the Council meeting on Monday children. bonding plans in conflection with the new water and sewer expan-

In discussing the rate structure as set up by the engineers, Mr. Kenney, told the council that Lowell has set up a very moderate rate as compared with other communities with like projects. He said that no customers should complain about excessive rates when the village, at the highest bracket, only charges 10c a ton to deliver water to their residences and would haul it away for another 10c a ton.

The council hopes to have the bond ordinance on the books before February 1st and construction bids taken by the middle of March with actual construction under way in April.

Why is this so?

Apathy! That's the shortest one word appraisal of the problem—that only "capatile answer" we can think of.

First, and most important, the PURIAC is a pathetic.

Second, the Legislature is apathetic.

Schalks will stay at the Pattershoulders and dollerthing and the problem of the Michigan system?

Even the newspapers and other comm rication systems are getting to the point where they consider highway accidents and deaths rather casually—it's no longer news.

As President John A. Harnah said at the Michigan State and the problem of the point where they considered no and leighbone pole will attract more attention from the public than a serious automobile accident on our highway".

What is the answer?

It is not hard to find.

We have it in a number of other states.

Do you realize twenty-inie other states have better records than Michigan? Michigan, the "home of the automobile", stands than Michigan? Michigan, the "home of the automobile", stands than Michigan? Michigan, the "home of the automobile", stands think and what is the answer?

Road Test and Rate the New Dodge V-Eight

It's something you must experience and judge for yourself Red Ram V-8 power teams up with Modern Design to usher in a new era of driving mastery. Waste space has become usable space. "Meaningless metal" is no more. "Deadweight" is done. So remarkable are the results that a specially planned Road Test Ride has been mapped out for you by your friendly Dodge dealer. It's thoroughly safe. It's completely revealing.

YOUR DIAL TELEPHONE SERVICE

BEGINS TONIGHT AT 9:00 P.M.

Your telephone service will become considerably more valuable to you when the new dial system goes into operation at 9 o'clock tonight (Jan. 8).

> Remember tonight's entertainment at the High School starts at 7:30 p.m. You are cordially invited.

It's a good idea to review carefully your booklet, "How to Use the Dial Telephone," and keep it handy.

You will not only dial local calls but you also will dial direct to telephones in Grand Rapids, Grattan, Ada and Alto.

Your new directory (inside front cover) tells how to dial direct to these communities. However . . .

NUMBERS CHANGE IN GRAND RAPIDS AND GRATTAN

About 10,000 of Grand Rapids' numbers are being changed this week. And all Grattan numbers changed

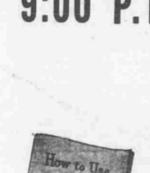

Your calls will go through faster if you'll look up the new numbers of your out-oftown friends in the new directory.

Michigan Bell is keeping pace with the growth and development of Lowell and the four other communities in your local calling area. The number of telephones in this area has grown from 68,000 to 111,000 in just seven years.

Telephone growth, local and out-of-town dialing, your toll-free calls to nearby communities, and faster long distance service fit into our long-range job of expanding and improving telephone service.

Continuing improvements make your telephone service more valuable and a bigger bargain than ever before.

Peter Fineis and family made an automobile trip to Canton Ohio, where they spent Christmas. Pete says it was a wonderful ride. Some 310 miles and all on pavement. The elevation of the Pere Mar-

quette railroad tracks is promised for next spring according to word received from the highway department. At present the tracks are in a depression.

Letters coming to the editor regarding the naming of Fallasburg Park are being published and there seems to be some dissention about the name. Some of the close neighbors would like to have it called Flat River Park. Others have other names, but it looks like it will be named for Fallasburg, the once thriving village of pioneers.
