**THE STARS**  
BY LYN CONNELLEY

MARIE WILSON, whom millions of radio and movie fans know as the delightful "My Friend Irma" of CBS has worked up dozens of little routines and stage bits that she can do by herself or with people... but she really floored the audience at the other night... When she was introduced she took her bow, looked in the palm of her hand at a tiny slip of paper and then she recited, from start to finish, the Declaration of Independence... That's Irma... whoops, Marie... for you, there's no money in television... Jack Carson, appearing in a benefit at Oakland, Cal., raised \$25,000 for the Elks charity fund... Despite seeming inactivity, there is great behind the scenes commotion between CBS and Lum and Abner about the latter's future in television... It now looks as though the rural comedies will be first of Hollywood's major radio contingents to break over the traces and go television in a big way.

**COME QUICK SHERIFF, WE'VE CORNERED JESSE JAMES...**  
The man known as Frank Dillen who now claims to be James James (right), notorious Missouri outlaw of former decade, recently passed his 182nd birthday at the Hotel Henry Hudson in New York City. He said the man who was killed who was thought to be James was Charlie Hickey.

**Bob "Spangling Casady" Boyd** and NBC have signed a television deal which gives a million dollars change hands from NBC's coffers into Boyd's pockets... Who says there's no money in television... Jack Carson, appearing in a benefit at Oakland, Cal., raised \$25,000 for the Elks charity fund... Despite seeming inactivity, there is great behind the scenes commotion between CBS and Lum and Abner about the latter's future in television... It now looks as though the rural comedies will be first of Hollywood's major radio contingents to break over the traces and go television in a big way.

**Foot Ferguson was an expert** with Capitol Records, who "tried him out" on two novelty numbers, "Fudge Bunnies" and "Just Go Home at Christmas," in Swedish dialect... Yeg, who in real life is Harry Stewart, director of the "Lambert" series, went over with the bang of a giant firecracker... His efforts have exceeded nine-quarters of a million sales... On the strength of those two he has been signed for four more albums in January.

**When Tracy Hanks made "Bye Bye Baby,"** his latest record, he ad libbed some comments on the end... He thought they would be fun... He was surprised when they turned up on the finished record... And he turned out well, too!

**TEMPERATURE: USHERWOOD BEHAVIOR**—Soldier searching parties made hectic trips into the Yukon wilderness in seeking the U.S. Air Force C-54 plane which disappeared with 44 persons aboard in a flight from Anchorage, Alaska, to Great Falls, Montana, Wednesday and job searchers have been critically important instruments used by the searchers in the Arctic terrain. American and Canadian soldiers and airmen engaged in the search were assembled at Whitehorse for "Exercise Snowbirds," United States-Canada joint bomber-troop-training maneuver for Alaskan defense.

**FRAGILE CHIFFON**, lace and other such fabrics when made into collars and cuffs are easily washed if they are placed on a Turkish towel and scrubbed gently with a soft brush. Rinse in the same fashion and spread on a towel to dry.

**When pressing an article which requires steam**, do it in turn. The sequins all in one direction and place garment side down on the board. Press with a soft cloth and cover with tissue paper. Press with a warm iron.

**Sweaters can be dried quickly and blocked** if they are laid on a bath towel, then covered with a similar towel. Roll the moisture out with the towel. Towels will keep their fresh air.

**Roll crackers to crumbs**, removing 1/2 cup. Mix remaining crumbs with marshmallows, nuts and dates. Add cream slowly until mixture is moist enough to hold together. Shape into a roll about 1/2 inches in diameter and roll in reserved crumbs. Wrap in waxed paper and let stand in a cold place for at least 12 hours. Cut in 1/2 inch slices and serve with whipped cream.

**When the body's blood passages become clogged**, the new operation performed in the thigh, channels the blood from a blocked artery to a vein that has not been blocked.

**The newly developed method** has in some instances saved legs from amputation; in others, has reduced the extent of amputation. The doctors, while pointing out that "not all the veins have been removed from the technique," expressed increasing confidence in it.

**The operation, spread over a period of a year**, has been performed in a hospital by Dr. Charles G. Johnston, chairman of the surgery department in the College of Medicine, and Dr. Prescott Jordan, of the surgery staff.

**Many spots on garments can be removed** by rubbing gently on the spot with the same material as the spot is on. This is especially effective if done when the stain is fresh.

## Doctors At Wayne U. Reverse Blood Stream and Avoid Leg Amputations

**By using an unbroken vein to channel blood into fresh** that has been detailed in normal blood supply because of injury to an artery, doctors have saved legs that might otherwise have been amputated.

**Twenty-two patients** suffering from gangrene of the leg have been aided through a new surgical operation evolved by Wayne University doctors in Detroit.

An excellent new use of magnesium is in the production of straight extension, and step ladders. They are safer, are stronger, pound for pound than steel; last longer under weather, rust or burn; are sturdier—there is less give and sway under heavy loads; and, best of all, are so light they can easily be handled by a woman. A 24-foot extension ladder weighs only 30 pounds, as compared with 60 pounds that a wooden ladder of the same length weighs.

I hereby certify that I have made an audit of the books and records of the Village of Lowell, Michigan, for the year ended January 31, 1950, and in my opinion the above Balance Sheet, prepared from said audit, fairly presents in accordance with accepted principles of accounting, the financial position of the Village of Lowell, Michigan, as of January 31, 1950. I further certify, that in my opinion the attached statements fairly present the divisional operations for the year ended on that date.

ADRIAN KUTPER,  
Certified Public Accountant.

### CARD OF APPRECIATION

I wish to extend my sincere thanks to my many friends and neighbors for their many expressions of kindness and for the flowers and cards sent me during my stay in the hospital and since my return home.

Mrs. Elsie Feuerstein

### CARD OF THANKS

We wish to thank the neighbors and friends for lovely flowers and sympathy shown at the time of the death of our father, Charles B. Francisco, and especially Rev. H. S. Ellis for his comforting words. Glen Francisco and Family, James Francisco and Family, Mrs. Clyde Francisco and Family, Mrs. W. D. Dawdy and Family.

### Ionia Pomona Grange

Ionia County Pomona Grange will meet with Danby Grange on Saturday, March 18. There will be a business meeting at 11 o'clock, followed by dinner at 12:00. Visiting Grangers bring own service and dessert.

Geiger counters can be used to analyze steel. To do this, x-rays are passed into a piece of steel with a flat surface. The various materials in the steel send off invisible "fluorescent" rays that can be recognized by their period as measured by a Geiger counter. Unlike chemical analysis, the steel is unchanged and unharmed. The laboratory instrument plots the amount of each element on graph paper automatically. It is said to be easier to use than any other analysis available—and just as accurate.

### Kent Ag. Topics

Notes from Kent County Extension Office by Richard Machiele

Did you have difficulty last summer telling when your grain was dry enough to combine? Is your grain keeping in storage? The elevator managers in Kent County tell us that a lot of wheat has been brought in that was combined too wet and as a result the quality is poor.

A series of meetings to discuss this and other storage problems are scheduled for March 22 and 23. March 22—10:00 a. m., Lowell high school.

March 23—1:30 p. m., Caledonia high school.

March 23—10:00 a. m., Kent City town hall.

March 23—1:30 p. m., Rockford American Legion hall.

Ray James, Extension specialist in entomology, will talk on insects in stored grain and their control.

Leyton Nelson will discuss forage crops and some of the problems of seed production. Leyton will also list recommended oat and bean varieties.

In addition moisture testing at harvest time will be explained, and demonstrated. This should be a very good forage and field crop meeting.

We will hold another discussion leaders' meeting on March 17, 1:30 p. m. at Grand Rapids town hall. The topic for this month is "Are There Too Many Farmers?"

If you are unable to attend and cannot send someone in your place, you can get copies of the discussion from the Extension Office. Stop in or write us for number you want.

Attended the annual meeting of the Independent Milk Producers this past week. At the business meeting, it was stated that this organization had experienced a good growth during the past year.

It certainly would be nice if one organization could represent the farmers instead of two as we have at the present time. One group could certainly present a much more united front.

Met with the Angus breeders in the surrounding counties and helped organize the West Michigan Angus Breeders' Association. The group certainly was enthusiastic about their organization. Officers elected were: President, Arthur Nielson, Rockford; vice president, William Letson, Lake Odessa; secretary and treasurer, Enoch Carlson, Alto; Directors: Roland Depew, Alto; Louis Haffelbower, Clarksville; Clarence Klahn, Lowell; Orville Behrenswald, Lakeview; Philip Wing, Sheridan; Gene Rising, Woodland; Alfred Slater, Byron Center.

Their mailing list is very incomplete at the present time so if you are interested in Angus cattle and would like to become a member, contact one of the directors or the secretary.

4-H poultry club members have chosen May 1 as the date for starting their "Chickens-of-Tomorrow" projects. The growing period this year will be 15 weeks. New members that want to enroll in this project should contact the County Extension Office.

District 4-H Achievement Days have been arranged. Southwest District will hold their Achievement Day at Byron Center high school on March 27. The West Central group will have their doings at the Oakleigh school March 28. 4-H members from the North West District will exhibit at Sparta high school March 30. The North East District have their Achievement Day planned for March 29 at Camp Vining, Bostwick Lake. Lowell high school is the exhibit hall for the 4-H club people in the South East District. We urge all parents and your friends to see the good work of the youth in your neighborhood. Plan now to attend their achievement programs.

### UPTOWNERS LEAGUE Results March 9, 1950

As a result of being beaten last week and absorbing another licking this week 3-1 by King's, the Vets find their first place throne getting a little shaky. For the losers Quigley hit a 194-522 and for the winners Stroupe led with a big 203-200-571 while Keech hit an even 200.

Second place Ace Pating made their position more secure by defeating Alto two games to one for three points. For the winners E. Blakeslee had high game of 205.

Third place Tut & Dots kept winning by defeating Highland Dairy 3-1. For the losers B. Cahoon hit a 199-530.

Roths made it a clean sweep 4-0 over Rumlomans, making them relinquish their new gained position of 4th spot and dropping them to sixth place.
