

In accordance with the Message to Citizens by our village president, Peter Speerstra, flags will be displayed on Lowell streets Monday, May 15, and at noon the bells of the village will ring, heralding the opening of the drive for U. S. Bond sale which has as its campaign

Save for Your Independence-Buy U. S. Savings Bonds.

Ground was broken last week for the new greenhouses being built on E. Main street for Ed. Kiel. They are to be more spacious than the one which recently was damaged by fire and are to be modern and convenient in every respect. The work is being pushed as rapidly as possible to give posession of the present site, to the school for recreation purposes.

Showboat Inn has been closed over the week-end and has undergone a complete change of interior arrangements. New floor covering, painted walls and booths along the west wall with tables at the center and one end makes a larger seating capacity and a more convenient

plan for servicing their patrons.

To eulogize motherhood as the undefeated season and grabbed the state so justly deserves, needs the Championship when the local team

pen and gift of words that comes defeated the league leading pitcher The charge of commercialism has been hurled at Mother's Day, that it becomes a merchant to remind of buying his wares to begift her, of sending flowers and candy in tribute. Well, why not? Mother deserves far more, not less. There are newspapers that run contests, at this time, for a vote of the "most popular Mother" a photographic contest for the "lovilest Mother." Whatever the judge's decision, to each of us in Lowell, our mother is the most popular, our mother is the lovilest, because she is OUR mother. We have grown.

Dangle in a thrilling 1 to 0 contest. This season Lowell opened with a the banquet at Masonic Temple, between the banquet at Masonic Temple, because she is Our mother. We have grown.

# They ask the courts to order the dissolution of this company. They say that this suit is based on the fact that they won a suit against us at Danville, Illinois, in 1946. They did. In that case, Federal Judge Walter C. Lindley made a decision against A&P.

As almost everyone now knows, the anti-trust lawyers in Washington have brought a civil suit to destroy A&P.

Won A Case Against A&P

Immediately thereafter, in a letter explaining his decision, Judge Lindley wrote:

"I have not condemned the A&P system. I have not made a finding which could be the basis for a suit of dissolution."

So, now we have the anti-trust lawyers saying that their suit to dissolve A&P is based on Judge Lindley's decision; while Judge Lindley himself says his decision could not be the basis for a suit of dissolution.

In previous ads we told you about the cases against A&P which the anti-trust lawyers lost. We promised to tell you about this case they won. Here is the story of the Danville case.

# What Judge Lindley Objected To

In his decision, Judge Lindley was critical of some of our activities. He threw some of the charges out of court. He did not make any decision on others.

He even took occasion to praise A&P for the efficient job of food distribution it had done. Judge Lindley said:

"To buy, sell and distribute to a substantial portion of 130,000,000 people, one and three-quarter billion dollars worth of food annually at a profit of  $1\frac{1}{2}$  cents on each dollar, is an achievement one may well be proud of. "No place in the world I take it are people so well fed as in the United States. Nowhere else, I suppose, do food distributors accomplish efficient distribution at so low a margin of profit. In contrast, we are told in other nations the problem is not

one of an adequate diet but one of no diet at all." But Judge Lindley did find us in violation of the Sherman Act. He based his ruling on the dual role played by our fresh fruit and vegetable buying subsidiary, the Atlantic Commission Company, whereby that organization acted both as buying agent for A&P and as selling

Judge Lindley said:

"If I assume for the purpose of disposition of this case that in general the policy of A&P was to operate within the law and attribute to defendants a desire to comply with the law, there still remains the conscious, knowing adoption by all defendants of a plan of action by the Atlantic Commission Company affecting every department of A&P and every retail store which cannot be squared with the intent and purpose of the act."

In his letter explaining the decision, Judge Lindley wrote: "I have condemned their practices through the Atlantic Commission Company."

Judge Lindley imposed fines totaling \$175,000. When his decision was upheld by the Circuit Court of Appeals in Chicago, we paid the fines. This ended the case—but we did not stop there.

# What We Did To Correct This

First, the Atlantic Commission Company abandoned the dual role to which Judge Lindley, objected and which he said was the basis of his decision against us.

We did this even though the Atlantic Commission Company had been licensed for many years by the United States Department of Agriculture to act as both a buyer

and seller of fresh fruits and vegetables. The Atlantic Commission Company now only buys for A&P. In other words, we stopped doing the thing which Judge Lindley said put us in violation of the Sherman Act.

We made additional changes in other methods of operation which Judge Lindley had questioned at Danville, even though he did not base his decision on them.

We went down to Washington and asked the anti-trust lawyers what else they thought we should do to conform to their new interpretation of the vague anti-trust laws. The only answer we ever got was that we should break up this company!

Despite their claim that they were not opposed to A&P's size, they insisted that we destroy this size. Despite their claim that they were not opposed to our manufacturing operations,

they insisted that we get rid of our factories which produce many of the fine foods

Despite their claim that they were not opposed to our low prices, they insisted that we destroy many of the efficiencies that make these low prices possible. In other words, they insisted upon the dissolution of A&P.

We were still trying to find out from the anti-trust lawyers what else they thought we should do to conform to the law when they filed the current suit to destroy A&P.

# Why, Then, Do They Want To Put A&P Out Of Business?

Ever since this suit was filed, the anti-trust lawyers have been making damaging statements that could seriously hurt our business if they were believed by the public.

They say that we were found guilty at Danville of all the charges they are making today. This is not true. Judge Lindley did not sustain all of the charges of the antitrust lawyers.

They say this suit is designed to enforce the law. But A&P has clearly demonstrated its sincere desire to abide by the spirit, as well as the letter of the law.

They say they are seeking to "enjoin" A&P from engaging in certain "alleged" practices. Actually, the whole purpose of this suit is not to "enjoin" us, but to put us out

They say that this suit for dissolution is based on the decision handed down by Judge Lindley in Danville.

But Judge Lindley has said of his decision: "I have not made a finding which

What, then, is the real reason why the anti-trust lawyers want to destroy this company which for 90 years has pioneered the methods of distribution which have given the American people more good food for their money

handled by the county.

A discussion by the council and visitors followed. The matter was turned over to the committee for further investigation.

Mr. Ell Lett, of the garbage collection department, asked the council to consider an increase in salary and some improvements in the south of Alto. His F. F. A projects have included swine, dairy, poultry, corn and oats. They have netted him \$467.

If you are a confirmed spring burner, try leaving a patch of unburned land in your fields and compare the grass stand on this area with that of a burned area of the same size. Illinois agricultural research workers did this on measured plots and found that burning reduced grass production by half in a single year.

There also is wildlife to consider. No farm is a real farm without wild birds and animals. Birds are

Lett an answer and appointed Trustees Foreman, Christiansen and Roth as a committee to investigate and report at the next meeting.

In the content was tanable to give air netted him \$467.

No farm is a real farm without wild birds and animals. Birds are not only pleasant to have around, but they are valuable allies in the ceaseless war against insects and It was moved by Trustee Christiansen, seconded by Trustee Rutherford, that the building permits be issued to the following:
