clerk. She says: "I like the material, but I don't like the design." The clerk replies: "Madam, don't worry, after the first washing the design will disappear."

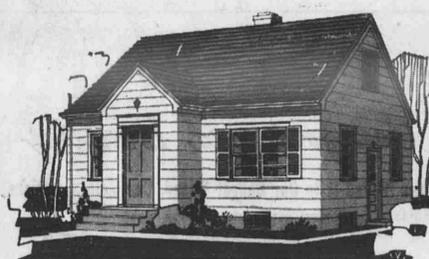

Change MSU Experiment Station Directors

Following the lead of the Senate, members of the House were signing House Joint Resolution 286 last week. It called upon the President to reduce spending this year at least 5%. It's perfectly true there's a lot of book-passing when people like Judith Coplon get selected for a government, certainly not responsible for making economies.

Retiring director of the Michigan Agricultural Experiment Station, V. R. Gardner (right) talks over an article in the current Quarterly Bulletin, station agricultural publications with Dr. C. M. Hardin who succeeds him as director. A member since 1922, Director Gardner became head of the department of horticulture and was named director of the experiment station in 1929. He is a member of numerous scientific societies and author of several bulletins and three books. Dr. Hardin who has served as assistant director since 1946 became director July 1. He joined the college staff in 1924.

Open for Inspection

Saturday and Sunday, July 9-10
Daily from 10 a. m. till 9 p. m.

in Washington. If the public is impatient enough, however, the government will cut down.

Support for removal of war excise taxes is on the increase. Joe Martin's HR 2100, which would abolish these levies on tickets, telegraph and telephone messages, luggage, handbags and what-aver, has been bottled up by the Administration-dominated Ways and Means Committee. But a petition to "discharge" the bill is underway. I signed it a few days ago—the 33rd member of the House to ask that it be brought to a vote. It will require 218 signatures to call the bill out. I feel confident the question will be approved by the House in this session. It certainly should. I see no reason for discrimination against these industries which are just as much a part of our normal economy as any other.

One of Mrs. Ford's friends recently made what I thought was a reasonable suggestion on the much-debated question as to whether the White House should be razed or remodelled at an expense running into millions. Her friend suggested that a logical answer was to keep one White House as a memorial to all the will disappear.

Change MSU Experiment Station Directors

This was a quiet week in Washington—the first week since I've been here without a single visitor from home! I hope this isn't going to become the usual thing during the summer, and yet I don't think I blame anyone. If you're coming to the Capital, bring your portable air-conditioner. I wish I had one!

Piping Light. Physicians have long used quartz rods for "piping" light down a patient's throat and to inaccessible places of the body. More recently plastics have been used of a peculiar plastic is being made which is so flexible that it can be tied into a knot, yet will conduct a beam of light through the hose and carry it around even the sharpest corners. The light suffers no loss of intensity as it does when silica or other materials are used. This plastic has such a high index of refraction that the light which attempts to go out through the plastic hose, is refracted back so that practically all the light that goes into one end of the hose comes out the other.

Occupation is one great source of enjoyment. No man, properly occupied is ever miserable. L. E. London.

Proceedings of Common Council (Official)

A regular meeting of the Common Council of the Village of Lowell was held in the City Hall, Monday evening, June 20, 1949.

The meeting was called to order by the Village President, E. W. Rutherford at 8:00 p. m. Trustees Present: Mulder, Elzinga, Eisinga, and Nays. Trustees Absent: Foreman.

The minutes of the last regular meeting of June 6, 1949 were read and approved.

Trustee Foreman now present. The President called on S. D. Wiegler, a representative of the Board Inc. who asked the Council for some assistance on the work to be done for Show Boat. After a short discussion it was agreed to give what assistance might be necessary under the same arrangements as were made last year.

Odds and Ends Here and There

Construction of a one span, steel deck, girder type bridge over the Coldwater river southeast of Freepark, was under way. This will furnish the old truss type bridge.

Geo. F. French 113-year-old, a senior citizen completed a bicycle trip from coast to coast, a distance of 3,048 miles. In less than two months he traveled the Pacific coast at Santa Monica, Calif., from the Atlantic coast at New Jersey in thirty days.

Eight of the twelve districts in Michigan had no fires to report last week, and throughout the state there were but six fires burning over an area of less than 30 acres. This is probably the best forest fire record of the year.

A net has been stretched across the river under the highway bridge and snow fences have been placed on each side of the river to prevent the migration of birds from migrating into Lake Michigan.

May state park visitors who have been pestered with a large number of mosquitoes and biting insects, sprays will be used in picnic areas to try to control these pests.

Farmer cooperators who have been making a count of pheasants here made an estimate to the Conservation Department that the number is practically the same as last year.

Migratory farm workers from the near-Mexico border area, mostly U. S. citizens with a better understanding of Spanish than English, will be coached in Michigan Conservation laws through posters which have game and fish licensing regulations both in Spanish and English, and which are being distributed in sugar beet farming areas, between Division and Grand Streets, was read, requesting the extension of the Water Main in that block. It was moved by Trustee Roth, supported by Trustee Mulder that the Petition be accepted and placed on file for further action. Yeas 5, Nays 0, Carried.

A letter was read from the Board of Education requesting the Pledge by the Village Council to the Building and Site Fund be paid. There was some discussion and the Clerk was instructed to check the files and report at the next meeting the standing of the Village Council as to the original agreement.

A letter was read from Sterling I. Moore requesting permission from the Village Council to build a stairway from the sidewalk to the basement in front of the store located at 313 E. Main St. This was referred to the Building Committee for action, and the Clerk was instructed to write Mr. Moore for more detailed information.

It was moved by Trustee Mulder supported by Trustee Christiana to transfer \$67.08 from the Water Works Bond Account to the General Fund for the purpose of paying the freight bill on pipe received. Roll Call: Foreman yes, Mulder yes, Elzinga yes, Nays 0, Carried.

It was moved by Trustee Roth supported by Trustee Mulder that bills in the following amounts be paid:

Odds and Ends Here and There

Construction of a one span, steel deck, girder type bridge over the Coldwater river southeast of Freepark, was under way. This will furnish the old truss type bridge.

Emdold Mrs. Ira Sargent

The electric storm of Wednesday afternoon struck the barn on the Jay Leese farm. While some damage was done, it was so minor that it did not set fire. School meetings will be held at the various schoolhouses on Monday evening, July 11. This is a meeting which should be of special interest to all tax payers and should attend.

Mrs. Elmer Miller entertained a group of ladies last Wednesday afternoon at which time a paper demonstration was given.

Investing in U. S. Savings Bonds Your Safest Investment

As potential volunteers go about the community today selling U. S. Savings Bonds in the "Opportunity Drive," they carry an excellent card for every prospective purchaser. This card asks you to buy your Bonds—Single Purchase, Bonds-Month, or Payroll Savings. Not a word about "Will you buy Bonds." Just how do you want to buy them?

This technique is undoubtedly good salesmanship. But it is something more. It is a method of contact and telling forth that today bond-buying has moved out of the "pushy" and "salesman" class, and is moving up, fast and firmly, into the "inevitable, automatic" class.

Investing in U. S. Savings Bonds Your Safest Investment

As potential volunteers go about the community today selling U. S. Savings Bonds in the "Opportunity Drive," they carry an excellent card for every prospective purchaser. This card asks you to buy your Bonds—Single Purchase, Bonds-Month, or Payroll Savings. Not a word about "Will you buy Bonds." Just how do you want to buy them?

This technique is undoubtedly good salesmanship. But it is something more. It is a method of contact and telling forth that today bond-buying has moved out of the "pushy" and "salesman" class, and is moving up, fast and firmly, into the "inevitable, automatic" class.

The volunteer salesman in the "Opportunity Drive" does not have to "sell" the Bonds on the value and validity of the U. S. Savings Bonds.

The War Bond, and its sturdy descendant, the Savings Bond, have sold themselves, psychologically as well as financially. These Savings Bonds have grown up. Those issued in 1938 are maturing and their four to three dollars returns are being used to make a dream a reality, or in many cases, a new investment in more of the same kind.

These Bonds have also demonstrated their loyalty. In many instances they have been redeemed, immediately, legally, privately; but NOT to the extent that ignorance or malicious rumor has reported. The redemption rate has been falling since the middle of 1946 averaging 9/10ths of 1% a month of the amount outstanding during the past year, and any banker knows how favorably that compares with the war bond rate on either savings, or their securities. They have led a full and righteous "double-life"—to their owners and to their owners.

Remember when we used to take Purdy Cylinder Gases and now we take Tor's Friendly Serv. Remember when we used to take 1.20 a mile walks and now we take 49.15 ways headed some place and in a hurry to get there?

The state of Texas is the greatest cotton growing state, ranks second in peanuts and third in citrus fruits. The state ranks first in petroleum production. It also ranks first in beef cattle, sheep, mules and wool production. It produces large quantities and varieties of vegetables; its fruit production is large. It also produces large quantities of natural gas, coal and sulphur.

The U. S. harvestable surplus of deer for 1947 was estimated at 1,200,000 of which 28 percent or \$4,000 deer were taken.

Kent Ag. Topics

Notes from Kent County Extension Office by Richard Washiele

We can highly recommend the trip to Malabar Farms. The personal tour with Louis Bromfield will set anyone thinking. Mr. Charles Roberts said to see this certainly makes Bromfield's writing live again. All 31 people I know enjoyed this trip. Elton Smith of Caledonia couldn't go because of a conflict with the State Guernsey Sale. He is interested in getting together another group for a trip down.

Farm account book checking time is here again. For those not familiar with it, this service has been free for a number of years. Those using the Michigan State farm account book may have the books checked by the Extension folks twice each year. The books are analyzed at the end of the year. We'll be checking books the latter part of August at Clare Horton's, Forest Squires', Russel Gray's, Jim Williams' and Sons, Norman Johnson's and Arthur Johnson's. These are all first year cooperators. You might be interested. We'll be glad to put you down for this service.

We certainly are glad to see a local office of the inspection service of the Michigan Department of Agriculture located in Grand Rapids. This service is for inspection of strawberries, raspberries, nursery stock, etc. for those desiring to sell planting stock. You can direct your requests through our office or directly to M. E. Legerquist, 2336 Fuller Avenue, N. E. Grand Rapids, Michigan.

June Wisman of Lowell, R. 3, is certainly a lucky 4-H'er. She had a dairy project in 4-H last year with a fair grade animal. During this past year her father passed away suddenly and June's hopes of another 4-H project were very slim. Due to interest of Mr. and Mrs. Alvin Wells in this youngster of a purebred Guernsey calf is now June's property. Mr. C. H. Runciman of Lowell came through for June and purchased this fine calf for June from the Woodworth herd in Plainfield township. Congratulations, June! We'll see you at the Lowell Fair with your calf. Thanks to Mr. C. H. Runciman and Mr. and Mrs. Wells for your interest in this 4-H'er.

WEDDING BELLS

Andrews-Richards

Mr. and Mrs. Clyde Richards of Lowell announce the marriage of their youngest daughter, Marian M. to George E. Andrews, son of Mr. and Mrs. James Andrews of Decatur, Ind., on July 2 at 2:00 p. m.

The single ring ceremony was performed by the Rev. Philip Glatfely at the Methodist Parsonage. They were attended by Mr. and Mrs. John Richards, brother and sister-in-law of the bride.

A reception was held at the home of the bride's parents from 3 to 6 p. m., after which the couple left for a short trip. They returned to Decatur, Ind., where the groom is employed by the Citizen's Telephone Co.

Fahrni-Bouwens

Miss Jean Bouwens, daughter of Mr. and Mrs. Cornelius Bouwens of Alto, became the bride of Chris Fahrni, Jr., son of Chris Fahrni, Sr., of Clarksville, in a double ring ceremony at the home of Rev. James Ballant, Saturday, June 25 at 8:30 p. m.

The bride wore a royal blue suit, and a corsage of white roses. Her veil was held in place with a tiara of white flowers.

Miss Verne Bouwens, sister of the bride, was her attendant. She wore a gray suit, and a corsage of red roses and a tiara of red roses.

Wayne Fahrni, the groom's brother, was best man.

The couple spent a few days on a short northern trip and are now making their home on a farm west of Clarksville.

SOCIAL EVENTS

Cheese Club

Mrs. M. E. McPherson entertained members of the Cheese Club at her home Wednesday at a one o'clock luncheon. Those present were Mrs. Arthur Shank and Mrs. George Graves of Grand Rapids, Mrs. Carlton H. Runciman, Mrs. Norton Henry and Mrs. R. G. Jefferies.

Book Ten Club

The Book Ten Club held a picnic at the home of Mr. and Mrs. Gordon Johnson on Wednesday evening, June 29, for their families and in honor of a former member, Mrs. Royden Warner of Tucson, Arizona. Miss Marian Bushnell was also a guest. The regular Book Club meeting was held on July 6 at the home of Mrs. Charles White. Mrs. Howard Krum reviewed "The Young Mrs. Savage", by D. E. Stevenson.

Social Brevities

Mr. and Mrs. Lyle Waterson and Mr. and Mrs. Herbert Davis were Saturday evening guests of Mr. and Mrs. Henry VanTatenhove, the occasion being Henry's birthday.

The Frank and Bruce McMahon families held a McMahon-Lalley picnic at their homes on Reservoir Hill Sunday. Guests from out of town were Mrs. Peter Ronan and Art McMahon of Grand Rapids.

BIRTHS

To Mr. and Mrs. Donald Benchum (nee Flora Jean Mulder) Friday, July 1, at Blodgett hospital, a 6 3-4 lb. girl, Patricia Lynn.

Should Go Fishing And Come Back Alive

Rally 'round all you would-be Bass Waltons! Drop your lines, baits, weights and bobbers in your tackle box and listen.

You SHOULD go fishing. Pan fishing is good for a man. We have no less authority than the Michigan Department of Health.

The Department, right on the eve of the bass and pan fish season, came out with a half dozen good solid reasons for going fishing.

A man needs a hobby, pleasure, and escape from routine. He needs relaxation and out-of-door exercise. The fish he catches are good for him, too, the Department said. Fishing, with its enthusiasm, anticipation, fresh air, sunshine, exercise, relaxation and good companionship, helps a man live happily and work well.

As usual, the Health Department tacked on a few precautions, but they may "bring US back alive."

Check your boat to be sure it doesn't leak and that its motor is in safe working order; then don't overload it, stand up in it, or lean way out of it. Don't smoke while filling your motor or near anybody's leaky motor. If you can't swim, take along that old inner tube. Get for shore if a storm comes up.

Wear a hat, long sleeves and long trousers. They protect you from sunburn, sunstroke, and mosquitoes. Maybe you'd better take along a bottle of insect repellent, too, and have a first aid kit in your car just in case somebody snags you with a casting plug or your hands get blistered.

Don't drink lake water—it's got "bugs" in it. Carry your own cool, safe supply. If you're bound to drink something stronger, drink it with your fish dinner and not while traveling to the lake or on the lake.

Rowing and hauling in those big ones takes a strong heart. Don't overdo and don't get overexcited. Take your time coming, going and fishing.

It is better to lose time, fish and tackle than to lose your life, the Department reminded.

X-RAYS AND SURGERY HELP IN LIP CANCER

Good results in treating early cancer of the lip have been obtained with high voltage x-rays and surgery at the University of Michigan Hospital.

Approximately 95 percent of the people treated for this ailment at University Hospital show no recurrence of the disease and are considered cured. Dr. Robert L. Berry, instructor in surgery at the University's Medical School, reported.

"Cancer means that cells anywhere in the body begin to grow at a faster rate than normal," Dr. Berry explained. "These cells lose their place in the community of body cells and grow without order or reason. Just why this happens we don't know yet, but present day research may bring the answer."

Because cancer of the lip is in a place where it can easily be seen, it can be destroyed in its early stages, the doctor declared. When cancer of the lip is neglected it spreads to the neck and chest and causes the patient's death.

Flying Saucer Was Photographed When Sighted Over Detroit

A flying saucer was photographed over Detroit Saturday headed for Willow Run Airport at a speed estimated by observers at between 5 MPH to 15 MPH.

The flying saucer proved to be a development of the Aero Club of Michigan announcing the Second Willow Run Airport, scheduled for August 6 and 7.

Along with the flying saucer, which is launched by throwing out of an airplane, will be the world's largest biggest and fastest airplane exhibit during the two-day event.

The flying saucer is an enlarged replica of an ordinary saucer. It is approximately three feet in diameter. One of the most unusual features of the saucer is the detachable wings which can be placed in various positions and crisscrossing speeds. Speeds can be varied, depending upon the position of the wings and the wind velocity.

The saucer will be exhibited at Willow Run both August 6 and 7 during the show.

Have respect for your friends, relatives and enemies. A blend of what they say behind your back forms your reputation.

We expect a lot of farm women have been holding the dates July 12-13-14 for Farm Women's Camp at Bostwick Lake. Plans are well under way for a good program that will include some very worthwhile things and a whole lot of fun. For those who can't come for all three days, we are holding a special program on the last day and inviting in all county women. We expect to be able to use the new 4-H building for dining and recreation purposes. The Bostwick Ladies Aid will have charge of meals. For further information, write or call me (Eleanor Denmore, Court House, Grand Rapids, GI 66544, Extension 81 or 82.) Important—For those who wish to come for the last day only, will you please call or drop a card so our office, so that we may know how many to plan on for lunch.

COMING EVENTS

The Showboat Garden Club will meet Monday evening, July 11, at 7:00 o'clock, at the home of Mrs. John Bergin. Mrs. Gould Rivette is in charge of the program. Bring a flower arrangement for roll call.

The Vergennes Co-operative Club will hold their annual potluck dinner at Fallsburg Park Sunday, July 10, at 1:00 o'clock. Bring your own service and a dish to pass. Ice cream and drink furnished by the club.

Lowell Hi school class of '36 will hold their annual picnic Sunday, July 10 at 12:30 p. m., at Fallsburg park near the river. Bring own service, sandwiches and dish to pass. Drink and ice cream will be furnished.

The July meeting of the Priscilla Group of the Methodist church will be held Sunday, July 10, at the summer cottage of Rev. and Mrs. Phillip Glatfely. This meeting is open to all members, their husbands, and friends. Bring along own service, sandwiches and a dish to pass. Ice cream and cold drinks will be furnished. Cars will leave from the church at 1:00 p. m. For further information call Marge Potter, 226-F4 or JoAnn Roth 148.

OBITUARY

A. Jay Barton
Funeral services were held Friday, July 1, at the Roth Chapel in Lowell, for A. Jay Barton, age 73, who passed away in Battle Creek Wednesday, June 29.

He is survived by one son, M. L. Barton of Lowell; one daughter, Mrs. Lyle Cooper of Grand Rapids; one brother, William Barton in Florida, and six grandchildren. Interment was in Woodlawn cemetery, Leslie, Michigan.

CARD OF APPRECIATION

The employees of the Michigan Reformatory hereby express their grateful appreciation to all Lowell merchants and others who contributed so generously toward the success of their annual picnic on June 18.

CARD OF THANKS

We wish to express our appreciation to all neighbors and friends for the many kindnesses shown us during our recent bereavement. Godfried Friedl and Family Mr. and Mrs. Godfrey Oesch and Family

CARD OF THANKS

With deepest gratitude we extend this word of thanks for the many kind acts of sympathy expressed by thoughtful friends. These kindnesses have meant much to us. p13 Mrs. Ann C. Waters and Sons.

CARD OF THANKS

With deepest gratitude we extend this word of thanks for the many kind acts of sympathy, expressed by Rev. Glatfely and thoughtful relatives and friends. These kindnesses have meant much to us. Mr. and Mrs. Maynard Barton and Family.

CARD OF THANKS

I wish to thank my many thoughtful friends for their cards, flowers and other kindnesses shown me during my recent illness. p-10 Mrs. Alice Morse

Jack cheese, sometimes known as Monterey cheese, originated in Monterey county, California, in about 1892.
